Recent graduates are work in such diverse places as the United Way, the Environmental Protection Agency, and the City of Cincinnati. Students are able to enhance their future employment prospects through optional internship experiences and extensive classroom and capstone projects engaged with community organizations and governments.

Employment Sector	2024 Graduates
National Government	1
State Government	1
Domestic Non-Profit	4
Further Education	2
Private Sector (Consulting)	2
Private Sector (General)	1
Unemployed	1

Curriculum

All MPA students complete the MPA Core (24 credit hours) and choose a specialization in Public Management, Social and Urban Policy, or Cyberpolicy. Core classes provide the foundational knowledge and skills in management, budgeting, and administrative law before students move toward more focused areas of study. Elective courses (6 credit hours) can be selected by students across a variety of different courses. The full degree program is 38 credit hours and can be completed in 2 years of study. The program can also be completed on a part-time basis. All courses are offered in person during weekday evenings to make it easier for working professionals to complete the program.

For more information on MPA curriculum and classes, see the curriculum guide below.

All MPA students must receive a B (3.0 GPA) or better to remain in good standing in the program. Core curriculum classes with less than a B will result in the student needing to retake the class. Students will have one semester to improve GPA before being dismissed from the program.

Curriculum Guide Versions:
MPA/JD Dual Degree
Master of Public Administration - Fall 2024

Advising

All incoming MPA students meet with the program director prior to enrollment and during orientation to plan their program of study. Continuing students are required to attend a meeting with the faculty advisor once per semester. Programs of study are accessible to and maintained by students, faculty, and staff jointly to ensure understanding and timely progression through program requirements.

UC Advantages And Special Opportunities

The UC MPA program is served by high quality and enthusiastic faculty along with adjuncts who are active in public sector professions.

MPA core faculty include:

Dr. Kimberly Conger, Director (PhD, The Ohio State University)
Dr. Anita Dhillon (PhD, American University)
Dr. Lauren Forbes (PhD, Georgia State University)
Dr. Jeongmin Oh (PhD, Florida State University)
Dr. Noah Wolff (PhD, University of Oklahoma)

Students in the MPA program will have numerous opportunities to work alongside community residents, grassroots organizations, nonprofit and government agencies on a variety of projects, including but not limited to: research, engagement, data collection, and analysis, etc. Examples of recent student and faculty community engaged projects Coming Soon.

Special Programs

4+1 Undergraduate degree and MPA - The College of Arts & Sciences offers a number of Master's Degree programs that can be earned upon completion of one additional year beyond the senior year. Students begin graduate coursework during their final undergraduate year. *For the MPA program, students must have fewer than 15 undergraduate credit hours remaining in the senior year* and complete the full graduate school application process by the summer before their senior year. For more information, please contact the MPA program director.

JD/MPA - In conjuction with the University of Cincinnati College of Law, a joint Juris Doctor/Master of Public Administration degree is offered that can be completed in 4 years (one year less than obtaining the two degrees separately). Students are encouraged to begin with a law school application. For more information about this joint degree program, see the College of Law JD/MPA information page.

Admission Requirements

Admission requirements for the MPA program:

- Two letters of recommendation (ideally at least one from a former professor)
- Minimum undergraduate GPA of 3.0
- Respond to an essay prompt provided on the application (between 500 and 750 words)
- Resume
- Optional materials – third letter of recommendation, writing sample, any other information to strengthen student's application
- **NO GRE is required**

Decision criteria for admissions include demonstrated familiarity with public service/administration topics and interests, demonstrated ability to write and communicate clearly, and evidence of alignment between applicant's academic goals and the strengths and resources of our MPA program.

Tuition Costs:

Current Year Costs for Graduate Students - UC Bursar's Office

Financial Aid:

Very limited opportunities for Graduate Assistantships available through the School of Public and International Affairs or other departments at the University of Cincinnati. *Most MPA students do not receive financial aid.*

Transferring To UC

Students who have completed graduate work at other colleges, universities, or within another program at UC may petition their graduate program director for transfer of credits to be applied towards a master's degree at UC. This petition is evaluated by the graduate program. A UC graduate program can accept or reject transfer credits *at its own discretion*, regardless of the graduate degree program or discipline in which they were earned.

Typically, credits are not transferred if they were earned more than five years prior to the date of the student's application to the UC program that is considering the credit transfer.

Interested students should contact the MPA Program Director to discuss the specific requirements related to the program. As per the Graduate College Handbook, up to 1/3 of program credits may be transferred from another program. For the MPA program specifically, this equates to transferring no more than 12 credits.

Graduation Requirements

MPA students must complete 38 hours of graduate course work and successfully complete and present a Capstone project. Each semester as part of regular advising, students are encouraged to review their programs of study and progress toward toward degree completing and gradation.

Students should also consult with the Graduate College Student Handbook and the SPIA Graduate Handbook for the most up-to-date policies and procedures.

Application Deadlines

Currently, the MPA program is only admitting students for the fall semester. *Priority Application Deadline* (including consideration for any available financial aid): January 15th. *Regular Application Deadline:* June 15th.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.
The MPA program entered candidacy for Network of Schools of Public Policy, Affairs, and Administration (NASPAA) accreditation in Fall 2023 and submitted its first self-study in August of 2025.

Public Administration

MPA

MPA/JD Dual Degree

Duration: 2 Years

★Minimum Credits: 38 - 41 Credits

Core Classes

Required classes for MPA (23 credit hours)

MPA Core Courses

Course	Title/Desc	Credit
POL7101	Introduction to Public Administration (B min)	3
POL7104	Public Sector Management (B min)	3
POL7105	Public Budgeting and Finance (B min)	3
POL7106	Political & Legal Processes (B min)	3

Methods Courses - Required

Both 6001 and 7001 are required for all MPA Students.

Course	Title/Desc	Credit
POL6001	Quantitative Methods for Public Managers (B min)	3
POL7001	Policy Research and Evaluation Methods (B min)	4

Advanced Methods Courses - Required

All MPA Students must choose EITHER 7051 OR 7058.

Course	Title/Desc	Credit
POL7051	Statistics for Political Science 1 (B min)	4
POL7058	Methods of Interpretation in the Social Sciences (B min)	4

MPA Specializations for JD/MPA dual degree

Required Track Courses (6 hours)

Track 1 - Public Management

Course	Title/Desc	Credit
POL7102	Public Sector Human Resource Management (B min)	3
POL7103	Organizational Theory and Behavior (B min)	3

Track 2 - Social and Urban Policy

Course	Title/Desc	Credit
POL7109	Policy Design: From Idea to Implementation (B min)	3
POL7110	Social and Urban Policy and Politics (B min)	3

Electives and Capstone

Elective Courses (6 hours) and Capstone Course (3 hours)

Electives from LAW counted toward MPA degree

JD/MPA Students in either Track 1 or Track 2 must complete 6 hours of elective credits drawn from the following list of LAW courses.

Course	Title/Desc	Credit
GOVT7001	Administrative Law (B min)	3
BCL7040	Law of Nonprofit Organizations (B min)	3
PROP7005	Environmental Law I (B min)	2
PROP7006	Environmental Law II (B min)	2
PROP7012	Land Use Planning: Law & the City Around You (B min)	2
SPCL7003	Disability Law (B- min)	2
SPCL7005	Health Care Law (B min)	3
IRTS7033	Crimmigration (B min)	2
IRTS7024	Advanced Immigration: Asylum Law (B min)	2
SPCL7012	Feminist Jurisprudence (B min)	3
IRTS7077	Critical Race Theory (B min)	3
IRTS7027	Race & American Law (B min)	3

Electives from MPA counted toward JD degree

JD/MPA students may satisfy 8 LAW classroom credit hours drawn from this list of MPA courses

Course	Title/Desc	Credit
POL7106	Political & Legal Processes (B min)	3
POL7109	Policy Design: From Idea to Implementation (B min)	3
POL7108	Behavioral Decision-Making for Public Sector Leaders (B min)	3
POL7015	Pro-Seminar in Public Opinion and Public Policy (B min)	4

Capstone

Course	Title/Desc	Credit
POL7115	MPA Capstone (B min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Public Administration

Track 3 - Cyber Policy

Course	Title/Desc	Credit
POL7111	Smart and Sustainable Communities (B min)	3
POL7112	Public Sector Technology Policy and Management (B min)	3

Electives and Capstone

Elective Courses (6 hours) and Capstone Course (3 hours)

Elective Courses for Track 1 and 2

Students on the Public Management or Social and Urban Policy Tracks must complete 6 hours of electives.

Course	Title/Desc	Credit
HPE7014	Grant Writing and Resource Development (B min)	3
POL7015	Pro-Seminar in Public Opinion and Public Policy (B min)	4
POL7069	Democracy and development (B min)	4
POL7107	Food for Thought: Sustainability, Power and Resistance in Urban Food Systems (B min)	3
POL7108	Behavioral Decision-Making for Public Sector Leaders (B min)	3

Elective Courses for Track 3

Students on the Cyber Policy Track must complete 6 hours of elective courses in Information Technology

Course	Title/Desc	Credit
IT6035C	Information Security and Assurance (B min)	3
IT6040C	Website Management (B min)	3
IT6060C	Database Management with SQL Server (B min)	3

Capstone

Course	Title/Desc	Credit
POL7115	MPA Capstone (B min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Biological Sciences

Duration: **2 Years** Total Credits: **30 - 174** Award: **MS**

Overview

The goals of the Department of Biological Sciences graduate program are to support and encourage students in their preparation for careers as research scientists and/or educators. Programs within the department encompass all levels of biological organization, ranging from molecules to cells, systems, organisms, populations, and ecosystems. Our research strengths are in ecology, evolution, behavior, and organismal biology. We use comparative approaches to study both the evolutionary history and ecological consequences of biodiversity. These strengths complement and expand upon programs in Medicine and Engineering, and students are encouraged to draw upon the offerings of these academic units as part of their program of study.

Career

Our graduates go on to careers in a variety of professions, including in industry, as academic professors, as high school teachers, as naturalists, and as conservation professionals. Many graduates also go on to work at local partners such as the Environmental Protection Agency (EPA), the Cincinnati Zoo and Botanical Garden, and the Cincinnati Museum Center.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Biological Sciences M.S.

Admission Requirements

- Unofficial transcripts from all colleges/universities attended post-high school
- Official TOEFL / IELTS test score if English is not your native language
- Two letters of Recommendation submitted using the online system
- Statement of Research

Our program is a research graduate program, and all entering students are assigned a faculty advisor with whom they will begin research. Therefore, faculty evaluations of potential graduate students are important to decisions about admission. We highly recommend contacting faculty members with whom you would be interested in working. Our website includes email addresses, phone numbers, and links to the research web pages of faculty. If you have any questions concerning the selection of a faculty mentor or focusing your research interests, please contact the Director of Graduate Admissions, Dr. Stephen Matter, at 513-556-9768 or stephen.matter@uc.edu, or the Program Manager, Danielle Petermann at 513-556-6241 or danielle.petermann@uc.edu.

Biological Sciences

MS

Biological Sciences M.S.

Duration: 2 Years

★Minimum Credits: 30 - 174 Credits

Foundation Courses

MS students are required to take a minimum of two of the Foundation Courses.

Course	Title/Desc	Credit
BIOL8001C	Data Analysis	3
BIOL8002	Evolution	2
BIOL8003	Molecular Biology	2

Graduate-Only Courses

MS students are required to take a minimum of four credits of formal courses, at least two credits of which must be in graduate-only courses.

Course	Title/Desc	Credit
BIOL8050	Graduate Topics in Biology	1 - 4
BIOL8051	Graduate Topics in Biology	1 - 4
BIOL8052	Graduate Topics in Biology	1 - 4
BIOL8053	Graduate Topics in Biology	1 - 4
BIOL8054	Graduate Topics in Biology	1 - 4

Graduate Listed Courses

MS students are required to take a minimum of four credits of formal courses, and two credits can be graduate-listed courses.

Course	Title/Desc	Credit
BIOL6002C	Bioinformatics	4
BIOL6004	Behavioral Genetics	3
BIOL6030	Advanced Cell Biology	3
BIOL6042	Environmental Exposure and Toxicology	3
BIOL6051	Comparative Endocrinology	3
BIOL6060	Ecosystem Ecology	3
BIOL6075	Plant Ecology	4
BIOL6076	Tropical Ecology	3
BIOL6077	Evolutionary Biology	3
BIOL7020C	Invertebrate Zoology	4 - 5
BIOL7021	Human/Comparative Physiology	3
BIOL7022C	Vertebrate Zoology	4
BIOL7023	Conservation Biology	3
BIOL7024	Aquatic Biology	3
BIOL7024L	Aquatic Biology Laboratory	1
BIOL7025	Plant Physiology	1
BIOL7030	Animal Behavior	3
BIOL7041	Sensory physiology	3
BIOL7043	Medical Parasitology	3

Biology Seminar

MS students are required to enroll in "Biology Seminar" each semester they are in residence.

Course	Title/Desc	Credit
BIOL9003	Biology Seminar	1

Research Progress

MS students are required to present their research in "Research Progress in Biology" each Spring Semester they are in residence. MS students can replace "Research Progress" with "Professional Development" one time.

Course	Title/Desc	Credit
BIOL9004	Research Progress in Biology	1
BIOL9006	Professional Development	1

Graduate Research

MS students are required to enroll in "Graduate Research" each semester they are in residence for a minimum of 14 credit hours.

Course	Title/Desc	Credit
BIOL9001	Graduate Research in Biology	1 - 12

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Geographic Information Systems

Online

Duration: 1.5 Years Total Credits: 30 - 39 Award: MS

Overview

The online Master of Science Degree Program in Geographic Information Systems (GIS) from the Department of Geography and Geographic Information Science focuses on educating, training, and preparing students for careers in geospatial technologies; those careers expand beyond geography to include a vast number of occupations, trades, and sectors for which the needs for managing spatial data have been identified. This program's focus achieves that vision by providing students with (1) a solid education in general concepts and functionality of current practices and techniques in GIS, cartography, and remote sensing; (2) frequent opportunities to apply these concepts by practicing with and using ArcGIS software with both its standard and customizable functionality; and (3) through developing advanced GIS techniques that include integrating spatial and tabular data, visualizing spatial data, and modeling spatial relationships. This focus is defined and formulated within a singular proposed structure of the program with six (6) required courses and four (4) elective courses, plus a capstone requirement.

Career

The online MS in GIS is intended to target (1) traditional college-age students looking to continue their education at the graduate level; (2) non-traditional college students pursuing education on both a full-time and part-time basis for career / occupation changes; and (3) working professionals who desire advanced GIS skills for job requirements, career advancement, or for supplemental training / enrichment.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Online MS in GIS Program

Admission Requirements

The admission requirements for applicants to this proposed program are as follows:

1. A bachelor's degree in Geography, GIS, or a related field from an accredited college or university in the United States or an equivalent degree from another country
2. A minimum grade-point average of 3.00 or foreign equivalent
3. A short essay (no longer than 2 pages in length) that briefly and cogently describes the student's educational background, past research / work experience, and reasons for pursuing this degree
4. A resume or Curriculum Vita (CV)
5. International applicants who possess a degree from a university in a non-English-speaking country must have proof of English proficiency through either of the following:
    1. Test of English as a Foreign Language (TOEFL), with a minimum score of 88 (internet-based test), 230 (computer-based test), or 570 (paper-based test); or
    2. International English Language Testing System (IELTS), with a minimum score of 6.5
6. Application deadlines are as follows:
    1. July 1 for fall semesters
    2. December 1 for spring semesters
    3. April 1 for summer semesters

Geographic Information Systems : Online

MS

Online MS in GIS Program

Duration: 1.5 Years

★Minimum Credits: 30 - 39 Credits

Core Courses

Students are required to successfully complete all the courses listed below

Core Courses

Course	Title/Desc	Credit
GEOG6071C	Introduction to Geographic Information Sciences (C min)	3
GEOG6074C	Analytical Computer Cartography (C min)	3
GEOG6075C	Quantitative Geography and Spatial Statistics I (C min)	3
GEOG6076C	Principles of Remote Sensing (C min)	3
GEOG6081C	Intermediate GIS (C min)	3
GEOG7015	Graduate Geography (C min)	3

Elective Courses

Students shall select and successfully complete any three of the following courses

Electives

Course	Title/Desc	Credit
GEOG6015C	Introduction to landscape ecology and GIS (C min)	3
GEOG6021	Crime Mapping and Analysis (C min)	3
GEOG6031	GIS and Public Health (C min)	3
GEOG6073C	Fundamentals of GIS Programming (C min)	3
GEOG6082C	Natural Hazards (C min)	3
GEOG6083C	GIS and Urban Geography (C min)	3
GEOG6085C	Quantitative Geography and Spatial Statistics II (C min)	3
GEOG6090C	GIS in Hydrology (C min)	3
GEOG6091C	Advanced GIS & Web GIS (C min)	3
GEOG6095C	Quantitative Geography and Spatial Statistics III (C min)	3
GEOG6098C	Practical Data Mining and Visualization (C min)	3

Capstone Experience

Students complete the program with a designated capstone experience with select faculty members

Capstone

Course	Title/Desc	Credit
GEOG6006	Internship in Geography (C min)	3
GEOG6002	Problems in Geography (C min)	3
GEOG6050	Geography International Study Abroad (C min)	3 - 6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Geology

Duration: **2 Years** Total Credits: **30** Award: **MS**

Overview

The geosciences is a branch of the natural sciences that emphasizes the study of earth systems and how they are connected. The Department of Geosciences has strong research groups in **paleontology** (paleontology and evolutionary paleoecology), q**uaternary geology and geomorphology** (glacial geology, fluvial and slope processes, desert geomorphology, and tectonic geomorphology), **sedimentology and stratigraphy** (sequence stratigraphy, geology of shales, and geochemical records of earth history), **tectonics** (mountain building and volcanism), **environmental geology** (groundwater studies and landslide and seismic hazard mitigation), and **biogeochemistry and global change** (carbon cycling, isotope geochemistry, and impacts of climate change).

The goal of the Department of Geosciences is to produce well-rounded graduate students who not only take part in advanced research, but also gain extensive field, laboratory, and teaching experience. The department and the University of Cincinnati provide financial support on an academic year and summer basis for most graduate students in the form of Teaching Assistantships, Research Assistantships, tuition scholarships, endowed fellowships, and external grants to aid students in achieving their goals.

Career

Common areas of employment for geoscientists are academia (colleges and universities), government agencies (U.S. Geological Survey, EPA, U.S. Forest Service, etc.), private consulting firms (environmental, geotechnical, renewable resources, etc.), natural resource companies (mineral and energy exploration), and non-profit organizations (geoscience education, environemntal justice, food and water security, etc.). Over 250,000 geoscientists are currently at work in the U.S.A and that number will continue to grow.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Geology Master's Program

Admission Requirements

An application must include:

- Online application for admission (a fee is required upon application submission)
- 3 letters of recommendation. Recommenders are notified once the online application is submitted. Recommenders upload letters directly to the online application.
- Unofficial transcripts from all universities attended. Unofficial transcripts are to be uploaded to the online application. Official transcripts are necessary only if accepted into the program.
- Official English language testing scores for international students (TOEFL, IELTS, Duolingo, and PTE accepted). Applicants from countries where English is the official language do not have to submit English language test scores. A list of countries that are granted an automatic wavier can be found here.
- The student may include official GRE scores, but scores are optional

Application Deadlines

The application deadline for fall admission is January 15. **Unofficial transcripts, GRE scores (optional), English language test scores (if required), and letters of recommendation must be received by the application deadline.** It is important to note that an application is only considered complete after supporting materials are received and the application fee has been paid. Failure to submit application materials and pay the application fee in a timely manner may result in the application not being considered for review.

If you have questions regarding the application process, please contact Krista Smilek, the Academic Director at krista.smilek@uc.edu.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Mathematics

Duration: 2 Years Total Credits: 30 Award: MS

Overview

The Master of Science (MS) in Mathematical Sciences degree program is a three-semester course of study that develops the student's understanding of mathematics beyond that obtained in a standard undergraduate program. It offers students a thorough background in advanced mathematical concepts, focusing on clear, logical reasoning and communication. Students may choose from one of these possible concentrations: pure mathematics, applied mathematics, and financial mathematics.

A graduate of the program is prepared to enter the workforce as a professional mathematical scientist. An appropriate choice of courses will also prepare students to pursue a PhD in Mathematical Sciences.

All applicants for the MS Mathematical Sciences program are automatically reviewed for scholarship eligibility at the time of application.

Learn about admission requirements, application instructions, and financial support here.

Mathematics

MS

MS in Mathematical Sciences 2023

Duration: 2 Years

★Minimum Credits: 30 Credits

Credit Hour Requirement

A minimum of 30 graduate credits are required with a GPA of 3.0 or higher.

Graduate Mathematics or Statistics Courses

Of the courses taken to fulfill the 30 credits, at least 3 should come from the following list.

Course	Title/Desc	Credit
MATH7001	Complex Analysis	3
MATH7002	Real Analysis	3
MATH7003	Rings, Fields and Galois Theory	3
MATH7004	Topology	3
MATH7005	Ordinary Differential Equations	3
MATH7006	Partial Differential Equations	3
MATH7011	Advanced Mathematical Modeling	3
MATH7015	Numerical Linear Algebra	3
MATH7032	Probability	3
MATH8001	Geometric Function Theory	3
MATH8002	Geometric Analysis	3
MATH8003	Functional Analysis	3
MATH8004	Operator Theory	3
MATH8005	Introduction to Algebraic Geometry	3
MATH8006	Algebra and Cryptography	3
MATH8007	Advanced Stochastic Processes	3
MATH8008	Stochastic Differential Equations	3
MATH8009	Advanced Partial Differential Equations	3
MATH8010	Advanced Numerical Analysis	3
MATH8011	Scientific Computation	3
MATH8012	Applied Mathematics Methods	3
MATH9001	Advanced Financial Mathematics	3
STAT7032	Probability	3

Track: Pure Mathematics

Students must choose between three tracks: Pure Mathematics, Applied Mathematics, and Financial Mathematics. Each track has a core of classes that the students must take. The remaining credits are chosen from a list of electives.

Required Core Courses

Students have the option of taking the Mathematics PhD Qualifying Exam before entering the program. Students receiving a pass on this exam are not required to take the core courses.

Course	Title/Desc	Credit
MATH6001	Advanced Calculus I	4
MATH6002	Advanced Calculus II	4
MATH6003	Abstract Linear Algebra	3

Recommended Electives

Students are required to take at least three (3) courses.

Course	Title/Desc	Credit
MATH6004	Group Theory	3
MATH6005	Introduction to Complex Analysis	3
MATH7001	Complex Analysis	3
MATH7002	Real Analysis	3
MATH7003	Rings, Fields and Galois Theory	3
MATH7004	Topology	3
MATH7005	Ordinary Differential Equations	3
MATH7006	Partial Differential Equations	3
MATH7032	Probability	3
STAT7032	Probability	3

Other Electives

Select at least one other elective

Course	Title/Desc	Credit
MATH6006	Numerical Analysis	3
MATH6007	Partial Differential Equations and Fourier Analysis	3
MATH6008	Applied Probability and Stochastic Processes	3
MATH8001	Geometric Function Theory	3
MATH8002	Geometric Analysis	3
MATH8003	Functional Analysis	3
MATH8004	Operator Theory	3
MATH8005	Introduction to Algebraic Geometry	3

Track: Applied Mathematics

Students must choose between three tracks: Pure Mathematics, Applied Mathematics, and Financial Mathematics. Each track has a core of classes that the students must take. The remaining credits are chosen from a list of electives.

Required Core Courses

Four courses are required.

Course	Title/Desc	Credit
MATH6006	Numerical Analysis	3
MATH6007	Partial Differential Equations and Fourier Analysis	3
MATH6008	Applied Probability and Stochastic Processes	3
MATH6012	Applied Linear Algebra	3
MATH6015	Mathematical Programming	3
MATH6051	Applied Ordinary Differential Equations	3

Recommended Electives

Students are required to take at least three (3) courses.

Course	Title/Desc	Credit
MATH6019	Nonlinear Optimization	3
MATH7015	Numerical Linear Algebra	3
MATH8010	Advanced Numerical Analysis	3
MATH8011	Scientific Computation	3
MATH8012	Applied Mathematics Methods	3
Free Electives	Core courses not used to satisfy the core course requirement.	0 - 6

Other Electives

Course	Title/Desc	Credit
MATH6001	Advanced Calculus I	4
MATH6002	Advanced Calculus II	4
MATH6005	Introduction to Complex Analysis	3
MATH7005	Ordinary Differential Equations	3
MATH7006	Partial Differential Equations	3
Free Electives	Up to six (6) graduate credits from other departments, approved in advance by the student's advisor	0 - 6

Course	Title/Desc	Credit
MATH8006	Algebra and Cryptography	3
MATH8007	Advanced Stochastic Processes	3
MATH8008	Stochastic Differential Equations	3
MATH8009	Advanced Partial Differential Equations	3
STAT6021	Mathematical Statistics I	3
STAT6022	Mathematical Statistics II	3

Course	Title/Desc	Credit

Track: Financial Mathematics

Students must choose between three tracks: Pure Mathematics, Applied Mathematics, and Financial Mathematics. Each track has a core of classes that the students must take. The remaining credits are chosen from a list of electives.

Required Core Courses

Course	Title/Desc	Credit
MATH6010	Probabilistic Aspects of Financial Modeling	3
MATH6011	Computational Financial Mathematics	3
STAT6031	Applied Regression Analysis	3

Recommended Electives

Students are required to take at least three (3) courses.

Course	Title/Desc	Credit
MATH6006	Numerical Analysis	3
MATH6007	Partial Differential Equations and Fourier Analysis	3
MATH6008	Applied Probability and Stochastic Processes	3
MATH6019	Nonlinear Optimization	3
MATH7006	Partial Differential Equations	3
MATH8008	Stochastic Differential Equations	3
MATH9001	Advanced Financial Mathematics	3
STAT6041	Time Series	3

Other Electives

Select at least one other elective

Course	Title/Desc	Credit
MATH6012	Applied Linear Algebra	3
MATH6015	Mathematical Programming	3
MATH7011	Advanced Mathematical Modeling	3
MATH7015	Numerical Linear Algebra	3
MATH7032	Probability	3
STAT7032	Probability	3
Free Electives	Up to six (6) graduate credits in finance and economics, approved in advance by the student's advisor.	0 - 6

★ This is the typical minimum number of credit hours students must complete.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Physics

Duration: 2 Years Total Credits: 30 Award: MS

Overview

The physics graduate program emphasizes cutting edge research and education, resulting in orginal published work, and preparing our students for university, national lab, or industrial/corporate employment. A full range of courses are offered, including many research level advance courses. Physics faculty work closely with graduate students, mentoring them in a variety of areas, including condensed matter, high energy, and particle physics, astrophysics, physics education, etc. Students also benefit from weekly seminars, colloquia, group meetings and collaborations with other students and postdocs in large externally funded research groups.

Curriculum Guide Versions:
Physics - MS

Admission Requirements

The minimum required GPA for graduate study is 3.0. Applicants should take the General GRE, and are strongly encouraged to take the Physics GRE subject area test for international applicants. Applicants without Physics GRE subject area test scores must provide other evidence of outstanding achievement and promise. There are no minimum required GRE scores for admission. Instead, we consider your scores, overall record, and letters of recommendation to make the admission decision.

Visit the Physics website or contact the program directly for information about application requirements or to inquire about materials that need to be submitted when applying to this program.

If you would like to submit an electronic application for the Physics program, please visit our Online Graduate School Application and complete the form.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Statistics

Duration: **2 Years** Total Credits: **30** Award: **MS**

Overview

The Master of Science (MS) in Statistics degree program is intended to prepare students for careers as statisticians or for entry into a PhD program in Statistics. A student entering with the minimum requirements should expect to take two years to complete the program. Students entering the program with a stronger background in statistics may be able to complete the program in three or even two semesters.

Learn about admission requirements and application instructions here.

Career

The Master of Science in Statistics program prepares students for careers as statisticians in industry and government, as well as for entry into a PhD program in Statistics or Biostatistics. This highly successful program has placed students in statistical positions with many of Cincinnati's major employers, such as the National Institute for Occupational Safety and Health (NIOSH), Medpace, AC Nielsen Bases, and the Environmental Protection Agency (EPA).

Biological Sciences

Duration: **5 Years** Award: **PHD**

Overview

The goals of the Department of Biological Sciences graduate program are to support and encourage students in their preparation for careers in research, health professions, industry, teaching, and stewardship agencies. Our graduate program is a research program, with specialties covering all levels of biological organization, including:

- Molecular biology
- Cell and microbial biology
- Genetics
- Animal and plant physiology
- Animal behavior
- Evolution and ecology
- Environmental biology

We use comparative approaches to study both the evolutionary history and ecological consequences of biodiversity. These strengths complement and expand upon programs in Medicine and Engineering, and students are encouraged to draw upon the offerings of these academic units as part of their program of study.

Career

Our graduates go on to careers in a variety of professions, including in industry, as academic professors, as instructors in liberal arts colleges and high schools, naturalists, conservation professionals, and with local partners such as the Environmental Protection Agency (EPA), the Cincinnati Zoo and Botancial Garden, and the Cincinnati Museum Center.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Biological Sciences Ph.D

Admission Requirements

- Online Application
- Unofficial College Transcripts used for admission review. Official transcripts required at time of enrollment.
- Proof of English Proficiency
- Two letters of Recommendation

Our program is a research graduate program, and all entering students are assigned a faculty advisor with whom they will begin research. Therefore, faculty evaluations of potential graduate students are important to decisions about admissions. We highly recommend contacting faculty members with whom you would be interested in working. Please review the tenure track faculty profiles and areas of research on the Biology Department web page to select and communicate with a potential faculty advisor.

Application Deadlines

January 1st for full financial consideration.

BIOL6082	Biology of Cancer	3
BIOL6093C	Human Physiology & Biomechanics	4
BIOL7020C	Invertebrate Zoology	4 - 5
BIOL7021	Human/Comparative Physiology	3
BIOL7022C	Vertebrate Zoology	4
BIOL7023	Conservation Biology	3
BIOL7024	Aquatic Biology	3
BIOL7024L	Aquatic Biology Laboratory	1
BIOL7025	Plant Physiology	1
BIOL7030	Animal Behavior	3
BIOL7041	Sensory physiology	3
BIOL7043	Medical Parasitology	3
BIOL7051C	Flowering Plant Classification	4
BIOL7090	Interdisciplinary Field Experience	3
BIOL8050	Graduate Topics in Biology	1 - 4
BIOL8051	Graduate Topics in Biology	1 - 4
BIOL8052	Graduate Topics in Biology	1 - 4
BIOL8053	Graduate Topics in Biology	1 - 4
BIOL8054	Graduate Topics in Biology	1 - 4

Biology Seminar

PhD students are required to enroll in Biology Seminar each semester they are in residence. (Minimum 10 credit hours)

Research Progress

PhD students are required to present their research in BIOL 9004, Research Progress in Biology, each Spring Semester they are in residence. BIOL 9006, Professional Development, can be taken

Graduate Research

PhD students are required to register for Graduate Research each semester they are in residence. Students will complete as many research hours

Course	Title/Desc	Credit
BIOL9003	Biology Seminar	1

in the place of BIOL 9004, Research Progress, during one semester. (Minimum 5 credit hours)

Course	Title/Desc	Credit
BIOL9004	Research Progress in Biology	1
BIOL9006	Professional Development	1

needed to meet minimum credits for the degree.

Course	Title/Desc	Credit
BIOL9001	Graduate Research in Biology	1 - 12

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Chemistry

Duration: **5 Years** Award: **PHD**

Overview

The Department of Chemistry offers courses of study leading to the PhD degree with opportunities for research in all major sub-disciplines: biochemistry, analytical, inorganic, organic, physical, and theoretical/computational chemistry. The 4:1 student-to-faculty ratio assures students of individual guidance, yet the total size of the department provides excellent research facilities, as well as opportunities for collaborative and interdisciplinary study.

The program of study provides a good balance between formal course work and actual research experience with special emphasis given to preparing students for life after graduate school. First-year students select a research adviser before taking Introduction to Research, providing a smooth transition from the initial course work to the research phase of their graduate program. Regular departmental colloquia feature speakers from other universities and industrial and government laboratories discussing current research in chemistry. Students also participate in a weekly seminar program, gaining experience in presenting and discussing their own research. Students are encouraged to present their research at local, regional, national, and international meetings, as well as publish their research findings in peer-reviewed journals.

Career

Graduates of this major are employed as:

- scientists in the pharmaceutical industry
- scientists in state, local, or federal government laboratories
- scientists in biomedical research labs
- chemistry and biochemistry teachers and professors
- industrial research and development scientists, including personal and health care products
- forensic scientists

Course	Title/Desc	Credit
CHEM9020	Chemistry Seminar	2

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Classics

Duration: **5 Years** Award: **PHD**

Overview

The Department of Classics offers courses of study leading to the degree of Doctor of Philosophy in Classics, with opportunities for specialization in Greek and Latin language and literature, classical and pre-classical archaeology, and Greek and Roman history. Although candidates for the doctorate normally specialize in one of these areas, the individual classical disciplines are interdependent. Students are, therefore, required to complete a reasonable amount of work in every major field. Recipients of the doctoral degree are qualified to teach courses in Classics, western civilization and interdisciplinary courses.

The course offerings are extensive. Normally a minimum of eight courses are given each quarter. Topics range from Bronze Age Greece to late Roman history, from Homer to later Latin literature. There is also the opportunity to work in other disciplines. Students interested in history or philosophy can take additional courses offered by the History and Philosophy Departments. Students in archaeology are encouraged to take special courses in the Anthropology Department and those in philology may also take courses in Romance or Germanic languages or in the English Department. In addition, students can take courses in Near Eastern studies offered by Hebrew Union College.

Students without an MA interested in pursuing a degree of Doctor of Philosophy should apply directly for that degree. The combined time for an MA and a PhD is 7 years.

Communication

Duration: **5 Years** Award: **PHD**

Overview

What is a Ph.D. in Communication with an emphasis on Social Justice?

The Ph.D. in Communication at the University of Cincinnati gives students the opportunity to investigate the power of communication to shape our personal identities and impact our social, organizational, mediated, and political lives.

Given our location in the heart of the urban core of Cincinnati, as well as the mission of our department to explore and address social issues, much of our work emphasizes our value of social justice. We recognize the central role that communication plays in our understanding of key social justice issues (e.g., race, gender, health, environment, globalization-related, etc.) and in finding solutions to those issues.

As graduate faculty in communication, we have identified a trend that students approach communication studies from a social justice angle, and are seeking opportunities to advance academic training that prepare them to have a social justice focus in their research or praxis career trajectory. Through academic preparation and externship work, our program prepares students to lead positive change through academic, and applied work, or in professional careers through a blend of theory, research methodology, and practical application.

What are our focus areas?

- Organizational Communication and Public Relations
- Media and Cultural Studies, Traditional and Digital Media Effects
- Health and Environmental Communication
- Interpersonal Communication and Leadership
- Culture and Globalization
- Rhetorical, Interpretive, Critical, and Quantitative Methods

What are some of the advantages of this program?

- Small classes mean you get concentrated attention from our award-winning faculty
- You can customize the program to your interests by choosing electives and independently working on a completion project tailored to your interests
- Many of our full-time Ph.D. students receive a graduate assistantship (GA), a competitive assistantship that pays your tuition and provides a $16,000 stipend each year for four years. Most GA students teach their own sections of public speaking and consider it a highlight of their experience.

Career

Our program prepares students for careers in the academy and other industries. In addition to a path toward scholarly research, other career options include, but are not limited to:

- Academic Researcher
- Non-profit/Industry Researcher
- Health Medical Ethnographer
- Laber Relations Officer
- Marketing Director
- Public Relations/Communication Director
- Writer/Copywriter/Technical Writer/Editor
- Medical Writer
- Proposal Writer/Grant Manager
- Project Management
- Social Media Management and Analysis
- Data Analysis
- Content Development and Strategist

Curriculum Guide Versions:
COMMUNICATION PhD

UC Advantages And Special Opportunities

Why UC?

1. Known for having one of the highest rated masters only Communication programs in the country
2. Small program means strong faculty-student relationships
3. Ph.D. program uniquely centering on social justice at the program level
4. The social justice focus is reflected in our emphasis on engagement with real-life issues in research programs, particularly, through research externships that connect student research with local communities.
5. The department and UC both have established internship-placement programs rated #3 in the nation that help to connect students to industry organizations
6. Top scholar faculty in organizational, political, environmental, media, and health communication
7. Graduate Assistantships are available in teaching or research

Special Programs

The Department of Communication at the University of Cincinnati promotes knowledge of human communication through research, teaching, and service. We are located in an urban center within a large research university, which provides a dynamic context for connecting theory and practice.

Our award-winning faculty members share a distinctive focus on contemporary social problems. Research centers on understanding issues of voice, identity, public participation, and advocacy/leadership across communication contexts including interpersonal, political, organizational, rhetorical, environmental, health, and mediated communication.

Admission Requirements

You will need the following to apply:

Unofficial transcripts

CV/Resume

- A Curriculum Vitae (CV) for this program typically includes a summary of your research interests, the status of your thesis and name of your advisor, a list of peer-reviewed publications, book chapters, conference papers, panels, and, when applicable community service and any related work experience. In addition, should you have a resume demonstrating your commitment to social justice, you are encouraged to upload this document as well.

Personal Statement

- This personal statement is an opportunity for you to describe your interest in the Ph.D. program. This enables the admissions committee to assess how well your goals match what our program offers. Below are a few components that you should be sure to discuss in this statement:
  - Please identify any specific area(s) of interest or specialty that you would like to study, and how your interest aligns with our program
  - Please identify specific social issues and topics that motivate your research interest
  - Tell us how your goals and research interests align with the department's social justice focus
  - Please name 2-5 graduate faculty from the Department of Communication who you believe could best evaluate your application materials. We strongly recommend that you review faculty profiles on our website, skim through faculty CVs and publications for connections with your research interests, and identify those individuals who you would be excited to work with if you are accepted into our program.

Writing Sample

- A writing sample showcases your ability to synthesize literature, articulate your ideas, and build an argument. Please submit a research paper, which includes academic citations. This may be a published article, book chapter, conference paper, or one written for a class, preferably in communication or a related field. If you have written a thesis or capstone paper, turning a portion of those in would be preferred. Your writing sample should be at least 5 pages (excluding references).

Proof of English Language Proficiency (for international applicants only)

Additional Notes About Applications

Submission Timing: We encourage you to submit your application as soon as it is ready. We can only see your application once it has been submitted. Seeing your application allows us to get in contact with you. Also, please email the Graduate Director to let them know that you have applied.

Official Review: *Your file will not be officially reviewed for admission until it is complete*. Your file will be complete when:

1. you have uploaded your cover letter, purpose statement, transcript, and writing sample
2. your reference letters have been submitted electronically by recommenders
3. you officially submit your application and pay the application fee

Graduation Requirements

Degree Requirements

The degree involves a five-year program of study that includes the following elements:

Coursework: Minimum of 73 total hours are required to graduate

- 15 Credit Hours Required Communication Courses
  - COMM7001 - Advanced Rhetorical Theory
  - COMM7007 - Advanced Communication Theory
  - COMM7041 - Empirical Communication Research Methods
  - COMM7042 - Qualitative and Rhetorical Research Methods
  - COMM 8002 Communication & Social Justice
- 15 Credit Hours Minimum of Communication and Outside Electives
- 1- 6 Credit Hours of Research and Practice
  - COMM 8061 Research Practicum
  - COMM 8062 Communication Externship
- 6 Credit Hours Qualifying Exams for Pre-Dissertation Prep
  - COMM 9051 Comprehensive Exams
- 1 - 30 Credit Dissertation Hours
  - COMM 9061 Dissertation

Additional Specifications

- To achieve full-time status, students must take 10 or more hours of graduate coursework per semester. Students receiving assistantships or scholarships must maintain a 12-hour course load.
- Full-time students are required to register for COMM8093 - Introduction to Graduate Studies during the Fall and Spring semesters of the first year, and COMM8094 - Academic and Professional Prep during the Fall and Spring semesters of the second year.
- All students complete a Doctoral Dissertation, an independently developed and executed research project which may involve a variety of approaches and methods, including experimental, survey, observation/participation, fieldwork, or critical-textual. Students may register for 1 to 30 dissertation hours with an advisor.

Application Deadlines

Fall Semester Application Deadline:

Part-Time Admission: February 1st
Full-Time Admission: January 15th

Spring Semester Application Deadline:

Full-Time Admission: NOT ACCEPTED
Part-Time Admission: October 15th

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

English

Duration: **5 Years** Award: **PHD**

Overview

The University of Cincinnati offers a doctoral degree in English with tracks in Literary and Cultural Studies, Creative Writing, and Rhetoric & Composition. The English Department, home of The Cincinnati Review, receives additional support in its activities from the Elliston Poetry Foundation, The Schiff Foundation for Fiction, and the Helen Weinberger Center for Drama and Playwriting.

All doctoral coursework is seminar- or workshop- style, and all classes are supervised by our most active researchers and publishing writers. The curriculum is enhanced by speakers from the Taft Center for the Humanities, and a superlative array of visiting creative writers.

The doctoral program emphasizes the study of modern and contemporary literature, but has strengths in a variety of areas and time periods. Our literature curriculum is driven by a broad interest in theory and the relationship between writing and culture. UC was one of the first programs in the nation to have developed the option for a creative dissertation, which currently includes an independent critical essay, along with a body of fiction, poetry, or non-fiction. Our doctoral students have outstanding publication histories and a strong record of job placement.

Virtually all admitted doctoral students receive departmental financial aid in the form of scholarships and assistantships. Students that are awarded graduate assistantships teach one course per term. They receive extensive theory- and practice-based training in teaching composition, and additional pedagogical training and opportunities in their own fields of study are available.

Curriculum Guide Versions:
Phd in Literary and Cultural Studies - Effective for graduate students admitted in and after Fall 2020
PhD in Rhetoric and Composition- for students admitted in and after Fall 2020
PhD in Creative Writing - for students admitted in and after Fall 2020

Admission Requirements

Step One: Online Application

https://grad.catalyst.uc.edu/apply/

You will be required to submit the following materials as part of the Online Application:

All applications are given careful and individual review. In some cases, students who do not meet the required GPAs and GRE scores may be admitted.

1. Letter of Intent: state academic goals and professional objectives (1-2 pages double spaced).
2. Curriculum Vitae
3. Writing samples (combine all samples into one document):
    - Literature Track:
        - Critical writing sample - a literary analysis or research paper totaling 20 pages
    - Creative Writing Track:
        - Creative writing sample - a chapter of a novel, two short stories, pages of poetry, or an act of a play totaling 15-20 pages
        - Critical writing sample - a literary analysis or a research paper totaling 10-15 pages
    - Rhetoric & Composition Track:
        - Critical writing sample - pedagogical and/or rhetorical analysis, research paper, or literary analysis totaling 15-20 pages
4. Unofficial transcripts from all universities and/or colleges attended are uploaded to the Online Application system

Step Two: Required Supplementary Materials

1. Three letters of recommendation (no form required): Recommenders will submit letters through the Online Application system.
2. GRE General Test Scores: Must be reported directly from GRE to the University of Cincinnati.
3. Proof of English Proficiency is required of all applicants whose native language is not English.

- MFA or MA in English from an accredited university or college. See the Department Guide to Graduate Studies for BA-PhD Direct information.
- Minimum graduate GPA: 3.75
- Minimum GRE scores:
  - Verbal: 160
  - Analytical: 5.0

Application Deadlines

Please refer to our departmental website for annual admission deadlines.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

English

PHD

PhD in Creative Writing - for students admitted in and after Fall 2020

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 - 174 Credits
★Post Master's Minimum Credits: 60 - 174 Credits

All English PhD students are required to take the following Coursework required by all doctoral students (7 credits)

*ENGL 7104 may be replaced with an alternate Theory course with permission from the Graduate Director.

Course	Title/Desc	Credit
ENGL7102	Professionalization Seminar	1
ENGL7104	Introduction to Literary and Cultural Theory	3
ENGL7130	Teaching College Writing	3

Required Non-Workshop Electives (6 credits)

Choose 2 of the following. Students are required to take at least two 8000-level non-workshop courses. If a student has taken 8000-level courses to fulfill their pre-1900 and post-1900 literature course requirements, they may enroll in 6000 or 7000 level elective courses.

Course	Title/Desc	Credit
ENGL6XXX+	ENGL Graduate Elective Course	3
ENGL7XXX+	ENGL Graduate Elective Course	3
ENGL8XXX+	ENGL Graduate Elective Course	3

Teaching, Research and/or Professional Practice (26 Credits)

Can be a combination of the following courses.

Course	Title/Desc	Credit
ENGL9095	Teaching	3
ENGL9096	Professional Practice	3
ENGL9099	Research	1 - 12

Technique and Forms Course (3 Credits)

Students must take at least one forms course in their genre. Once this requirement has been filled, students may take multiple forms courses, either within or outside of their genre, for credit.

Course	Title/Desc	Credit
ENGL7084	Technique and Form in Literary Nonfiction	3
ENGL7085	Technique and Form in Poetry	3
ENGL7086	Technique and Form in Fiction	3

Writing Workshops (12 credits)

Choose four. Courses may be repeated when taught by different instructors.

Course	Title/Desc	Credit
ENGL6030	Verse Writing Workshop	3 - 4
ENGL6090	Senior Writing Seminar: Playwriting	3 - 4
ENGL6011	Senior Writing Seminar: Fiction	3
ENGL6012	Senior Writing Seminar: Fiction	3 - 4
ENGL6013	Senior Writing Seminar: Creative Nonfiction	3
ENGL6017	Senior Writing Seminar: Poetry	3
ENGL6018	Senior Writing Seminar: Poetry	3 - 4
ENGL7011	Graduate Fiction Workshop	3
ENGL7012	Graduate Fiction Workshop	3
ENGL7013	Graduate Novel Workshop	3
ENGL7015	The Literary Essay	3
ENGL7016	Literary Translation	3
ENGL7017	Graduate Poetry Workshop	3
ENGL7018	Graduate Poetry Workshop	3
ENGL7021	Graduate Nonfiction Workshop	3
ENGL7087	Innovative Forms	3

Pre-1900 Literature Course (3 Credit Hours)

Choose one of the following courses:

Course	Title/Desc	Credit
ENGL6006	CHAUCER	3
ENGL7051	APPROACHES TO SEVENTEENTH CENTURY LITERATURE	3
ENGL7052	Approaches to American Romanticism	3
ENGL7054	Approaches to American Realism	3

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Geography

Duration: **5 Years** Award: **PHD**

Overview

Applicants to the PhD program should hold an MS or MA degree in geography or a related field. PhD students must specialize in one of the research areas where the department has in-depth competence. These include GIScience, urban/economic, cultural, and physical and environmental geography. Doctoral students complete required coursework within the department, including a mastery of at least one computer-based geographic technique (e.g. GIS, remote sensing, or computer cartography), quantitative methods, and a series of graduate seminars. PhD students also complete coursework for a minor outside of geography. Students demonstrate proficiency in a foreign language other than English or an approved computer science technique. Students pass written comprehensive examinations demonstrating a broad mastery of the field and in their area of specialization, and pass an oral defense of their dissertation proposal. Student then complete a dissertation embodying original research.

Career

Alumni from our department have gone on to pursue successful careers in academia, government and industry.

Admission Requirements

To apply for our graduate programs, you must complete an Online Application through the UC Graduate School's website.

The application requires the following documents:

1. Unofficial transcripts are required during the application submission process. Official transcripts of the student's academic record of all undergraduate and graduate studies are submitted directly to the department, to the attention of the Geography Graduate Program Director. Applicants must have a minimum grade-point average (GPA) of 3.00 or foreign equivalent.
2. Three letters of recommendation, commenting upon the student's aptitude and potential for graduate studies and research.
3. Curriculum Vitae (CV)/Resume.

International Student Requirements

Either TOEFL or IELTS scores, which are required for international applicants who do not hold an undergraduate or graduate degree from a university in an English-speaking country. International students whose native language is other than English must provide official copies of TOEFL (Test of English as a Foreign Language) or the International English Language Testing System (IELTS) scores. Department of Geography requires minimum score of 88 for internet-based TOEFL test (230 for computer-based test, 570 for paper-based test) for admission. International applicants can find more information here.

Application Deadlines

To be fully considered for financial support, applications should be submitted by **January 15**. The application deadline for admission is **April 15**.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Geography

PHD

Geography Ph.D.

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 Credits
Post Master's Minimum Credits: 60 Credits

Core Course requirements

Core courses required by all PhD students. May be waived with the permission of the Graduate Program Director if the course or its equivalent has already been taken by the student.

Course	Title/Desc	Credit
GEOG7015	Graduate Geography (C min)	3
GEOG7009	Seminar: History and Philosophy of Geography (C min)	3
GEOG6075C	Quantitative Geography and Spatial Statistics I (C min)	3

Staff Seminar must be taken for one credit hour in both the first and second year in the PhD program (2 credit hours)

Course	Title/Desc	Credit
GEOG7004	Geography Staff Seminar (C min)	1

Additional methods course

All students must take a second methods course chosen from the list below. Substitutions may be allowed if approved by the Graduate Program Director

Course	Title/Desc	Credit
GEOG6085C	Quantitative Geography and Spatial Statistics II (C min)	3
GEOG6079C	Qualitative Methods in Geography (C min)	3

Additional Geography courses

All PhD students must take at least 5 additional graduate seminars or approved 6000+ level courses in Geography (totaling at least 15 credit hours). Non-geography graduate course may be substituted if approved by the adviser and graduate program director.

Course	Title/Desc	Credit
GEOG6XXX+	Additional Geography courses All PhD students must take at least 5 additional graduate seminars or approved 6000-level or above courses in Geography (totaling at least 15 credit hours). (C min)	15 - 24

Environmental/Physical Geography additional requirement

Course	Title/Desc	Credit
	Environmental/Physical Geography additional requirement Students who pursue a research topic in Physical/Environmental Geography must have had college-level Calculus, and either college-level Biology, Chemistry, or Physics. Approval will be made by the Adviser and Graduate Program Director. (C min)	0

Minimum registration and GPA requirements

PhD students must complete a minimum of 60 hours of semester credit hours beyond a MA degree. Students must maintain a minimum GPA of 3.0 (B) to graduate.

Registration and GPA requirements

Course	Title/Desc	Credit
	Additional registration requirements PhD students must complete a minimum of 60 hours of semester credit hours beyond a MA degree. Students must maintain a minimum GPA of 3.0 (B) to graduate. These hours must include a minimum of 7 dissertation research hours. Additional hours can be comprised of elective courses and independent research courses.	0 - 45

Academic minor

Academic minor

Course	Title/Desc	Credit

Foreign Language Requirement

Students must fulfill either a foreign language requirement or a techniques requirement.

Course	Title/Desc	Credit

Techniques requirement

Students must fulfill either a foreign language requirement or a techniques requirement.

Course	Title/Desc	Credit

Course	Title/Desc	Credit
	Academic minor All PhD students must develop an academic minor in a field other than geography. A mix of courses from more than one other department might be appropriate. The minor program must be planned and approved by the adviser and reported to the Graduate Program Director. (B min)	9 - 12

Course	Title/Desc	Credit
	Foreign Language. Students must fulfill either a foreign language or technique requirement. The language or technique requirement is set by the student's dissertation adviser and the Graduate Program Director. PhD students can fulfill the language requirement by demonstrating their proficiency at reading one foreign language in which either a substantial geographical literature exists or which will be required for field work connected with the dissertation. Students whose native language is not English may use English to satisfy the language requirement. Foreign Language proficiency requirement can be fulfilled in any one of two ways: 1) By taking the Graduate School Foreign Language Test administered by the Psychological Services Center, University of Cincinnati (obtaining the following minimum score: French 460, Spanish 435). 2) By satisfactorily completing 6 credit hours of foreign language courses with a grade of "B" or above. These courses have to be approved by the student's dissertation adviser and the Graduate Program Director. (B min)	0 - 6

Course	Title/Desc	Credit
	Techniques Requirement Doctoral students may use six credit hours of computer language courses with a grade of "B" or better to fulfill the technique requirement. Eligible courses include, but not limited to, courses on C++, R, Python, Java, SQL, Prolog and Lisp (B min)	6 - 8

Comprehensive Examinations

PhD candidates must successfully complete a series of written examinations and an oral proposal defense exam, as part of their Comprehensive Examination requirements. Details on the comprehensive exam requirement are provided in the department's graduate handbook

Dissertation

Students must write and successfully defend a dissertation that embodies original research

Course	Title/Desc	Credit
GEOG9071	Dissertation Research (B min)	7 - 12

Course	Title/Desc	Credit
	Dissertation The preparation of the dissertation must include the following: • Write an acceptable PhD dissertation of original research or write and submit at least three manuscripts for publication in peer-reviewed journals. Details on dissertation requirements can be found in the department's graduate handbook	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Geology

Duration: **5 Years** Award: **PHD**

Overview

The Geosciences is a branch of the natural sciences that emphasizes the study of Earth systems and how they are connected. The Department of Geosciences has strong research groups in **paleontology** (paleontology and evolutionary paleoecology), **Quaternary geology and geomorphology** (glacial geology, fluvial and slope processes, desert geomorphology, and tectonic geomorphology), **sedimentology and stratigraphy** (sequence stratigraphy, geology of shales, and geochemical records of Earth history), **tectonics** (mountain building and volcanism), **environmental geology** (groundwater studies and landslide and seismic hazard mitigation), and **biogeochemistry and global change** (carbon cycling, isotope geochemistry, and impacts of climate change).

The goal of the Department of Geosciences is to produce well-rounded graduate students who not only take part in advanced research, but also gain extensive field, laboratory, and teaching experience. The department and the University of Cincinnati provide financial support on an academic year and summer basis for most graduate students in the form of teaching assistantships, research assistantships, tuition scholarships, endowed fellowships, and external grants to aid students in achieving their goals.

Career

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Geology PhD Program

Admission Requirements

An application must include:

- Online application for admission (a fee is required upon application submission).
- 3 letters of recommendation. Recommenders are automatically notified once the online application is submitted. Recommenders upload letters directly to the online application.
- Unofficial transcripts from all universities attended. Unofficial transcripts are to be uploaded to the online application. Official transcripts are necessary only if accepted into the program.
- Official English language testing scores for international students (TOEFL, IELTS, Duolingo, and PTE accepted). Applicants from countries where English is the official language do not have to submit English language test scores. A list of countries that are granated an automatic wavier can be found here.
- The student may include official GRE scores, but scores are optional.

Application Deadlines

The application deadline is January 15. **Unofficial transcripts, GRE scores (optional), English language test scores (if required), and letters of recommendation must be received by the application deadline or very soon after.** It is important to note that an application is only considered complete after supporting materials are received and the application fee has been paid. Failure to submit application materials and pay the application fee in a timely manner may result in the application not being considered for review.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Geology

PHD

Geology PhD Program

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 Credits
★Post Master's Minimum Credits: 60 Credits

Graduate Research

Graduate Research
This course should be taken during fall semester of the first year.

Course	Title/Desc	Credit
GEOL7005	Graduate Research (C min)	1

Geology Colloquium

Geology Colloquium
Students must register for GEOL7025 each semester for a total of 8 credit hours.

Course	Title/Desc	Credit
GEOL7025	Geology Colloquium (C min)	1

Dissertation Research and Coursework

The student will take a combination of Dissertation Research credits and Graduate-level coursework to reach a minimum of 51 credit hours.

Dissertation Research
Students enroll in a minimum of 1 credit of GEOL9001 each semester for a total minimum of 8 credit hours.

Course	Title/Desc	Credit
GEOL6XXX+	Graduate-Level Courses The student must enroll in graduate-level lecture- and lab-based courses. (C min)	12 - 73
GEOL9001	PhD Dissertation Research (C min)	8 - 15

Graduate-level Coursework
Students are required to enroll in a minimum of 12 hours of lecture- and lab-based courses. These courses may be taken from the GEOL discipline or related disciplines in the College of Arts & Sciences and in the College of Engineering & Applied Science. GEOL7030 may not be used toward this requirement.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Germanic Languages and Literatures

Duration: **5 Years** Award: **PHD**

Overview

The PhD in German Studies provides extensive training in German culture and history in various media. The program aims to educate future German Studies teachers and scholars. A concept-based curriculum is focused on genres, media, methodologies, and themes, among other categories. This approach to German speaking cultures reflects current trends in the teaching and research of cultural texts in various media, offering students appropriate coursework to acquire the knowledge and the analytical skills necessary for the assessment and the interpretation of these cultural texts. The program has foci on Film and Media Studies, Austrian Studies, Gender and Sexuality Studies, German-Jewish Studies, Disability Studies, History of Science and Postcolonial Studies.

Our program prepares our students for different careers that require skills in critical thinking, communication, and an in-depth familiarity with a foreign language and culture. The majority of graduates from our PhD program go into academic careers. Their success in attaining jobs in a highly competitive environment is a direct result of our attempts to prepare our graduate students for careers in different teaching environments, ranging from small liberal arts colleges to large research universities. Our PhD prepares our students perfectly for an academic carrer as well as alt ac-careers like translators, publishers, curators.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

History

Duration: **5 Years** Award: **PHD**

Overview

The University of Cincinnati has an excellent mid-size department of history and a lively intellectual community. All students entering the Doctoral program must have earned an MA.

Our Doctoral program is intentionally small and is designed to provide an excellent education to students we can serve best through closely supervised coursework and mentoring. Our program emphasizes professional training in both teaching and researching history.

Our curriculum encourages broad interaction with History faculty, and students take valuable courses in other fields, including foreign languages. The flexibility of our program matches the varied interests of our students. Graduates move along a variety of career paths, but most seek tenure-track academic positions.

Doctoral students prepare themselves in three fields of study, a major and two minors. One of the minor fields may be outside the History Department. Students chose their fields in consultation with their advisors, the Director of Graduate Studies, and those faculty members who will serve on their exam committee.

The major field of concentration may be United States, European, World History, or Public History.

The two minor fields should be broadly conceived areas of study based on chronological, topical, geographical, or methodological emphasis. One minor field must be outside the major field; one minor field may be a subset of the major field. Examples of minors are: Modern Europe, Latin America, Comparative Women's History, Public History, and Comparative Urban History.

Career

Students graduating with a PhD from our department have gone on to a variety of fruitful and interesting careers. Many have pursued and found faculty positions and other teaching and research-oriented jobs at such institutions of higher learning as Ohio University, the University of Missouri, the University of Cincinnati (main campus and satellites), the University of Dayton, and the University of North Carolina system. Some alumni have additionally or instead charted careers in elite-level secondary education or in public and digital history, including through work in the archival and library sciences, historical consultancy, historical preservation, museum work, and published historical writing.

Curriculum

Students enter the Doctoral program after having earned a Master's degree. All Doctoral students must teach at least one course of their own design typically after their Qualifying Exams and before completing their degree. Ideally this course will be a lecture and discussion course in the student's area of concentration. Course selection and scheduling must be negotiated with the Director of Graduate Studies and the Department Head.

Current Student Degree Audit Transfer Student Course Equivalencies Search UC Schedule of Classes

Curriculum Guide Versions:
History PhD Curriculum Guide, Effective Fall 2025

Advising

All students entering the program have a Doctoral advisor, assigned at the time of admission. This advisor will guide the student through all intellectual aspects of the program. In addition, the Director of Graduate Studies serves as an advisor on departmental and institutional requirements. Students may change advisors, with the permission of the new advisor and the Director of Graduate Studies.

During the first year of enrollment, in consultation with the Doctoral advisor and the Director of Graduate Studies, each student creates an exam committee composed of three individuals, at least two of whom must be Department of History faculty, and all three of whom must have a terminal degree. Members of this exam committee also serve an important advisory role in the semesters leading up to the qualifying exam.

In addition, each student creates a dissertation committee in consultation with the Doctoral advisor. This committee is composed of three or four members, at least one of whom must be from outside the Department of History. At least two members of this committee must be Department of History faculty. Members of the dissertation committee serve an important advisory role during

candidacy.

Each year, usually in the fall semester, the Director of Graduate Studies will provide an evaluation form to faculty advisors for each of their Doctoral students. The advisor will then meet with each of his/her Doctoral students to review the student's academic progress for the past year. A copy of the completed evaluation form will be given to the student and to the Director of Graduate Studies.

UC Advantages And Special Opportunities

At the University of Cincinnati's Department of History, Doctoral students are connected directly with faculty, with interests in many areas. We also have conferences, symposia, colloquia, and many visiting speakers throughout the year to both inspire new ideas and give students a chance to show their work professonally. The majority of our graduate students are funded throughout their graduate career. The university and surrounding libraries have incredible collections to facilitate research. For more information, see our Graduate Program Page.

Admission Requirements

Each of the following play an important role in the Admission Committee's decisions:
• 3 Letters of recommendation
• Personal statement
• Transcripts
• Writing sample

International students may also need to submit TOEFL scores or English Proficiency documentation as described here: https://grad.uc.edu/admissions/criteria/international-students.html. Please contact the Director of the History Graduate Program for more detail.

Application Deadlines

If you would like to submit an electronic application for the Doctoral Program please visit the Online Graduate School Application and complete the form. In order to complete the admissions process, you need to visit the Doctoral Program website or contact the program directly for information about application requirements or to inquire about materials that need to be submitted when applying to this program.

The application deadline is typically early January every year. Please contact the program directly for the application due date of this year.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

History

PHD

History PhD Curriculum Guide, Effective Fall 2025

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 Credits
★Post Master's Minimum Credits: 60 Credits

Core Requirements (20 credits)

All doctoral students are required to take these core courses.

Department Topics Seminar

This seminar is offered in the Fall term and focuses on a broad theme cutting across different fields. While the course overall is directed by a single History professor, each meeting of the class is taught by different members of the Department based on the respective specializations of those faculty members and the readings they assign. The course requires regular reading but only light writing assignments. Students who completed this course as part of the HIST-MA degree requirements may instead complete an additional 4 hours in Focus Area of Specialty.

Course	Title/Desc	Credit
HIST7001	Department Topics Seminar (B- min)	4

Methods Course

This course is offered in the Fall term and introduces first-year graduate students to fundamental questions and approaches related to the theory and practice of historical scholarship, including the nature of historical inquiry, argument, and narrative. Students explore historiographical scholarship as well as work in primary sources. Students who completed this course as part of the HIST-MA degree requirements may instead complete an additional 4 hours in Focus Area of Specialty.

Course	Title/Desc	Credit
HIST7060	Historical Methodology Seminar (B- min)	4

Practicum on Teaching & Professional Development

Typically offered once a year, either in the Fall or Spring term, this course is designed to give practical and theoretical training in teaching and other forms of professionalization, including with regards to leading discussions in survey classes and other matters relevant to teaching assistants and graduate students preparing for their careers past graduate school.

Course	Title/Desc	Credit
HIST8073	Graduate Teaching Practicum (B- min)	4
Teaching Experience	All doctoral students must teach one course before graduation	0

Focus in Area of Specialty (32-44 credits)

Students who are focusing in Public History are encouraged to take Introduction to Public History (HIST7064), the Public History Practicum (HIST6010), and complete an internship (HIST7066) as part of this requirement.

Readings Colloquium, Directed Readings, and Dissertation Research

Students will fulfill their remaining credit hour requirement with seminars, directed reading courses, and dissertation research credits.

Course	Title/Desc	Credit
HIST6XXX+	History Seminars (B- min)	0 - 4
HIST8XXX+	Directed Readings (B- min)	0 - 4
HIST9098	Dissertation Research (B- min)	1 - 12

Coursework outside of the History Department

All doctoral students are also required to take one graduate level course outside of the history department.

Course	Title/Desc	Credit
Free Electives	Graduate Coursework out of the History Department	4

Advanced Research Skills Requirement (8 credits)

Students typically complete the requirement by showing proof of proficiency in at least one foreign language, with two or more often being appropriate for students who regularly conduct research in text-based sources other than English. When a student's research agenda dictates, they may instead fully or partially satisfy the Advanced Research Skills Requirement by showing proof of proficiency in a different type of Advanced Research Skill (or skills), such as quantitative methods of analysis, data visualization, computer programming languages, documentary editing, paleography, numismatics, and techniques in oral history interviewing and/or historic preservation.

Language Competency or Advanced Skill

Students demonstrate competency in a particular language through one of the following options. Or, they may complete courses in an Advanced Skill.

Course	Title/Desc	Credit
ARAB6XXX+ ASL6XXX+ CHIN6XXX+ FREN6XXX+ GRK6XXX+ GRMN6XXX+ ITAL6XXX+ JAPN6XXX+ KOAN6XXX+ LATN6XXX+ PORT6XXX+ RUSS6XXX+ SPAN6XXX+ SWAH6XXX+	Language courses approved by the Department of History and designed to impart reading knowledge for the purpose of research conducted in the language studied (B min)	0 - 8
Free Electives	Advanced Skill	0 - 8

Course	Title/Desc	Credit

Research Seminars

This two-course sequence is designed to guide students in identifying and developing an original research product based on the study of primary materials and scholarly interpretation and documentation. Doctoral students typically write a chapter-length or article-length paper, but the exact product may vary, as determined in consultation with the seminar instructor and the student's PhD advisor.

Course	Title/Desc	Credit
HIST9040	Graduate Research Seminar I (B- min)	4
HIST9041	Graduate Research Seminar II (B- min)	4

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Mathematics

Duration: **5 Years** Award: **PHD**

Overview

The Doctor of Philosophy (PhD) program in Mathematical Sciences represents achievement of a broad knowledge of the various branches of mathematics, of the ability to communicate mathematics in both written and oral form, and of a demonstrated creative ability in a particular branch of mathematics.

Most of our PhD students receive full financial support (tuition remission and a Graduate Assistantship or fellowship), and most are supported through their entire UC career. Travel support is available for students to attend or present their work at conferences.

For more information please visit this page.

Career

The program prepares students for careers in academia and as professional mathematicians. Students have the opportunity to work with some of the world's leading experts in a variety of research areas.

Mathematics

PHD

PhD Mathematical Sciences July 2023

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 Credits
★Post Master's Minimum Credits: 60 Credits

Credit Hour Requirement

A minimum of 90 graduate credits beyond the bachelor's degree or a minimum of 60 credits beyond a master's degree, including 7 hours in dissertation research. Graduate courses in Mathematical Sciences are listed as 6000-, or 7000-, or 8000-, or 9000-level MATH or STAT courses.

Qualifying Exams

The Mathematics Qualifying Exam must be passed within one year of entering the program. All incoming PhD students are required to take the qualifying exam before the beginning of their first semester. Students who do not pass this exam are placed in the appropriate 6000-level courses. The Qualifying Exam is based on the two-semester sequence Advanced Calculus MATH6001-6002 and the one semester course Abstract Linear Algebra MATH6003.

Preliminary Exams

All PhD students must pass four preliminary examinations. Each Preliminary Exam is offered twice a year. Examinations based on a course given during Fall Semester are offered after the end of Spring Semester and at the beginning of the following Fall Semester. Examinations based on a course given during the Spring Semester are offered at the beginning of the Fall Semester and at the beginning of the following Spring Semester.

Advanced Exam

After the preliminary examinations, an advanced examination in the area of examination of the student is required. An advanced exam may either be a written exam, a presentation or a series of presentations. The exam will be administered by a committee. Generally this committee will form the students dissertation committee.

Breadth Requirement

The student, together with a graduate advisor, plans a program of study which will ensure the breadth of knowledge necessary for a professional mathematician or statistician.

At least five of the following 7000-level courses

Course	Title/Desc	Credit
MATH7001	Complex Analysis	3
MATH7002	Real Analysis	3
MATH7003	Rings, Fields and Galois Theory	3
MATH7004	Topology	3
MATH7005	Ordinary Differential Equations	3
MATH7006	Partial Differential Equations	3
MATH7011	Advanced Mathematical Modeling	3
MATH7015	Numerical Linear Algebra	3
STAT7020	Topics in Applied Statistics	3
STAT7023	Linear Models and Multivariate Analysis I	3
STAT7024	Linear Models and Multivariate Analysis II	3
STAT7031	Statistics Theory	3
STAT7032	Probability	3

At least four of the following 8000-level and 9000-level courses

Course	Title/Desc	Credit
MATH8001	Geometric Function Theory	3
MATH8002	Geometric Analysis	3
MATH8003	Functional Analysis	3
MATH8004	Operator Theory	3
MATH8005	Introduction to Algebraic Geometry	3
MATH8006	Algebra and Cryptography	3
MATH8007	Advanced Stochastic Processes	3
MATH8008	Stochastic Differential Equations	3
MATH8009	Advanced Partial Differential Equations	3
MATH8010	Advanced Numerical Analysis	3
MATH8011	Scientific Computation	3
MATH8012	Applied Mathematics Methods	3

Dissertation

Students are required to complete a minimum of 7 credit hours in dissertation research.

Course	Title/Desc	Credit
MATH9072	Dissertation Research	1 - 12
MATH9071	Thesis Research	1 - 12
MATH9073	Research	1 - 12
MATH9074	Research	1 - 12
STAT9091	Thesis Research	1 - 12
STAT9092	Thesis Research	1 - 12
STAT9093	Research	1 - 12
STAT9094	Research	1 - 12

Free Electives

Students to take the following graduate courses to reach the required minimum total.

Course	Title/Desc	Credit
MATH6XXX+ STAT6XXX+	Additional 6000 or higher level statistics or mathematics course for post-masters students	26
MATH6XXX+ STAT6XXX+	Additional 6000 or higher level statistics or mathematics course(s) for post-baccalaureate students.	56

Course	Title/Desc	Credit
MATH9001	Advanced Financial Mathematics	3
STAT8021	Advanced Theory of Statistics	3
STAT8022	Advanced Bayesian Analysis	3
STAT8023	Advanced Statistics Computing	3
STAT8024	Advanced Statistical Modeling	3
STAT8025	Spatial Statistics	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Philosophy

Duration: **5 Years** Award: **PHD**

Overview

The Philosophy Department curriculum covers most areas in contemporary philosophical problems as well as most of the major periods in the history of philosophy. The department is especially strong in philosophy of mind and philosophy of the life sciences. Please consult the department webpage for information on the strengths of individual faculty. The Ph.D. program in Philosophy offers two tracks, the Traditional Track and the Sciences Track. Students in the Sciences Track do graduate work in a science and write an interdisciplinary dissertation.

The graduate program is a relatively small one which allows close working relationships between faculty and graduate students. In recent years, the ratio of faculty to funded graduate students has been nearly one to one. Distinguished visiting speakers are brought to the department on a regular basis. The department hosts an annual colloquium, which brings in up to a dozen scholars focused on a specific theme.

Career

Over 88% of University of Cincinnati Ph.D.s from the last decade are employed in academic positions; and 100% who graduated from 2008 to 2015 are now in permanent positions—tenure track or equivalent.

Curriculum Guide Versions:
Philosophy PhD -- Traditional Track
Philosophy PhD -- Philosophy and the Life Sciences Track

Admission Requirements

- GRE scores
- TOEFL scores (foreign applicants only)
- Writing sample
- Statement of purpose
- Three letters of recommendation (preferably from philosophy professors) submitted using the online system
- Official transcripts for BA and MA

Application Deadlines

If you would like to submit an electronic application for the Philosophy program, please visit the Online Graduate School Application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Philosophy

PHD

Philosophy PhD -- Traditional Track

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 - 172 Credits
★Post Master's Minimum Credits: 60 - 140 Credits

History of Philosophy

Students must take at least one course in each of two of the following six sub-areas: (1) Ancient; (2) Medieval and Renaissance; (3) Modern; (4) 19th Century; (5) Early Analytic; (6) Pragmatism. Courses not on this list may satisfy the requirement with instructor and DGS approval.

Ancient

Course	Title/Desc	Credit
PHIL7001	Plato (B- min)	4
PHIL7002	Aristotle (B- min)	4
PHIL8010	Plato's Later Dialogues (B- min)	4
PHIL8011	Aristotle's Ethics & Politics (B- min)	4
PHIL8012	Topics in Ancient Philosophy (B- min)	4

Medieval & Renaissance

Course	Title/Desc	Credit
PHIL7003	Medieval Philosophy (B- min)	4

Modern

Course	Title/Desc	Credit
PHIL7004	Descartes (B- min)	4
PHIL7005	Locke (B- min)	4
PHIL7006	Berkeley (B- min)	4
PHIL7007	Hume (B- min)	4
PHIL7008	Kant (B- min)	4
PHIL7009	Hobbes (B- min)	4
PHIL8016	Kant's Metaphysics (B- min)	4
PHIL8017	Kant's Ethics (B- min)	4

19th Century

Course	Title/Desc	Credit
PHIL8019	Topics in the History of Philosophy (B- min)	4

Early Analytic

Course	Title/Desc	Credit
PHIL7021	History of Logical Empiricism (B- min)	4

Pragmatism

Course	Title/Desc	Credit

Electives

Students in the Traditional track must take four additional graduate courses in philosophy, normally in the area in which they expect to write a dissertation.

Course	Title/Desc	Credit
PHIL6XXX+	Electives	16

Dissertation Research

Course	Title/Desc	Credit
PHIL8097	Graduate Readings	1 - 12
PHIL8098	Graduate Readings	1 - 12
PHIL8099	Graduate Readings	1 - 12
PHIL9097	Dissertation Research	1 - 12
PHIL9098	Dissertation Research	1 - 12
PHIL9099	Dissertation Research	1 - 12

Course	Title/Desc	Credit
PHIL8025	Topics in Logic and Epistemology (B- min)	4

Core Problems

Students must take at least one course in each of two of the following four sub-areas: (1) Metaphysics; (2) Epistemology; (3) Language and Logic; (4) Mind. Courses not on this list may satisfy the requirement with instructor and DGS approval.

Metaphysics

Course	Title/Desc	Credit
PHIL7030	Metaphysics (B- min)	4
PHIL8023	Contemporary Analytic Philosophy (B- min)	4
PHIL8029	Philosophical Naturalism (B- min)	4
PHIL8030	Contemporary Metaphysics (B- min)	4
PHIL8031	Topics in Metaphysics (B- min)	4
PHIL8083	Persons (B- min)	4

Epistemology

Course	Title/Desc	Credit
PHIL7020	Epistemology (B- min)	4
PHIL7070	Philosophical Methodology (B- min)	4
PHIL8020	Contemporary Epistemology (B- min)	4
PHIL8021	Topics in Epistemology (B- min)	4
PHIL8024	Inductivism and Critical Rationalism (B- min)	4
PHIL8025	Topics in Logic and Epistemology (B- min)	4
PHIL8069	Epistemology of Experiment (B- min)	4
PHIL8074	Philosophy and Big Data (B- min)	4

Language and Logic

Course	Title/Desc	Credit
PHIL7040	Philosophy of Language (B- min)	4
PHIL8042	Philosophical Logic I (B- min)	4
PHIL8043	Philosophical Logic II (B- min)	4
PHIL8044	Topics in Semantics (B- min)	4
PHIL8045	Theories of Interpretation (B- min)	4

Mind

Course	Title/Desc	Credit
PHIL7050	Philosophy of Mind (B- min)	4
PHIL7061	Philosophy and Cognitive Science (B- min)	4
PHIL7082	Moral Psychology (B- min)	4
PHIL8050	Topics in Philosophy of Mind (B- min)	4
PHIL8051	Contemporary Philosophy of Mind (B- min)	4
PHIL8052	Recent Philosophy of Mind (B- min)	4
PHIL8053	Representation (B- min)	4
PHIL8054	Philosophical Psychology (B- min)	4
PHIL8055	Topics in Philosophical Psychology (B- min)	4
PHIL8056	Concept of Emotion (B- min)	4
PHIL8064	Philosophy and Neuroscience (B- min)	4

Logic Requirement

Students must take one graduate course in logic. Students with a strong background in logic may place out of this requirement by examination (but they will still be required to take 15 graduate philosophy courses).

Graduate courses in logic

Course	Title/Desc	Credit
PHIL8042	Philosophical Logic I (B- min)	4
PHIL8043	Philosophical Logic II (B- min)	4

Course	Title/Desc	Credit
PHIL8090	Aesthetics and the Philosophy of Mind (B- min)	4

Philosophy of Science

Students must take at least one course in the philosophy of science.

Course	Title/Desc	Credit
PHIL7061	Philosophy and Cognitive Science (B- min)	4
PHIL7062	Philosophy of Biology (B- min)	4
PHIL7063	Philosophy of Ecology (B- min)	4
PHIL8059	Topics in Contemporary Philosophy of Science (B- min)	4
PHIL8029	Philosophical Naturalism (B- min)	4
PHIL8060	Topics in Philosophy of Science (B- min)	4
PHIL8061	Philosophy of Biology: Classics in Evolution and Ecology (B- min)	4
PHIL8062	Philosophy and Evolutionary Biology (B- min)	4
PHIL8064	Philosophy and Neuroscience (B- min)	4
PHIL8065	Feminist Philosophy of Science (B- min)	4
PHIL8066	French Traditions in Philosophy of Science (B- min)	4
PHIL8067	Scientific Confirmation (B- min)	4
PHIL8068	Scientific Theories (B- min)	4
PHIL8070	History and Philosophy of Biology (B- min)	4
PHIL8071	History and Philosophy of Science (B- min)	4
PHIL8072	Philosophical Foundations of the Sociology of Knowledge (B- min)	4
PHIL8074	Philosophy and Big Data (B- min)	4

Value Theory

Students must take at least one course in each of two of the following three sub-areas: (1) Ethics, (2) Social and Political Philosophy, (3) Aesthetics

Ethics

Course	Title/Desc	Credit
PHIL7010	Feminist Philosophy (B- min)	4
PHIL7023	Theoretical Foundations of Bioethics (B- min)	4
PHIL7080	Contemporary Ethics (B- min)	4
PHIL7081	History of Ethics (B- min)	4
PHIL7082	Moral Psychology (B- min)	4
PHIL8017	Kant's Ethics (B- min)	4
PHIL8081	Metaethics (B- min)	4
PHIL8084	Topics in Moral Philosophy (B- min)	4
PHIL8085	Genomics, Race, and Ethics (B- min)	4

Social and Political Philosophy

Course	Title/Desc	Credit
PHIL7083	Environmental Philosophy (B- min)	4
PHIL7084	Political Philosophy (B- min)	4
PHIL7085	Cosmopolitanism (B- min)	4
PHIL8063	Philosophy of Technology (B- min)	4
PHIL8082	Justice (B- min)	4

First-year proseminar

Students are required to take the first-year proseminar in their first year of study.

Proseminar

Course	Title/Desc	Credit
PHIL7096	Graduate Pro-seminar	1 - 4

Teaching Seminar

Students will enroll in a teaching seminar for one semester in each of their first two years of study. The seminar is aimed at nurturing the skills necessary for teaching philosophy.

Teaching Seminar -- this course will be taken at least twice

Course	Title/Desc	Credit
PHIL7095	Teaching Seminar	1

Course	Title/Desc	Credit
PHIL8086	Social and Ethical Issues in Biomedicine (B- min)	4

Aesthetics

Course	Title/Desc	Credit
PHIL7090	Aesthetics (B- min)	4
PHIL8090	Aesthetics and the Philosophy of Mind (B- min)	4
PHIL8091	Approaches to Fiction (B- min)	4

Dissertation Proposal Seminar

Students in the process of writing a dissertation proposal/prospectus will attend a proposal writing seminar for at least one semester.

Course	Title/Desc	Credit
PHIL7097	Dissertation Proposal Seminar	1

★ This is the typical minimum number of credit hours students must complete.

Research Tools

Students must take four graduate courses from one or more departments in any empirical discipline, other than philosophy. One of these may be a directed study. One must be in a formal topic (e.g., statistics, mathematics, computer science). These courses are to be chosen in consultation with an advisor or dissertation committee.

Physics

Duration: **5 Years** Award: **PHD**

Overview

The physics graduate program emphasizes cutting edge research and education, resulting in orginal published work, and preparing our students for university, national lab, or industrial/corporate employment. A full range of courses are offered, including many research level advance courses. Physics faculty work closely with graduate students, mentoring them in a variety of areas, including condensed matter, high energy, and particle physics, astrophysics, physics education, etc. Students also benefit from weekly seminars, colloquia, group meetings and collaborations with other students and postdocs in large externally funded research groups.

Curriculum Guide Versions:
Physics PhD

Admission Requirements

The minimum required GPA for graduate study is 3.0. Applicants should take the General GRE, and are strongly encouraged to take the Physics GRE subject area test for international applicants. Applicants without Physics GRE subject area test scores must provide other evidence of outstanding achievement and promise. There are no minimum required GRE scores for admission. Instead, we consider your scores, overall record, and letters of recommendation to make the admission decision.

Visit the Physics website or contact the program directly for information about application requirements or to inquire about materials that need to be submitted when applying to this program.

If you would like to submit an electronic application for the Physics program, please visit our On-Line Graduate School Application and complete the form.

PHYS9071	Research for the Doctorate	1 - 12

Physics course options for Second Year - Fall Semester

Course	Title/Desc	Credit
PHYS8015	Particle Physics I	3
PHYS8025	Astrophysics I	3
PHYS8035	Condensed Matter Physics I	3
PHYS8030	Advanced Statistical Physics	3

Second Year - Spring Semester

10-12 Credit hours per consultation with adviser

Required Courses

Student selects number of credits for PHYS 9071 in consultation with an adviser

Course	Title/Desc	Credit
PHYS9071	Research for the Doctorate	1 - 12
PHYS8090	Graduate Colloquium	1
PHYS8091	Advanced Seminar	1

Physics course options for Second Year - Spring Semester

Course	Title/Desc	Credit
PHYS8011	Quantum Field Theory II	1 - 3
PHYS8016	Particle Physics II	3
PHYS8026	Astrophysics II	3

Course	Title/Desc	Credit
PHYS8071	Advanced Problems	1 - 12
PHYS8072	Research for the Master's Degree	1 - 12

Course	Title/Desc	Credit
PHYS8031	Many Body Theory	1 - 3
PHYS8072	Research for the Master's Degree	1 - 12

Third through Sixth Year Fall Semesters

Required Courses

Student selects number of credits for PHYS 9071 in consultation with an adviser

Course	Title/Desc	Credit
PHYS8090	Graduate Colloquium	1
PHYS8091	Advanced Seminar	1
PHYS9071	Research for the Doctorate	1 - 12

Third through Sixth Year Spring Semesters

Required Courses

Student selects number of credits for PHYS 9071 in consultation with an adviser

Course	Title/Desc	Credit
PHYS8090	Graduate Colloquium	1
PHYS8091	Advanced Seminar	1
PHYS9071	Research for the Doctorate	1 - 12

Additional course options for third through sixth years.

Course	Title/Desc	Credit
PHYS7071	Physics of Magnetic Resonance and Hyperpolarization	3
PHYS8038	Experimental Methods in Condensed Matter Physics	3
PHYS8040	Computational Physics I	3
PHYS8041	Advanced Topics in Computational Physics	3
PHYS8051C	Physics by Inquiry I	4
PHYS8052C	Physics by Inquiry II	4
PHYS8054	Graduate Seminar in Physics Education	1 - 12
PHYS8055	Physics Modeling Instruction I: Mechanics	3
PHYS8056	Physics Modeling Instruction I: Mechanics	4
PHYS9010	Advanced Topics in Quantum Field Theory	3
PHYS9015	Advanced Topics in Particle Physics	3
PHYS9020	Advanced Topics in Astrophysics	3
PHYS9031	Advanced Topics in Many Body Theory	3
PHYS9035	Advanced Topics in Condensed Matter Physics	3
PHYS9070	Special Topics in Modern Physics	3

★ This is the typical minimum number of credit hours students must complete.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Political Science

Duration: **5 Years** Award: **PHD**

Overview

Students pursuing the Ph.D. in political science at UC's School of Public and International Affairs select two of the following major fields of study: American Politics, Comparative Politics, International Relations, or Research Methodology. Doctoral students may also complete a graduate certificate in Public Opinion and Survey Research, a Ph.D. concentration in Feminist Comparative and International Politics, or a cross-disciplinary certificate in Asian Studies.

Prospective students are encouraged to read the profiles of professors and graduate students in the School of Public and International Affairs to learn about ongoing research.

Career

The Political Science Ph.D. program prepares students for careers in research, teaching, public policy, government, or international organizations. Recent graduates work in the US and internationally in colleges and universities, governments, and research firms.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
PhD in Political Science
PhD in Political Science, Feminist Comp & Intl Politics concentration

UC Advantages And Special Opportunities

We offer Graduate Assistantships and tuition scholarships and nominate students for the university's targeted funding opportunities for underrepresented minority students. The Taft Research Center at the University of Cincinnati provides graduate student travel grants for research or conference presentations and doctoral dissertation fellowships.

Our school has research strengths in several areas, with multiple professors working within each, including:

- Cybersecurity and Security Studies (OCRI and the Ohio Cyber Range)
- Feminist Comparative and International Politics (FCIP PhD Concentration)
- Law and politics, constitutional law, international law, and human rights (PhD/JD with the UC College of Law, home of the Urban Morgan Center for Human Rights)
- Media and Politics
- Religion and Politics (US and International)
- Research Methods from quantitative to interpretive (and Graduate Certificate in Public Opinion and Survey Research)
- South and East Asian Politics (and Asian Studies Graduate Certificate)
- Sustainability and environmental politics

Special Programs

Students may choose to complete a Graduate Certificate in Public Opinion and Survey Research, a Feminist Comparative and International Politics Ph.D. Concentration, or a cross-disciplinary Graduate Certificate in Asian Studies. SPIA also offers a joint political science Ph.D./J.D. program with the College of Law at the University of Cincinnati.

Admission Requirements

- Transcripts from all undergraduate and graduate work
- Three letters of recommendation
- A statement of purpose explaining why you have decided to pursue graduate education in political science and specifically addressing how your interests fit with those of the department faculty
- For students applying with only a bachelor's degree: GRE verbal, quantitative and analytical scores are required
- For students applying with a master's degree from a US university or an English-medium university outside the US: GRE scores are optional
- For students applying from countries where English is not an official language: TOEFL scores (or other standardized tests recognized by the UC Graduate School) are required unless you have a bachelor's or higher degree from an entirely English-instructing college or university
- Applicants should have at least a B average in undergraduate coursework or otherwise give evidence of academic promise
- The video essay is not required

Transferring To UC

Students entering the political science PhD program with an MA only need 60 credits to complete the PhD instead of 90.

Changing Majors Within UC

Students entering the political science PhD program with an MA only need 60 credits to complete the PhD instead of 90.

Application Deadlines

- January 15 for fall enrollment with graduate assistantship and tuition scholarship
- June 15 for fall enrollment if applicant has a fellowship or other funding Submit an application for the Political Science program through the UC Graduate School.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Political Science

PHD

PhD in Political Science

Duration: 5 Years
★Post Baccalaureate Minimum Credits: 90 Credits
★Post Master's Minimum Credits: 63 Credits

Courses required of all PhD students

These core required classes constitute 16 credits

Required courses on methods and design

Note: Colloquium class will be taken for 1 credit in first four semesters

Course	Title/Desc	Credit
POL7005	Graduate Colloquium in Political Science	4
POL7050	Research Methods & Design (C min)	4
POL7051	Statistics for Political Science 1 (C min)	4

Additional research methods course

One course chosen from the following list:

Course	Title/Desc	Credit
POL7052	Statistics for Political Science 2 (C min)	4
POL7053	Experimental Methods and Design (C min)	4
POL7054	Pro-Seminar in Survey Methodology (C min)	4
POL7058	Methods of Interpretation in the Social Sciences (C min)	4
POL7030	Public Policy Implementation and Evaluation (C min)	4
POL7001	Policy Research and Evaluation Methods (C min)	4

Courses in 2 Major Areas of Study

Students take a total of 10 courses (40 credits) across two major areas of study, choosing from: American Politics, Comparative Politics, International Relations, Research Methodology. At least 4 courses (16 credits) must be taken in each major area of study.

American Politics Major Area of Study

The following course is required for the American politics major area of study

Course	Title/Desc	Credit
POL7010	Pro-seminar in American Political Institutions (C min)	4

American politics major area of study, cont.

Select at least three additional courses from the following list to complete the American politics major area

Course	Title/Desc	Credit
POL6011	Politics and the Public (C min)	4
POL6036	Intergovernmental Relations (C min)	4
POL7011	Pro-seminar in American Political Behavior (C min)	4
POL7012	Pro-seminar in Political Parties (C min)	4
POL7015	Pro-Seminar in Public Opinion and Public Policy (C min)	4
POL7019	Pro-seminar in American Executive Politics (C min)	4
POL7020	Pro-seminar in Legislative Politics (C min)	4
POL7026	Politics of Plan Implementation (C min)	4
POL8010	Research Seminar in American Politics (C min)	4
POL8019	Individual Work: American Politics	1 - 15

Research Methodology Major Area of Study

The following courses are required for the Research Methodology major area of study

Course	Title/Desc	Credit
POL7052	Statistics for Political Science 2 (C min)	4

Elective courses

Course	Title/Desc	Credit
Free Electives	Students entering with a BA will take elective courses; students entering with an MA may not need additional electives to meet the 60 credit minimum.	0 - 12

Course	Title/Desc	Credit
POL7054	Pro-Seminar in Survey Methodology (C min)	4

Research Methodology Major Area of Study, cont.

Select at least three additional courses from the following list to complete the Research Methodology major area

Course	Title/Desc	Credit
POL7001	Policy Research and Evaluation Methods (C min)	4
POL7004	Feminist Methods and Methodologies (C min)	3 - 4
POL7030	Public Policy Implementation and Evaluation (C min)	4
POL7053	Experimental Methods and Design (C min)	4
POL7058	Methods of Interpretation in the Social Sciences (C min)	4
POL8055	Practicum in Survey Research (C min)	2 - 4
POL8059	Individual Work: Methodology (C min)	1 - 15
SOC7013	Intermediary Quantitative Methods (C min)	3
SOC8040	Qualitative Sociology (C min)	3
SOC8041	Ethnographic Research Methods (C min)	3
SOC9010	Advanced Regression Techniques (C min)	3

Comparative Politics Major Area of Study

The following course is required for Comparative Politics

Course	Title/Desc	Credit
POL7060	Proseminar in Comparative Politics (C min)	4

Comparative Politics Major Area of Study, cont.

Students must take 2 of the following 3 courses:

Course	Title/Desc	Credit
POL7068	Identity Politics in Comparative Perspective (C min)	4
POL7069	Democracy and development (C min)	4
POL7083	Pro-Seminar in International Political Economy (C min)	4

Comparative Politics Major Area of Study, cont.

Students choose remaining courses from the following list:

Course	Title/Desc	Credit
POL6061	Power and Democracy (C min)	3 - 4
POL6064	South Asia and the world (C min)	3 - 4
POL6065	Women and sustainable development (C min)	4
POL6068	Nation, race, identity (C min)	3 - 4
POL6076	The New Europe (C min)	3 - 4
POL6077	Europe vs America: Challenges in Trans-Atlantic Relations (C min)	4
POL6083	China and America: Challenges and Opportunities (C min)	3 - 4
POL6086	Asian Security (C min)	3 - 4
POL8060	Research Seminar in Comparative Politics (C min)	4
POL8079	Individual Work: Comparative Politics	1 - 15

International Relations Major Area of Study

The following two courses are required:

Course	Title/Desc	Credit
POL7081	Field Seminar in Security Studies (C min)	4
POL7083	Pro-Seminar in International Political Economy (C min)	4

International Relations Major Area of Study, cont.

Students choose remaining courses from the following list:

Course	Title/Desc	Credit
POL6077	Europe vs America: Challenges in Trans-Atlantic Relations (C min)	4
POL6080	International Cooperation (C min)	3 - 4
POL6081	Inequalities and Resistances in the Global Political Economy (C min)	4
POL6083	China and America: Challenges and Opportunities (C min)	3 - 4
POL6084	International Crisis Decisionmaking (C min)	3 - 4
POL6085	American Grand Strategy (C min)	4
POL6086	Asian Security (C min)	3 - 4

Course	Title/Desc	Credit
POL6089	The Politics of Humanitarian Intervention (C min)	3 - 4
POL6090	Feminist International Politics (C min)	4
POL6093	Nuclear Proliferation, Arms Control, and International Security (C min)	3 - 4
POL6097	Global and Regional Governance (C min)	4 - 5
POL7080	Proseminar in International Relations Theory (C min)	4
POL7082	Proseminar in International Security (C min)	4
POL7084	Contemporary International Law (C min)	4
POL7091	Critical Perspectives on War, Peace, and Security (C min)	4
POL8080	Research Seminar in International Relations	4
POL8089	Individual Work: International Relations	1 - 15

Dissertation Research

Dissertation

Note that dissertation credit can be taken in more than one semester, and thus may--and likely will--exceed 15 credits.

Course	Title/Desc	Credit
POL9095	Ph.D. Dissertation Research	7 - 15

Comprehensive Exams

Students will register for individual work courses while they prepare for comprehensive exams.

Comps preparation

Select two of the following that correspond to the two major fields of study.

Course	Title/Desc	Credit
POL8019	Individual Work: American Politics	1 - 15
POL8059	Individual Work: Methodology	1 - 15
POL8079	Individual Work: Comparative Politics	1 - 15
POL8089	Individual Work: International Relations	1 - 15

Psychology

Duration: **5 Years** Award: **PHD**

Overview

The University of Cincinnati Department of Psychology trains doctoral-level researchers, primarily in the areas of health psychology, behavioral and human factors, and neuropsychology. Additionally, prospective students with interests outside these areas may apply for admission if their interests correspond closely to those of at least one faculty member.

Students are admitted to the program to work with a specific faculty mentor. Mentors are responsible for ensuring students are actively engaged in research from the beginning of graduate school and that this work leads successfully to a dissertation. Our goal is to train students to compete effectively for positions in a broad variety of settings. We provide extensive professional development opportunities during doctoral training.

The PhD program in Psychology offers two broad tracks: Clinical Psychology and Behavioral Science. Within each of these tracks, students select an area of emphasis. These areas include but are not limited to: child and adolescent/pediatric psychology, general clinical psychology, health psychology, neuropsychology, modern couples and family, community health, etc. Training of students in the Behavioral Science track of our PhD Program in Psychology is primarily organized around two general areas of emphasis: Cognition, action, & perception (CAP), and Community and Organizational Research for Action (CORA).

Career

Clinical Psychology Careers

- Clinical Psychologist (adult, child, couples)
- Health/Pediatric Psychologist
- Neuropsychologist
- Clinical Researcher
- Tenure-Track Psychology Professor
- Consulting Psychologist or Clinical Consultant
- Medical & Health Services Director

Behavioral Science Careers

- CORA-Related Careers:
  - Organizational Consultant
  - Community Psychologist
  - Program Evaluator
  - HR Business Partner
- CAP-Related Careers:
  - Human Factors Researcher
  - Human Performance Researcher
  - Human Movement Science Researcher
  - User Experience (UX) and Usability Researcher
  - Data Scientist

Curriculum

Current Student Degree Audit Transfer Student Course Equivalencies Search UC Schedule of Classes

Curriculum Guide Versions:
Psychology PhD Program - Clinical Track
Psychology PhD Program - Behavioral Science Track

Admission Requirements

- Bachelors degree (psychology major preferred)
- Minimum of 16 semester credit hours (or 24 quarter credit hours) in non-introductory undergradute psychology courses
  - At least one course in research methods in the behavioral or social sciences
  - At least one course in statistical methods
- Previous research experience strongly recommended

Application Deadlines

To submit an application for the Psychology program, please visit our Admissions Requirements page and complete the UC Graduate Admissions Application. The application deadline for Fall enrollment is December 5.

Application Requirements

- Applicants must apply via the UC Graduate Admissions Application (link above) and will be required to upload unofficial transcripts
  - Please note: The PhD in Psychology program does not offer rolling admission. The program admits students once per year - each fall.
- 3 letters of recommendation
- Personal Statement
- Current CV or resume

*GRE scores are neither required, nor reviewed.

If you have questions about the admissions process, please visit the Psychology website or contact the graduate coordinator (Holly-Kristina Averette, 513-556-5539, averethm@uc.edu) for information about application requirements, or to inquire about materials that need to be submitted when applying to this program.

Psychology

PHD

Psychology PhD Program - Clinical Track

Duration: 5 Years

★Post Baccalaureate Minimum Credits: 90 Credits

★Post Master's Minimum Credits: 60 Credits

Required Courses

Core Courses

Minimum of 12 credit hours required.

Course	Title/Desc	Credit
PSYC7021	Social and Personality Psychology across the Lifespan (B- min)	3
PSYC7031	Biological Bases of Behavior across the lifespan (B- min)	3
PSYC7033	History and Philosophy of Psychology (B- min)	3
PSYC7035	Cognition across the Lifespan (B- min)	3

Statistics Courses

Minimum of 6 credit hours required.

Course	Title/Desc	Credit
PSYC7014	Graduate Statistics I (B- min)	3
PSYC7015	Graduate Statistics II (B- min)	3

Advanced Statistics/Methodology Courses

Minimum of 3 credit hours required.

Course	Title/Desc	Credit
PSYC7063	Program Assessment and Policy Analysis (B- min)	3
PSYC7064	Program Assessment and Policy Analysis II (B- min)	3
EDST8057	Advanced Application of Qualitative Methods (B- min)	3
EDST8086	Experimental and Quasi-Experimental Research (B- min)	3
EDST8087	Multilevel Models for Educational Research (B- min)	3
NPHD9015	Advanced Multivariate Analysis II (B- min)	3

Grant Proposal Writing

Minimum of 3 credit hours required.

Course	Title/Desc	Credit
PSYC7051	Grant Proposal Writing (B- min)	3

Clinical Core Requirements

Minimum of 24 credit hours required.

Course	Title/Desc	Credit
PSYC7050	Methods, Measurement, and Design (B- min)	3
PSYC8002	Ethics I (B- min)	1
PSYC8003	Ethics II (B- min)	2
PSYC8010	Introduction to Psychotherapy (B- min)	3
PSYC8012	Psychopathology (B- min)	3
PSYC8014	Assessment: Cognition (B- min)	3
PSYC8015	Assessment: Psychopathology (B- min)	3
PSYC8018	Interventions (B- min)	3
PSYC8020	Multicultural Theories and Practices in Clinical Psychology (B- min)	3

Case Conference

Minimum of 4 credit hours required. Courses are repeatable.

Course	Title/Desc	Credit
PSYC9059	Health Psychology Case Conference (B- min)	1
PSYC9069	Neuropsychology Case Conference (B- min)	1

Emphasis Area Advanced Specialty Courses

Minimum of 6 credit hours required.

Course	Title/Desc	Credit
PSYC8095	Graduate independent study (B- min)	1 - 4
PSYC9015	Special Topics in Cognition, Action, and Perception (B- min)	2 - 3
PSYC9015C	Humans, Machines, Robots and their Interactions (B- min)	3
PSYC9020	Theories of Perception (B- min)	2
PSYC9030	Control and Coordination of Action (B- min)	3
PSYC9045	Learning Systems (B- min)	2
PSYC9050	Health Psychology I (B- min)	3

Clinical Practicum, Research Hours, and Electives

Clinical Practicum

All students must register for a minimum of 3 credit hours of PSYC8090 in the spring of their first year. Additional credits are taken for subsequent internal (8090) and external (8091) placements towards degree requirements.

Course	Title/Desc	Credit
PSYC8090	Clinical Psychology Internal Practicum (B- min)	1 - 3
PSYC8091	Clinical Psychology External Practicum (B- min)	1 - 3
PSYC8092	Clinical Psychology Doctoral Internship (B- min)	1 - 6

Research Hours

All students must register for a minimum of 3 credit hours from this group. Additional credits may be taken as needed.

Course	Title/Desc	Credit
PSYC7090	Non-Thesis Research (B- min)	1 - 12
PSYC7095	Research on the Master's Thesis (B- min)	1 - 9

Electives

The courses listed below, as well as the listed Advanced Statistics and Advanced Specialty Courses, can be taken as electives. Additional courses may be taken as electives upon approval from the program director.

Course	Title/Desc	Credit
PSYC6004	Industrial/Organizational Psychology (B- min)	3
PSYC7005	Community Psychology (B- min)	3
PSYC7006	Community-Engaged Research Graduate Practicum (B- min)	3 - 12

Dissertation Credits
Minimum of 7 credit hours required.

Course	Title/Desc	Credit
PSYC9090	Ph.D. Dissertation Research (B- min)	7 - 12

Course	Title/Desc	Credit
PSYC9060	Neuropsychology I (B- min)	3
PSYC9061	Neuropsychology II (B- min)	3
PSYC9072	Special Topics in Clinical Child Psychology (B- min)	3
PSYC9080	Graduate Independent Study in Psychology (B- min)	1 - 6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Psychology

PHD

Psychology PhD Program - Behavioral Science Track

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 Credits
Post Master's Minimum Credits: 60 Credits

Required Courses

Core Courses

Minimum of 9 credit hours required.

Course	Title/Desc	Credit
PSYC7021	Social and Personality Psychology across the Lifespan (B- min)	3
PSYC7031	Biological Bases of Behavior across the lifespan (B- min)	3
PSYC7033	History and Philosophy of Psychology (B- min)	3
PSYC7035	Cognition across the Lifespan (B- min)	3

Statistics Courses

Minimum of 6 credit hours required.

Course	Title/Desc	Credit
PSYC7014	Graduate Statistics I (B- min)	3
PSYC7015	Graduate Statistics II (B- min)	3

Advanced Statistics/Methodology Courses

Minimum of 3 credit hours required. Add'l courses can be used as electives in consultation with advisor.

Course	Title/Desc	Credit
PSYC7063	Program Assessment and Policy Analysis (B- min)	3
PSYC7064	Program Assessment and Policy Analysis II (B- min)	3
EDST8086	Experimental and Quasi-Experimental Research (B- min)	3
EDST8087	Multilevel Models for Educational Research (B- min)	3
NPHD9015	Advanced Multivariate Analysis II (B- min)	3

Professional Development

Minimum of 3 credit hours required.

Course	Title/Desc	Credit
PSYC7051	Grant Proposal Writing (B- min)	3

Specialty Area

Specialty Area - Seminar

Minimum of 4 credits, 1 per semester, first 2 years. Courses are repeated.

Course	Title/Desc	Credit
PSYC7075	Cognition, Action, and Perception Seminar (B- min)	1
PSYC7077	Community and Organizational Research for Action Seminar (B- min)	1

Specialty/Elective Courses

Courses listed are examples of courses that can fulfill these criteria. Other options can be considered if approved by mentor and graduate director.

Specialty/Elective Courses

Minimum of 58 credits needed to satisfy the number of credits required for your degree. Four courses must satisfy your specialty requirement in consultation with primary mentor.

Course	Title/Desc	Credit
PSYC6004	Industrial/Organizational Psychology (B- min)	3
PSYC7001	Psychological Theories of Power, Oppression & Privilege (B- min)	3
PSYC7005	Community Psychology (B- min)	3
PSYC7006	Community-Engaged Research Graduate Practicum (B- min)	3 - 12
PSYC7063	Program Assessment and Policy Analysis (B- min)	3
PSYC7064	Program Assessment and Policy Analysis II (B- min)	3
PSYC7090	Non-Thesis Research (B- min)	1 - 12
PSYC7095	Research on the Master's Thesis (B- min)	1 - 9
PSYC8002	Ethics I (B- min)	1
PSYC8003	Ethics II (B- min)	2
PSYC8010	Introduction to Psychotherapy (B- min)	3
PSYC8012	Psychopathology (B- min)	3
PSYC8014	Assessment: Cognition (B- min)	3
PSYC8015	Assessment: Psychopathology (B- min)	3
PSYC8018	Interventions (B- min)	3
PSYC8020	Multicultural Theories and Practices in Clinical Psychology (B- min)	3
PSYC8090	Clinical Psychology Internal Practicum (B- min)	1 - 3
PSYC9015	Special Topics in Cognition, Action, and Perception (B- min)	2 - 3
PSYC9015C	Humans, Machines, Robots and their Interactions (B- min)	3

Dissertation Credits
Minimum of 7 credit hours required.

Course	Title/Desc	Credit
PSYC9090	Ph.D. Dissertation Research (B- min)	7 - 12

Course	Title/Desc	Credit
PSYC9020	Theories of Perception (B- min)	3
PSYC9030	Control and Coordination of Action (B- min)	3
PSYC9045	Learning Systems (B- min)	3
PSYC9050	Health Psychology I (B- min)	3
PSYC9060	Neuropsychology I (B- min)	3
PSYC9061	Neuropsychology II (B- min)	3
PSYC9072	Special Topics in Clinical Child Psychology (B- min)	3
PSYC9080	Graduate Independent Study in Psychology (B- min)	1 - 6
ORGL8010	Organizational Development and Change (B- min)	3
ORGL8029	Individual Behavior in the Workplace (B- min)	3
ORGL8084	The Diverse Workforce (B- min)	2 - 3
ORGL8090	Strategic Leadership (B- min)	3
ORGL8096	Performance Management (B- min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Romance Languages and Literature

Duration: **4 Years** Award: **PHD**

Overview

The Department of Romance and Arabic Languages and Literatures offers two areas of study at the Ph.D. level: Spanish literature & cultural studies and Latin American literature & cultural studies. Ph.D. students are encouraged to develop their own particular doctoral curriculum according to their fields of interest and to the topic of their dissertation.

At the Ph.D. level, we teach and model the complex critical and theoretical skills necessary to conduct literary research. With our nationally recognized language-instructor training and our careful mentoring in research methods, we prepare doctoral students for success in college-level teaching positions; our placement rate is excellent.

Please see the program website for further details.

Career

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Fall '23 Course Name Updates - "RALL"

Admission Requirements

- A recent MA degree or its equivalent from an accredited college or university, preferably an MA in Spanish or French and a strong literary background
- A good foundation in Spanish or French language and literature
- A minimum GPA of 3.50
- GRE not required
- Curriculum Vitae (CV, resume, *hoja de vida*)
- Three letters of recommendation, preferably from recent language or literature professors submitted through the UC online recommendation system
- Official transcripts from all colleges and universities attended
- A 500 word statement of purpose, preferably in the target language
- A writing sample in the target language
- For non native English speakers:
  - TOEFL scores, the minimum: 520 (paper),190 (computer), or 80 (internet)
  - Oral English Proficiency Test administered by UC before being allowed to teach

Application Deadlines

Please visit the Program website or contact the program director for information prior to applying to learn about application requirements or to inquire about materials that need to be submitted.

Deadline: February 1.

Romance Languages and Literature

PHD

Fall '23 Course Name Updates - "RALL"

Duration: 4 Years
Post Baccalaureate Minimum Credits: 90 Credits
Post Master's Minimum Credits: 60 Credits

Foundational courses

Since the courses RALL7001, RALL 7010, and RALL7051 are normally part of an M.A. program, students admitted to the Ph.D. program must take them for no credit in their first year of doctoral study unless they can demonstrate (e.g., by their transcript) that they have mastered the material covered in such courses.

Course	Title/Desc	Credit
RALL7001	Introduction to RALL Graduate Studies (C min)	4
RALL7051	Foreign Language Teaching Methods (C min)	4
RALL7010	Introduction to Literary Criticism (C min)	4

Additional language

Comprehensive Reading Knowledge of a Third Language: While students will have mastered one language in the course of their MA programs (other than the language of the M.A. program), reading knowledge of an additional language is required for the Ph.D. This language should be other that the one chosen for the language requirement of the M.A. and should have a supporting role in the student's preparedness for research.

French, Francophone, and Arabic literature, film or culture electives

The courses below are not required, but students can take them as electives for credit.

Course	Title/Desc	Credit
FREN7023	Explication de textes 17e siècle (C min)	4
FREN7030	Survey of Eighteenth-Century French Literature (C min)	4
FREN7024	Littérature du XVIIe siècle (C min)	4
FREN7031	Survey of Sixteenth-Century French Literature (C min)	4
FREN7034	Topics in French and Francophone Cinema (C min)	4
FREN7035	Travels in European Cinema (C min)	4
FREN7036	Perils of Honor in Early Modern Worlds (C min)	4

Spanish and Latin American literature, film or culture electives

Choose a minimum of 9-12 of the following courses (36-48 credits): a minimum 16 credits in the major field (dissertation area), a minimum of 12 credits in a related field, and a minimum of 8-20 credits of electives. Electives in other fields (i.e. RALL, FREN, ARAB, etc.) may be substituted with Graduate Director approval.

Course	Title/Desc	Credit
SPAN7017	Survey of Golden Age Spanish Literature (C min)	4
SPAN7023	Survey Spanish Literature 20th Century (C min)	4
SPAN7024	Modernismo and Avant-Garde Lat. Am. Poetry (C min)	4
SPAN7025	Contemporary Latin American Poetry (C min)	4
SPAN7030	Foundations of Latin American Literature (C min)	4
SPAN7040	Topics in Spanish Creative Writing (C min)	4
SPAN7061	Latin American Cinema (C min)	4
SPAN7063	Spanish Film (C min)	4
SPAN7070	Colonial Spanish American Literature (C min)	4
SPAN7081	SEX, DRUGS AND REVOLUTIONS IN LATIN AMERICA (C min)	4
SPAN7090	Latin American Theatre (C min)	4
SPAN7093	Hispanic Cultural Studies (C min)	4
SPAN7094	Contemporary Spanish Poetry (C min)	4
SPAN7095	Spanish Women Poets (C min)	4
SPAN8005	Modernism (C min)	4
SPAN8003	Spanish American Novel (C min)	4
SPAN8020	Don Quijote (C min)	4
SPAN8024	Gongora or the frontiers of poetry (C min)	4
SPAN8025	The Works of Federico Garcia Lorca (C min)	4
SPAN8026	Spanish Narrative (C min)	4

Candidacy and Research

Graduate Research

Students should register in at least 12-24 credits of Graduate Research (SPAN8090 and/or SPAN9090)

Course	Title/Desc	Credit
SPAN8090	Graduate Research	1 - 12
SPAN9090	Doctoral Dissertation Research	1 - 12

Ph.D. Candidacy Exam

The Ph.D. Candidacy Exam is a four-part exam with three questions related to the Major field and Dissertation area, and one related to the Minor field. The

Doctoral dissertation

The Ph.D. dissertation requires substantial original research, giving evidence of high scholarly achievement. Besides a traditional research dissertation, students in the PhD program have the option of writing a creative dissertation. A creative dissertation will consist of two parts: a creative section and an essay section.

Course	Title/Desc	Credit
FREN7040	Nineteenth-Century Lyric Poetry (C min)	4
FREN7041	Nineteenth-Century French Novel I (C min)	4
FREN7042	Nineteenth-Century French Novel II (C min)	4
FREN7043	Nineteenth-Century French Short Story (C min)	4
FREN7044	Nineteenth-Century Symbolist Poetry (C min)	4
FREN7070	Survey of French Literature (C min)	4
FREN7085	Contemporary Topics (C min)	4
FREN8030	Literature of Enlightenment (C min)	4
FREN8031	Encyclopedie (C min)	4
FREN8057	Topics and 20th/21th century French literature (C min)	4
FREN8060	Topics in French literature (C min)	4
FREN8061	Topics in French literature (C min)	4
ARAB7023	Love and Sexuality in Arabic Literature and Film (C min)	4
ARAB7024	Hispano-Arabic Literature and Culture in Translation (C min)	3
ARAB7036	Perils of Honor in Early Modern Worlds (C min)	4

Course	Title/Desc	Credit
SPAN8054	Latin American Short Story (C min)	4
SPAN8060	Topics in Latin American Literature (C min)	4
SPAN8062	Topics in Spanish literature (C min)	4
RALL7020	Caribbean Literature (C min)	4
SPAN8061	Topics in Latin American literature (C min)	4
SPAN8096	Politics of Poetry, Poesia y recepcion (C min)	4
RALL8021	Academic Writing Workshop: Writing and Publishing an Academic Article (C min)	4

Pedagogy Electives

The courses below are not required, but students can take them as electives for credit.

Course	Title/Desc	Credit
RALL7052	Introduction to Second Language Acquisition (C min)	4
RLL7053	Computer Assisted Language Learning (C min)	4
RALL7054	Task-Based Language Learning & Teaching (C min)	4
RLL7056	Philosophical Foundations of Language Learning (C min)	4

Teaching and Research Internships

The internships below are not required, but students can take them one or more times.

Course	Title/Desc	Credit
SPAN8001	Teaching Internship (C min)	1 - 4
SPAN8002	Research Internship (C min)	1 - 4

★ This is the typical minimum number of credit hours students must complete.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Sociology

Duration: **5 Years** Award: **PHD**

Overview

The Doctor of Philosophy in Sociology provides training in theory and research methods beyond the MA. The department at UC is a vibrant intellectual space, centered in the multiple research projects of our faculty members and students. We specialize in the study of social inequality, specifically in the areas of community and urban sociology, health and medicine, race and ethnicity, and gender and sexuality. We encourage prospective graduate students interested in these issues to join us! The department is committed to diversity, drawing students from around the U.S. and internationally, and has a reputation for a friendly, collegial atmosphere.

Career

The PhD program provides both teaching and research experience for students in the course of their graduate work. Most graduates get academic jobs, but some choose research-oriented jobs in government or the private sector. The PhD program meets the needs of the State of Ohio and the tri-state region by training students for academic teaching positions at universities and colleges, and for research positions in firms, hospitals, and government agencies.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
Sociology PhD

Admission Requirements

- Unofficial or official transcripts from all undergraduate coursework and from M.A. or M.S. degree program(s)
- Resume or curriculum vitae
- A statement of purpose explaining why you wish to pursue graduate education in sociology, specifically addressing how your interests fit with those of the department faculty.
- A sample of your best academic writing
- Three letters of recommendation
- *For International Applicants Only*: Evidence of English language proficiency (TOEFL, IELTS, PTE, Duolingo) for all applicants who were educated in a country where the official national language is not English. Find more information on the Graduate Admissions English Language Requirements page. Please note that Sociology does not have higher minimum test scores then required by the University.

Application Deadlines

The priority deadline for admissions and funding is January 15. Applications must be fully complete, including all materials received. For students who have their own funding sources, applications will be reviewed until April 1. Please visit our Online Graduate Application page to apply.

While filling out your application, you may wish to visit the Sociology Graduate Program website for information or to inquire about materials that need to be submitted when applying to this program.

Sociology

PHD

Sociology PhD

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 Credits
Post Master's Minimum Credits: 60 Credits

Basic Required Courses

All six of the following courses (or substitutes from another university) are required for the PhD.

Course	Title/Desc	Credit
SOC7005	Intermediate Graduate Statistics (C+ min)	3
SOC7010	Introduction to Social Inequality (C+ min)	3
SOC7011	Logic of Inquiry (C+ min)	3
SOC8040	Qualitative Sociology (C+ min)	3
SOC8075	Classical Sociological Theory (C+ min)	3
SOC8076	Contemporary Sociological Theory (C+ min)	3

Advanced Methods Courses

Please select two from the following.

Course	Title/Desc	Credit
SOC7013	Intermediary Quantitative Methods (C+ min)	3
SOC7042	Demographic Techniques (C+ min)	3
SOC8041	Ethnographic Research Methods (C+ min)	3
SOC8042	Comparative and Historical Sociology (C+ min)	3
SOC9010	Advanced Regression Techniques (C+ min)	3
SOC8044	Qualitative Media Analysis (C+ min)	3
SOC8043	Methods of Qualitative Interviewing (C+ min)	3

Teaching Preparation Requirement

Satisfied by one of the following three courses.

Course	Title/Desc	Credit
SOC8006	Teaching Sociology (C+ min)	3
SOC8007	Teaching Practicum (C+ min)	3
PD8041	Teaching Effectiveness (C+ min)	3

Elective Courses

Students must take at least 6 elective courses at the 7000 level or above. No more than 2 can be taken outside of the department, and they must be approved beforehand by the GPC. Does not include SOC7001, 7002, 7003, 7006, 8006, 8007, or 9030.

Course	Title/Desc	Credit
SOC	SOC7000+ Level Courses Up to 2 courses may be taken outside of the Dept with approval.	18

Independent Work

Optional, and to be decided between the student and a faculty member. Students are required to get explicit faculty permission before signing up.

Course	Title/Desc	Credit
SOC7003	Independent Study (C+ min)	1 - 12
SOC7006	Thesis Research	1 - 12
SOC8002	Prelim Preparation	1 - 6
SOC8007	Teaching Practicum (C+ min)	3

Dissertation Research

A minimum of 7 credits of 9030 are required for the PhD, but students may elect to take more over the course of their program.

Course	Title/Desc	Credit
SOC9030	Dissertation Research	7

This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Statistics

Duration: **5 Years** Award: **PHD**

Overview

The Doctor of Philosophy (PhD) program in Statistics represents achievement of a broad knowledge of statistics, of the ability to communicate statistics in both written and oral form, and of a demonstrated creative ability in a particular branch of statistics.

Most of our PhD students receive full financial support (tuition remission and a Graduate Assistantship, a fellowship, or an internship), and most are supported throughout their entire UC career. Travel support is available for students to attend or present their work at conferences.

Career

The program prepares students for careers in academia and as professional statisticians. Students have the opportunity to work with some of the world's leading experts in a variety of research areas.

Statistics

PHD

PhD Statistics July 2023

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 Credits
Post Master's Minimum Credits: 60 Credits

Credit Hour Requirement

A minimum of 90 graduate credits beyond the bachelor's degree or a minimum of 60 credits beyond a master's degree, including 7 hours in dissertation research. Graduate courses in Statistics (respectively, Mathematics) are listed as 6000-, or 7000-, or 8000-, or 9000-level STAT (respectively, MATH) courses.

Qualifying Exams

Students must pass the Statistics Qualifying Exam at the PhD level within one year of entering the program. All incoming PhD students are required to take the Statistics Qualifying Exam before the beginning of their first semester. Students who do not pass this exam at the PhD level are placed in the appropriate 6000-level courses. The Statistics Qualifying Exam is based on the two two-semester sequences Mathematical Statistics STAT6021-6022 and Applied Statistics STAT6031-6032.

Preliminary Exams

All PhD students must pass the Statistics Preliminary Exam within two years of entering the program. The exam is based on based on Linear Models and Multivariate Analysis II STAT7024 and Statistical Theory STAT7031.

Advanced Exam

After the Preliminary Exams, an Advanced Exam in the student's dissertation research area is required. An Advanced Exam may either be a written exam, a presentation, or a series of presentations. The exam will be administered by a committee. Generally this committee will form the students dissertation committee.

Minimum GPA

Students must earn a minimum GPA of 3.3 in all courses used to satisfy degree requirements.

Breadth Requirement

At least three 6000-level, 7000-level, and 8000-level STAT courses, including at least one 7000-level or 8000-level course. Required core and required supplementary courses may not be counted toward the breadth requirement. A GPA of 3.3 or higher is required in the breadth requirement courses.

Course	Title/Desc	Credit
STAT6041	Time Series	3
STAT6042	Survival Analysis and Logistic Regression	3
STAT6043	Applied Bayesian Analysis	3
STAT6044	Nonparametric Statistics	3
STAT6045	Statistical Computing	3
STAT6071	Statistics and Machine Learning	3
STAT7020	Topics in Applied Statistics	3
STAT8022	Advanced Bayesian Analysis	3
STAT8023	Advanced Statistics Computing	3
STAT8024	Advanced Statistical Modeling	3
STAT8025	Spatial Statistics	3

Dissertation

Students are required to complete a minimum of 7 credit hours in dissertation research.

Course	Title/Desc	Credit
MATH9072	Dissertation Research	1 - 12
MATH9071	Thesis Research	1 - 12
MATH9073	Research	1 - 12
MATH9074	Research	1 - 12
STAT9091	Thesis Research	1 - 12
STAT9092	Thesis Research	1 - 12
STAT9093	Research	1 - 12
STAT9094	Research	1 - 12

Free Electives

Students to take the following graduate courses to reach the required minimum total. Free Elective hours will vary based on Qualifying and Preliminary Exam results and the number of credits used to satisfy the Professional Development and Statistics Seminar requirements.

Course	Title/Desc	Credit
MATH6XXX+ STAT6XXX+	Additional 6000 or higher level statistics or mathematics course for post-masters students	2 - 30
MATH6XXX+ STAT6XXX+	Additional 6000 or higher level statistics or mathematics course(s) for post-baccalaureate students.	32 - 60

Required Core Courses

All students must satisfy the following course requirements. An average GPA of at least 3.3 is required in these courses.

Qualifying Exam Courses

These four courses are preparation for the Statistics Qualifying Exam. Students who pass the Qualifying Exam upon entry may be exempt from taking these courses.

Course	Title/Desc	Credit
STAT6021	Mathematical Statistics I	3

Required Supplementary Courses

All students must satisfy the following course requirements.

Professional Development

One of the following two courses is required.

Course	Title/Desc	Credit
STAT6051	Statistical Consulting	3
STAT8026	Practicum in Applied Statistics	1

Course	Title/Desc	Credit
STAT6022	Mathematical Statistics II	3
STAT6031	Applied Regression Analysis	3
STAT6032	Design and Analysis of Experiments	3

Statistics Seminar

The following course is required.

Course	Title/Desc	Credit
STAT9081	Seminar in Statistics	1 - 3

Required 7000-Level Courses

These four courses are required. A student who passes the Preliminary Exam is exempt from taking STAT7024 and STAT7301.

Course	Title/Desc	Credit
STAT7023	Linear Models and Multivariate Analysis I	3
STAT7024	Linear Models and Multivariate Analysis II	3
STAT7031	Statistics Theory	3
STAT7032	Probability	3

Advanced Theory of Statistics

The following course is required.

Course	Title/Desc	Credit
STAT8021	Advanced Theory of Statistics	3

Advanced Core Courses

Three of the following four courses are required.

Course	Title/Desc	Credit
STAT8022	Advanced Bayesian Analysis	3
STAT8023	Advanced Statistics Computing	3
STAT8024	Advanced Statistical Modeling	3
STAT8025	Spatial Statistics	3

★ This is the typical minimum number of credit hours students must complete.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

African Studies

Duration: **2 Years** Total Credits: **21** Award: **Certificate**

Overview

African studies exposes students to courses that deal with African culture, literature, history, geography, philosophy, sociology, politics and economic development of Africa. Although the courses will focus on the entire continent, students may, upon the advice of the director and availability of qualified faculty, develop a region or a field of interest. Others might want to have special concentration in history, economics, political science or literature.

Courses that fulfill the requirements for the African studies certificate also allow non-major undergraduates to fulfill college core requirements, including foreign language, humanities, and literature. For instance, students interested in the Swahili language have the possibility of taking various course distributions from the basic language level to culture and literature courses in Kiswahili up to a minimum of 30 credits. Students in the certificate program complete 30 credit hours that can include 15 credits of basic language study and other courses offered by the Department and other academic units throughout the University. The certificate is designed for students who want to develop a specialty in African studies that will complement their existing area of study.

Success

People who are successful in African studies possess strong verbal and writing skills, making them excellent communicators. They work well with adults, children and the elderly. Many enjoy travel, finding firsthand experience necessary to learn more about the cultures of the Diaspora. African studies students have versatile personalities and are able to adapt to many different circumstances.

Career

A certificate in African studies presents a wide array of possibilities both educational and professional. The certificate program not only benefits students preparing for graduate education in liberal arts disciplines, but also can be used in conjunction with any traditional major to prepare for many professions.

With more than 50 countries and a population of over 700 million, Africa represents excellent investment opportunities for American businesses. The end of the Cold War and the current political changes in South Africa make the continent even more attractive to American companies. Many of these businesses offer overseas employment opportunities to students with some knowledge of Africa. The certificate program helps to prepare students to satisfy that need. In addition, students interested in foreign service positions or other government agencies such as the United States Information Service, the Peace Corps or the Agency for International Development might buttress their chances of employment and careers with a certificate in African studies. Jobs with international organizations such as the World Bank, the International Monetary Fund and the United Nations are other possibilities.

With the growing emphasis on multi-cultural education in the United States, a certificate in African studies is added advantage to students interested in a teaching career at both the elementary and secondary levels.

Graduates pursue many different careers. A few examples include:

- Foreign service positions
- Government agencies
- The Peace Corps
- The Agency for International Development
- World Bank
- The International Monetary Fund
- United Nations positions
- Elementary and secondary levels of education

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The Department of Classics at the University of Cincinnati offers a unique and dynamic environment thanks to the generous patronage of the Semple Classics Fund, a bequest of Louise Taft Semple, established "for promoting the study of Classics in an endeavor to make vital and constructive in the civilization of our country the spiritual, intellectual, and esthetic inheritance we have received from Greek and Roman civilizations."

Among other things, the Semple Classics Fund supports:

- The John Miller Burnam Classical Library, the largest such library in the world
- A large number of graduate students
- A world-class faculty

It also awards Semple Scholarships to outstanding undergraduates majoring in the classics or classical civilization at the University of Cincinnati and the Semple Traveling Scholarships for a period of undergraduate study abroad, especially in Athens and Rome.

The Department of Classics has an international reputation as a leader in the field of Greek Bronze Age archaeology. It is particularly known for its excavations at Troy and Pylos under the direction of Carl Blegen. This tradition of excellence in archaeology continues today with current field projects at Pylos, Apollonia (Albania), and Episkopi-Bamboula (Cyprus).

Arabic Language and Culture

Duration: **2 Years** Total Credits: **23** Award: **Certificate**

Overview

The Arab world, made up of 22 countries and the Palestinians, extends from the Arabian/Persian Gulf in the east to the Atlantic Ocean in the west and has a population of about 300 million, 20 million of whom are Christian Arabs. Arabic is their dominant mode of expression. It is also an important language in other countries. Arabic is the language of Islam, and more than a billion people use it as a vital spiritual component of their daily lives. The United Nations adopted Arabic as one of its six official languages in 1974.

Events in the Middle East affect our daily lives, and only through the study of Arabic can one gain necessary insights into the cultural, religious, and political forces that motivate the inhabitants of that vital region - insights that our monolingual media seldom provide.

Middle East is the birthplace of civilization and the cradle of the three monotheistic religions. It also contains some of the world's greatest archeological and religious sites. It is the locus of two thirds of the world's known oil reserves. Moreover, it is rich with interesting cultures and warm, hospitable people. A good knowledge of Arabic will greatly enhance the enjoyment of travel in the region and the ability to work and interact with Arabic speaking people.

Career

The diligent study of Arabic can lead to exciting careers in various fields. The following are only a few of the many positions open to those who have a high proficiency in Arabic:

1. Communications: foreign correspondent, reporter, translator.
2. International finance: international banker, international consultant, political risk analyst.
3. Industry: manager of government relations for oil companies, market analyst for export companies.
4. Government: foreign service officer, development program officer, intelligence analyst, government relations specialist, translator or interpreter.
5. Law: contractual and corporation consultant.
6. Academia: teaching and research positions. The U.S. government currently considers Arabic a critical language and many scholarships and fellowships in Arabic studies are available.

[The above paragraphs are adapted from the website of The American Association of Teachers of Arabic.]

Biblical Studies

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

The certificate in biblical studies provides a multidisciplinary introduction to the study of the bible by examining it within different religious contexts. The certificate exposes the student to the complexities and challenges of translations from the original language. The certificate fosters critical thinking by exposing students to diverse methodologies and perspectives. Students will deepen their conceptual understanding of the bible. This certificate will help students engage in well-informed and thoughtful discourse.

Bioethics

Duration: **1.5 Years** Total Credits: **21** Award: **Certificate**

Overview

Bioethics lie at the intersection of human experience, medical practice and scientific technology. It refers to the interdisciplinary and multi-disciplinary application of the humanities and social sciences to health education and its practice. It provides insight into the human condition, suffering, personhood and our responsibility to each other. It also helps us understand how bioscience and health care take place within cultural and social contexts and how culture interacts with the individual experience of illness and the way medicine is practiced

Success

Students interested in a certificate in Bioethics will develop their skills in observation, analysis, empathy and self-reflection. This certificate will help students identify, analyze, and resolve moral and social conflicts as they might arise in the care of patients and new technology and research. It heightens a student's sensitivity to the health care experiences of others as well as technological advancements and how those are shaped by social, political and cultural circumstances.

Career

A certificate in Bioethics gives an edge for students interested in any aspect of the health care industry.

In today's rapidly accelerating world of scientific, technological, cultural and political transformations, the health care industry faces challenges that transcend traditional academic disciplines.

The demand for professionals who can synthesize the ethical, social and practical aspects of health care continues to grow. In our world, where advances in science and technology often outpace our ability to understand and cope with new concepts and situations, the need for deep grounding in medical humanities is particularly acute for new professionals.

Additional career options are listed on the Center for Exploratory Studies website.

Special Programs

The department sponsors a vibrant speaker series and an annual colloquium featuring multiple speakers addressing a single theme. Undergraduate students are expected to attend these events. One of the best ways to experience the thrill of philosophy is to observe professional philosophers debating the issues with one another. Undergraduate students will have opportunities to speak with and ask questions of visiting speakers.

Business French

Duration: **2 Years** Total Credits: **12** Award: **Certificate**

Overview

The Business French certificate is designed to provide professionals, executives, those in the business field with French language skills for their jobs, business travel, or their professional future. Current and upcoming professionals with careers related to government and/or legal organizations, travel professions, enterprise, public relations, import and export, trade, and business management in general have the opportunity to develop business French practices, vocabulary, and skills and to acquire an appreciation of French and Francophone cultures needed for their work or their professional future.

Success

Strategies and styles of business negotiations differ from one culture to another. Success as a student requires effective communication skills in French, both oral and written, and an understanding of and appreciation for the cultures of the countries or communities with which one wishes to develop a business relationship.

Career

- International studies/business
- Communications
- Global manager
- Translator
- International affairs
- Interpreter
- Educator
- Government agencies

Business French

Certificate

15CRT-BUSF-C2 : Major Maps

Duration: 2 Years

★Minimum Credits: 12 Credits

Min GPA of 2.00 is required in the certificate coursework.

Students must complete or show competency in FREN1002 or equivalent before beginning this 12 hour certificate. Students must maintain a 2.0 GPA in FREN certificate coursework.

Course	Title/Desc	Credit
FREN2015	French Composition and Conversation	3
FREN2016	French Composition and Conversation II	3
FREN3021	Business French I	3
FREN3022	Business French II	3

Electives

Course	Title/Desc	Credit
FREN	If a student tests out of FREN2015 and FREN2016 the certificate can be completed with any course over FREN3000.	3 - 6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Business Spanish

Duration: **2 Years** Total Credits: **12** Award: **Certificate**

Overview

The Business Spanish certificate is designed to provide professionals, executives, and businesspeople with Spanish language skills for their jobs, business travel, or their professional future. Present and upcoming professionals with careers related to government and/or legal organizations, travel professions, enterprise, public relations, import and export, trade, and business management in general have the opportunity to develop business Spanish practices, vocabulary, and skills and to acquire an appreciation of Hispanic cultures needed for their work or professional future.

Success

Strategies and styles of business negotiations differ from one culture to another. Success as a student requires effective communication skills in Spanish, both oral and written, and an understanding of and appreciation for the cultures of the countries or communities with which one wishes to develop a business relationship.

Career

- International studies/business
- Communications
- Global manager
- Translator
- International affairs
- Interpreter
- Educator
- Government agencies

Advising

Contact the program director, whose name and information appear on the side of this page.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using the Declare an Undergradatuate Certtificate online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, your certificate will be reviewed at the time that you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Chemistry

Duration: **2.5 Years** Total Credits: **26** Award: **Certificate**

Overview

Chemistry is the study of all matter found in living structures, geological formations and human-created products. Chemists explore the molecular structure of matter in order to develop theories about how such structures work and to apply these theories to the development of products that range from pharmaceuticals to heat shields. The certificate in chemistry provide a strong foundation in chemistry with the opportunity to include biochemistry coursework as well.

Success

The College of Arts and Sciences certificate program in chemistry is well suited for individuals with a background and interest in science and degrees in fields outside of chemistry.

Career

This program is particularly aimed at non-matriculated students with degrees in related fields who wish to gain knowledge and experience in chemistry for professional advancement in their chosen field.

Chinese Languages and Culture

Duration: **2 Years** Total Credits: **20** Award: **Certificate**

Overview

This certificate is a interdisciplinary program in which students learn about the Chinese culture and attain a level of fluency in the Chinese language.

Success

Success in gaining proficiency in a language other than one's native one requires constant use of the language. Students are encouraged to study abroad in China and take advantage of the rich resources at the university, especially the large international student population from China.

Career

Many businesses are either doing or plan to conduct operations in China. Also a number of companies in China are setting up operations in the U.S. A fluency in Chinese by its employees is often sought by both of these types of employers and make a graduate of this program more desirable.

UC Advantages And Special Opportunities

The primary benefit of the certificate is the working knowledge of one of the global languages of the 21st century. The opportunities available include study abroad in China and the large population of international students from China with whom to interact.

Students in UC's College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Communicating Science, Health, Environment, and Risk

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

The Communicating Science, Health, Environment & Risk Certificate helps students gain in-depth understanding and practical experience in the areas of health and environmental communication, science, and risk. This certificate offers significant value to Arts & Sciences students in the sciences, social sciences, and humanities, as well as students majoring in Health Education and Promotion, Health Information Management, Health Sciences, Communication Sciences and Disorders, Nursing, Chemical and Environmental Engineering, other public health/environmental/science programs, and students on a Pre-Medical Pathway. Additionally, this certificate benefits Communication students planning to work in health and environmental organizations and contexts, such as pharmaceutical sales, public information officer, health education, scientific writing, and community organizer. The certificate allows students to effectively demonstrate their unique expertise in communicating complex ideas with multiple publics in interpersonal, public, and mediated settings.

Success

People who are successful in this career field have excellent writing and speaking skills, are people-oriented, and are passionate about issues related to health, science, and/or the environment.

Career

- Health/Medical/Environmental Public Relations
- Marketing Specialist
- Community Relations
- Fundraising and Events Management
- Health, Science & Medical Writing
- Health Education, Health Campaigns & Social Marketing
- Patient Advocacy
- Pharmaceutical Sales
- Government Lobbying
- Community Organizing
- Public Information Officer
- Environmental Programs Director
- Environmental/Health Advocacy & Canvas Director

Computational Science

Duration: **4 Years** Total Credits: **26** Award: **Certificate**

Overview

Computational science uses computation in order to advance knowledge in fields ranging from physics to medicine to the social sciences and humanities. Computational science is not computer science or mathematics but it draws on the tools both of these disciplines provide in order to solve problems in other fields.

In physics, computation has been referred to a third branch of physics, complimenting both experiment and theory. Chemists use computational science to understanding chemical bonding on the atomic level as well as to work out the structure of viruses such as HIV.

Computational science plays a major role in modern industry. Modern airliners would not be possible with out detailed simulations of wing designs and the stresses on the airframe. Pharmaceutical companies use computational science to help speed up the discovery of new drugs. Tire manufacturers use computational science to design tires and to model how tires wear.

In medicine computational science is used to help decipher the human genome. In the humanities computational science is used for linguistic studies and for projects such as reassembling the Thera frescoes where computer algorithms are being developed to help match fragments of the frescoes (see http://gfx.cs.princeton.edu/proj/thera/ for details).

Success

To be successful in computational science you must like computers and mathematics and must also be knowledgeable about your own discipline. Increasingly computational scientists work in teams and increasingly these are multi-disciplinary.

Career

Computational scientists have a wide range of career options in industry, academia and the government. Studying computational science is an excellent way to increase your value on the job market.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The University of Cincinnati is one of the original members of the consortium of schools that make up the Ralph Regula School of Computational Science. This virtual school allows students to take courses not only at their home institution but also at other Ohio colleges and universities that are members of the consortium. Upon completion of the Ralph Regula curriculum students earn a board of regents certificate in computational science. The Ralph Regula minor/certificate in computational science is described in detail at http://rrscs.org/baccalaureate.

The University of Cincinnati has ties to the Ohio Supercomputer Center (OSC) and students have opportunities to run code on a supercomputer at OSC. In addition there are opportunities for collaboration with the Genomics Institute and the Computational Medicine group at Children Hospital.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Computational Science

Certificate

Certificate in Computational Science

Duration: 4 Years
★Minimum Credits: 26 Credits

Computational Science Certificate Requirements

This is a highly flexible 26 hour certificate that allows students to meet the requirements through their own discipline-specific courses. Offered in conjunction with the Ralph Regula School of Computational Science as a consortium member. All courses listed below (after Calculus) must be pre-approved by program director.

Course	Title/Desc	Credit
	One Computational Study course XXXXxxxx	3
	One Simulation and Modeling course XXXXxxxx	3
	One Numerical Methods course XXXXxxxx	3
	One Programming & Algorithms course XXXXxxxx	3
	One elective course XXXXxxxx	3
	One Capstone course (4000 level or above) XXXX4xxx	3
MATH1061	Calculus I	4
MATH1062	Calculus II	4

Programming and Algorithms

A first course on computational thinking, use of a programming language for problem solving, and development of algorithms. Courses must be pre-approved by program director.

Course	Title/Desc	Credit
1XXX+	XXXX1000	3

Simulation and Modeling

An introductory course on the use of models (continuous and discrete) and simulation in science and engineering. Courses must be pre-approved by program director.

Course	Title/Desc	Credit
1XXX+	XXXX1000	3

Numerical Methods

An applied introduction to use of numerical methods in solving linear and nonlinear equations, interpolation, numerical solution of differential equations. Courses must be pre-approved by program director.

Course	Title/Desc	Credit
1XXX+	XXXX1000	3

Capstone

Capstone course/project in physics, mathematics, chemistry, biology, etc. that has a computational emphasis. May also be a research project or internship where knowledge of computational science is applied. Courses must be pre-approved by program director.

Course	Title/Desc	Credit
4XXX+	XXXX4000	3

Electives

Courses must be pre-approved by program director.

Course	Title/Desc	Credit
1XXX+	XXXX1000	3

Computational Study

Discipline specific computationally oriented course. Courses must be pre-approved by program director.

Course	Title/Desc	Credit
1XXX+	XXXX1000	3

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Copyediting and Publishing

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

The Certificate in Copyediting and Publishing is designed for students interested in the production and delivery of both print and digital texts. Students who complete the certificate will earn a credential with easily recognizable value in the publishing world, preparing them to become skilled copyeditors, editorial assistants, and publishing professionals who can compete in a diverse local and national marketplace that includes editing opportunities in book publishing, literary and trade publications, online content editing, and corporate communications.

Success

In addition to Copyediting and Publishing, the English program offers certificates in Creative Writing, Professional Writing, and Medical Humanities; in Literary Journalism jointly with the Journalism program; and English courses play a role in the curriculum requirements of several interdisciplinary certificates, including Digital Engagement and Film & Media Studies.

Students who pursue a certificate in Copyediting and Publishing should desire to build on their strengths in writing, reading, and critical thinking. The undergraduate Copyediting and Publishing (CEP) certificate prepares you to work in a range of professional environments where close reading and editing skills are imperative to generating clear and effective communication. Courses in the program incorporate elements of textual, visual, and digital editing, literary and book publishing, and experiential learning opportunities as well as access to industry professionals.

Career

Intended to complement a Bachelor's degree with more specialized coursework, the certificate will communicate to potential employers students' readiness to meet the growing demand for editors in a variety of fields, genres, and professional contexts. Career opportunities include positions as digital editors, associate editors, copywriters, content strategists, and web content editors.

UC Advantages And Special Opportunities

In addition to studying specific strategies and skills in editing and publishing, you will gain valuable experience in the publishing industry through an internship. Additionally, the faculty in the program are all award-winning and experienced faculty who will provide individual attention to help you achieve your personal and professional goals.

Students in the College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Experiential learning

English students can intern with local businesses, nonprofits, university offices, state agencies, media outlets, and more, and earn college credit while developing reading and writing skills. Students can also gain valuable experience by taking research-intensive or service learning courses, by studying abroad, and by entering their work in the department's writing contest each year.

Our Copyediting and Publishing program takes an innovative approach to experiential learning that incorporates service learning through client-based projects and internships.

Renowned faculty

Faculty are experienced professional writers and editors with many years of experience in fields such as business, medicine and healthcare, science, technology, social sciences, and technical and environmental writing.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, then your certificate will be reviewed at the time that you submit your separate degree application.

ENGL3097	Book Arts (C- min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Creative Writing

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

The creative writing certificate is designed for students who wish to write poems, fiction, or nonfiction, to improve their writing and abilities through workshops taught by practitioners, and possibly to go on to graduate programs in creative writing and careers such as teaching and editing. The program is also designed for students who wish to broaden their perspectives of literature to include that of the writer.

Success

The English program offers certificates in Creative Writing, Copyediting & Publishing, and Professional Writing, and English courses play a role in the curriculum requirements of several interdisciplinary certificates, including Digital Engagement, Film & Media Studies, and Medical Humanities.

Students who pursue a certificate in Creative Writing should desire to build on their strengths in writing, reading, and critical thinking. The certificate is specifically designed for students who wish to explore the writing of poetry, fiction, and literary nonfiction; improve their editorial skills; and examine works of literature through the lens of craft. Students take a two-class workshop sequence, three additional creative writing courses, and an English elective; students are strongly encouraged to take a literature course for the elective.

Career

A certificate in creative writing helps to prepare students to work in such areas as advertising, copywriting, writing for television and cinema, arts administration, digital content creation, magazine writing and editing, information analysis, book publishing, law, education, and more.

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Publications and Organizations

English is home to an undergraduate journal, *Short Vine*, and the nationally prominent literary journal *The Cincinnati Review*. *Short Vine* is published by the George Elliston Poetry Fund and edited by English majors in an experiential class called Creative Writing & Literary Publishing. Creative Writing students are also welcome to join the Undergraduate English Society; the UES hosts and participates in events including roundtable discussions on graduate school, job fairs, film screenings, and outings to plays and readings.

Events

The Creative Writing Program's Visiting Writers Series brings a number of distinguished authors to campus each semester. Visitors often conduct a colloquium with creative writing students in addition to giving a public reading. Each year, through the Elliston Poet-in-Residence Program, a distinguished poet comes to campus to give public lectures and readings, and to conduct poetry seminars and workshops. The biennial Emerging Fiction Writers Festival brings four writers to campus for two days of readings and panels. Past visiting writers have included Rita Dove and Colson Whitehead.

Renowned faculty

Creative Writing faculty have collectively published dozens of books of fiction, poetry, literary nonfiction, and criticism. They have won awards from the National Endowment for the Arts, the Fulbright Program, and the National Book Awards program.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, then your certificate will be reviewed at the time that you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Creative Writing

Certificate

Creative Writing Certificate

Duration: 2 Years
★Minimum Credits: 18 Credits

One Introductory Course

Student must complete one of the following courses.

Course	Title/Desc	Credit
ENGL2010	Introduction to Creative Writing Multi: Poetry & Prose	3
ENGL2011	Introduction to Creative Writing: Fiction	3
ENGL2013	Introduction to Creative Nonfiction	3
ENGL2015	Introduction to Screenwriting	3
ENGL2017	Introduction to Creative Writing: Poetry	3
ENGL2027	Introduction to Creative Writing: Drama	3

One Forms Course

Students must complete one of the following.

Course	Title/Desc	Credit
ENGL3085	Forms of Poetry	3
ENGL3086	Forms of Fiction	3
ENGL3087	Forms of Creative Nonfiction	3

One Creative Writing Course 3000-Level or Higher

Student must complete one of the following courses.

Course	Title/Desc	Credit
ENGL3015	Poetry and Sound	3
ENGL3022	Writing Science Fiction and Fantasy	3
ENGL3023	Writing the Mystery	3
ENGL3025	Writing Historical Fiction	3
ENGL3026	Writing Fiction with a Global Vision	3
ENGL3027	Writing Comic Fiction	3
ENGL3030	Writing the Love Poem	3
ENGL3031	Persona Poems	3
ENGL3032	Music and Poetry	3
ENGL3033	Writing Prose Poetry and Flash Fiction	3
ENGL3034	Audiopoetics	3
ENGL3049	Creative Writing and Social Change	3
ENGL3053	Writing Fiction in the Digital Age	3
ENGL3054	Creative Writing Pedagogy	3
ENGL3055	Creative Writing from Real Life	3
ENGL3056	Writing Comic Poetry and Prose	3
ENGL3079	Creative Writing and the Environment	3
ENGL3096	Creative Writing and Literary Publishing	3
ENGL3101	Reading and Writing Memoir	3
ENGL3102	Podcasting and Audio Storytelling	3
ENGL3103	Creative Writing in the Community	3
ENGL3104	Poetic Justice: Exploring Agency, Ownership, and Responsibility in Performing Narrative	3
ENGL3105	Writing Landscapes: Poetry	3
ENGL3107	Creative Writing in Contemporary Contexts	3
ENGL4012	Intermediate Creative Writing: Fiction	3
ENGL4013	Intermediate Creative Nonfiction	3
ENGL4017	Intermediate Creative Writing: Poetry	3
ENGL5112	Senior Writing Seminar: Fiction	3 - 4

Additional Required Creative Writing Courses

Student must complete two additional courses for 6 semester credits. Choose any of the courses listed in Introductory, Forms or Creative Writing requirements that are not used to complete those requirements.

English Elective Course 2000-Level or Higher

Student must complete one 2000 Level or Higher English course -- cannot be ENGL2089 or its equivalent.

Course	Title/Desc	Credit
ENGL5113	Senior Writing Seminar: Creative Nonfiction	3
ENGL5114	Senior Writing Seminar: Creative Writing and Research	3
ENGL5115	Senior Writing Seminar: Hybrid Forms	3
ENGL5117	Senior Writing Seminar: Poetry	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Critical Visions

Duration: **2 Years** Total Credits: **23** Award: **Certificate**

Overview

The undergraduate critical visions certificate is a joint endeavor between faculty from the UC College of Arts and Sciences (A&S) and the College of Design, Architecture, Art, and Planning (DAAP). The cross-college curriculum will teach students how to effectively combine critical theory and social analysis with art, media and design practice and has two primary goals: (1) Increase students' understanding of what is at stake in how we see, including the social and political ramifications of advertising, art, media, popular culture and science, among other dominant and subversive visual forms and visualizing practices. (2) Develop new artistic, media or design forms and practices that will intervene in dominant ways of seeing and explaining the world.

Through core classes and approved electives, students will critically examine the relationships among power, image and imagination; situate and theorize vision alongside other modes of perception; and historically and cross-culturally explore a range of forms of seeing. Through studio and production courses they will learn to reflexively produce and rethink the ontology and epistemology of vision. More than just promoting a sophisticated, academic visual literacy, the certificate will enable students to actively engage, critique and reinterpret the visual objects and forms they encounter in their everyday lives.

In addition to core courses in anthropology and fine art, students will enroll in at least one studio course at or above the 2000-level from DAAP and between nine and twelve units of electives from across the two colleges. After fulfilling these requirements students will enroll in critical visions, where they will develop and execute independent projects organized around a critique of a dominant way of seeing. The goal of these projects, which will be sponsored by two core faculty members from opposite colleges, is to wed together the three core components of the certificate: critical theory, social analysis and art, media, or design practice. Ultimately, we envision having a student-edited art/media/design and theory journal, annual exhibition or virtual venue to display and circulate student projects, stimulating discussion and broad university engagement with their work.

Student Learning Objectives

1. Identify and describe the social and political ramifications of both dominant and subversive visual forms and visualizing practices such as advertising, art, media, popular culture and science, highlighting the relationship among image, imagination and power.
2. Using methods and theories from critical theory and social analysis, situate and theorize vision alongside other modes of perception, recognizing its historical, social and cultural contingency.
3. Using art, media, or design practice, gain a deeper understanding of how visual forms are produced while also becoming more reflexive and thoughtful in producing them.
4. Develop new artistic, media, or design forms that effectively combine critical theory, social analysis and creative practice to intervene in dominant ways of seeing and explaining the world.

Critical Visions

Certificate

Certificate in Critical Visions

Duration: 2 Years
Minimum Credits: 23 Credits

General Electives

Students must choose two courses from this list to satisfy the General Electives grouping requirement. Only one below the 2000-level may be applied toward the general electives requirement. There are options from both colleges. This is a provisional list of approved general electives. Additional courses will be added as they become available and are approved by the certificate core faculty. Upper-division courses may still require prerequisites. Students may petition the certificate co-directors to substitute other courses.

Course	Title/Desc	Credit
ENGL3038	Film Noir and Neo Noir	3
PHIL3050	Aesthetics	3
ENGL3035	The Films of John Huston	3
ENGC3091	Introduction to Film Studies	3
FAA1085	Current Arts Forum	3
PLAN1061	Understanding the Urban Environment	3
SOC3015	The Media and Society	3
ENGL3077	Visual Persuasion: Images in Culture and Practice	3

FAA3080	Visual Art Concepts 2	3

Studio

Students will take at least one studio and/or media production course at or above the 200/2000-level from the approved list below. While enrollment in the certificate program will provide access for A&S students to DAAP studios in Fine Arts, they will still need to seek instructor approval for logistical reasons. Intermediate and advanced courses, however, may still require prerequisites. This is a provisional list of approved studio courses open to A&S certificate students that will fulfill the studio requirement. Students may petition the co-directors of the certificate to substitute alternative studios, pending space and instructor approval. DAAP students may use any studio at or above the 200/2000-level from across the college to fulfill this requirement. As CCM is not a formal partner in this certificate, its studios are subject to space and instructor approval for certificate students.

Digital Engagement

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

The Digital Engagement Certificate is designed to give students a theoretical understanding and practical experience in the area of digital technology engagement, integrating technological skills and knowledge with digital literacy and digital competency.

Career

The need for professionals competent in both technology and communication is growing, particularly in the fields of public relations and digital engagement. Successful digital engagement is driven by a strong understanding of what makes a powerful narrative and how it is best repeated across audiences leveraging digital platforms; i.e. how to tell a story using words, images, or audio and an understanding of how to create content that draws an audience. In order to accomplish this, professionals must have knowledge and expertise in audience research and data mining, skills in writing and visual communication, an understanding of the impact of mediated communication, and technical skills such as web and mobile development. This combination of skills and knowledge has become an expectation of many traditional communication positions. Fortune 500 Chief Communication Officers report that hiring staff with skills in digital PR, storytelling and writing is a top priority (Chief Communications Officer's Role Expands as Social Media Threat Grows, *PR News*, 2015). This certificate allows students to increase their understanding and skills in these areas into a knowledge base well suited for careers within a wide range of IT and digital perspectives.

Directing for Film and Television

Duration: 2 Years Total Credits: 18 Award: Certificate

Overview

Now more than ever, the world needs content creators. This certificate will help students ranging from those who want to be film and television directors to students of of any major gain media production skills. For the aspiring filmmaker, they will leave having developed a body of work to begin their artistic career. For those looking to go into marketing, you will have the ability to produce commercials and media for advertising. For those going into other fields, media production skills will make you more employable in the professional world as media becomes an increasing part of all disciplines.

Success

Every piece of digital media that you watch, whether it is a film, series, commercial, web content, news article or more is the product of a director with a vision who saw it through! Look around you; you are surrounded by success stories every time you see a piece of digital media. Steven Spielberg was born in Cincinnati! There is no reason the next big director cannot be you!

Career

- Film Director
- Television Director
- Commercial / Advertising Production
- Film & Television Production
- Social Media Production
- A more employable member of any industry!

Curriculum

REQUIRED INTRODUCTORY CORE:

DMC 2050 Film Structures

DMC 2130 Introduction to Filmmaking

REQUIRED ADVANCED CORE:

DMC 3130 Advanced Film & Television Production

DMC 3175 Directing for Film & Television

REQUIRED ELECTIVES:

Select 9 credit hours of DMC electives from the following list (at least 1 must be 2000 level or above):

- DMC 1120 Introduction to Sound Production
- DMC 1126 Introduction to Cinematography
- DMC 1186 Introduction to Film Editing
- DMC 1055 Television Genres
- DMC 2002 Creativity and Ideation

Disability Studies

Duration: **1.5 Years** Total Credits: **18** Award: **Certificate**

Overview

Disability Studies centers the lived experiences of disabled people. It also emphasizes the role of the disability community in defining problems and evaluating solutions concerning disability experience, equity, access, and justice.

The premise of disability studies is that our culture's construction of disability as well as legal, social and institutional practices concerning disability have real-life and often negative impacts on people with disabilities. Moreover, barriers to equity and inclusion are not indicative of individual cognitive or physical "deficits," but of a collective moral deficit within society as a whole. Yet, while disability representations, metaphors, narratives, historical developments, laws, and other social phenomena may create or maintain barriers, disability identities, communities, values and aesthetics may be positive, empowering, and change-making.

Disability Studies scholarship and teaching enhance the understanding of disability by incorporating social, cultural, historical, legal, and political perspectives, including the connections between disability and other identities, and facilitating the development of practical skills, and fostering principles of advocacy and social justice.

The development of Disability Studies at UC represents a much-needed pro-active approach to addressing pervasive discrimination towards disabled people in our society and the celebration of disabled people, identities, and communities. Establishing a Disability Studies program acknowledges the University's commitment to this field of study and to research, teaching, and service.

Success

Students who pursue a certificate in Disability Studies may come from any degree-granting undergraduate major at UC. The certificate encourages students to think critically about disability as lived experience and as a cultural and historical construct. Students in this certificate explore issues in disability representation, disability identity, disability advocacy, and disablity experience, challenging models and assumptions about disability, and learning how to promote equitable change in the popular imagination, in the workplace, in the community, and in the world they live in.

Career

In the world in which we live, learn, work, and engage with one another in daily life, disability is a fact of the human experience, not the exception.

Still, assumptions about disabilities often overshadow equity and access for people with disabilities. Alongside popular "overcoming" narratives, historical and contemporary representations and social policy may reinforce stereotypes and barriers, often intersecting with racial, ethnic, class-based or other marginalizations. Moreover, advances in technology, developments of normative behavioral techniques, and a variety of legal challenges may obscure the lived realities of disability experience, and the social, cultural and professional barriers people with disabilities face. At the same time, the need for disability justice in a variety of professional spaces and social, cultural and educational institutions is acute.

This certificate helps students understand the experiential, ethical. historical, legal and other issues of ableism embedded in our cultural narrative and social and institutional structures and develop critical thinking and strategies for advocacy and change as they prepare for life in a variety of workplaces, public spaces, social institutions and domestic spaces.

The certificate is valuable for students preparing for a wide variety of professional careers in law, education, medicine, psychology, politics, social work, biomedical engineering, social sciences, narrative studies, nonprofit work, business, academia, and a variety of other arenas where advocacy and change-making are needed. It may also be included with the interdisciplinary studies (BIS), liberal arts (LARTS), or liberal arts: medicine, health and society (LART-MHS) degrees.

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The Disability Studies program brings distinguished authors and speakers from many disciplines to campus. Students are also invited to attend events and hear speakers within the disciplines that participate in the certificate program.

Admission Requirements

In order for students to achieve a certificate in Disability Studies, students must be matriculated at the University of Cincinnati in Arts and Sciences or any UC college granting associates' or bachelors' degrees.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, your certificate will be reviewed at the time that you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Disability Studies

Certificate

Disability Studies Certificate (Effective Fall 2024)

Duration: 1.5 Years
★Minimum Credits: 18 Credits

Required Courses (6 credits)

This certificate provides competency in disability studies perspectives and applications.

Required Courses

Take both required courses. Contact the certificate director to schedule your capstone. Both of these courses are offered online at least once a year.

Course	Title/Desc	Credit
ENGL2026	Intro to Disability Literature (C min)	3
ENGL5007	Disability Studies Capstone (C min)	3

Electives (12 credits)

For the certificate you must complete a total of 12 elective credit hours, at least 6 of which must be Core Electives.

Core Electives (offered at least once per year)

Take 2-4 of these courses. At least 6 of your required elective hours must be Core Electives. Core Electives are all offered online at least once per year.

Course	Title/Desc	Credit
ASL2003	Psychosocial Aspects of Deafness (C min)	3
ASL2004	Legal Issues in Deafness (C min)	3
ENGL3090	Literature and Medicine (C min)	3
PHIL2029	Medical Ethics (C min)	3

Electives

After completing 6 credits of Core Electives, the remaining required elective credits may come from the Core or General Elective lists.

General Electives

Take 0-2 of these courses to reach a total of 12 hours of electives. Note: some of the General Electives are offered less regularly or they may be offered in person only.

Course	Title/Desc	Credit
ANTH3074	Forms of Seeing (C min)	3
COMM2049	Communication & Social Justice (C min)	3
ENGL1026	Health, Well-being, and Happiness in Narrative, Communication and Culture (C min)	3
ENGL2006	Topics in Literature, Health, & Society (C min)	3
ENGL4006	Advanced Topics in Literature, Health, & Society (C min)	3
HIST3156	Nothing About Us Without Us: Disability in History (C min)	3
HPE1005	Mental Health Issues (C min)	3
PHIL3037	Philosophy of Mental Health and Disorder (C min)	3
POL1027	Social Justice, Change and Popular Culture (C min)	3
SPED1001	Individuals with Exceptionalities (C min)	3
SPED4013	Universal Design for Learning and Assistive Technology in Special Education (C min)	3
SPED4102	Engaging and Supporting Families with Members withDisabilities (C min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

European Studies

Duration: **1 Year** Total Credits: **24** Award: **Certificate**

Overview

European studies is a faculty-driven initiative of UC's College of Arts and Sciences (A&S) that provides opportunities for studying the multifaceted nature of a changing Europe - its history; its languages; its cultural, political, economic, and social fabric; and its borders. European studies not only offers courses at the graduate level but also as an undergraduate certificate.

European studies (EUST) was created in 2000 with the generous grant of $150,000 from the Charles Phelps Taft Memorial Fund as well as the support of the provost and the dean of Arts and Sciences. Since then, a collective of interested faculty from Asian, East European and German Studies (AEEG), Romance and Arabic Languages and Literatures (RALL), History, Geography, Political Science, English, Classics, Sociology, and other fields related to the study of Europe has developed a dynamic and growing program that has garnered highly competitive national and regional funding, including grants from the Ohio Humanities Council and the National Endowment for the Humanities.

We offer courses and certificates at the undergraduate and graduate levels. Our courses and other events are open to all who are interested in European studies.

Career

What are the benefits of earning a European Studies Certificate? The certificate is not only a great opportunity to enrich your knowledge and understanding of European history and culture. It is also an essential building block for advancing your professional career. Whether you are planning to join international companies in the fields of engineering, industry, or health, or are interested in journalism, inter-cultural communication, education, tourism and travel, museum culture, e-media, or environmentalism, a European Studies certificate will give you critical qualifications and help you stand out in the job market. It is also an indispensable foundation for graduate school in fields like languages & literature, history, political sciences & international relations, sociology, and the fine arts.

Film and Media Studies

Duration: **1.5 Years** Total Credits: **18** Award: **Certificate**

Overview

The UC College of Arts and Sciences' mission "to prepare students at all levels for a lifetime of learning," emphasizes creativity, communication, critical thinking and responsible living in community with others. Certainly the increasing significance of film and media today suggests that students of the future will be expected to create, understand, and control the uses of media, not only in the workplace, but in their private lives. Indeed, this demand for media literacy has only accelerated with social networking systems and global media outlets. To that end, a group of faculty representing several departments proposes an interdisciplinary certificate in film and media studies that draws upon the diverse programs within the college in order to meet the challenges in this area. Such a program demands a collaboration of faculty and students across traditional boundaries in accordance with the multiple constituencies created and sustained by these technologies.

Student Learning Outcomes

The student who earns a certificate in film and media studies will be able to:

1. Identify and describe major events, trends, and concepts of film and media history and film/media theories
2. Identify and describe major, canonical, or path-breaking films and media artifacts (i.e., television, on-line videos, video games) as well as major genres and authors, using the appropriate methods and tools of analysis and criticism
3. Articulate an awareness of trends in national, international, and third cinemas and media (i.e., artistic, financial, political)

Students complete the following 18 hours for this certificate:

Course	Title/Desc	Credit
	Four courses from three of the five groups below XXXXxxxx	12
COMM2026	Introduction to Mass Communication	3

Filmmakers and Movements

Students have to take 4 courses from at least 3 out of 5 groupings.

Course	Title/Desc	Credit
ENGL3035	The Films of John Huston	3
ENGL3078	The Films of Alfred Hitchcock	3

Genres

Students have to take 4 courses from at least 3 out of 5 groupings.

Course	Title/Desc	Credit
ENGL3038	Film Noir and Neo Noir	3
CLAS2011	Classics and Cinema	3
ENGL3037	American Literature and Film	3
ENGL3036	Classic Film Comedy	3
ENGL3039	Western Films	3

Media Studies

Course	Title/Desc	Credit
COMM4048	Media & Identity	3
COMM2028	Communication and Popular Culture	3
COMM4026	Media and Public Opinion	3
ANTH2072	Anthropology of Media	3
WGS2061	Gender in Popular Culture	3
ENGL2000	Digital Composing	3
WGS3072	Gender and Artistic Expression	3
COMM4029	Media and Technology	3
COMM2025	Introduction to Media Literacy	3

National, International & Third Cinemas

Students have to take 4 courses from at least 3 out of 5 groupings.

Course	Title/Desc	Credit
HIST3092	Modern China in Hollywood	3
AIST2083	Introduction to Asian Films	3
SPAN1055	Film & Culture in the Spanish-Speaking World	3
HIST3073	Cinema and Society in Britain 1930s-1960s	3
JUDC2072	Israeli Cinema	3
SPAN3032	Latin American Film	3
FREN3031	France on Screen	3
SPAN1085	US Latino Culture through Film	3
ITAL3031	Italian Film	3
SPAN3031	Spanish Film	3

Topics

Students have to take 4 courses from at least 3 out of 5 groupings.

Course	Title/Desc	Credit
HIST3030	African American History and Film	3
GEOL1014	Geology Through Film	3
JUDC2073	Film and Holocaust	3
HIST3085	Film and the History of World War II	3
ENGL2067	Topics in Film	3
POL3063	Politics on film	3
HIST4065	War and Film in History	3
JUDC2071	Jews in American Film	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

French

Duration: **2 Years** Total Credits: **21** Award: **Certificate**

Overview

Students pursuing the French certficate study the language, cultures, and literatures of France and other French-speaking countries throughout the world. The discipline is concerned with language as well as analysis. On a practical level, it facilitates international travel and communication. On a more abstract level, it points the way to a refined understanding of communication, writing, and culture.

Success

Having a talent for learning language is undoubtedly helpful for French majors, but anyone with discipline and curiosity can succeed in the field.

French Certificate Curriculum Guide

Advising

Contact the program director, whose name and information appear on the side of this page.

UC Advantages And Special Opportunities

The classes in French are small, which allows for more contact between students and teachers.

Students in UC's College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

- The program offers opportunities for study abroad and a program for a business French certificate.
- The French Club is a very active club that provides students an opportunity to get involved.
- Many of the courses can be applied toward the certificates in film studies and European studies.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using the Declare an Undergraduate Certificate online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing a bachelor's degree, your certificate will be reviewed at the time that you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

French/English Translation Studies

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

This certificate is a pre-professional program intended to provide students in French with an introduction to the methods and techniques, problems, technology, practical experience, and theory of translation of the written word. This certificate helps fulfill the need for basic education and training of translators for employment or to enable them to pursue more advanced studies.

Career

There is a steadily growing demand for translators. Careers are available in public and private sectors, including the medical field. According to the Bureau of Labor Statistics, U.S. Department of Labor: “Employment of interpreters and translators is projected to grow 19 percent from 2018 to 2028, much faster than the average for all occupations. Globalization and large increases in the number of non-English-speaking people in the United States will drive employment growth. Job prospects should be best for those who have professional certification.” (Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, Interpreters and Translators, on the Internet, April 2020)

Geographic Information Sciences

Duration: **1.5 Years** Total Credits: **12** Award: **Certificate**

Overview

The geography information sciences (GIS) certificate program is designed to meet the needs of both the novice, and experienced GIS professionals. Students who graduate from this program will have a solid understanding of the theoretical basis of GIS and rich hands-on experience with GIS software packages.

For more information on the Graduate GIS certificate program, visit the Geography Department's webpage.

Career

Geographers use a variety of tools, but much of their work revolves around developing and analyzing various forms of spatial data and information, with a special emphasis on satellite imagery, vector graphics, historical, and paper maps.

Possessing the ability to "think spatially," along with a diverse toolkit of quantitative and qualitative methods, geographers have a wide variety of employment options. Our alumni have taken positions in business, government agencies, academia, and non-profit organizations. The job market is especially strong for those with skills in Geographic Information Systems and Science (GIS).

German-American Studies

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

German-American studies is an interdisciplinary undergraduate program in the College of Arts and Sciences leading to the awarding of a certificate. It aims to familiarize students with all aspects of the history and heritage of the German immigration to the U.S., German-American culture and the immigrants' contributions to the American way of life. It examines the time when immigrants left their countries in Europe, what they left behind, and what the found and how they contributed to the United States.

Career

Curriculum

German-American Studies Certificate Curriculum Guide

Advising

Every student is assigned a faculty advisor from the program. The advisor aids in the planning of a meaningful course of study designed to meet the particular needs of the student. Advisors are responsible for monitoring the student's progress, as well as advising on course selections.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The German-American studies program at the University of Cincinnati is the only one of its kind in the U.S. The Library resources, based on the private library of Dr. H.H. Fick, who was head of the German bilingual program in the Cincinnati Public Schools before World War I, are outstanding. The German-Americana Collection, which is housed in Blegen Library, is one of the major collections of its kind. The published catalog of the collection provides access to 5,000 items of printed and unprinted sources, and is a major resource for students. It is especially strong for materials pertaining to history, literature and culture of the German influence in the Midwestern states. Supplementing these library holdings are several libraries in the Greater Cincinnati area.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

MEDS4050	Public Health and Infectious Diseases in Southern Africa	3
SPAN2011	Spanish for Social Work and Health Care Services	3

Group II: Ethics, Values, Cultural Competence
Take at least one course from this group. Students in the the College of Allied Health Sciences may substitute HLTH2011.

Course	Title/Desc	Credit
PHIL3028	Bioethics	3
POL2089	International Human Rights	3
JUDC3016	Jewish and Christian Bioethics	3
ANTH2079	Medical Anthropology	3
COMM3049	Intercultural Communication	3
COMM2021	Communication in Problem-Solving Groups	3
PHIL1099	Genetics and Bioethics	3
COMM2004	Communicating About Health, Environment and Science	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Heritage Studies

Duration: **1.5 Years** Total Credits: **21 - 22** Award: **Certificate**

Overview

The heritage studies program is designed to develop an appreciation for and a working knowledge of various anthropological issues and techniques. The certificate is awarded to undergraduate students upon the successful completion of required coursework, including a core curriculum of eight required courses, which includes an internship and a field course in archaeology. Those enrolling in the program pursue the certificate from the Department of Anthropology. The heritage studies certificate is offered both to students who are in the process of completing the requirements for an academic or professional degree, as well as to those who already hold bachelor's degrees. The certificate is not an accredited degree by itself, but offers a specialization to those earning other accredited degrees.

Success

While each branch of anthropology carries its own special techniques and required skill sets, certain attributes common to all will help a student succeed:

- open-mindedness and willingness to understand how other social and cultural systems work
- intellectual curiosity about human similarities and differences
- desire to find out how things actually are vs. how someone thinks they "oughta be"
- analytic ability and, for some branches, some quantitative and statistical skills
- verbal facility: ability to read carefully and write clearly and concisely
- desire to cultivate a disciplined imagination

Career

Graduates of this major pursue many different careers. They are employed as:

- Archaeologists
- Anthropologists
- Librarians
- Educators
- Diplomats

Graduates may work in research, evaluation or administration, at private or public archaeological firms, or in such specialized fields as medicine, epidemiology, law enforcement and linguistics.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Internships

Internships offer the opportunity to gain valuable hands-on, learn-by-doing experience in the practice of heritage studies. In consultation with the program advisor, students select a company, government agency, not-for-profit organization, museum or heritage foundation whose involvement in heritage studies best fits their interests and goals.

Internships require at least 90 hours of time that, ideally, is somewhat equally divided between instruction and practical application. In addition, the student is asked to submit a brief paper on the internship experience to the heritage studies program advisor, who may also seek an appraisal of the student's performance from the company, government agency, not-for-profit organization or museum.

There are three kinds of internships:

(1) Those with heritage studies or environmental engineering firms doing contract work.

(2) Those with museums, not-for-profit historic preservation organizations or local interest groups working on heritage studies issues (e.g., Archaeological Conservancy, Cincinnati Museum of Natural History).

(3) Those with federal, state, county or municipal government agencies engaged in heritage studies (e.g., National Park Service, USDA Forest Service, Bureau of Land Management, State Department of Highways, State Department of Natural Resources, State Historic Preservation Offices, etc.)

Interns are expected to immerse themselves as thoroughly as time and circumstances permit in the practice and processes of heritage studies. Interns should seek opportunities to observe and participate in as broad a range of heritage studies. There may also be particular needs on the part of those who sponsor internships or specific requirements of the program advisor, such as learning how to prepare archaeological site forms, Phase I, II and III compliance reports, and National Register of Historic Places nominations.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

ANTH3023	Ohio Valley Archaeology	3
ANTH2018	Archaeology of the Americas	3

Required Courses

9 credits of the following coursework.

Course	Title/Desc	Credit
ANTH1005	Introduction to Archaeology	3
ANTH3016	Public Archaeology	3
ANTH5020	Public Archaeology Internship	3 - 6

Archaeological Theory and Analysis

Take one of these in the culminating year.

Course	Title/Desc	Credit
ANTH6025	Archaeological Theory	4
ANTH4019	Formation Processes of the Archaeological Record	3
ANTH4020	Principles of Archaeological Analysis	3

Fieldwork

Complete one of these fieldwork courses. Students may substitute a non-UC field school course with permission of department.

Course	Title/Desc	Credit
ANTH4039	Field Research in Midwest Archaeology	3 - 6
ANTH4038	Field Research in Mesoamerican Archaeology	3 - 6
ANTH4037	Field Research in Southwest Archaeology	3 - 6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

International Human Rights

Duration: **1.5 Years** Total Credits: **18** Award: **Certificate**

Overview

The International Human Rights certificate is an interdisciplinary program that focuses on the wide array of issues – past and present – concerning the protection of human dignity. Approaching the study of human rights as an international phenomenon with local dimensions, the certificate urges students to think critically about human rights while preparing them for potential future roles in the field of human rights advocacy and beyond. The curriculum concentrates especially on international social movements, norms, laws, institutions, and politics that have developed over time to address such issues as genocide, poverty, torture, racism, refugees, political disenfranchisement, forced labor, environmental justice, oppression based on gender or sexual orientation, and other phenomena affecting human rights.

Success

Success as a student requires effective communication skills, both oral and written, and the ability to engage in critical thinking, self-discipline, maturity, people skills and information technology literacy. Competing human rights values pose ethical and policy dilemmas that must be resolved by clear moral reasoning. The most effective human rights advocates also have a strong commitment to the rule of law, a clear sense of justice, empathy for the oppressed, a solid grasp of history and commitment to public service.

Career

IHRC recipients have pursued a wide and fruitful array of paths. These include:

- graduate degrees in preparation for careers in law, education, science, health care, business, and public service.
- work in government agencies, including the Justice Department and Department of State.
- work in international intergovernmental organizations such as the United Nations and international courts.
- work in non-governmental organizations and institutions, such as Amnesty International, Human Rights Watch, Freedom House, and the Red Cross.
- work in the medical field, helping refugees and other dispossessed communities.
- work in private firms that specialize in representing victims of human rights.

In addition, graduates in other career paths may find their jobs involve human rights issues that arise in the workplace and/or in their volunteer community service activities and religious communities.

Minoring

A certificate in international human rights is an interdisciplinary credential comparable to a minor in an academic discipline, but UC does not offer either a major or a minor in human rights.

Curriculum

The certificate requires eighteen total credit hours, typically comprised of six courses, and the satisfaction of five thematic areas. Each thematic area is satisfied with the completion of one course. Since most students satisfy the five areas with a total of fifteen credit hours, they commonly take a sixth and final course as an elective, drawn from anywhere in the certificate course listings.

Click the curricular “Guide” just below for lists of eligible courses. Areas 1, 3, 4, and 5 each have a set list of eligible courses that align with the particular theme of each area. Students may furthermore petition the certificate director to have a course not already listed for Areas 3, 4, and 5 to satisfy one of those areas (as detailed in the guide below) if that course sufficiently aligns with the themes of the certificate. Area 2 works somewhat differently from the other areas in that, rather than choosing from a set list of courses, students engage in an immersive learning experience related to international human rights through either a senior research capstone in their major, an internship, or a study abroad course.

International Human Rights Certificate

Advising

Contact the program director, whose name and information appear on this page. See the Curriculum Guide for moments when you should contact the program director for advisement.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Certificate candidates occasionally have been invited to special events sponsored by the College of Law's Morgan Institute for Human Rights, including special dinners with distinguished visitors. Selected individuals have worked on the *Human Rights Quarterly,* a journal edited by the Morgan Institute. Others have had a range of study abroad and internship experiences as part of the program.

Admission Requirements

Students pursuing a degree at UC can add the certificate to their program by completing this online form. Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status. Once enrolled in the certificate, you should carefully review the Curriculum Guide below, which not only lists the courses you may take to satisfy certificate requirements but also indicates when to seek advisement from the certificate director.

International Student Requirements

Admission for this certificate program is limited to those that are currently in the United States, as this program is not available to pursue on a full time basis. No visas can be provided for this educational opportunity. The UC Admissions website provides information for international applicants.

Graduation Requirements

Periodically check your academic record to confirm that you are getting credit for the courses you have taken to satisfy the various certificate requirements, consulting with the certificate director if there are problems or questions. Assuming you are pursuing a bachelor's degree in addition to this certificate, then your certificate will be reviewed at the time that you submit your separate degree application to determine if you have satisfied all requirements.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

International Human Rights

Certificate

International Human Rights Certificate

Duration: 1.5 Years
Minimum Credits: 18 Credits

Area 1: Core Courses

Take one of these courses. If you take a second "core" course, you may count it toward your choice of Area 3, 4, or 5, but must consult the certificate director to have that second course applied to the appropriate area.

Course	Title/Desc	Credit
HIST3023	Human Rights and U.S. Foreign Relations, II	3
POL2089	International Human Rights	3

Area 2: Immersive Learning

Contact the certificate director to develop a plan for Area 2, which is satisfied through a more immersive learning experience than commonly offered through more traditional courses. Students may satisfy Area 2 through either a senior research capstone within their major (most common), an internship that earns(ed) course credit, or a course taken as part of an international study experience. Whichever learning experience is chosen, it must include attention both to international matters (not solely about N. America) and issues of human rights, broadly construed.

Area 3: Political, Legal and Historical Perspectives

Take one of these courses. If you want to take a course that is not listed below but you believe is thematically relevant to this area, petition the certificate director with a detailed description of the course drawn from the course catalog or syllabus.

Course	Title/Desc	Credit
AFST2061	African History II: The Rise of Globalization and Africa, 1860 to Present	3
AFST2081	Colonialism, Nationalism and Post-Colonial West African States	3
AFST3062	History of South Africa	3
HIST1089	Human Rights & Security: Seeking Balance in a Free Society	3
HIST1150	War, Peace, and Society	3

Elective Courses

Any courses taken in an area that has already been satisfied will be considered electives, with their credit hours counting toward the overall required credits for the certificate.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Italian Language and Culture

Duration: **2 Years** Total Credits: **14 - 18** Award: **Certificate**

Overview

The Italian Certificate is an interdisciplinary program that explores the language, cultures, economics, history, geography, and politics of Italy. Students may also study abroad in Italy.

Success

Students in this program usually possess strong verbal skills, some facility with languages and a desire to travel and interact with other cultures. Success factors include a disciplined attitude, willingness to participate in class, regular exposure to the language.

Career

- International studies/business
- Communications
- Global manager
- Translator
- International affairs
- Interpreter
- Educator
- Government agencies

Japanese Language and Culture

Duration: **2 Years** Total Credits: **20** Award: **Certificate**

Overview

Asia is gaining increasing economic and strategic prominence in the world, and Asian countries have rich and fascinating cultures and heritages. Asian studies is an interdisciplinary program that explores the languages, cultures, economics, history, geography and politics of Asian countries. Students may also study abroad in Asia, pursue internships and apply for fellowships.

Students completing the certificate in Japanese language & culture will achieve advanced language proficiency, which is to say that they can handle linguistic challenges successfully and with ease.

Students will develop open-mindedness and an understanding of Japanese society and its culture.

Students will exercise critical thinking and analytical skills while integrating cultural activities and linguistic analysis into language study.

Career

American businesses, governmental and nongovernmental organizations are deeply involved in Asia, yet there are not enough American professionals who are knowledgeable about the region. A minor or certificate in Asian studies makes students highly sought in an increasingly global marketplace. In addition to being well-prepared for graduate school, graduates of the program have gone on to pursue careers such as:

- Teaching in Japan or other Asian country
- Working with U.S. firms interested in Japan
- Research and analysis

Journalism

Duration: **1.5 Years** Total Credits: **21** Award: **Certificate**

Overview

Journalism is both an interdisciplinary field and a distinct knowledge base for the critical study of media and related issues, and the development of writing, editing and observational skills in a liberal arts curriculum. An intellectual review of traditional disciplines and their biases is intrinsic to journalism studies. As such, journalism teaches critical thinking on two different levels: by questioning the view from the center (theories, methods and practices) in any given field or endeavor, and by evaluating and clearly and publicly expressing these views and concerns to either specific or mass public audiences.

Success

Successful journalists are curious about people, cultures and science, about how political and economic systems work and do not work. They are critical thinkers who know how to observe, listen and ask questions. They are skilled writers, editors and visual communicators. The foundation for a successful career in journalism is a strong liberal arts education.

Career

Graduates with a certificate in journalism from College of Arts and Sciences (A&S) are better prepared for many different career options, including:

- Writer
- Reporter
- Analyst
- Correspondent
- Editor for magazines, newspapers and the electronic media
- Corporate writers
- Public relations

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

A unique characteristic of the journalism program is the university's urban environment. The city and neighborhoods become the classroom. The judicial, legislative and executive branches of government are available for real-life reporting experiences. Student journalists can readily cover business, industry, education, medicine, college/professional athletics and the arts in a metropolitan area.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Latin American, Caribbean, and Latino/a/x Studies

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

Why Study LACLS?

Latin America and the United States have always been intertwined – through people, politics, economies, cultures, and environments. Those historic connections will only intensify in future years in an increasingly globalized world. Today, the diverse and growing Latino/a/x community represents almost 20% of the total U.S. population, with new growth concentrated in the South, Midwest, and Northeast. Understanding Latin American, Caribbean, and Latino/a/x cultural perspectives, language, and history is increasingly vital for students pursuing careers in education and social work, medicine and public health, business and marketing, human resources, law and advocacy, and politics and international relations. As an interdisciplinary program with over 20 faculty across multiple departments and colleges, LACLS provides students with a flexible curriculum tailored to their interests and a broad range of valuable skills and knowledge.

Success

LACLS certificate students must possess intellectual curiosity and an open appreciation for the diversity of human experiences and cultures. Students usually have some facility with language and an interest in travel and learning about other societies. Majors will develop transferrable skills such as critical thinking and analysis, evaluating evidence and making arguments, clear verbal and written communication, and research.

Career

In addition to being well prepared for graduate, law, or medical schools, graduates of the LACLS program pursue careers in:

- Teaching & Education
- Medicine & Public Health
- Public Policy & Advocacy
- Law and Legal Aid
- Business/Marketing
- Human Relations
- Foreign Service
- Social Work

Curriculum

A LACLS Certificate resembles the Minor, but is designed for non-matriculated students. The certificate consists of 18 credit hours and a flexible curriculum which can be tailored to student interests and professional goals. The Minor's flexibility allows students to design programs of study that best prepare them for their unique professional goals.

1. Required (6 Credit Hours)
    - History 1020/LAS 2001 -- Latin American History/Intro to Latin American Studies
    - Applied Skills Course (Language, Methods, Service Learning, Practicum, depending on Concentration, for example Span 2015 or 2016, Span 1025 for Educators, Anth 4072 Ethnographic Methdos, Soc 3022 Methods in Social Research)
2. Anthro, History, Geography, and/or Politics (3 Credit Hours)
3. Language, Literature, and/or Gender Studies (3 Credit Hours)
4. Electives (6 Credit Hours drawn from Categories 2, 3, and/or Partial Coverage Courses)

Special Programs

Study Abroad

Studying Abroad offers students an opportunity to practice and learn language skills in real world settings and to explore Latin American societies and cultures first hand. UC offers multiple opportunities for students to Study Abroad in Latin America, including Exchange Programs, Faculty-Led Programs, External Programs, and Co-Op Programs. Visit UC International for more information.

UC also offers students opportunities to live and work in Latin America through the Go Global Career Education program. This program helps students find International Co-ops, Study Tours, and International Experiences as well as explore funding opportunities.

Internship Opportunities

Internships prepare students for professional success by providing valuable work experience, skills, and networking possibilities. LACLS students are encouraged to work in at least one internship. Academic credit can be obtained, including credit for the Capstone Requirement, with prior permission from the LACLS Program Director. On completion of the internship, the workplace supervisor must submit a letter of evaluation to the LACLS Program Director.

See UC Internships for more information

INROADS provides competitive scholarships to off pay for internships.

Service Learning Opportunities

The Department of Romance Languages and Literatures offers several programs for service learning opportunities in which students interact with various communities while using their language skills. For more information see

Research

Research experience is especially important for students interested in pursuing graduate study as well as students interested in a variety of professional fields such as marketing and public policy. For more information about undergraduate research and competitive grants to fund research projects, see UC Undergraduate Research and Taft Research Center Student Awards

Admission Requirements

Freshmen applicants, please visit the Admission Requirements page for more information.

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Transferring To UC

Admission to A&S is generally available for any off-campus student who was admissible directly from high school and has 2.0 GPA cum and a 2.0 in the most recent institution.

Students who were not admissible directly from high school must have:

- 24 semester (36 quarter) hours earned
- at least a 2.0 GPA cumulative

For more information, Pathways Advising and Student Success

Transfer students should apply using our transfer student online application

Changing Majors Within UC

Admission to A&S is generally available for any on-campus student who was admissible directly from high school and has 2.0 GPA cum.

Students who were not admissible directly from high school must have:

- 24 semester (36 quarter) hours earned
- at least a 2.0 GPA cumulative

International Student Requirements

Visit UC's International Admissions page for undergraduate students.

Application Deadlines

While midyear admission is possible, fall semester is generally the best time to enter the college, since many course sequences begin in that semester. Applicants to the UC College of Arts and Sciences who are enrolled or who were previously enrolled as degree-seeking students in A&S or in other UC colleges should apply for admission directly to A&S (in French West, 2nd Floor). All other applicants who wish to earn an undergraduate degree from A&S should apply through the Office of Admissions (3rd Floor, University Pavilion).

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Legal Studies

Duration: **2 Years** Total Credits: **18 - 24** Award: **Certificate**

Overview

Law is an integral part of all facets of our society. Students will benefit from learning about law, the governmental institutions where law is created, the impact of law on our economy and other aspects of our society, and the legal profession. The certificate will be valuable for students who will pursue careers in which knowledge of law will benefit them, such as business, journalism, criminal justice, medicine, engineering, product design, and many other careers.

Further, this certificate program will benefit students considering attending law school.

Students should review and declare the certificate early (2nd or 3rd year) to enable flexibility in scheduling options.

Success

The Legal Studies certificate develops the strong analytical skills necessary for interpreting and evaluating arguments that can be applied in a variety of professional settings. Legal Studies students have a passion for how the law impacts different populations and our communities. Through in-class discussion and hands-on experiential learning opportunities, students work with award-winning faculty across the university to apply their knowledge and skills to real-world problems that relate to law. These unique experiences make them strong candidates for employment in government, private businesses, and the non-profit sector, as well as candidates for Law school and other graduate programs.

Career

The certificate will be valuable for students who will pursue careers in which knowledge of law will benefit them, such as business, journalism, criminal justice, medicine, engineering, product design, and many other careers.

Legal Studies Certificate Curriculum

Advising

The College of Arts and Sciences provides advising to all A&S students to advance each individual student's educational goals and plans.

For further information, please contact the SPIA program director, whose name and information appear on this page.

The School of Public and International Affairs faculty provide advising about course content, specific program requirements, professional opportunities, and post-baccalaureate education. Faculty advisors and office hours are provided on the SPIA website.

UC Advantages And Special Opportunities

Students in UC's College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students admitted to this certificate must be in good academic standing and have a minimum 2.0 cumulative GPA from all colleges attended.

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

International Student Requirements

Admission for this certificate program is limited to those that are currently in the United States, as this program is not available to pursue on a full time basis. No visas can be provided for this educational opportunity. The UC Admissions website provides information for international applicants.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

LGBTQ Studies

Duration: **1 Year** Total Credits: **15** Award: **Certificate**

Overview

This certificate explores the experiences, identities, and cultural and political contributions of LGBTQ people in the US and around the world. Students will learn LGBTQ Studies concepts, vocabulary, and major theories, examine concrete, local, and global social justice issues, and even have the opportunity to complete an optional internship experience.

Career

This certificate will help prepare students to bring historical, cultural, and theoretical knowledge of LGBTQ identities and experiences into their field.

Majoring

This certificate is compatible with any major at the university.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Major Map Versions:
LGBTQ Studies Certificate - effective fall 2025

Advising

If you have questions, please contact the certificate director. You can find their information on the certificate page.

UC Advantages And Special Opportunities

Students completing this certificate will have the opportunity to take classes from nationally and internationally known scholars in the field of LGBTQ studies.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Transferring To UC

Any transfer credits will have to be approved by the director of the certificate, Carolyn Peterson, at Carolyn.Peterson@uc.edu.

WGS4039	Queer of Color Critique	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Literary Journalism

Duration: **1 Year** Total Credits: **15** Award: **Certificate**

Overview

This certificate will teach narrative journalistic writing techniques, reporting and research skills, and in-depth storytelling strategies to students interested in pursuing opportunities in literary journalism. The primary target is undergraduate writers (of any discipline, but drawing heavily from Journalism and English) seeking to enhance their nonfiction writing skills to include more advanced journalistic techniques. This certificate will also be available to non-matriculating students who might be aspiring or mid-career writers, journalists, authors, writing instructors and/or researchers who are interested in contributing to magazine-style or literary journalism outlets or pursuing book-length nonfiction projects.

Success

Tomorrow's nonfiction storytellers need a polished set of advanced writing and reporting skills to successfully engage in deeper information dives than the standard "who, what, when, where and why" of fast-paced news coverage, as they tackle some of society's most compelling, troubling and important topics in their writing pursuits. This kind of reportage requires a well-developed set of writing, research, interviewing and storytelling skills that draw from the disciplines of journalism and creative nonfiction. UC is uniquely equipped to offer such a cross-disciplinary writing curriculum, thanks to the strengths of its award-winning faculty in the Journalism and English/Creative Nonfiction writing programs.

Career

This certificate will provide undergraduate students in Journalism, English and other disciplines with a competitive advantage through the critical study and practice of in-depth narrative writing, reporting and research methods. While this certificate has potential to steer students toward careers in journalism (especially magazine-style reporting) or nonfiction writing, it also serves to enrich students' intellectual experience as an end in itself, providing valuable skills in professional research, writing and critical thinking. As journalistic platforms change to meet the needs of new audiences and ever-changing methods of delivery, in-depth reporting and storytelling is more relevant, more important and more necessary than ever. This certificate will prepare aspiring journalists and nonfiction writers for opportunities in writing and publishing longform journalism, while also enhancing their personal and intellectual development through their literary journalism/nonfiction writing pursuits.

Advising

The primary advising point person for this certificate is Jenny Wohlfarth in the Department of Journalism (Jenny.Wohlfarth@uc.edu).

UC Advantages And Special Opportunities

UC's urban campus lends itself to great storytelling and reporting opportunities for UC students. The award-winning faculty in Journalism and English who teach the courses in this certificate bring real-world experience to the classroom and provide professional connections to students who are pursuing internships and jobs in this field. The optional internship course (JOUR-5050) that students pursuing this certificate may choose as an elective can provide them with experience working at a magazine or other publishing company to strengthen their professional skills and employability after graduation.

Also, students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban location offers exciting opportunities for global education (including faculty-led study abroad programs), internships, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Courses included in this certificate offer experiential, hands-on learning opportunities that can include faculty-led study-abroad opportunities, service-learning opportunities, and an optional internship experience. Students pursuing this certificate can intern with magazines, news organizations, digital-only publications, non-profit organizations and legacy publishing companies. UC students can also gain valuable experience by taking research-intensive or service learning courses, by studying abroad, and by submitting their work to student-run publications on campus.

Admission Requirements

There are no special admissions criteria for this certificate. Any student enrolled at UC (matriculating or non-matriculating) can pursue the Certificate in Literary Journalism. However, students pursing this certificate must earn a minimum grade of C- in a course in order for it to count toward the certificate for graduation/completion. This applies to required courses and electives in the certificate curriculum.

Students who are already pursuing a degree in any college at UC can add the certificate to their program. They must submit a declaration of the certificate program using our online form.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Students who are pursuing a degree at UC will need to designate this certificate as part of their degree program when they apply for graduation.

Application Deadlines

There is no application deadline to pursue this certificate; enrollments are accepted throughout the academic year. Students must declare the Certificate using this online form. Students who plan to graduate with this certificate must follow UC's guidelines for graduation applications.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Literary Journalism

Certificate

Literary Journalism Certificate Curriculum

Duration: 1 Year

★Minimum Credits: 15 Credits

Requirements Overview

A total of 15 credits with a minimum 3.0 GPA is required. Students must earn a C- or above in a course for it to count toward the certificate. Four courses (JOUR3075, JOUR4015C, ENGL2013 and ENGL3087) and one elective option (see list) are required for this certificate. Although not required, it is highly recommended that students complete the composition sequence (ENGL2089: Intermediate Composition or equivalent) prior to beginning coursework for the certificate. An internship is not required for this certificate, but students may opt to do one through the JOUR5050 Internship course elective. (C- min)

Required Courses

Complete all four courses listed below.
12 total credits.

Course	Title/Desc	Credit
JOUR3075	Magazine Writing (C- min)	3
JOUR4015C	Advanced Magazine Writing (C- min)	3
ENGL2013	Introduction to Creative Nonfiction (C- min)	3
ENGL3087	Forms of Creative Nonfiction (C- min)	3
	Total Credits	12

Elective Course

Complete at least one of these courses.
Earn a minimum total of 3 credits.

Course	Title/Desc	Credit
JOUR3025	Arts Reporting (C- min)	3
JOUR3030	Sports Reporting (C- min)	3
JOUR3040	Environmental Journalism (C- min)	3
JOUR3045	Travel Writing (C- min)	3
JOUR3050	Science/Nature Writing (C- min)	3
JOUR4080C	Practicum (C- min)	1 - 3
JOUR5050	Internship (C- min)	3
JOUR5060	International Field Study in Journalism (C- min)	1 - 3
JOUR5110	Independent Study (C- min)	3
ENGL3055	Creative Writing from Real Life (C- min)	3
ENGL4013	Intermediate Creative Nonfiction (C- min)	3
ENGL5114	Senior Writing Seminar: Creative Writing and Research (C- min)	3
	Minimum total credits	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Mathematics

Duration: **2 Years** Total Credits: **24** Award: **Certificate**

Overview

Mathematical sciences include the disciplines of pure mathematics, applied mathematics and statistics. Mathematicians and statisticians use representations of abstract ideas and relationships to solve problems, in order to arrive at a general understanding of how these representations work, as well as how they could be applied. Mathematical sciences majors learn complex analytical and problem-solving skills while exploring a range of mathematical topics and problems. The certificate allows those in other disciplines to have a concentration in the mathematical sciences in an intentional way, short of a double major or dual degree.

Success

The field of mathematical sciences is quite diverse, so success factors tend to vary. Certainly, good reasoning skills and logical thinking, along with the ability to communicate abstract concepts are important. Mathematicians enjoy challenging problems and find it difficult to stop working on a problem until they arrive at a satisfactory solution.

Career

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Major Map Versions:
Certificate in Mathematics

Admission Requirements

Readiness to take Math 1061 or higher level math courses as evidenced by prior coursework, advanced standing credits, or placement test. The certificate has a residency requirement. Students must earn a minimum of 9 credits in the College of Arts and Sciences at UC. Of these, a minimum of 6 credits toward the certificate must be at the 2000-level or higher.

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, your certificate will be reviewed at the time that you submit your separate degree application.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Medical Humanities

Duration: **1.5 Years** Total Credits: **18** Award: **Certificate**

Overview

Medical humanities lie at the intersection of human experience, medical and health care practices, scientific technology, and political, educational, and social institutions. It refers to the interdisciplinary and multi-disciplinary application of the humanities, creative arts, education, and social sciences concerning medicine and health care. It provides insight into the human condition, suffering, personhood and our responsibility to each other. It also helps us understand how health and well-being take place within cultural and social contexts and how culture interacts with the individual experience of illness in the way medicine and health care are practiced.

Success

Students who pursue a certificate in Medical Humanities should desire to build on their strengths in reading, writing and critical thinking, as course work in this field will help them understand the developments, ideas, and even challenges and limitations of medicine and health care systems in social and cultural context. The certificate is specifically designed for students who approach medicine from the interdisciplinary perspectives of humanities, education, creative arts and social sciences. The certificate in Medical Humanities is ideal for students interested in cultural and social understandings of health, the body and medical care. The certificate encourages students to engage with views of health and medicine as lived experience and as cultural and historical product and process as well as a body of scientific and technical knowledge.

For this 15-credit certificate, students take a Literature and Medicine course and choose electives from various departments, among them Anthropology; History; Classics; Women's, Gender and Sexuality Studies; Communication; and Special Education; as well as various tracks in English.

Career

A certificate in medical humanities is a useful credential for students interested in medicine, health, human experience, culture and society. Historic developments, cultural beliefs and practices, medical education and theory, legal and social structures, medical institutions, and personal attitudes and approaches all affect well-being of individuals and communities. Amidst advancements and institutional and global restructuring in our contemporary world, it is clear that health challenges for individuals and communities transcend the deep scientific knowledge domains of traditional academic disciplines designed for the purpose of health care, and that the need for professionals who can synthesize the ethical, social, cultural and experiential aspects of health and well-being continues to grow. In our world, where advances in science and technology often outpace our ability to understand and cope with new concepts and situations, the need for deep grounding in medical humanities is particularly acute for new professionals. The certificate is valuable for students preparing for careers in health professions and for all students interested in examining an important part of human experience from multiple perspectives.

Medical Humanities

Certificate

Medical Humanities Certificate

Duration: 1.5 Years
Minimum Credits: 18 Credits

Medical Humanities required and elective courses:

Medicine is a compassionate art as well as a science. This certificate provides students with competencies in the humanities and social sciences related to health and healing.

Required Course

This required course, Literature and Medicine, is offered face to face in fall and online in spring.

Course	Title/Desc	Credit
ENGL3090	Literature and Medicine (C min)	3

Core Electives

Take at least one and up to five of these core electives. For this certificate, overall, you are required to take at least five electives for a total of at least 15 credit hours. At least three of these credit hours must be from the "core electives" category. The remaining 12 elective credit hours can come from either core electives or general electives in any cluster.

Course	Title/Desc	Credit
ANTH2079	Medical Anthropology (C min)	3
CLAS2031	Greek and Latin Elements in Medical Terminology (C min)	3
HIST3155	Nazi Medicine (C min)	3
PHIL2029	Medical Ethics (C min)	3
NM1001	Introduction to Narrative Medicine (C min)	3
NM2001	Narrative Medicine Capstone (C min)	3
RELG3019	Suffering and Death (C min)	3
SOC3090	Sociology of Health and Illness (C min)	3
WGS3071	Gender and Health (C min)	3

General Electives, Cluster III: Language, Culture and Career Development Electives

Take any number of credits from 0 to 12 from these general electives, cluster III. For this certificate, overall, you are required to take at least five electives for a total of at least 15 credit hours. At least three of these credit hours must be from the "core electives" category. The remaining 12 elective credit hours can come from either core electives or general electives in any cluster. General electives, cluster III are less common electives.

General Electives, cluster I

Take any number of credits from 0 to 12 from these general electives, cluster I. For this certificate, overall, you are required to take at least five electives for a total of at least 15 credit hours. At least three of these credit hours must be from the "core electives" category. The remaining 12 elective credit hours can come from either core electives or general electives in any cluster.

Course	Title/Desc	Credit
AFST3055	Diversity and Health (C- min)	3
ASL2003	Psychosocial Aspects of Deafness (C- min)	3
ASL2004	Legal Issues in Deafness (C- min)	3
CLAS3021	Sex and Gender in the Ancient World (C- min)	3
CLAS3031	History of Medicine (C min)	3
COMM2004	Communicating About Health, Environment and Science (C- min)	3
ENGL1026	Health, Well-being, and Happiness in Narrative, Communication and Culture (C- min)	3
ENGL2006	Topics in Literature, Health, & Society (C- min)	3
ENGL3062	Scientific Writing in the Behavioral Sciences (C- min)	3
ENGL3083	Environmental Health Literature (C- min)	3
ENGL3117	Gothic Literature (C- min)	3
EUST2050	Vampires, Monsters, and Monstrosity (C- min)	3
MEDS4051	Introduction to the HIV/AIDS epidemic (C- min)	1
PHIL3029	Philosophy of Disability (C- min)	3
PHIL3037	Philosophy of Mental Health and Disorder (C- min)	3
PSYC3011	Health Psychology (C- min)	3
PSYC3034	Diversity and Health (C- min)	3

More General Electives, cluster II

Take any number of credits from 0 to 12 from these general electives, cluster II. For this certificate, overall, you are required to take at least five electives for a total of at least 15 credit hours. At least three of these credit hours must be from the "core electives" category. The remaining 12 elective credit hours can come from either core electives or general electives in any cluster.

Course	Title/Desc	Credit
BIOL1006	Power of Plagues (C- min)	3
COMM4066	Communication and Health Politics (C- min)	3
COMM5004	Health Communication (C- min)	3
ENGL1006	Freshman Seminar in Medical Humanities (C- min)	3
ENGL3190	Narrative in Medicine (C min)	3
ENGL4006	Advanced Topics in Literature, Health, & Society (C- min)	3
HIST2067	Drugs in the Americas and in Global Perspective (C- min)	3
HIST2068	Home Grown: The History of Marijuana in Mexico (C- min)	3
HLTH3099	Case Studies in Interdisciplinary Health Care (C- min)	3
HPE1004	Introduction to Epidemiology (C- min)	3
HPE1005	Mental Health Issues (C- min)	3
NBSN3090	Global Health (C- min)	3
PHIL1089	Sex and Death (C- min)	3
POL5189	The Politics of Humanitarian Intervention (C- min)	3
SOC3001	Sociology of Food (C- min)	3
SOC3032	Body and Society (C- min)	3
WGS2011	Psychology of Gender (C- min)	3
WGS2080	Global Monsters (C- min)	3
WGS3000	Reproductive Politics and Justice (C- min)	3
WGS3011	Advanced Human Sexuality (C- min)	3

Course	Title/Desc	Credit
ASL1001	Beginning American Sign Language I (C- min)	3
ENGL5009	Study Abroad for English Majors (C- min)	3
ENGL5006	Medical Humanities Capstone (C- min)	3
ENGL5007	Disability Studies Capstone (C- min)	3
HLTH5142	International Experience in Healthcare (C- min)	2 - 3
HPE4173C	Study Abroad in Health Promotion and Education (C- min)	3
JUDC3050	Judaic Studies Study Tour (C- min)	3
JOUR5060	International Field Study in Journalism (C- min)	2 - 3
MEDS4050	Public Health and Infectious Diseases in Southern Africa (C- min)	3
MEDS4052	Medicine and Public Health at Chongqing Medical University (China) (C- min)	3
MEDS4054	Exploring Public Health in Ghana (C- min)	3
MEDS4055	Intensive Medical Spanish and Latino Health (C- min)	3
MEDS5050	Health & Community: Service-Learning Capstone 1 (C- min)	3 - 6
PD2065	Social Justice Awareness and Global Health Experiences (C- min)	3
SPAN2011	Spanish for Social Work and Health Care Services (C- min)	3
SPAN3052	Service Learning: Medical Spanish (C- min)	3 - 6
WGS5113	WGSS Study Abroad (C- min)	2 - 4

Course	Title/Desc	Credit
RELG2037	Demons in the Bible and Related Texts (C- min)	3
RELG3019	Suffering and Death (C- min)	3
SOC2035	Sociology of Reproduction (C- min)	3
SOC2073	Drugs and Society (C- min)	3
SW4157	Loss and Grief (C min)	2
WGS2010	Human Sexuality (C- min)	3
WGS3045	Women and Witchcraft (C- min)	3

Course	Title/Desc	Credit
WGS3070	Women in Science (C- min)	3

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Mediterranean Archaeology

Duration: **2 Years** Award: **Certificate**

Overview

Set between three continents, the Mediterranean Sea was a crucible of different ancient cultures, including the Greek, the Roman and the Egyptian civilization, which have had a strong impact on the modern world. The new certificate in Mediterranean Archaeology will enable students to study the ancient Mediterranean and develop a critical understanding of the archaeology of the many cultures that flourished on its coasts from the Stone Age to the fall of the Roman Empire. The certificate will draw from the exceptional breadth and depth of research and teaching expertise in this field available in the Department of Classics, and also in the Department of Anthropology, and make use of the unique resources of the Burnam Classical Library and the antiquities collection of the Department of Classics. It will also offer opportunities for collaboration with the Hebrew Union College, the Cincinnati Art Museum and the Cincinnati Museum Center.

Students from the UC College of Arts and Sciences and other colleges in the University attracted to this certificate will learn about the arts and monuments of the ancient Mediterranean, the emergence and collapse of early states, and economy and exchange in the ancient world. They will also develop an understanding of the methods and techniques used by archaeologists in studying these finds and reconstructing ancient civilizations. Additionally, they will be exposed to diachronic and comparative perspectives on ancient culture and learn to appreciate the relevance of the exploration of antiquity to the shaping of the modern world.

Career

The program is not targeted to any one employment outcome but will serve some students as a gateway to other programs targeted to employment outcomes in museum studies, field archaeology, classics, ancient history, and history more generally.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Middle Eastern Studies

Duration: **1 Year** Total Credits: **15** Award: **Certificate**

Overview

The Middle East is the cradle of the three monotheistic religions. It also has some of the world's greatest archeological and religious sites. It is the locus of two thirds of the world's known oil reserves. Events in the Middle East affect our daily lives. The Middle Eastern studies curriculum enables students to gain insights into the cultural, religious, and political forces that motivate the inhabitants of this vital region of the world.

The Middle Eastern studies program trains students to develop an understanding of cultural institutions and their influence on contemporary world affairs; to explore the concepts of conflict, security, and peacemaking and to examine complex public issues vital to informed citizenship; and to develop informed beliefs and knowledge about other nations or cultures. The curriculum in Middle Eastern studies draws on a number of existing courses at UC. In addition, students will be strongly encouraged to take courses in Middle Eastern studies and languages offered at any of the many reputable American (for example, Georgetown University, Washington DC), European (for example, SOAS, London), and overseas institutions. Students will be assisted in (1) identifying and applying to institutions where courses are offered that fulfill and enrich the programmatic requirements of the Middle Eastern studies certificate and (2) seeking financial support available from a variety of sources, for example, the UC Office of International Programs, Taft Foundation, private organizations, and federal agencies to enroll in a study abroad program, for example, in Istanbul, Jerusalem, Cairo, Damascus, Dubai, Beirut, Fez, Amman, or Sanaa.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tri-state location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Please make sure that you have declared the certificate program online. Next, ensure the certificate program director is aware of when you are finishing the program. If you are pursuing a bachelor's degree, your certificate will be reviewed at the time you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Minority Health

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

Continuing demographic change in the United States makes it essential that healthcare professionals and public health and human services workers are able to understand the cultural, social and political factors and issues impacting the health of minority and vulnerable populations. Currently there are tremendous disparities in quantity and quality of life and access to health care services between different demographic groups in the US. This certificate will help students understand how such disparities arise, and will prepare them to identify and reduce inequities using needs assessments and by designing, implementing, and evaluating health promotion and education programs targeted to minority and vulnerable populations.

Career

This certificate is relevant for those involved in or planning for careers in psychology, social work, biology, nursing, sociology, medicine, or many allied health disciplines, as well as public health careers in local, state, federal or non-governmental agencies.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

This certificate is jointly run by the UC College of Arts & Sciences and the UC College of Education, Health, Criminal Justice, and Human Services, and represents a multidisciplinary blend of social science approaches. It can be easily combined with any major or two other certificates or minors to create a bachelor of liberal arts major.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Pleae make sure that you have declared the certificate program online. Next, ensure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, then your certificate will be reviewed at the time that you submit your separate degree application.

Accreditation

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Modern Hebrew

Duration: **2 Years** Total Credits: **22 - 24** Award: **Certificate**

Overview

For over 2500 years since the biblical period, the Hebrew language has been in continuous use. Revived in the crucible of nineteenth century Zionism and the emergence of the modern state of Israel, contemporary Hebrew represents the intersection of antiquity and modernity, tradition and innovation, and Israel and its surrounding cultures.

Success

The certificate program in modern Hebrew is awarded to students who have attained advanced competency in the Hebrew language by successfully completing the Hebrew language program offered by the department of Judaic Studies at the University of Cincinnati. The certificate recognizes the attainment of a significant academic competency: the ability to read, speak, write and understand the Hebrew language. Furthermore, by studying Hebrew, students open their minds to different forms of thinking and expression, the priceless result of engagement with a foreign culture.

Career

A certificate in modern Hebrew enables students to demonstrate linguistic competency to future employers and graduate schools that require either proficiency in a foreign language in general, or specifically in Hebrew. In addition to positions in Hebrew education, students seeking careers in Jewish institutions will be particularly attractive. The certificate will also facilitate travel and study abroad.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Non-Profit and Community Leadership

Duration: **2 Years** Total Credits: **21** Award: **Certificate**

Overview

What is Non-Profit & Comm Leadership?

The non-profit and community leadership (ORGL-NP) track will provide an interdisciplinary set of knowledge and skills needed to work and lead in the nonprofit, community organizations, civil society organizations, charities, nongovernmental organizations, advocacy groups, or public sector. The NP certificate combines core coursework in the various functional areas of organizational leadership, with elective courses that enable students to sample a variety of topics relating to leading a nonprofit, such as leadership, evaluation and assessment, advocacy, grant writing/fundraising, volunteer recruitment and supervision, maintaining relationship and communication with donors, and best practices in fundraising and communicating with potential donors.

The objective of the certificate is to provide a fundamental understanding of nonprofit leadership as a discipline and potential career choice.

The certificate includes formal classroom training in leadership, non-profit leadership, and program evaluation, as well as a required practicum experience in a local organization. Elective coursework further allows students to hone their leadership skills while also exploring specific content knowledge in an area of interest (e.g., gender, health, urban development). Collectively, these courses provide the content knowledge and hands-on application experiences that will prepare students for careers in the public sector or for graduate study in a related field (e.g., Public Administration, Community Psychology).

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Organizational Leadership

Talent Development

Duration: 1 Year Total Credits: 15 Award: Certificate

Overview

The certificate in Organizational Leadership - Talent Development (TD) will be available to undergraduate students within and outside of A&S who wish to complement their major field of study with coursework in Organizational Leadership. The certificate combines core coursework in the various functional areas of Talent Development with elective courses that enable students to sample a variety of topics relating to leadership, teamwork, and diversity. The objective of the certificate is to provide a fundamental understanding of Organizational Leadership - Talent Development as a discipline and potential career choice.

Success

Successful students need to enjoy working in team-based environments and desire to make an impact in their organizations and communities. They understand how organizations function, have strong critical thinking and problem solving skills and are self-, socially-, and globally-aware. These characteristics enable our students to succeed in a variety of careers, including human resources, sales, banking and public service.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Organizational Leadership

Duration: **1 Year** Total Credits: **15** Award: **Certificate**

Overview

Organizational leadership is an interdisciplinary program that combines a liberal arts education and selective business subjects with classes, guest lectures and seminars in leadership. The core curriculum of the ORGL program focuses on understanding theoretical and practical approaches to leadership. “Leadership,” by definition, is not limited to for-profit enterprises, but extends to all forms of organizational life (e.g., non-profit, government, education) as well as our interpersonal and group relationships. Accordingly, this program provides a coherent pathway for students wishing to become leaders across all sectors by targeting skill areas essential for leadership, organizational success and a lifetime of personal and professional achievement.

Success

Successful students need to enjoy working in team-based environments and desire to make an impact in their organizations and communities. They understand how organizations function, have strong critical thinking and problem solving skills and are self-, socially-, and globally-aware. These characteristics enable our students to succeed in a variety of careers, including human resources, sales, banking and public service.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

If you have declared the certificate then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor’s degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Organizational Leadership

Talent Development

Duration: 1 Year Total Credits: 15 Award: Certificate

Overview

The certificate in Organizational Leadership - Talent Development (TD) will be available to undergraduate students within and outside of A&S who wish to complement their major field of study with coursework in Organizational Leadership. The certificate combines core coursework in the various functional areas of Talent Development with elective courses that enable students to sample a variety of topics relating to leadership, teamwork, and diversity. The objective of the certificate is to provide a fundamental understanding of Organizational Leadership - Talent Development as a discipline and potential career choice.

Success

Successful students need to enjoy working in team-based environments and desire to make an impact in their organizations and communities. They understand how organizations function, have strong critical thinking and problem solving skills and are self-, socially-, and globally-aware. These characteristics enable our students to succeed in a variety of careers, including human resources, sales, banking and public service.

Pre-Medicine

Duration: **2 Years** Total Credits: **39** Award: **Certificate**

Overview

A certificate in Pre-med is a course of study to prepare a student for the changing MCAT and application process for medical school. These courses may be combined with any major at the university; though, some have similar course requirements which will make it more streamlined.

Success

Successful students are good at making careful observations and recording information in a logical way. They excel at analyzing that information (critical thinking), which often involves employing basic math skills. Since many science courses involve laboratories, students often enjoy active, hands-on learning. The program requires a significant amount of hard work and study time, but can result in a very rewarding career.

Career

Curriculum

The Pre-Med Certificate does not require labs as part of the curriculum. ***However, labs are required for Medical (and other professional) School applications****. This means students applying to professional schools should also register for these labs as part of their semester coursework: BIOL 1081L/1082L, CHEM1040L/1041L, CHEM2040L,2041L, PHYS1051L/1052L (or calculus based version.)*

Pre-Modern History

Duration: **1 Year** Award: **Certificate**

Overview

The Certificate in Pre-Modern History will enable students to study a geographically, politically, and culturally diverse range of pre-historic, ancient, and medieval civilizations, while developing the unique tools that are required for the study of pre-modern periods. During the course of the certificate, students will be exposed to fundamental questions concerning how and why human beings develop complex societies, produce and legitimize governmental structures, and create and police ethnic and religious identities.

The study of ancient and medieval societies will allow students to more fully questions the default assumptions of modern society, forcing them to recognize the role that modern philosophies and ideologies play in restricting and promoting our conceptions of everything from viable political systems to human nature. They will, in other words, be asked to question, and to recognize as questionable, fundamental assumptions upon which modern societies are based.

Professional Writing

Duration: **2 Years** Total Credits: **15** Award: **Certificate**

Overview

The Certificate in Professional Writing is designed for students interested in pursuing a career in professional writing, or who are headed to careers that require an advanced level of professional writing skills. In any field today—health, engineering, science, technology, business, education—writing is gaining in importance. Move ahead in your job with your choice of courses in web authoring, multimedia writing, technical writing, desktop publishing, and instructional design. Whether writing in your field or about your field, whether editing an article or preparing a proposal, be more certain of your skills and more competitive in today's job market with the Professional Writing Certificate.

Success

The English program offers certificates in Creative Writing, Professional Writing, and Copyediting & Publishing; plus Literary Journalism jointly with the Department of Journalism; and English courses play a role in the curriculum requirements of several interdisciplinary certificates, including Medical Humanities, Digital Engagement, and Film & Media Studies.

Students who pursue a certificate in Professional Writing should desire to build on their strengths in writing, reading, and critical thinking. The undergraduate Professional Writing (PW) certificate prepares you to write, edit, and design projects in your field and complements any major or career. Courses in the program incorporate elements of communications, marketing, journalism, and web development and offer students experiential learning opportunities as well as access to industry professionals.

Career

Our Professional Writing curriculum emphasizes in-depth understanding of communication processes that bridge disciplines and industries and enables our graduates to consider numerous career opportunities. We incorporate theory with practice into all our classes, considering issues of effectiveness, consequence, and responsibility. Students advance their skills in writing, editing, design, project management, and technology. A certificate in Professional Writing helps to prepare students to work in such areas as science, technology, business, non-profit management, civic affairs, technical communication, editing and publishing, web development, medicine and healthcare, and environmental writing.

Professional Writing Certificate Curriculum

Advising

Contact the program director, whose name and information appear on this screen.

UC Advantages And Special Opportunities

In addition to studying language and a focus on writing, you will learn how to write and edit professional documents, manage publication products, design print and web-based materials, and work with corporate and non-profit clients. You will learn a unique set of skills that will allow you to design, write, and edit content for a variety of purposes, such as publishing, web design, marketing, public relations, and corporate training. You will also be exposed to a variety of technologies that enable the writing and design process. The faculty in the program are all award-winning and experienced faculty who will provide individual attention to help you achieve your personal and professional goals.

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Experiential learning

English students can intern with local businesses, nonprofits, university offices, state agencies, media outlets, and more, and earn college credit while developing reading and writing skills. Students can also gain valuable experience by taking research-intensive or service learning courses, by studying abroad, and by entering their work in the department's writing contest each year.

Our Professional Writing program takes an innovative approach to experiential learning that incorporates service learning through client-based projects and internships. The service-learning element stresses students' reflection on their experience in terms of being a professional consultant—a role that significantly affects the nature of the work performed and raises special ethical issues.

Internship program

The Professional Writing track offers a robust internship program. Students who apply for and secure an internship take two courses and earn six credit hours for internship work. In addition, many classes in Professional Writing complete client-based projects such as websites and publications.

Renowned faculty

Rhetoric & Professional Writing faculty are experienced professional writers and editors with many years of experience in fields such as business, medicine and healthcare, science, technology, social sciences, and technical and environmental writing.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, then your certificate will be reviewed at the time that you submit your separate degree application.

Public Relations

Duration: **2 Years** Total Credits: **21** Award: **Certificate**

Overview

UC's PR program is one of only 20 programs in the nation to achieve the Certification in Education for Public Relations (CEPR) designation from the Public Relations Society of America. The curriculum of UC's PR program is grounded in the reports of the Commission on Public Relations Education.

The curriculum ties closely with our goals for the program. First, we want to provide our students with a thorough foundation in both the various theories of communication as well as the specific theories that relate to the study and practice of public relations. Understanding theory as well as practice enables students to utilize a set of critical thinking and analysis capabilities in the variety of situations they encounter in their college careers and beyond. We want our students to develop the specific skills required of a PR professional, and to understand how to constantly refine those skills.

Next, we want to provide both educational and practical experiences that provide students a variety of opportunities and the skills to choose opportunities wisely. We try to blend classroom and internship experiences with a variety of special project opportunities, a very active Public Relations Student Society of America chapter, and networking with the local PRSA Chapter to give students a broad perspective on the profession of public relations. We don't want them to be limited to being technicians; we want them to become professionals.

Ultimately, our goal is to graduate students who achieve not simply in the classroom, but outside of it as well. We want our students to be successful in whatever path they take. Our goal in the PR program is to enable that to happen.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tri-state location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students must be currently enrolled Communication majors. Students from all other majors may be admitted to the program by the Program Director upon completion of 15 COMM 2042 with the grade of a C or better.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate director is aware of when you are finishing the program. If you are pursuing a bachelor's degree, your certificate will be reviewed at the time you submit your separate degree application.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Religious Studies

Duration: **2 Years** Total Credits: **24** Award: **Certificate**

Overview

The certificate in religious studies provides a multidisciplinary introduction to the study of religion by examining religious traditions through the methods of literary analysis, philosophy, sociology, anthropology and history. Incorporating courses from several departments, the certificate fosters critical thinking by exposing students to diverse methodologies and perspectives. Students will deepen their conceptual understanding of religion as well as familiarize them with various religions. This certificate will help students engage in well-informed and thoughtful discourse about religion in general and specific religious traditions.

Career

The certificate in religious studies can be useful for those interested in career fields such as:

- Education
- Community Service
- A wide variety of religion-affiliated organizations
- Journalism
- Social Work
- Business
- Many other fields that value individuals whose skills include research, writing and critical thinking

Screenwriting

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

All students will begin with a solid foundation of introductory level screenwriting skills as well as key components of strong storytelling. As they move through the certificate, they will be able to decide if they want to focus more on
feature film writing or television writing as elective options are created and added to the certificate as the Digital Media Collaborative continues to grow. Students will also have a solid understanding of the business side of screenwriting in order to best be able to market their artistic work.

Security Studies

Duration: **1.5 Years** Total Credits: **21** Award: **Certificate**

Overview

War, Peace and Security (WPS) is an interdisciplinary certificate anchored in the social sciences and the humanities. It integrates a variety of conceptual, theoretical, and methodological approaches to provide students with the substantive knowledge and analytic skills necessary to understand national and international security challenges and the sources and outcomes of war and peace.

Students who complete the certificate land successful careers in federal, state, and local governments, international organizations, private businesses, and in the non-profit sector. Understanding the topics of war, peace, and security is particularly important in our contemporary globalized world as it provides better understanding of the sources and causes of war, how to improve security and promote peace, how to regulate successfully and manage the flow of local and international commerce, and how to rebuild regions and societies torn by instability and war.

The War, Peace, and Security Certificate provides students with the substantive knowledge and analytic skills necessary to understand the changing nature of war and peace and the modern challenges for international security. The certificate offers two distinct tracks: (1) a social sciences track and; (2) a humanities track. Students are required to complete a minimum of two courses in each track. These courses can fulfill other general education requirements (such as humanities, historical perspectives, or social sciences). Both tracks offer a variety of multi- and inter-disciplinary perspectives on topics of terrorism, civil wars, and nationalism, various conflicts and international crises, human rights, the functioning of international law, the relevancy of international alliances and security institutions, problems of civil rights and liberties, national security, and democratic citizenship.

For those interested in the policy-oriented aspects of war, peace, and security, the certificate includes classes that offer contemporary and historical perspectives on U.S. foreign policy, national and international security, regional politics, Africa, Europe, Latin America, the Middle East, South Asia, and East Asia.

The certificate is geared toward students majoring in political science, international affairs, history, criminal justice, and sociology, but is also highly recommended for those majoring in geography, communications, economics, business, and other fields. Knowledge of cultures and languages of world regions (e.g. Arabic, Pashto, Farsi, Dari, Hindi, Mandarin-Chinese, Spanish, etc.) is considered especially valuable for those who plan to work in the field. Similarly, technical and research skills such as data processing and programming are important for successful careers in homeland security and cybersecurity.

Success

The Certificate can be customized to students' individual interests and career goals. Those who are interested in information technologies and cybersecurity can develop a variety of skills needed by public and private entities to analyze imminent threats and develop response strategies to homeland and cyber threats. Alternatively, those with visual and verbal learning styles can concentrate on learning critical foreign languages as there is a demand for such skills in government, the private sector, and international organizations. Those interested in research careers can focus on research and analysis on issues of war, peace, and security. Strong interpersonal skills, willingness to travel, and cross-cultural communication are essential for a successful career in these fields.

Career

Students with a certificate in War, Peace, and Society may pursue careers in federal, state and local government, private businesses, the non-governmental sector, and academic and policy research centers. Those who want to pursue careers in national security may consider joining federal agencies (e.g. Department of Homeland Security, Department of Defense, FBI, CIA), local governments, or private contractors operating in this area. Another career pathway includes the Foreign Service and jobs with governmental bureaucracies dealing with war, peace, and security. Others choose careers in the non-governmental sector (e.g. advocacy groups like Human Rights Watch, Amnesty International, etc.) and private companies with global outreach. Finally, many graduates continue their education and join research teams, think-tanks, and academia.

War, Peace, and Security

UC Advantages And Special Opportunities

The Departments of Political Science and History specialize in topics of war, peace, and security. They have a long tradition of scholarship on these topics and partner closely to offer this interdisciplinary certificate. The WPS Certificates partner with other departments and programs in the social sciences and humanities (e.g. sociology, criminal justice, Judaic studies, Africana Studies, Asian Studies, Latin American Studies, etc.) to expand the breadth and depth of security studies at UC. Some of our students have pursued senior projects on security issues, won prestigious university and national awards, and been awarded competitive grants to research homeland and international security. Similarly, our faculty have excelled in and won awards for their service and contributions to the field.

Special Programs

The Departments of History and Political Science, in partnership with the University of Cincinnati's Experience-Based Learning and Career Education (ELCE) Division, offer experiential learning opportunities though internships for academic credit and a semester-long course of study in Washington, D.C. Our departments offer short-term faculty led and semester-long study abroad opportunities in partnership with UC International. These programs help students improve their language skills and also learn about political, economic, social, and cultural challenges facing different countries. Those who are interested in continuing their education at UC can also apply for a joint BA/ JD 3+3 degree allowing them to continue their education at the UC College of Law upon graduation from the College of Arts and Sciences. Such programs are available to students in Political Science, International Affairs, and History.

Additionally, our vibrant campus offers numerous extracurricular and social activities that impact students' understanding of contemporary security. Our students participate actively in the Model United Nations student club, the History Club, UC Mock Trial Team, Students for International Security, and Amnesty International. Model UN and Mock Trial delegates compete nationally and often win competitive awards.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program by completing the online application here:

https://www.artsci.uc.edu/students/undergrad/forms/declare_major.html

Students are recommended to meet with a faculty advisor or the WPS Certificate Director for advising and guidance with course selection, academic planning and profession opportunities. We recommend scheduling an appointment early to avoid any delay in completing the requirements for the certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Social Justice

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

The SJC will allow students the opportunity to explore a wide range of perspectives and critically examine diverse domestic and transnational systems of domination, oppression, and inequalities and how they relate and intersect with each other. Students will also learn about contemporary and past emancipatory movements that have struggled for change with justice in mind for all. At the end of the program, students will not only understand the sources of oppression, but also be able to imagine that a more just world is possible—a world with less cruelty, environmental destruction, and inequalities, both domestic and international. In order to fulfill their missions, including those of social responsibility, many employers, both governmental and non-governmental currently seek graduates who have expertise and are enthusiastic about social justice.

Career

- Environmental consultant
- Nongovernmental organizational worker or leader
- Labor or social justice organizer
- Reproductive justice / gender equity advocate
- Social justice attorney
- Federal government employee focused on environmental, labor, or social justice
- Social justice entrepreneur

Advising

Contact the program director, whose name and information appear on this page.

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing another bachelor's degree, then your certificate will be reviewed at the time that you submit your separate degree application.

Students must complete 9 credit hours in the Activism and Social Change subject area and 9 credit hours in the Power and Identity subject area for a total of 18 credit hours (6 classes). Students may not take more than 3 classes in 1 subject area.

At least 4 of the 6 courses must be a combination of upper-level UG courses (3000 level and higher). Students may take 2 lower-level UG courses (1000 and/or 2000 level). In each of the 6 courses, students must earn at least a C- (C minus) for the course to count towards the certificate.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Spanish

Social Work & Health Care Services

Duration: 2 Years Total Credits: 21 Award: Certificate

Overview

The Certificate of Spanish for Service Learning in Social Work and Health Care Services will provide specific language and cultural skills for professionals in the areas of health and social work. It has a strong service-learning component where the students will work closely with Spanish speaking families to help them gain access to health and social services and to close the language barrier. It provides students with professional contacts in the community, making you more marketable. It also promotes through service learning civic responsibility, reflection, and a real connection between language and culture.

Success

Students who have a talent for learning language is undoubtedly helpful along with the desire to improve communication with those in the Hispanic/Latino community while in the health care or social service profession.

Career

Curriculum

SPAN CERT - Social Work and Heath Care

UC Advantages And Special Opportunities

The classes in Spanish are relatively small, which allows for more contact between students and teachers.

Most of the professors are native speakers.

Students in UC's College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

- The program offers various opportunities for study abroad in Spain, Central America and South America.
- There is also a program for a business Spanish certificate.
- There is an active Spanish club students can join
- Some of the courses can be applied toward the certificates in Film Studies, Latin American Studies and European Studies.
- There are numerous opportunities for service learning with local schools, hospitals, clinics, and other agencies.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using the Declare an Undergraduate Certificate online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Graduation Requirements

Make sure that you have declared the certificate program online. Next, make sure that the certificate program director is aware of when you are finishing the program. If you are pursuing a bachelor's degree, your certificate will be reviewed at the time that you submit your separate degree application.

Spanish

Duration: **2 Years** Total Credits: **21** Award: **Certificate**

Overview

Spanish majors study the language, cultures, and literatures of spanish-speaking countries throughout the world. The discipline is concerned with language as well as analysis. On a practical level, it facilitates international travel and communication. On a more abstract level, it points the way to a refined understanding of communication, writing, and culture.

Success

Students who have a talent for learning language is undoubtedly helpful for Spanish majors, but anyone with discipline and curiosity can succeed in the field.

Spanish/English Translation Studies

Duration: **2 Years** Total Credits: **18** Award: **Certificate**

Overview

This certificate is a pre-professional program designed to provide students with an introduction to the methods and techniques, problems, technology, practical experience, and theory of translation of the written word. This certificate helps fulfill the need for basic education and training of translators for employment or to enable them to pursue more advanced graduate studies.

Career

Translation is now global and there is a steadily growing demand for translators. CareerBuilder indicated that translation and interpretation services are the fastest growing industry in the country by job growth (6/9/15). CollegeGrad says that employment of interpreters and translators is projected to grow 29 percent from 2014 to 2024. Careers available in public and private sectors, including the medical field.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Sport Media and Promotion

Duration: **1 Year** Total Credits: **18** Award: **Certificate**

Overview

The Sport Media and Promotion Certificate is designed to give students theoretical understanding and practical experience in the area of sports media, a category of media and promotion that has moved to the forefront of the media and news industry. This certificate allows students to integrate these areas into a cohesive experience and knowledge base in preparation for careers within a wide range of sport perspectives, including those of sports organizations, media outlets, athletes and brands, and connecting with audiences through sport. Given that Cincinnati offers a wide variety of opportunities for sport media and promotion from professional sports and events to high school sports and, of course, UC's own athletic programs, there is ample opportunity for placement and utilization of this type of educational experience both locally and beyond.

Success

People who are successful in this career field have excellent writing and organizational skills, are people-oriented, and love sport of all kinds.

Career

- Sport Writer
- Sport Publicist
- Sport Marketing Account Manager
- School Athletics Director
- Sport Agent
- Sports Event Coordinator

Advising

For more information, contact the School of Communication, Film, and Media Studies.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our certificate declaration form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree at UC may declare the certificate after establishing non-matriculated status.

Graduation Requirements

To receive the certificate in Sport Media and Promotion, students will be required to:

1. Declare officially and enroll electronically in the College (A&S).
2. Complete 18 credit hours of courses as prescribed.
3. Maintain at least a 2.0 GPA in courses offered for the certificate.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Student Leadership

Duration: **1 Year** Total Credits: **12** Award: **Certificate**

Overview

The Student Leadership Certificate is a university-wide initiative designed to educate undergraduate campus leaders through the completion of course work, programs, activities, and experiences that provide a pathway to student success, development, and personal growth. The certificate combines formal classroom instruction with out-of-class experiences to create a structured learning environment. The goal is to develop the whole student through knowledge acquisition, skill development, and civic engagement. By targeting our most involved student leaders (who represent a range of majors), we hope to connect their co-curricular leadership activities with formal training on leadership in a way that enhances their development and better prepares them to make an immediate impact in their chosen fields.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students must be actively engaged with the Student Activities and Leadership Development office, serving as a member of at least one campus-based group served by SALD and, accordingly, participating in its programming. This certificate includes a non-credit co-curricular component connected with student leadership participation.

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

In addition, you must meet with the program director so that they are aware that you are pursuing the certificate and can advise you appropriately. Do this early enough to avoid delay in obtaining your certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Inclusive Community, Leadership, Engagement, Advocacy, and Discovery

In addition to the 12 hours of required and elective coursework, certificate students will be required to complete a series of co-curricular activities under the guidance of CSI staff. These core requirements are separated into 5 different domains: Inclusive Community, Leadership, Engagement, Advocacy, and Discovery. Many of these activities can be scheduled to accommodate students' schedules.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

War, Peace, and Security

Duration: **1.5 Years** Total Credits: **21** Award: **Certificate**

Overview

War, Peace and Security (WPS) is an interdisciplinary certificate anchored in the social sciences and the humanities. It integrates a variety of conceptual, theoretical, and methodological approaches to provide students with the substantive knowledge and analytic skills necessary to understand national and international security challenges and the sources and outcomes of war and peace.

Students who complete the certificate land successful careers in federal, state, and local governments, international organizations, private businesses, and in the non-profit sector. Understanding the topics of war, peace, and security is particularly important in our contemporary globalized world as it provides better understanding of the sources and causes of war, how to improve security and promote peace, how to regulate successfully and manage the flow of local and international commerce, and how to rebuild regions and societies torn by instability and war.

The War, Peace, and Security Certificate provides students with the substantive knowledge and analytic skills necessary to understand the changing nature of war and peace and the modern challenges for international security. The certificate offers two distinct tracks: (1) a social sciences track and; (2) a humanities track. Students are required to complete a minimum of two courses in each track. These courses can fulfill other general education requirements (such as humanities, historical perspectives, or social sciences). Both tracks offer a variety of multi- and inter-disciplinary perspectives on topics of terrorism, civil wars, and nationalism, various conflicts and international crises, human rights, the functioning of international law, the relevancy of international alliances and security institutions, problems of civil rights and liberties, national security, and democratic citizenship.

For those interested in the policy-oriented aspects of war, peace, and security, the certificate includes classes that offer contemporary and historical perspectives on U.S. foreign policy, national and international security, regional politics, Africa, Europe, Latin America, the Middle East, South Asia, and East Asia.

The certificate is geared toward students majoring in political science, international affairs, history, criminal justice, and sociology, but is also highly recommended for those majoring in geography, communications, economics, business, and other fields. Knowledge of cultures and languages of world regions (e.g. Arabic, Pashto, Farsi, Dari, Hindi, Mandarin-Chinese, Spanish, etc.) is considered especially valuable for those who plan to work in the field. Similarly, technical and research skills such as data processing and programming are important for successful careers in homeland security and cybersecurity.

Success

The Certificate can be customized to students' individual interests and career goals. Those who are interested in information technologies and cybersecurity can develop a variety of skills needed by public and private entities to analyze imminent threats and develop response strategies to homeland and cyber threats. Alternatively, those with visual and verbal learning styles can concentrate on learning critical foreign languages as there is a demand for such skills in government, the private sector, and international organizations. Those interested in research careers can focus on research and analysis on issues of war, peace, and security. Strong interpersonal skills, willingness to travel, and cross-cultural communication are essential for a successful career in these fields.

Career

Students with a certificate in War, Peace, and Society may pursue careers in federal, state and local government, private businesses, the non-governmental sector, and academic and policy research centers. Those who want to pursue careers in national security may consider joining federal agencies (e.g. Department of Homeland Security, Department of Defense, FBI, CIA), local governments, or private contractors operating in this area. Another career pathway includes the Foreign Service and jobs with governmental bureaucracies dealing with war, peace, and security. Others choose careers in the non-governmental sector (e.g. advocacy groups like Human Rights Watch, Amnesty International, etc.) and private companies with global outreach. Finally, many graduates continue their education and join research teams, think-tanks, and academia.

Additional career options are listed on the Center for Exploratory Studies website.

Advising

Students who are approaching this certificate with an interest in Political Science should contact Professor Brendan Green (brgreen@gmail.com) for advising questions.

Students who are approaching this certificiate with an interest in History should contact Professor Christopher Phillips (phillicr@ucmail.uc.edu) for advising questions.

UC Advantages And Special Opportunities

The School of Public and International Affairs (SPIA) and Department of History specialize in topics of war, peace, and security. They have a long tradition of scholarship on these topics and partner closely to offer this interdisciplinary certificate. The WPS Certificates partner with other departments and programs in the social sciences and humanities (e.g. sociology, criminal justice, Judaic studies, Africana Studies, Asian Studies, Latin American Studies, etc.) to expand the breadth and depth of security studies at UC. Some of our students have pursued senior projects on security issues, won prestigious university and national awards, and been awarded competitive grants to research homeland and international security. Similarly, our faculty have excelled in and won awards for their service and contributions to the field.

Special Programs

The Department of History and the School of Public and International Affairs (SPIA), in partnership with the University of Cincinnati's Experience-Based Learning and Career Education (ELCE) Division, offer experiential learning opportunities through internships for academic credit and a semester-long course of study in Washington, D.C. The Department of History the SPIA offer short-term faculty-led and semester-long study abroad opportunities in partnership with UC International. These programs help students improve their language skills and also learn about political, economic, social, and cultural challenges facing different countries. Those who are interested in continuing their education at UC can also apply for a joint BA/ JD 3+3 degree allowing them to continue their education at the UC College of Law upon graduation from the College of Arts and Sciences. Such programs are available to students in Political Science, International Affairs, and History.

Additionally, our vibrant campus offers numerous extracurricular and social activities that impact students' understanding of contemporary security. Our students participate actively in the Model United Nations student club, the History Club, UC Mock Trial Team, Students for International Security, and Amnesty International. Model UN and Mock Trial delegates compete nationally and often win competitive awards.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program by completing the online application.

Students are recommended to meet with a faculty advisor or the WPS Certificate Director for advising and guidance with course selection, academic planning and profession opportunities. We recommend scheduling an appointment early to avoid any delay in completing the requirements for the certificate.

Students not currently pursuing a degree may declare the certificate after establishing non-matriculated status.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Advanced Environment & Sustainability

Duration: 0.5 Year Total Credits: 9 Award: MC

Overview

During an era when the world is facing a wide range of environmental problems that are in the news virtually every day, environmental and sustainability studies has become a particularly timely and important discipline. The advanced micro-credential in environment and sustainability provides an opportunity explore the interconnections among between social and ecological systems. Environmental issues and conflicts of this century are highly complex and transcend traditional academic disciplines. The goal of the advanced micro-credential is to provide the training and conceptual framework required to explore and respond to the complex and dynamic environmental problems of the world.

Career

SEaS is uniquely positioned to meet the challenges of educating students for environmental careers in this century. Increasingly government agencies, businesses, and nonprofit organizations recognize the need for a workforce that understands the connections between the physical environment, society, and culture. About a third of our graduates continue with graduate studies. The others find employment, mostly within three months of graduation. Our students have made careers in areas as diverse as environmental research, community planning, and environmental law.

Introduction to Environment & Sustainability

Duration: **0.5 Year** Total Credits: **9** Award: **MC**

Overview

During an era when the world is facing a wide range of environmental problems that are in the news virtually every day, environmental and sustainability studies has become a particularly timely and important discipline. The introductory micro-credential in environment and sustainability provides an opportunity explore the interconnections among between social and ecological systems. Environmental issues and conflicts of this century are highly complex and transcend traditional academic disciplines. The goal of the micro-credential is to provide introductory training to the three pillars (society, economy, environment) of sustainability required to explore and respond to the complex and dynamic environmental problems of the world.

Career

SEaS is uniquely positioned to meet the challenges of educating students for environmental careers in this century. Increasingly government agencies, businesses, and nonprofit organizations recognize the need for a workforce that understands the connections between the physical environment, society, and culture. About a third of our graduates continue with graduate studies. The others find employment, mostly within three months of graduation. Our students have made careers in areas as diverse as environmental research, community planning, environmental education, natural resource management, and environmental law.

Sustainability

Duration: 0.5 Year Award: MC

Overview

The micro-credential is an interdisciplinary sustainability credential open to any graduate student at UC. The micro-credential provides a pathway for students to take sustainability courses across the curriculum at the graduate level. This also will offer a credential for students in all disciplines or colleges interested in sustainability careers, which are growing in all industries. This also will help students be prepared to solve society's complex "wicked problems" and sustainability challenges with interdisciplinary approaches. The micro-credential consists of 3-credit hour existing courses.

Career

Micro-credentials will help students stand out to employers seeking to hire in sustainability-related positions in fields such as business, construction, government, public affairs, technology, engineering, design, fashion, manufacturing, etc. We hope that this micro-credential can serve as a mini-minor for some of these graduate degree programs at UC. The micro-credential may also appeal to non-matriculated students who already have an undergraduate degree and do not wish to enroll in a full-time graduate program.

Africana Studies

Duration: **1.5 Years** Total Credits: **18** Award: **Minor**

Overview

The Department of Africana Studies offers a minor in Africana studies for undergraduates enrolled in any college of the university. Students minoring in Africana studies must complete required courses offered by the Department of Africana Studies and from approved courses offered in other academic areas. The minor is intended for students who want to develop a specialty in Africana studies that will complement their existing areas of study.

Is the minor for you?

A minor in Africana studies will provide students the unique opportunity to explore and learn about the cultural, social and historical experiences of people of African origin. Africana studies is inherently interdisciplinary and global in perspective. Students who minor in Africana studies must complete coursework offered by the Department of Africana Studies and from approved courses offered by other academic units throughout the university. A minor in Africana studies is a perfect complement to any major and is designed to attract students who seek intensive studies on the diverse cultures of Africa and the African Diaspora.

Career

Not only can the minor in Africana studies benefit students preparing for graduate programs in liberal arts disciplines, the minor can be used in conjunction with a traditional major to prepare for many professions. With the growing emphasis on multi-cultural education in the United States, a minor in Africana studies is an added advantage to students interested in teaching careers. Students preparing for careers in business might apply the minor to marketing careers where skills of working with diverse populations are in increasing demand. Students entering social service positions where knowledge of an African American clientele is a must might find the minor useful in supplementing their pre-professional or technical training. Africana studies courses take a global perspective. All students might benefit from a minor that stresses global issues.

Africana Studies

Minor

Minor in Africana Studies

Duration: 1.5 Years
Minimum Credits: 18 Credits

Core Requirements
Take all courses listed below for 9 credit hours

Course	Title/Desc	Credit
AFST1001	Introduction to Africana Studies	3
AFST1027	Introduction to Modern Africa	3
AFST3020	Community Engagement and Service Learning (The "It Takes a Village" Program)	3

Popular Culture
One interest area

Course	Title/Desc	Credit
AFST2007	Blacks in Science and Technology	3
AFST2032	Black Popular Culture	3
AFST2058	Sociology of Hip Hop	3
AFST3004	Contemporary Black Film	3

Elective Courses
Must take minimum of 9 credits with at least 6 credits at the 3000 or 4000 level. Choose courses from the following list - courses have been divided into topic areas if you wish to have an area of concentration.

Africa and the Diaspora
One interest area

Course	Title/Desc	Credit
	Both AFST1011 and AFST1012 --Beginning Swahili First year sequence for Swahili -- must still take 6 credits of 3000 or 4000 level courses as stated in Electives	10
	Either AFST2060 or 2061 -- African History Only one of these courses will apply to the minor.	3
AFST3045	African Religions	3
AFST4014	Politics in Post-colonial Africa	3

Health Equity and Health Policy
One interest area

Course	Title/Desc	Credit
AFST3005	African Health and Development	3
AFST3035	Black Health Care	3
AFST3052	Community Health and Minorities: Yeserday, Today, and Tomorrow	3
AFST4055	Global Health Equity	3

Literature
One interest area

Course	Title/Desc	Credit
AFST2023	Afrofuturism: Black to the Future and Dark Matters	3
AFST3065	Caribbean Literatures	3
	Two future courses to watch for.... AFST3063 African Literature - 3 credits AFST4004 African American Literature - 3 credits	0 - 6
	AFST3063 African Literature Course coming soon	3

Social Inequality
One interest area

Course	Title/Desc	Credit
AFST3079	Racism: Race and Race Relations in the United States and Beyond	3
AFST3059	Black Feminisms	3
AFST2050	Race, Gender, and Social Inequality in America	3
WGS3015	Black Women in US Society	3

Social Policy
One interest area

Course	Title/Desc	Credit
AFST2081	Colonialism, Nationalism and Post-Colonial West African States	3
SOC2095	Sociology of the Black Family	3
AFST3050	Urban Social Issues	3
AFST3086	Black Politics	3

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Anthropology

Duration: **2 Years** Total Credits: **21** Award: **Minor**

Overview

Anthropology is from the Greek *anthropos* (human) + *logia* (study). It is the science that studies human variation from its beginnings millions of years ago to the present day. To an anthropologist, diversity itself - seen in body shapes and sizes, blood types, different kinds of languages, customs, clothing, religion and ideas about the world - provides a frame of reference for understanding any single aspect of life.

Success

While each branch of anthropology carries its own special techniques and required skill sets, certain attributes common to all will help a student succeed:

- open-mindedness and willingness to understand how other social and cultural systems work
- intellectual curiosity about human similarities and differences
- desire to find out how things actually are vs. how someone thinks they "should be"
- analytic ability and, for some branches, some quantitative and statistical skills
- verbal facility: ability to read carefully and write clearly and concisely
- desire to cultivate a disciplined imagination

Anthropology (Minor) Curriculum

Advising

Departmental advising is a two-step process:

1. As soon as possible after declaring anthropology, each student arranges to see the director of undergraduate studies. This "getting acquainted" meeting is designed to determine how far along each student is in terms of satisfying departmental requirements, and what their options are for finishing the program in a timely fashion.
2. Students who work closely with a full-time faculty member in the department may want to designate that professor as their primary advisor after meeting initially with the director of undergraduate studies. If not, the director of undergraduate studies will continue to serve as the student's primary advisor.

In either case, the director of undergraduate studies is responsible for certifying to UC's College of Arts and Sciences that each student, after formally applying for graduation, has satisfied the requirements in anthropology.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Anthropology

Minor

Anthropology (Minor) Curriculum

Duration: 2 Years

★Minimum Credits: 21 Credits

Advanced Elective Course

Requirement of 3 credits at 3000 level or above.

Advanced Elective Course

Take one course above the 3000 level, excluding readings and individual work courses.

Course	Title/Desc	Credit
ANTH3XXX	ANTH3000	3

Introductory Courses

Requirement of 9 credits from the 4 courses below.

Anthropology Minor Requirements

Students complete at least the following 20 credit hours for this minor:

Course	Title/Desc	Credit
ANTH1001	Cultural Anthropology	3
ANTH1003	Biological Anthropology	3
ANTH1005	Introduction to Archaeology	3
ANTH1007	Introduction to Linguistic Anthropology	3

Elective Courses

Requirement of 9 credits at 2000 level or above.

Elective coursework

The credit hours from this group, counted together with the credit hours of the advanced elective course for the other grouping, must total at least 11.

Course	Title/Desc	Credit
ANTH2XXX	ANTH2000	9

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Arabic Language and Culture

Duration: **2 Years** Award: **Minor**

Overview

The Arab world, made up of 22 countries and the Palestinians, extends from the Arabian/Persian Gulf in the east to the Atlantic Ocean in the west and has a population of about 300 million, 20 million of whom are Christian Arabs. Arabic is their dominant mode of expression. It is also an important language in other countries. Arabic is the language of Islam, and more than a billion people use it as a vital spiritual component of their daily lives. The United Nations adopted Arabic as one of its six official languages in 1974.

Events in the Middle East affect our daily lives, and only through the study of Arabic can one gain necessary insights into the cultural, religious, and political forces that motivate the inhabitants of that vital region - insights that our monolingual media seldom provide.

Middle East is the birthplace of civilization and the cradle of the three monotheistic religions. It also contains some of the world's greatest archeological and religious sites. It is the locus of two thirds of the world's known oil reserves. Moreover, it is rich with interesting cultures and warm, hospitable people. A good knowledge of Arabic will greatly enhance the enjoyment of travel in the region and the ability to work and interact with Arabic speaking people. Qualified students may seek available funding - for example, from the UC Office of International Programs, the Taft Foundation, and federal agencies - to enroll in an Arabic study abroad program.

Career

The diligent study of Arabic can lead to exciting careers in various fields. The following are only a few of the many positions open to those who have a high proficiency in Arabic:

- Communications: foreign correspondent, reporter, translator.
- International finance: international banker, international consultant, political risk analyst.
- Industry: manager of government relations for oil companies, market analyst for export companies.
- Government: foreign service officer, development program officer, intelligence analyst, government relations specialist, translator or interpreter.
- Law: contractual and corporation consultant.
- Academia: teaching and research positions. The U.S. government currently considers Arabic a critical language and many scholarships and fellowships in Arabic studies are available.

[The above paragraphs are adapted from the website of The American Association of Teachers of Arabic.]

Asian Studies

Duration: **1.5 Years** Total Credits: **21** Award: **Minor**

Overview

Asia is gaining increasing economic and strategic prominence in the world, and Asian countries have rich and fascinating cultures and heritages. Asian studies is an interdisciplinary program that explores the languages, cultures, economics, history, geography and politics of Asian countries. Students may also study abroad in Asia, pursue internships and apply for fellowships.

Career

American businesses, governmental and nongovernmental organizations are deeply involved in Asia, yet there are not enough American professionals who are knowledgeable about the region. A minor or certificate in Asian studies makes students highly sought in an increasingly global marketplace. In addition to being well-prepared for graduate school, graduates of the program have gone on to pursue careers such as:

- Teaching in an Asian country
- Working with U.S. firms interested in Asia
- Research and analysis

Biological Sciences

Duration: 1.5 Years Total Credits: 33 - 34 Award: Minor

Overview

Biology is the scientific study of life and life processes. Biologists study the organization of life from the structures of molecules to the balance of ecosystems. Students learn to observe critically the details of all life; they analyze data and apply biological knowledge learned in the classroom to draw conclusions about their observations.

Biologists are able to make significant contributions to maintaining the health and well-being of the human population, as well as preserving and protecting the environment. They develop a knowledge base and scientific way of thinking that will enable them to make informed personal health and public policy decisions.

Students working toward an undergraduate degree at UC can earn a minor, while non-degree students (e.g., graduate students, non-matriculated students) can earn a certificate. The requirements are the same for both. See an undergraduate student advisor in the Department of Biological Sciences to create a plan to meet the requirements.

Success

Students who have an interest in the living world around them, how the body works, the causes of diseases, etc. will often find a biology major very rewarding. Successful biology students are good at making careful observations and recording information in a logical way. They excel at analyzing that information (critical thinking), which often involves employing basic math skills. Since many science courses involve laboratories, students who enjoy active, hands-on learning will enjoy the biology minor. Visual learners will especially appreciate the beauty and complexity of the natural world. The major requires a significant amount of hard work and study time, but can result in a very rewarding career.

Career

Graduates with a minor in biology have a wide range of career options as well as options for graduate study in biology. With a minor in biology, graduates may immediately enter careers in some technical fields or they may pursue a post-graduate degree. A few examples of career fields open to biology minors include the following (many of which require additional degrees):

- Academic, industrial, environmental / organismal, medical / pharmaceutical researcher/cosmetic science
- Occupational therapist, physical therapist,
- Physician, optometrist, dentist, chiropractor, physician assistant
- Law, specifically areas that include environmental issues and patent law requiring a solid scientific background
- Medical lab technologist, imaging technologist, nurse
- College/university, middle/high school educator
- Forestry, horticulture, park service, wildlife/fishery biologist
- Regulatory affairs specialist, hospital / healthcare administration, scientific writing
- Pharmaceutical / medical device sales or marketing
- Veterinarian, zookeeper, naturalist

Minor in Biology

Advising

All questions about departmental requirements for a Biology minor should be discussed with the Biology department advisor rather than a college advisor. All students are required to consult a departmental advisor when preparing to graduate.

Department Advising

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Faculty within the Department of Biological Sciences are actively engaged in research in a variety of areas. Undergraduates have the opportunity to participate in this research and can earn academic credit that can be applied toward their upper-level biology course requirements.

Teaching laboratories within the department are well-equipped and devoted to undergraduate education. Faculty are involved and dedicated to employing new teaching methods and technology that enrich students' educational experiences.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Biological Sciences

Minor

Minor in Biology

Duration: 1.5 Years

★Minimum Credits: 33 - 34 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
CHEM1040L	General Chemistry Laboratory I	1
CHEM1040	General Chemistry I	4
BIOL1081	Biology I: Molecules, Cells, and the Foundation of Life	3
BIOL1081L	Biology I Laboratory	1

Spring Semester Year 1

Course	Title/Desc	Credit
BIOL1082	Biology II: Evolution, Physiology, and Ecology	3
CHEM1041	General Chemistry II	4
BIOL1082L	Biology II Laboratory	1
CHEM1041L	General Chemistry Laboratory II	1

Fall Semester Year 2

Course	Title/Desc	Credit
BIOL2083	Genetics	3

Spring Semester Year 2

Course	Title/Desc	Credit
	Choose between the following courses - see information regarding upper level electives for assistance with the decision. BIOL2084C Ecology and Evolution OR BIOL2085C Cell Biology	4

Summer Semester Year 2

Course	Title/Desc	Credit
BIOL3XXX	Two courses are required at 3000-level or above. One must have a lab component. These can be taken any time after BIOL2083C and either BIOL2084C or 2085, depending on your interests and the prerequisite for the two upper level classes you wish to take.. students may take the upper level electives at any time after completion of the sophomore sequence	7

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Chemistry

Duration: **2 Years** Total Credits: **26** Award: **Minor**

Overview

Chemistry is the study of all matter found in living structures, geological formations and human-created products. Chemists explore the molecular structure of matter in order to develop theories about how such structures work and to apply these theories to the development of products that range from pharmaceuticals to heat shields.

The minor is designed for students who want a strong background in chemistry to complement their major area of study. Students who are enrolled in pre-professional programs may also find a minor in chemistry to be helpful to their professional preparation.

Classical Civilization

Duration: 1.5 Years Total Credits: 20 Award: Minor

Overview

Classical civilization is the study of the culture, history, language, and literature of ancient Greece and Rome. Students in classical civilization develop language skills and enrich their lives through an interdisciplinary exploration of the Greek and Roman worlds. They study such things as mythology, philosophy, religion, politics, and other areas where the ancient Greeks and Romans made decisive contributions to world civilization.

Success

Classical civilization students possess an eye for detail, curiosity about languages -- including their own -- and love of history.
Some well-known students, past and recent, are:

- Karl Marx, Friedrich Nietzsche, and Sigmund Freud;
- Theodor Mommsen and Toni Morrison (both recipients of the Nobel Prize for literature);
- Oscar Wilde, Erich Segal ("Love Story"), and J.K. Rowling ("Harry Potter");
- Garry Wills (Catholic cultural critic) and Archbishop Pilarczyk of Cincinnati;
- David Packard (of Hewlett-Packard) and Charles Geschke (founder of Adobe);
- James Baker (former secretary of state)

Special Programs

The Department of Classics at the University of Cincinnati offers a unique and dynamic environment, thanks to the generous patronage of the Semple Classics Fund, a bequest of Louise Taft Semple, established "for promoting the study of Classics in an endeavor to make vital and constructive in the civilization of our country the spiritual, intellectual, and esthetic inheritance we have received from Greek and Roman civilizations."

Among other things, the Semple Classics Fund supports:

- the John Miller Burnam Classical Library, the largest such library in the world;
- a large number of graduate students;
- a world-class faculty.

It also awards Semple Scholarships to outstanding undergraduates in classics or classical civilization at the University of Cincinnati and the Semple Traveling Scholarships for a period of undergraduate study abroad, especially in Athens and Rome.

The Department of Classics has an international reputation as a leader in the field of Greek Bronze Age archaeology. It is particularly known for its excavations at Troy and Pylos under the direction of Carl Blegen. This tradition of excellence in archaeology continues today with current field projects at Pylos, Apollonia (Albania), and Episkopi-Bamboula (Cyprus).

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

Classics

Duration: **1.5 Years** Total Credits: **20** Award: **Minor**

Overview

Classics is the study of the language and literature of ancient Greece and Rome. Students in classics develop language skills and eventually read Homer, Plato or the New Testament, and Cicero, Virgil or Augustine in the original. They also study such subjects as mythology, philosophy, religion, politics and other areas where the ancient Greeks and Romans made decisive contributions to world civilization.

Success

Classics students possess an eye for detail, curiosity about languages (including their own) and love of reading. Some such students include:

- Sigmund Freud, Karl Marx, and Friedrich Nietzsche
- Theodor Mommsen and Toni Morrison (both recipients of the Nobel Prize for literature)
- Oscar Wilde, Eric Segal ("Love Story") and J.K. Rowling ("Harry Potter")
- Garry Wills (Catholic cultural critic) and Archbishop Pilarczyk of Cincinnati
- David Packard (as in Hewlett-Packard) and Charles Geschke (founder of Adobe)
- James Baker (former Secretary of State)

Communication

Duration: **2 Years** Total Credits: **18** Award: **Minor**

Overview

The academic discipline of communication focuses on discourse among people and within organizations and social institutions. The award-winning communication faculty members share a distinctive focus on contemporary social problems. Their research and the undergraduate program center on understanding issues of voice, identity, public participation and advocacy/leadership across communication domains including interpersonal, organizational, political, rhetorical, environmental, health and mediated communication.

Students in the program develop strong communication skills grounded in an advanced, theory-based understanding of communication processes. Classroom skills are further developed through experiential learning and community engagement with team-based projects, internships and residencies, service learning and collaboration with community organizations.

Success

Students in communication have excellent critical-thinking and writing abilities, and they are concerned with understanding society and improving social institutions and the well-being of individuals. Communication is an excellent program for students who are interested in working with people and groups in a variety of fields, e.g., business, social work and law.

Communication Minor Curriculum Guide_18Hours

Advising

The Department of Communication has an excellent advising staff for both current students and those considering Communication. Students who would like to speak with an advisor can meet with any one of our many faculty who hold regular advising hours.

We encourage students to develop a relationship with an advisor as soon as they enter the program. With careful planning, many students are able to earn their Communication degree, as well as a certificate or major in another program, and internship experience.

Contact the School of Communication, Film, and Media Studies for more information.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Undergraduate Student Organizations

- Public Relations Student Society of America (PRSSA)
- The UC forensics/speech team travels to compete at different colleges and universities and is provided with a budget. A great way to improve your public speaking skills and resume
- Ethos, a communication community engagement organization

Communication is a dynamic and challenging discipline. The department is proud of our students who achieve high grades. We encourage you to get to know the faculty. Personal recommendations can be very helpful. Moreover, we welcome you to consider furthering your education with a master's degree from our department. Of course, the faculty is also happy to talk with you about preparing for additional graduate and career opportunities that are available.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our minor declaration form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

English

Duration: 2 Years Total Credits: 21 Award: Minor

Overview

A minor in English complements any major, and offers students from other disciplines the opportunity to develop the reading, writing, and critical thinking skills that employers seek in college graduates. Students choose courses from creative writing, literature, literary criticism, cultural studies, professional writing, technical and digital writing, editing and publishing, and film studies, and may focus on one particular area of study or take courses from many areas in order to explore English studies. Whatever your path, you'll become a more empowered and responsible reader and writer, prepared to make a contribution to your field of knowledge, profession, community, and the world at large.

Success

Students who pursue a minor in English should desire to build on their strengths in writing, reading, and critical thinking. Coursework includes one required course followed by six English electives, allowing students to cater the minor to their career objectives. You might take courses in multicultural literatures, writing fiction, scientific writing, and copyediting, for example, depending on your career path and major.

Career

English students enjoy satisfying careers and admission to graduate programs due to their ability to read closely, write clearly, research thoroughly, and think critically. English is also an excellent base for professional studies in law, business, and medicine. Paired with your major, an English minor will help prepare you for careers in:

- Writing and editing
- Publishing
- Arts administration
- Education
- Film and television writing
- Advertising
- Law
- Library sciences
- Social justice work
- Business
- Science and technology
- Technical communication
- Web development
- Environmental writing

English Minor Curriculum Guide

Advising

The Director of Undergraduate Studies in the English department can help guide you through the minor.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Certificates in English

In addition to majors and a minor, the department of English offers three certificate programs: Professional Writing, Creative Writing (Poetry, Fiction, and Literary Nonfiction), and Copyediting and Publishing, plus Literary Journalism jointly with the Department of Journalism. English courses play a role in several other certificates, including Medical Humanities, Film & Media Studies, and Digital

Engagement. Certificate programs provide more focus and less time commitment than a minor, and provide an opportunity for undergraduate students to more fully develop skills in reading, writing, and analysis in their chosen area of interest.

Experiential learning

English students can intern with local businesses, nonprofits, university offices, state agencies, and media outlets, and earn college credit while developing reading and writing skills. Students can also gain valuable experience by taking research-intensive or service learning courses, by studying abroad, and by entering their work in the department's writing contest each year.

Events

English students enjoy opportunities to hear a number of distinguished authors read their work through our Visiting Writers Series. Likewise, the biennial Emerging Fiction Writers Festival brings four writers to campus for two days of readings and panels. Past visiting writers have included Rita Dove and Colson Whitehead.

Renowned faculty

Our Creative Writing faculty have collectively published dozens of books of fiction, poetry, literary nonfiction, and criticism. They have won awards from the National Endowment for the Arts, the Fulbright Program, and the National Book Awards program. Our Rhetoric & Professional Writing faculty are experienced professional writers and editors with many years of experience in fields such as business, medicine and healthcare, science, technology, social sciences, and technical and environmental writing. Our Literary & Cultural Studies faculty are active scholars who publish and present in their field. Many teach both undergraduate and graduate courses, and develop strong relationships with their students.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Environmental Analysis and Policy

Duration: 1.5 Years Total Credits: 27 - 29 Award: Minor

Overview

During an era when the world is facing a wide range of environmental problems that are in the news virtually every day, environmental studies has become a particularly timely and important discipline. The environmental studies program provides an opportunity for the systematic investigation of the natural world and the interaction of humans with their own environment. Environmental issues and conflicts of this century are highly complex and transcend traditional academic disciplines. The goal of the environmental studies program at UC is to provide the interdisciplinary training and conceptual framework required to analyze and respond to the complex and dynamic environmental problems of the modern world.

The solutions to environmental issues and conflicts will continue to require expertise from the natural and social sciences such as biology, economics, engineering and political sciences, but the real-world solutions will also require a more interdisciplinary perspective. They require professionals who take a systems approach: an approach that addresses the complex interrelationships within and among components of natural, built and social environments.

The goal of our environmental studies curriculum is to produce professionals with a strong foundation in the key sciences who also "speak the languages" of the multiple disciplines involved in environmental problem solving and who have learned to interact in interdisciplinary teams. The curriculum includes courses that examine the biological environment (e.g., biology and ecology), the physical environment (e.g., chemistry, geology and geography) and the social-human environment (e.g., policy, ethics and economics). The curriculum also emphasizes the acquisition of "tools of the trade," such as field and lab skills, data analysis, the identification of plants and animals, and computer-based approaches such as satellite remote sensing and geographic information systems.

Success

The keys to success in environmental studies are both a curiosity about and a passion for the natural world. The complex nature of environmental issues and solutions also requires creativity in problem-solving, flexibility, imagination and a talent for both written and oral communication. Successful students have strong analytical and critical thinking skills and an interest in the sciences that form the foundation of UC's approach to environmental studies.

Career

Completion of an academic minor enriches students' academic qualifications making you a stronger applicant to graduate programs or as a job applicant. Careers directly related to Environmental Analysis & Policy include environmental journalism, policy, law, advocacy, and planning in government agencies, non-profit organizations, businesses, and academia.

Curriculum

Major Map Versions:
ENVIRONMENTAL ANALYSIS & POLICY - MINOR

Advising

All EVST and EVAP minors are required to attend a group advising meeting early in their program to develop an elective plan. Normally this would be during the freshman year, while taking Introduction to Environmental Studies II (EVST1012). Those considering the minor after transferring into the university or transitioning from a branch campus should make an individual appointment with the Program Director as soon as possible.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The University of Cincinnati and its Center for Environmental Studies present an ideal physical and intellectual location in which to study, producing broadly trained, interdisciplinary environmental professionals. Cincinnati is an urban area surrounded by rural communities; this urban-to-wild land gradient provides an array of diverse ecosystems for academic study and research. As such, the

local environment is challenged by both the municipal and industrial needs of a city, and the broad impact of activities such as farming and land management.

UC is home to a diverse faculty and a rich curriculum that actively address environmental issues and problems. Faculty in the center have many interests and are drawn from several departments of the UC College of Arts and Sciences (e.g., biological sciences, geography, geology, economics and communication), the College of Engineering and Applied Science and the College of Design, Architecture, Art, and Planning, as well as from professional scientists of the U.S. Environmental Protection Agency.

The expertise within the university is supplemented by the presence of three major research divisions of the EPA: the National Center for Environmental Assessment, the National Environmental Research Laboratory and the National Risk Management Research Laboratory. The close proximity (across the street!) of the EPA facility markedly expands the resources available to environmental research and education, and many UC students have held positions and internships at the EPA. Additional opportunities include affiliated student environmental groups such as LEAP (Leaders for Environmental Awareness and Protection), undergraduate research opportunities, and internships with local or national agencies and organizations.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Environmental Analysis and Policy

Minor

ENVIRONMENTAL ANALYSIS & POLICY - MINOR

Duration: 1.5 Years

★Minimum Credits: 27 - 29 Credits

Environmental Analysis & Policy Minor Requirements

Students complete the following minimum of 27 hours for this minor:

Course	Title/Desc	Credit
	Two courses from Natural Science group below (one at 3000 level or above) XXXXxxxx	6 - 8
	Three courses from Humanities & Social Sciences group below (at least two at or above 3000 level) XXXXxxxx	9
	One course from the Interdisciplinary group	3
EVST1011	Introduction to Environmental Studies I	3
EVST1012	Introduction to Environmental Studies 2	3
EVST5101	Global Environmental Law and Policy	3

Grouping Explanation: Courses From Other Departments On This List

All courses from another discipline are cross-listed with the same course number in EVST. For example, EVST2025 is also available as GEOL2025. Students need to take the course from EVST unless permission is granted by the Program Director.

Natural Science Grouping

Course	Title/Desc	Credit
EVST2020	The Human Impact on the Natural Environment	3
EVST2012	The Earth System	3
EVST2025	Hydrology and Biogeochemistry	3
EVST2040	Humans and Nature: Living in the Anthropocene	3
EVST2053	Ecological Anthropology	3
EVST2082C	Ecology, Evolution, and Population Genetics	4
EVST3014	On the River...Experiencing the Brazilian Amazon	3
EVST3024	Aquatic Biology	3
EVST3032	Elements of Climatology	3
EVST3033	Biogeography and Environmental Management	3
EVST3035	Resource Conservation	3
EVST3160	Environmental Perspectives and Challenges in China	3
EVST4000C	Medical Geography and Epidemiology	3
EVST4023	Conservation Biology	3
EVST4056C	Ecology and Paleoecology of the Canary Islands	3
EVST5015C	Introduction to landscape ecology and GIS	3
EVST5102	Global Biodiversity: Law and Policy	3
EVST5110	Environmental Risk Analysis	3
EVST5125	Natural Disasters	4
EVST5135	Carbon Cycling and Greenhouse Gas Emissions	3
EVST5142	Environmental Exposure and Toxicology	3
EVST5160	Ecosystem Ecology	3
EVST5171C	Introduction to Geographic Information Sciences	3
EVST5191C	Advanced Ecology	4
GEOG5052C	Introduction to Environmental Hydrology	3
GEOG5090C	GIS in Hydrology	3

Humanities & Social Science Grouping

Course	Title/Desc	Credit
EVST2004	Communicating About Health, Environment and Science	3
EVST2023	Environmental Activism	3
EVST2024	Global Environmental History	3
EVST2031	Environmental Policy	3
EVST3009	Water Justice	3
EVST3027	Environmental Ethics	3
EVST3031	Sustainable Development	3
EVST3040	Environmental Journalism	3
EVST3048	Philosophy of Food	3
EVST3072	Culture, Environment, and Globalization	3
EVST3085	Environmental Economics	3
EVST4010	Environmental Movement	3
EVST4067	Environmental Communication	3
	EVST4092 - TECH & SCIENTIFIC WRITING or EVST4093 - ENVIRONMENTAL WRITING	3
EVST5100	Perspectives on Sustainability	3
EVST5126	The Unsustainable City	3

Course	Title/Desc	Credit
GEOG5176C	Environmental Remote Sensing	3
GEOG5198C	Practical Data Mining and Visualization	3
CHEM3050	Green Chemistry and Sustainability	3

Interdisciplinary Grouping

Course	Title/Desc	Credit
EVST4011	Advanced Topics in Environmental Studies: Water	3
EVST4012	Advanced Topics in Environmental Studies: Biodiversity	3
EVST4013	Advanced Topics in Environmental Studies: Atmosphere & Climate	3
EVST4014	Advanced Topics in Environmental Studies: Urbanization	3
EVST4015	Advanced Topics in Environmental Studies: Energy	3
EVST4016	Advanced Topics in Environmental Studies: Food	3
EVST4017	Advanced Topics in Environmental Studies: Waste & Recycling	3
EVST4050	Advanced Topics in EVST: Environmental Justice	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Environmental Geology

Duration: 1.5 Years Total Credits: 19 Award: Minor

Overview

The geosciences have undergone a revolution in the past decade, becoming an interdisciplinary science that emphasizes the study of major Earth systems — the geosphere (solid Earth), hydrosphere (water on the Earth's surface, underground, and in the air), atmosphere (the layer of gases that envelop the Earth), cryosphere (the frozen parts of Earth), and biosphere (the living things on Earth). Within the subdiscipline of environmental geology, students explore how the Earth systems interact with and influence human activities and how geological principles are used to solve environmental problems.

Students in the Department of Geosciences experience learning through small, hands-on classes and field and laboratory work. Examples of topics taught and researched in the department that relate to environmental geology include *geormophology* (the study of the Earth's surface and how landforms change over time), *hydrogeology* (the study of how water moves and is stored in soil and rocks), *economic geology* (the study of the exploration of ore deposits for economical purposes), *geochemistry* (the study of the chemical composition of Earth and other planets and how elements move through Earth systems), and *Quaternary geology* (the study of Earth processes over the past 2.58 million years as they relate to glacial-interglacial cycles).

A minor in environmental geology serves to enhance related science majors, such as Environmental Studies, Geography, Biology, Chemistry, and Physics and seemingly non-related majors as well, such as Political Science. For example, a student majoring in political science can learn about natural hazards and how they relate to public policy.

Advising

Contact Krista Smilek, the Academic Director in the Department of Geosciences (krista.smilek@uc.edu) for information on the geology minor and environmental geology minor programs.

UC Advantages And Special Opportunities

Students in McMicken College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

Students interested in prusuring a minor in geology or environmental geology or who have delared the minor should contact the Academic Director, Krista Smilek (krista.smilek@uc.edu) to schedule an advising meeting. Do this in a timely manor to avoid delay in obtaining the minor.

Graduation Requirements

If you have declared the minor, it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Environmental Studies

Duration: 1.5 Years Total Credits: 28 - 33 Award: Minor

Overview

During an era when the world is facing a wide range of environmental problems that are in the news virtually every day, environmental studies has become a particularly timely and important discipline. The environmental studies program provides an opportunity for the systematic investigation of the natural world and the interaction of humans with their own environment. Environmental issues and conflicts of this century are highly complex and transcend traditional academic disciplines.The goal of the environmental studies program at UC is to provide the interdisciplinary training and conceptual framework required to analyze and respond to the complex and dynamic environmental problems of the modern world.

The solutions to environmental issues and conflicts will continue to require expertise from the natural and social sciences such as biology, economics, engineering and political sciences, but the real-world solutions will also require a more interdisciplinary perspective. They require professionals who take a systems approach: an approach that addresses the complex interrelationships within and among components of natural, built and social environments.

The goal of our environmental studies curriculum is to produce professionals with a strong foundation in the key sciences who also "speak the languages" of the multiple disciplines involved in environmental problem solving and who have learned to interact in interdisciplinary teams. The curriculum includes courses that examine the biological environment (e.g., biology and ecology), the physical environment (e.g., chemistry, geology and geography) and the social-human environment (e.g., policy, ethics and economics). The curriculum also emphasizes the acquisition of "tools of the trade," such as field and lab skills, data analysis, the identification of plants and animals, and computer-based approaches such as satellite remote sensing and geographic information systems.

Success

The keys to success in environmental studies are both a curiosity about and a passion for the natural world. The complex nature of environmental issues and solutions also requires creativity in problem-solving, flexibility, imagination and a talent for both written and oral communication. Successful students have strong analytical and critical thinking skills and an interest in the sciences that form the foundation of UC's approach to environmental studies.

Career

Completion of an academic minor enriches students' academic qualifications making you a stronger applicant to graduate programs or as a job applicant. Careers directly related to Environmental Studies include environmental journalism, policy, law, advocacy, and planning in government agencies, non-profit organizations, businesses, and academia.

Major Map Versions:
Environmental Studies Minor (EVST-MIN) Program

Advising

All EVST and EVAP minors are required to attend an advising meeting early in their program to develop an elective plan. Normally this would be during the freshman year, while taking Introduction to Environmental Studies II (EVST1012). Those considering the minor after transferring into the university or transitioning from a branch campus should make an individual appointment as soon as possible.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Exploratory Studies program and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The University of Cincinnati and its Environmental Studies Program present an ideal physical and intellectual location in which to study, producing broadly trained, interdisciplinary environmental professionals. Cincinnati is an urban area surrounded by rural communities; this urban-to-wild land gradient provides an array of diverse ecosystems for academic study and research. As such, the

local environment is challenged by both the municipal and industrial needs of a city, and the broad impact of activities such as farming and land management.

UC is home to a diverse faculty and a rich curriculum that actively address environmental issues and problems. Faculty in the center have many interests and are drawn from several departments of the UC College of Arts and Sciences (e.g., biological sciences, geography, geology, economics and communication), the College of Engineering and Applied Science and the College of Design, Architecture, Art, and Planning, as well as from professional scientists of the U.S. Environmental Protection Agency.

The expertise within the university is supplemented by the presence of research centers of the EPA. The close proximity (across the street!) of the EPA facility markedly expands the resources available to environmental research and education, and many UC students have held positions and internships at the EPA. Additional opportunities include affiliated student environmental groups, such as LEAP (Leaders for Environmental Awareness and Protection), undergraduate research opportunities, and internships with local or national agencies and organizations.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the program is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Environmental Studies

Minor

Environmental Studies Minor (EVST-MIN) Program

Duration: 1.5 Years

★Minimum Credits: 28 - 33 Credits

Environmental Studies Minor Requirements

Students complete the following 28-30 hours for this minor:

Course	Title/Desc	Credit
	Three Upper Level Electives from group below XXXXxxxx	9 - 11
	One Advanced Topic course from group below EVSTxxxx	3
	Two SO/JR Level "Core" electives from group below XXXXxxxx	6
EVST1011	Introduction to Environmental Studies I	3
EVST1012	Introduction to Environmental Studies 2	3
EVST2084C	Ecology and Evolution	4

Core electives

Two of the five required electives can be taken from this grouping. EVST 2000 cannot be used as one of the core electives.

Course	Title/Desc	Credit
EVST2004	Communicating About Health, Environment and Science	3
EVST2012	The Earth System	3
EVST2020	The Human Impact on the Natural Environment	3
EVST2023	Environmental Activism	3
EVST2024	Global Environmental History	3
EVST2025	Hydrology and Biogeochemistry	3
EVST2031	Environmental Policy	3
EVST2040	Humans and Nature: Living in the Anthropocene	3
EVST2053	Ecological Anthropology	3

Interdisciplinary topics

Minors must choose one from this group

Course	Title/Desc	Credit
EVST4014	Advanced Topics in Environmental Studies: Urbanization	3
EVST4013	Advanced Topics in Environmental Studies: Atmosphere & Climate	3
EVST4012	Advanced Topics in Environmental Studies: Biodiversity	3
EVST4011	Advanced Topics in Environmental Studies: Water	3
EVST4015	Advanced Topics in Environmental Studies: Energy	3
EVST4016	Advanced Topics in Environmental Studies: Food	3
EVST4017	Advanced Topics in Environmental Studies: Waste & Recycling	3
EVST4050	Advanced Topics in EVST: Environmental Justice	3

Advanced electives

At least three of the required five elective courses must be taken from this grouping. EVST4011 to 4017 and EVST 4050 may not be used to meet this requirement.

Course	Title/Desc	Credit
EVST3009	Water Justice	3
EVST3014	On the River...Experiencing the Brazilian Amazon	3
EVST3024	Aquatic Biology	3
EVST3027	Environmental Ethics	3
EVST3031	Sustainable Development	3
EVST3032	Elements of Climatology	3
EVST3033	Biogeography and Environmental Management	3
EVST3035	Resource Conservation	3
EVST3040	Environmental Journalism	3
EVST3048	Philosophy of Food	3
EVST3051	Green Chemistry and Sustainability	3
EVST3072	Culture, Environment, and Globalization	3
EVST3085	Environmental Economics	3
EVST3160	Environmental Perspectives and Challenges in China	3
EVST4000C	Medical Geography and Epidemiology	3
EVST4010	Environmental Movement	3
EVST4023	Conservation Biology	3
EVST4056C	Ecology and Paleoecology of the Canary Islands	3
EVST4067	Environmental Communication	3
EVST5015C	Introduction to landscape ecology and GIS	3
GEOG5052C	Introduction to Environmental Hydrology	3
GEOG5090C	GIS in Hydrology	3
EVST5100	Perspectives on Sustainability	3
EVST5101	Global Environmental Law and Policy	3
EVST5102	Global Biodiversity: Law and Policy	3

Course	Title/Desc	Credit
EVST5110	Environmental Risk Analysis	3
EVST5125	Natural Disasters	4
EVST5126	The Unsustainable City	3
EVST5135	Carbon Cycling and Greenhouse Gas Emissions	3
EVST5142	Environmental Exposure and Toxicology	3
EVST5160	Ecosystem Ecology	3
EVST5171C	Introduction to Geographic Information Sciences	3
GEOG5176C	Environmental Remote Sensing	3
EVST5191C	Advanced Ecology	4
GEOG5198C	Practical Data Mining and Visualization	3
	EVST4092: Tech & Sci Writing OR EVST4093 Env Writing	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Film and Media Studies

Duration: 2 Years Total Credits: 18 Award: Minor

Overview

The program in Film & Media Studies is built to train students to comprehend, analyze, and participate in local and global film and screen media cultures and industries. Sudents will explore important issues, theories, movements, and histories of media throughout the globe. The minor centers around three core groupings: Introductory, Elective and Experiential. Minors are required to take one experiential course that might involve a study tour, a community filmmaking project, or an internship.

French

Duration: **2 Years** Total Credits: **21** Award: **Minor**

Overview

Fluency in a second language is a valuable skill. French is an official language of 28 countries on five continents, including France, Canada, Belgium, Senegal and Vietnam. Learning French will allow you to converse with and better understand people throughout the world. Along with English, French is the world's most important diplomatic language. It is an official language of such organizations as the United Nations, UNESCO, NATO, and the international Red Cross.

France, one of the world's largest economies, is a leader in the export of luxury goods and technology. Canada's French-speaking province of Quebec is in itself one of the largest trading partners of the United States. For this reason, French is an important language for conducting business in the United States and elsewhere. Finally, French is unsurpassed as a language of culture. Discussions about literature, art, gastronomy and fashion inevitably start from and return to France. By studying French, you will be able to experience the varied products of French culture firsthand and to travel more easily in the world's top-rated tourist destination.

Success

Students in French usually possess strong verbal skills, some facility with languages and a desire to travel and interact with other cultures.

Career

Students in French have become:

- Secondary education teacher
- Instructor at colleges and universities
- Foreign service officer
- Translator
- Interpreter
- Sales representative
- Director of marketing
- Lawyer

Geography

Duration: **1.5 Years** Total Credits: **18** Award: **Minor**

Overview

Geography focuses on the spatial dimensions of human activities and their interactions with physical landscapes. The interrelationships between humans and their environments uniquely allow geographers to link the social and physical sciences. Geographers analyze information represented on maps, maps representing data produced in the traditional form (computer generated or drawn by hand) or images generated by satellites (remote sensing).

Success

Students are successful when they have an interest in learning about and understanding (1) world events, (2) local events within cities, (3) the urban, global, economic, and political processes underlying world and local events, (4) human impact on the physical environment and (5) the skills necessary to process, display and analyze geographic information.

Career

Geography provides a good educational background for students interested in a variety of careers in business, various government agencies (federal, state, county, city), non-profit agencies or careers as college and university professors. Geography provides strong preparation for professional and graduate schools (law, medicine, business, geography, or other physical or social sciences). Employment for students with strong geographic computer skills (GIS) is particularly strong. Examples of geography related jobs in various areas include:

- Agency of Internal Development
- Audobon Society
- Bureau of Land Management
- Bureau of the Census

Advising

Contact the program director, whose name and information appear at the top of this screen.

UC Advantages And Special Opportunities

Students in the College of Arts and Sciences enjoy many benefits afforded through study at a research-extensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 faculty-student ratio, a nationally recognized Center for Exploratory Studies, and a highly successful First Year Experience Program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Geography

Minor

Minor in Geography

Duration: 1.5 Years
★Minimum Credits: 18 Credits

Geography Minor Requirements
Students complete 21 hours as follows to complete this minor.

Course	Title/Desc	Credit
	Courses at 3000 level and above GEOGxxxx	9
	One course from Regional Geography group below GEOGxxxx	3
	One course from Geographic Techniques group below GEOGxxxx	3
GEOG1001	Introduction to Physical Geography	3
GEOG1004	Introduction to Human Geography	3

Regional Geography
Take one of these courses.

Course	Title/Desc	Credit
GEOG2031	Geography of the Middle East and North Africa (MENA)	3
GEOG1021	World Regional Geography	3 - 6
GEOG2003	Greater Cincinnati Regional Geography	3
GEOG2016	Geography of Europe	3 - 6
GEOG2026	Geography of Asia	3
GEOG2023	The Geography of North America	3
GEOG2011	Geography of Latin America	3
GEOG2037	Geography of China	3
GEOG2004	Geography of Ohio	3
GEOG2025	Geography of Sub-Saharan Africa	3
GEOG2036	Geography of Southern Asia	3

Spatial Techniques
Take one of these courses. NOTE: STAT1034 and 1035 are prerequisites for GEOG6075C.

Course	Title/Desc	Credit
GEOG6076C	Principles of Remote Sensing	3
GEOG5171C	Introduction to Geographic Information Sciences	3
GEOG5176C	Environmental Remote Sensing	3
GEOG6071C	Introduction to Geographic Information Sciences	3
GEOG6074	Computer Analytical Cartography	3
GEOG5175C	Quantitative Geography and Spatial Statistics	3
GEOG5174	Computer Analytical Cartography	3
GEOG6075C	Quantitative Geography and Spatial Statistics I	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Geology

Duration: **1.5 Years** Total Credits: **22 - 23** Award: **Minor**

Overview

The geosciences have undergone a revolution in the past decade, becoming an interdisciplinary science that emphasizes the study of major Earth systems — the geosphere (solid Earth), hydrosphere (water on the Earth's surface, underground, and in the air), atmosphere (the layer of gases that envelop the Earth), cryosphere (the frozen parts of Earth), and biosphere (the living things on Earth). Students in the Department of Geosciences learn how these systems work, how they are connected, and how they affect each other. Students integrate knowledge of Earth materials, Earth processes, and Earth history to understand global change through time.

Students in the Department of Geosciences experience learning through small, hands-on classes and field and laboratory work. Examples of topics taught and researched in the department include *geormophology* (the study of the Earth's surface and how landforms change over time), *hydrogeology* (the study of how water moves and is stored in soil and rocks), *paleontology* (the study of life throughout geologic time), *natural hazards* (natural events that may threaten lives and property), *economic geology* (the study of the exploration of ore deposits for economical purposes), *Quaternary geology* (the study of Earth processes over the past 2.58 million years as they relate to glacial-interglacial cycles), and *exobiology* (the study of the origin, evolution, and distribution of life in the universe).

A minor in geology (GEOL-MIN) serves to enhance related science majors, such as Environmental Studies, Geography, Biology, Chemistry, and Physics and seemingly non-related majors as well, such as Political Science and Business. For example, a student majoring in political science can learn about natural hazards and how they relate to public policy and a student majoring in business may benefit from a minor in geology to prepare for a career in economic geology. The geosciences program also offers a minor in environmental geology (EVGEO-MIN).

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

German Studies

Duration: 2 Years Total Credits: 20 Award: Minor

Overview

German is an interdisciplinary program that focuses on the language, culture, history, politics and literature of Germany and other German-speaking countries, as well as their influence on other cultures in Europe and beyond. The Department of German Studies at UC specializes in contemporary Germany, which boasts one of the world's most powerful economies and holds a central leadership role within the European Union. We believe, however, that today's Germany cannot be understood without reference to German history. Therefore, we offer courses that range from the Middle Ages to the 21st century and deal with a wide variety of topics and texts. We also place a great deal of emphasis on the impact that German culture has had on Cincinnati and consider German-American studies to be a vital component of our program.

Through academic course work, participation in study-abroad programs and interaction with outstanding faculty and visiting lecturers from around the world, German majors and minors have the opportunity to broaden their horizons and develop skills that will enrich their lives and enable them to contribute to greater global awareness when they assume roles in careers and society.

Success

Successful students in German studies come from a wide variety of backgrounds and skills. Verbal and musical learners are especially likely to succeed in German. However, students with a background in engineering also have found great success. A student who is curious about other cultures, enjoys reading, is interested in traveling and experiencing the world, or can see theselves living and working abroad for some time, should consider majoring in German studies.

German Studies Minor Curriculum Guide

Advising

The Department of German Studies takes advising seriously. Our undergraduate director, Professor Kelley-Thierman, is available to speak to all students interested in German language instruction, in a German major, or in a German minor. In addition, students are invited to meet with any of our faculty members, all of whom hold regular office hours.

We encourage students to develop a relationship with our undergraduate director as soon as they enter the major. With careful planning, many students are able to include a study abroad experience in their course work. While earning their degree in German Studies, they are also able to acquire additional expertise through a certificate or major in another program.

To find out more, stop by the Department of German Studies office in 733 Old Chemistry, or contact the department's administrative assistant, Bob Randale at 513-556-2752.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

The German studies program at UC provides students with a solid background in the German language and all aspects of German, Austrian and Swiss culture. We have special strengths in film studies, German-American studies and contemporary German literature and culture. We have strong study-abroad programs in Germany and work closely with other programs, such as European Studies and the international co-op program. We work with our majors and minors to customize their course of study to their needs and goals.

Study Abroad

The Munich program is a five-week, intensive-immersion language and culture course during the summer. There are three hours of intensive language instruction each day, Monday through Friday, plus a daily program of conversation classes conducted while visiting

cultural and historical sites in and around Munich, and weekend excursions, all under the direction of a professor from UC's Department of German Studies the Munich program may be used to satisfy some core requirements for the German major and minor; see the undergraduate director for details.

The summer field trip to Berlin is an interdisciplinary course taught in English for undergraduate students from across the University of Cincinnati. The variety in the background and interests of the participants assures the vitality of the experience, one focused on Berlin's material culture, past, present and future. Students finish the course with an individual project completed in the autumn semester.

German-American Studies Certificate

Students pursuing a degree at the university may also earn a certificate in German-American studies, which requires introductory courses on the German-American experience and German culture as well as an extensive independent project.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, the student must meet with the program director so that the department is aware of their pursuing the minor and can advise appropriately. Do this early enough to avoid delay in obtaining the minor.

Graduation Requirements

If a student declares the minor, then it will appear on their application for graduation. Application for graduation as the same as it would for a bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

German Studies

Minor

German Studies Minor Curriculum Guide

Duration: 2 Years
★Minimum Credits: 20 Credits

German Folklore

Take a total of 9 credit hours of courses from any of the groupings. Students are not required to complete an entire sequence or to take all the courses in a group.

Course	Title/Desc	Credit
GRMN2042	German Folklore 2: Faust Myth	3
GRMN2041	German Folklore 1: Fairy Tales	3
GRMN1071	German Folklore: Fairy Tales FRESHMAN SEMINAR	3

German Studies Minor Requirements

Students must complete the pre-requisites for GRMN 2002 to begin this 20 credit hour minor:

Course	Title/Desc	Credit
	Choose courses from the groups below GRMNxxxx	9
GRMN2002	Second Year German 2	3
GRMN3001	Introduction to German Studies 1	3
GRMN3002	Introduction to German Studies 2	3

German-American Studies

Take a total of 9 credit hours of courses selected from any of the groupings. Students are not required to complete an entire sequence or to take all the courses in a group.

Course	Title/Desc	Credit
GRMN1041	German-American Experience	3
GRMN1042	German-American Experience 2	3

Study Abroad

Take a total of 9 credit hours of courses from any of the groupings. Students are not required to complete an entire sequence or to take all the courses in a group.

Course	Title/Desc	Credit
GRMN2062	Berlin - Past and Present	3 - 6
GRMN2061	Study Abroad in Munich: Intensive Language and Culture	1 - 10

Survey of German Cultural History

Take a total of 9 credit hours of courses from any of the groupings. Students are not required to complete an entire sequence or to take all the courses in a group.

Course	Title/Desc	Credit
GRMN1082	Survey of German Cultural History 2	3
GRMN1081	Survey of German Cultural History 1	3

Topics in German Studies

Students must take 3 credits (one course) from this Topics in German Studies grouping

Course	Title/Desc	Credit
GRMN3011	Topics in German Studies 1	3
GRMN3012	Topics in German Studies 2	3

Upper Level GRMN Courses

Take a total of 9 credit hours of courses from any of the groupings (not necessarily this one).

Course	Title/Desc	Credit
GRMN3XXX+	GRMN3000	9

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

History

Duration: **1.5 Years** Total Credits: **18** Award: **Minor**

Overview

Students in history study and analyze human experiences of the past. By doing so, they become better able to understand other societies in addition to their own. Students develop strong critical thinking, reading and writing skills as they master research methods and historiography.

Success

Students must possess the ability to learn how to analyze primary sources and historical facts, to participate in informed discussion of conflicting historical perspectives and to appreciate the diversity of human experience over space and time. In addition, history students must be committed to developing skills in critical thinking, research methods and the integration of that knowledge in writing and oral communication.

We emphasize the importance of these skills because History, like other departments in the Arts & Sciences, focuses on helping students develop valuable transferable skills that will make you highly adaptable in a rapidly changing global economy, and make you an astute participant in politics and society. In addition, you will have the wisdom that comes with learning how we got to this moment in history so that you are better prepared to interpret the extraordinary complexity of the present and future. Some of these transferable skills include the ability to:

- Organize and manage diverse and complex information
- Express strong and persuasive evidence-based arguments in writing and speech
- Build unparalleled research skills through deep and broad inquiry
- Explore the complexity of the human experience across time and space
- Use the lessons of the past to understand the present

Career

In addition to being well-prepared for graduate, law or medical school, graduates of the history program pursue careers as:

- Archivists
- Academic advisors
- Librarians
- Educators
- Diplomats
- Filmmakers
- Museologists

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Judaic Studies

Duration: **1 Year** Total Credits: **24** Award: **Minor**

Overview

This interdisciplinary program combines the study of history, literature, philosophy, Hebrew language and other fields to familiarize students with the experience of the Jews of the past and present. Judaic studies offers students a wide range of approaches to exploring and understanding Jewish history, culture and religion.

Success

Successful students in Judaic studies demonstrate the core abilities and skills required in many liberal arts disciplines: academic focus, time management and the ability to develop high-level critical thinking skills. In particular, Judaic studies is suited to students who work well with languages and wish to study Judaism in its religious, historical, literary and cultural contexts. The program welcomes students of all backgrounds - field biology majors do not need to be mice and Judaic studies students do not need to be Jewish!

Career

Judaic studies graduates are well-prepared for further academic work in Judaic studies, Near and Middle Eastern studies, religious studies, Holocaust studies and other related fields. As a multi- and interdisciplinary field, Judaic studies provides an outstanding general education. Judaic studies also prepares one for careers in research and in various private- and-public sector fields. In addition to pursuing graduate study, Judaic majors and minors enjoy careers in:

- education
- community service
- a wide variety of religion-affiliated organizations
- journalism
- social work
- business
- and many other fields that value individuals whose skills include research, writing and critical thinking.

Special Programs

The University of Cincinnati's Department of Judaic Studies offers the student a unique academic and cultural experience. Since UC is a state-affiliated school, students of all backgrounds are welcome, and the program carries no theological or political agenda. The department enjoys a healthy relationship with nearby institutions such as Hebrew Union College-Jewish Institute of Religion, the Jacob Marcus Center, the American Jewish Archives and the Center for Holocaust Education, and students have ongoing opportunities to work with those institutions.

The department's faculty represent a wide range of disciplines within the field and boasts both distinguished publication records and numerous teaching and service awards. At the same time, professors and instructors are engaged and accessible, offering students personal attention and a feeling of community in a large university setting.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

JUDC1027	History of Jewish Civilization I: Origins to 1500	3 - 4
JUDC1028	History of Jewish Civilization 2: 1500 to the Present	3 - 4
JUDC1035	Introduction to Judaism	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Mathematics

Duration: **2 Years** Total Credits: **24** Award: **Minor**

Overview

Mathematical sciences include the disciplines of pure mathematics, applied mathematics and statistics. Mathematicians and statisticians use representations of abstract ideas and relationships to solve problems in order to arrive at a general understanding of how these representations work, as well as how they could be applied. Mathematical sciences students learn complex analytical and problem-solving skills while exploring a range of mathematical topics and problems.

Success

The field of mathematical sciences is quite diverse, so success factors tend to vary. Certainly, good reasoning skills and logical thinking, along with the ability to communicate abstract concepts are important. Mathematicians enjoy challenging problems and find it difficult to stop working on a problem until they arrive at a satisfactory solution.

Duration: 2 Years
★Minimum Credits: 24 Credits

Math Minor Core Requirements
C- or better required in all courses.

Course	Title/Desc	Credit
MATH1061	Calculus I (C- min)	4
MATH1062	Calculus II (C- min)	4
MATH2063	Multivariable Calculus (C- min)	4
MATH2076	Linear Algebra (C- min)	3

MATH Minor Electives
Student must complete three electives

Course	Title/Desc	Credit
MATH STAT	One course from elective list recommended MATH2073 or MATH2074; only one can be taken (C- min)	3
	MATH or STAT choose two from course list, STAT 2037 recommended as one of the two courses. (C- min)	6 - 8

Math & Stat Electives
Three courses required from this group. (MATH2073 or MATH2074 & STAT2037 recommended, but not required.) Students may not count both a 51xx undergraduate course and the corresponding 60xx graduate course for credit towards the minor. Grade of C- or better required in all courses.

Course	Title/Desc	Credit
STAT2037	Probability and Statistics I (C- min)	3
MATH2073	Ordinary Differential Equations (C- min)	3
MATH3001	Introduction to Abstract Math (C- min)	3
MATH3002	Introduction to Analysis (C- min)	3
MATH3004	Introduction to Abstract Algebra (C- min)	3
MATH3005	Introduction to Geometry (C- min)	3
MATH3006	Mathematical Modeling (C- min)	3
MATH3008	Introduction to Financial Mathematics (C- min)	3
STAT3038	Probability and Statistics II (C- min)	3
STAT3041	Data Science and Statistics (C- min)	3
MATH4001	Special Topics in Mathematics (C- min)	3
MATH4008	Introduction to Probability (C- min)	3
MATH4009	Financial Mathematics for Actuarial Sciences (C- min)	3
MATH4011	Introduction to Number Theory (C- min)	3
MATH4012	Differential Geometry and Topology (C- min)	3
STAT4021	Special Topics in Statistics (C- min)	3
MATH4047	Individual Work in Undergraduate Mathematical Sciences (C- min)	1 - 4
MATH5XXX+ STAT5XXX+	MATH/STAT 5000+ MATH or STAT 5000-level or above (C- min)	3 - 4

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Organizational Leadership

Duration: **1 Year** Total Credits: **15** Award: **Minor**

Overview

Organizational leadership is an interdisciplinary program that combines a liberal arts education and selective business subjects with classes, guest lectures and seminars in leadership. The core curriculum of the ORGL program focuses on understanding theoretical and practical approaches to leadership. "Leadership" by definition, is not limited to for-profit enterprises, but extends to all forms of organizational life (e.g., non-profit, government, education) as well as our interpersonal and group relationships. Accordingly, this program provides a coherent pathway for students wishing to become leaders across all sectors by targeting skill areas essential for leadership, organizational success and a lifetime of personal and professional achievement.

Success

Organizational leadership students enjoy working in team-based environments and desire to make an impact in their organizations and communities. They understand how organizations function, have strong critical thinking and problem solving skills and are self-, socially-, and globally-aware. These characteristics enable our students to succeed in a variety of careers, including human resources, sales, banking and public service.

Career

Like students who graduate with other liberal arts majors, graduates in organizational leadership are prepared for further academic or professional study and for many different career options in the nonprofit and for-profit sectors.

Graduates are employed as:

- Human resource recruiter
- Marketing manager
- Bank financial loan officer
- Retail manager
- Loan processor, financial institution
- Sales representative
- Local government agencies
- Hospital administration supervisor
- Restaurant owner/manager
- Airline customer service manager
- Education administrator
- Employee relations representative
- Training and development manager
- Health care administrator

Organizational leadership students may also choose to go on to law school, master's programs in business administration, human resource management or graduate programs in communication, psychology and other liberal arts disciplines.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

Minor in Organizational Leadership with Military Science Substitutions

Semester-Based Curriculum

The minor will require 15 credit hours of course work as outlined below:

ORGL Requirements	Military Science Substitutions
ORGL2050: Foundations of Leadership	MS2001: Leadership 1 OR MS2002: Leadership 2
ORGL2051: Organizational Behavior for Leaders	-
ORGL3050: Practice of Leadership	MS3001: Adaptive Team Leadership
ORGL3053: Organizational Assessment and Evaluation	-
Choose two ORGL electives: ORGL2062: Women and Activism ORGL2095: Diversity in the Workplace ORGL3030: Ethics in Organizations ORGL3053: Organizational Assessment and Evaluation ORGL3055: Organizational Development and Planning ORGL4050: Lessons in Leadership, ORGL4051: Leading Change ORGL4095: Individual Work in OLHR ORGL4098: Leadership Practicum ORGL5001: Service-Learning Collaboratory	May substitute for only one of the required ORGL electives: MS3002: Applied Leadership

Students are limited to 1 course substitution in the elective courses. For instance, if a student takes a diversity course outside the minor, he or she can use that for credit toward the minor, but must choose other electives from the lists provided to complete the requirements for the minor.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Organizational Leadership

Minor

Organizational Leadership Minor

Duration: 1 Year
★Minimum Credits: 15 Credits

Required Courses (9 credits)
Complete all three of following courses:

Course	Title/Desc	Credit
ORGL2050	Foundations of Leadership (C- min)	3
ORGL2051	Organizational Behavior for Effective Leaders (C- min)	3
ORGL3050	The Practice of Leadership (C- min)	3

Electives (6 credits)
Complete two of the following courses:

Course	Title/Desc	Credit
ORGL2010	How to Change the World I (C- min)	3
ORGL2011	Changemakers: Lessons Learned through Travel in the Developing World (C- min)	3
ORGL2095	Leading the Diverse Workplace (C- min)	3
ORGL3000	Introduction to Human Resources (C- min)	3
ORGL3030	Ethical Issues in Organizations (C- min)	3
ORGL3038C	Social Influence and Persuasion for Leaders (C- min)	3
ORGL3040	Teams (C- min)	3
ORGL3053	Organizational Assessment and Evaluation (C- min)	3
ORGL3055	Organizational Development and Planning (C- min)	3
ORGL4051	Leading Innovation and Change (C- min)	3
ORGL	Other ORGL Courses not listed above (C- min)	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Philosophy

Duration: **1.5 Years** Total Credits: **21** Award: **Minor**

Overview

Philosophy deals with basic questions, such as: What is knowledge? What makes something morally wrong? What is the mind? What is art? Some courses deal with the history of thought about such questions. Other courses deal with contemporary discussions of these questions. In addition, philosophy deals with a variety of questions that arise in the context of contemporary science and morality, such as: What is evolution? Can computers think? May doctors assist in suicide? Courses dealing with these sorts of questions are often interdisciplinary in nature, drawing on such subjects as biology, psychology and medicine.

Success

The best reason to study philosophy is simply because it is interesting. However, in addition to satisfying a need to know, philosophy offers a number of additional benefits. Students who study philosophy learn to think deeply and carefully about complex issues. They learn to construct precise arguments in defense of their ideas. They learn to write well. Because most of our courses are small (especially at the 3000-level and above), students receive close personal attention to better help them develop these important skills.

Career

- Professor
- Attorney
- Medical doctor
- Journalist
- Entrepreneur

Special Programs

The department sponsors a vibrant speaker series and an annual colloquium featuring multiple speakers addressing a single theme. Undergraduate students are expected to attend these events. One of the best ways to experience the thrill of philosophy is to observe professional philosophers debating the issues with one another. Undergraduate students will have opportunities to speak with and ask questions of visiting speakers.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Physics

Duration: 2 Years Total Credits: 32 Award: Minor

Overview

Physics is the study of the physical laws of nature. Physicists apply these laws to draw conclusions about a wide range of phenomena, from the structures of subatomic particles to planetary motion. Students in physics develop strong analytical skills, learning to produce and examine critically exact quantitative evidence for theories about the workings of the universe.

Success

The successful physics student must possess strong skills in mathematics, analytical thinking and writing, and problem solving. The student should be imaginative and welcome challenges. For greatest success, the student should function well both individually and as part of a group.

Career

The study of physics provides excellent training in quantitative and analytic approaches to solving problems, as well as experience with computers and laboratory equipment. Physics graduates are highly sought for professional programs in law, economics, medicine, neuroscience, business and teachings.

The emphasis on modeling and problem-solving skills as an intrinsic part of a physics education means that graduates of this program can and do pursue many different careers. In addition to continuing on to professional schools like law, medicine, teaching and business, opportunities of our recent graduates include:

- Science teacher
- Banking and finance
- Military officer
- Accelerator operator
- Research technician
- Computer engineer
- Software development
- Actuary
- Medical physics

Physics (Astrophysics Concentration)

Duration: 2 Years Total Credits: 32 Award: Minor

Overview

Astrophysics is the study of the structure and evolution of the universe, from the smallest scales measurable to the limits of detectability. It encompasses such diverse areas as the formation and evolution of stars and planetary systems, to the chemical evolution of galaxies, to the deep connections between the quantum nature of matter and the large-scale structure of the cosmos.

Success

The successful student in astrophysics will need to have strong math and writing skills, imagination, the ability to engage in analytic thinking and problem-solving, as well as a keen interest in understanding how the universe works.

Career

The study of astrophysics provides excellent training in quantitative and analytical approaches to solving problems. Astrophysics graduates are highly sought for graduate and professional programs in engineering, computer science, law, economics, medicine, business and teaching. The emphasis on modeling and problem-solving, along with the rigorous mathematical background needed for the major, means graduates of this major pursue many different careers.

Students have an edge in careers such as:

- Physician
- Professor/teacher
- Planetarium operator
- Researcher
- Telescope operator
- Museum curator

Additional careers are possible in space industry, science writing, patent industry, programming, military and biomedical industry.

Political Science

Duration: 2 Years Total Credits: 21 Award: Minor

Overview

Political science is the study of politics and government, both in the United States and around the world. Political science minors develop strong research and analytical skills while exploring topics such as the philosophies on which governments have been founded, the ways in which citizens affect and are affected by their governments and relationships within the international community.

Success

Political science minors develop the strong analytical skills necessary for interpreting and evaluating evidence and arguments that can be applied in a variety of professional settings. Political science minors research a broad range of domestic and international social, political, cultural, and economic issues. Students learn how to conduct independent research. They engage in in-class discussions, evaluate the relevancy of different arguments, and apply their professional skills to solve theoretical and real-world problems. Through in-class discussion and hands-on experiential learning opportunities, students work with our award-winning faculty to study and evaluate theory, policy, and action. These unique experiences make them strong candidates for employment in government, private businesses, and the non-profit sector.

Career

Like students who study other social science and liberal arts programs, students with minors in political science are prepared for many different career options. Many political science minors use their degree to establish careers in:

- state, local, and federal government
- private sector
- non-governmental sector
- non-profit management
- party politics
- education
- journalism and public relations
- law
- public policy
- related disciplines

Students with minors in political science also pursue graduate degrees in political science. They often become attorneys, consultants, journalists, lobbyists, leaders in private and public corporations, professionals in media and communications, international business, economics and finance, law, national security, cybersecurity, professors, and researchers in colleges and universities.

Political Science Curriculum Guide

Advising

The College of Arts and Sciences provides advising to all A&S students to advance each individual student's educational goals and plans. Further A&S information can be found here.

For further information, please contact the SPIA program director, whose name and information appear on this page.

The School of Public and International Affairs faculty provide advising about course content, specific program requirements, professional opportunities, and post-baccalaureate education. Faculty advisors and office hours are provided on the SPIA website.

UC Advantages And Special Opportunities

Students in UC's College of Arts and Sciences enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Political science minors benefit from the active research mission of the School of Public and International Affairs (SPIA), including not only faculty scholarship but also a vibrant graduate program, both of which enhance the learning environment for undergraduates. In conjunction with the political science major and minor, SPIA administers certificate programs in security studies (international and homeland security) and international human rights. The school also enjoys long-standing research excellence in political behavior, public opinion polling, survey research and other areas of American politics.

The School of Public and International Affairs is an interdisciplinary department and partners with other programs and departments in the UC College of Arts and Sciences that include journalism, environmental studies, women, gender and sexuality studies, history, geography, anthropology, foreign languages, Africana studies, the College of Law, the School of Information Technology, and others. Students from these programs are welcome to consider political science as their minor or explore some of our certificate programs.

Special Programs

Students taking courses in the department have a change to complete a certificate in War, Peace and Security, International Human Rights, Legal Studies, and Cybersecurity.

Admission Requirements

Students already pursuing a degree in any college at UC can add the certificate to their program. Be sure to submit a declaration of the certificate program using our online form.

Transferring To UC

Admission to A&S is generally available for any off-campus student who was admissible directly from high school and has a cumulative 2.0 GPA and a 2.0 in the most recent institution.

Students who were not admissible directly from high school must have:

- 24 semester (36 quarter) hours earned
- at least a cumulative 2.0 GPA and a 2.0 at most recent institution

University transfer scholarships are available to those who meet specific requirements and ANY admitted A&S transfer student might qualify for an A&S transfer scholarship. Deadlines and eligibility criteria are online via the previous links.

For any inquiries please contact us at artsci@ucmail.uc.edu.

Changing Majors Within UC

Admission to A&S is generally available for University of Cincinnati students enrolled in other colleges if they were admissible directly from high school, have a cumulative 2.0 GPA and a 2.0 in their most recent UC college.

Students who were not admissible directly from high school must have:

- 24 semester (36 quarter) hours earned
- at least a cumulative 2.0 GPA

International Student Requirements

International students should visit the Undergraduate Admissions for International Students page for more information.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Political Science Curriculum Guide

Duration: 2 Years
★Minimum Credits: 21 Credits

Political Science Minor Requirements
Students complete the following 21 hours for this minor:

Course	Title/Desc	Credit
	Three Introductory POL courses from group below POL1xxx	9
	Four upper division POL courses (at or above 2000 level) POL2xxx	12

Upper division political science
Take four courses above the 2000 level.

Course	Title/Desc	Credit
POL2XXX+	POL2000	12

Introduction POL courses
A student must take three introductory courses from this list.

Course	Title/Desc	Credit
POL1040	Introduction to Political Theory	3
POL1080	Introduction to International Relations	3
POL1060	Introduction to Comparative Politics	3
POL1010	Introduction to American Politics	3
POL1001	Understanding the Political World: Democracy and Political Science	3
POL1090	Law, Politics, and Society	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Psychology

Duration: 0.5 Year Total Credits: 18 Award: Minor

Overview

Psychology is the scientific study of the behavior of animals and humans. Psychology students develop strong research and analytical skills while exploring all phases of human life. They study behavior of individuals and groups, both the well-adjusted and the dysfunctional. Students of psychology are interested in conducting research to discover patterns of human behavior, as well as in applying psychological principles and techniques to solving social and individual problems.

Success

Psychology is a very broad discipline involving research and application in every aspect of living beings (human and animal). Skills that make for excellence in some aspect of psychology include: developing and carrying out empirical research (both applied and theoretical), interpreting results, communicating to others, listening, engaging, involving, showing an interest in others, observing and many more.

Career

The strong critical thinking skills, along with the abilities to research, write and understand human behavior, and acquiring skills to work with others developed in the curriculum are highly valued in a wide range of positions in industry, business, law and social services. The master's degree is generally the minimum professional degree for licensing or certification of psychologists who work in education, business, hospitals, clinics, prisons and private practice.

Career possibilities (some of which will require completion of graduate programs) include:

- Human Resource professional
- Caseworker
- Clinical, research or school psychologist
- College or university professor
- Counselor
- Mental health worker
- Research psychologist
- Marketing researcher

Psychology Minor Curriculum Guide

Advising

Your undergraduate academic advisor can answer questions about the requirements of the major and minor, and how best to make use of the resources and opportunities available to students (selection of minors, course availability and selection, research, internships, clubs, etc.) Your advisor is also a good starting point for questions you are not sure who should answer.

Seeing an advisor is often useful for students starting the major or transferring in from another program or college.

Any questions regarding college requirements should be directed to the college office in French Hall West, 2nd floor lobby 513-556-5860.

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program.

Psychology

Minor

Psychology Minor Curriculum Guide

Duration: 0.5 Year

★Minimum Credits: 18 Credits

Psychology Minor Requirements

Course	Title/Desc	Credit
	Five courses at 2000 level or above, excluding 3052 and 3059. (Note that 3053 may be taken only once.) PSYCxxxx	15
PSYC1001	Introduction to Psychology	3

Requirements for the Minor

In addition to psyc 1001, students must complete 15 credits of coursework in psychology at the 2000 level or above (only 3 credits can be earned from PSYC 2052, 2096, 2097, or 2099).

Course	Title/Desc	Credit
PSYC2XXX+	PSYC2000	15

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Sociology

Duration: 1 Year Total Credits: 18 Award: Minor

Overview

Sociology is the scientific study of society and the various groups that make up a society. Sociology students develop strong research and analytical skills while exploring the social causes and consequences of human behavior. They study the structure of societies and groups and explain how social change occurs within them. Sociologists both develop theories about social behavior and apply these theories to solve social problems and form social policy.

Success

Sociology students have good critical-thinking abilities and are concerned with understanding society and improving social institutions and the well-being of individuals. Strong writing, math and computer skills are important for sociology students in their education and subsequent career work. The skills of analysis, research, reading and writing that a student studying sociology acquires are highly valued in a wide range of business positions. Sociology is an excellent program for students who are interested in working with people and groups in a variety of fields, e.g, business, social work, law and medicine.

Career

Like students who graduate with other liberal arts programs, students in sociology are prepared for many different career options. The skills and interests of a sociology student could lead to careers in:

- Social Services
- Administrative Support
- Management
- Teaching
- Sales & Marketing
- Social Science Research

UC Advantages And Special Opportunities

Students in the UC College of Arts and Sciences (A&S) enjoy many benefits afforded through study at a research-intensive institution ranked among the nation's top 25 public research universities. UC's urban, Tristate location offers exciting opportunities for global education, research and service learning, while its student-centered focus includes an 11:1 student-faculty ratio, a nationally recognized Center for Exploratory Studies and a highly successful First Year Experience program that teaches critical skills for first-year students and provides connections with important campus resources.

Special Programs

UC's Sociology Department has strong emphases in social inequality (by race, class, and gender), urban research (e.g., neighborhood change), health and medical sociology, and work and family. Students get a strong grounding in theory, statistics and research methods, culminating in a research-oriented capstone experience. This is a relatively small department with excellent teachers, about 90-100 majors and an active undergraduate sociology club.

Admission Requirements

Students already pursuing a degree in any college at UC can add the minor to their program. Be sure to submit a declaration of the minor using our online form.

In addition, you must meet with the program director so that the department is aware that you are pursuing the minor and can advise you appropriately. Do this early enough to avoid delay in obtaining your minor.

Graduation Requirements

If you have declared the minor, then it will appear on your application for graduation. Apply for graduation as you normally would for your bachelor's degree.

Students complete the following 18 hours for this minor:

Course	Title/Desc	Credit
	SOC electives at 2000 level and above SOC2xxx	12
SOC1001	Introduction to Sociology	3
SOC3005	Survey of Sociological Theory	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Spanish

Duration: **2 Years** Total Credits: **21** Award: **Minor**

Overview

Students of Spanish study the language, culture, and literature of Spain, most of Latin America and the Spanish-speaking United States. Spanish majors develop linguistic skills and enrich themselves through the study of a variety of cultures.

Success

Students in Spanish usually possess strong verbal skills, some facility with languages and a desire to travel and interact with other cultures.

Career

Spanish students often seek teaching careers, either in secondary education or in colleges and universities following completion of graduate studies in the field. Spanish is also a strong liberal arts program that allows students to develop critical thinking, reading and writing skills in addition to knowledge of a foreign language and culture. Our increasingly multilingual society makes this combination of skills highly valued in a wide range of positions in the public and private sectors.

Career possibilities include:

- Teacher
- Interpreter
- Translator
- Researcher
- International law
- Social Services

Special Programs

The Department of Romance and Arabic Languages and Literatures (RALL) offers students the possibility of interacting with excellent faculty in small, seminar-style courses. We do all we can to help students study abroad; in particular, we transfer credits from most study-abroad programs.

Study Abroad

The Department of RALL strongly encourages students to study abroad. We sponsor a number of programs of varying durations in different countries -- from Mexico and Spain to France, Italy, and Brazil.

Spanish Minor

Duration: 2 Years
★Minimum Credits: 21 Credits

Spanish Minor Requirements

Spanish Minor Requirements
Students must demonstrate proficiency in SPAN 1002 or equivalent to begin this 21 hour minor.

Course	Title/Desc	Credit
SPAN2015	Spanish Composition and Conversation (C- min)	3
SPAN2016	Spanish Composition and Conversation (C- min)	3
SPAN3001	Spanish Grammar and Composition	3
SPAN3002	Speaking in Spanish	3
SPAN4001	Advanced Grammar	3
SPAN	SPAN Minor Electives Two SPAN elective courses at 3000 level or above (may use SPAN2031 if completed prior to SPAN3001)	6

Cumulative GPA of 2.0 required for SPAN minor courses.

Elective Policies

SPAN Electives

Course	Title/Desc	Credit
SPAN	Advanced proficiency exception If a student places out of SPAN2015 (and SPAN2016), the hours (3 or 6) must be completed by taking additional SPAN Electives at the 3000 level or higher	3 - 6
SPAN	SPAN Electives SPAN electives must equal 6 semester credits of SPAN courses at 3000 level or higher (may use SPAN2031 if completed prior to SPAN3001)	6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Statistics

Duration: **4 Years** Total Credits: **26** Award: **Minor**

Overview

The minor in statistics program will provide students from various fields with essential statistics knowledge and data analysis skills they can use in their own specific fields. Upon the completion of the minor program, the students will be able to conduct statistical analysis using modern computational tools, understand basic theories which are the foundation for various statistical methodologies, read research articles and news that use statistics, and interpret the findings and conclusions.

Success

To succeed in statistics minor, students need to have good data analytic skills and a strong interest in solving real-world problems with quantitative analysis. Good computational and communication skills will increase the chance of success.

Career

Employments for statistics minors are available in numerous industries, government, and academia. A partial list of expected careers for graduates of statistics minor is below.

- Data analyst in industries, medical or health care sectors, or government
- Research associate in natural or social science disciplines
- Marketing research analyst
- Financial analyst
- Risk analyst
- Sports analyst

Women's, Gender and Sexuality Studies

Duration: **1 Year** Total Credits: **15** Award: **Minor**

Overview

Women's, gender, and sexuality studies is an interdisciplinary program that explores the complexity of human experiences and lives. Through a broad range of subjects, women's studies raises questions about gender, race, sexual identity, nationality and social class, focusing particularly on their intersections. Women's, gender, and sexuality studies also examines women's roles and achievements historically and cross-culturally. This program of study challenges stereotypes and inequalities, promotes critical thinking and self-awareness and empowers individuals to work for social change.

Success

Attention to the intersections between theory and practice is at the heart of women's, gender, and sexuality studies. As an interdisciplinary course of study, women's studies calls for a range of verbal, analytic and critical skills, as well as the ability to integrate different modes of scholarly inquiry. Students with a keen interest in literature, social science or critical analysis can also focus their work in elective courses.

Career

- Advocate for domestic violence or hate crime victims
- Art Therapist
- Battered Women's Center Director
- Business Owner
- Clinical Social Worker
- Doctor
- Health Clinic Medical Assistant
- Human Services Administrator
- Lawyer
- Minister
- Recreational Therapist
- Town Manager
- Union Organizer
- Writer

Asian Studies

Duration: **1 Year** Award: **Graduate Certificate**

Overview

Asia is gaining increasing economic and strategic prominence in the world, and Asian countries have rich and fascinating cultures and heritages. The Asian Studies graduate certificate is an interdisciplinary program of study about Asia, with courses from fields such as history, political science, international affairs, art history, asian cultures, gender studies, and other social science and humanities fields. The certificate is a useful additional credential for students obtaining graduate degrees in the above disciplines, as well as for students in business, education, planning, engineering, law, and other areas. It is also open to those not enrolled in a degree program at UC.

Link to Online Application

Career

Curriculum

The Asian Studies graduate certificate requires at least 12 credits and three core courses in Asian studies, including Aist 7050 – Survey of Asian Studies. See the Asian Studies webpage for a list of courses.

Film and Media Studies

Duration: **1 Year** Total Credits: **14** Award: **Graduate Certificate**

Overview

Film & Media Studies is a collaborative interdisciplinary graduate certificate that provides a critical understanding of film, television, and digital media that integrates history, theory, and praxis. It studies all aspects of media culture, from the first cinematic shorts to digital media. The field combines both academic study and hands-on experience with visual media.

Success

Successful students in this certificate program possess a creative, visual learning style. They enjoy exploring new forms of art and thinking critically about the world.

Career

- Scholar
- Journalist
- Film Production
- Television Production
- Media Production
- Artist
- Actor
- Editor
- Producer

UC Advantages And Special Opportunities

The graduate certificate in Film & Media Studies unites faculty and students from three Colleges (A&S, CCM, and DAAP) in order to offer students training in both theory and practice. UC's strengths in media production and in visual studies combine to offer students hands-on experience in production along with training in the analysis of media and visual culture.

Special Programs

Any student in good standing in his or her graduate program qualifies. Applications will be made to the Director of Film Media and Visual Studies. Applications will consist of: (1) a statement of purpose, (2) a transcript, and (3) a letter of support from the applicant's graduate program director. To apply please go to the online application.

Admission Requirements

Any student in good standing in a UC graduate degree program qualifies. Students who are not enrolled in another UC graduate program but who hold a bachelor's degree may also apply.

Applications are reviewed by the Graduate Program Director in Film and Media Studies and consist of: (1) a statement of purpose, (2) transcripts, and (3) either a letter of support from the student's graduate program director (for students already enrolled in a UC graduate program) or (for external applicants) a letter of recommendation that speaks to the applicant's potential for success in the Film and Media Studies graduate certificate program.

Health Communication

Duration: **1 Year** Award: **Graduate Certificate**

Overview

Health communication, the study and use of communication strategies to inform and influence individual decisions that enhance health, means having a wide variety of strategies at your disposal. In today's digital environment, those strategies often involve text, visuals, and technologies.

The curriculum emphasizes the theory and practice of communication processes, paying particular attention to audience and purpose to ensure that communication can be used and acted upon. The innovative approach of merging professional writing with communication ensures that students will develop cross-genre skills in media rich technologies (such as web content development and design and usability testing), while also working at honing their writing, communication, and research skills.

The program is designed for full and part-time students, including

- recent graduates of BA or BS programs in English, communication, graphics, the sciences, and other fields
- working professionals turning to part-time graduate study to enhance their careers, improve their chances for promotion, or become credentialed in a different field. (Students have included recent college graduates to recent retirees.)

With the health communication certificate, students will have the practical skills and theoretical knowledge to work in a number of communication related positions in most health care organizations.

Career

An emphasis in health communication will allow you to position yourself as a communication problem solver for most any type of organization in the health care industry. Some potential job titles include:

- Health educators
- Medical and health services managers
- Web developers at health organizations
- Health information specialists
- Communication managers
- Technical writers
- Promotions and marketing managers
- Communication specialist in patient services
- Health communication specialist
- Medical writer
- Senior patient advocate

Judaic Studies

Duration: **1 Year** Total Credits: **15** Award: **Graduate Certificate**

Overview

Judaic Studies is the academic study of Jewish civilization, past and present. Judaic Studies is an interdisciplinary academic field bringing together scholars trained in multiple fields in the humanities and social sciences. It is a remarkably broad field, with a history spanning from biblical time to the present day, and geographically the world over. The key elements Judaic Studies include the study of the Jewish religion; the study of the languages; Jewish history and literature; Jewish thought and society.

Judaism is a central building block of Western Civilization and students of Judaic Studies gain insight into their own civilization. Further: students of Judaic Studies gain insights into the vital issues of diversity by studying the history and culture of a global minority, which faced some of the harshest persecutions in recorded history.

The Department of Judaic Studies will make Jewish heritages, texts, history available, relevant and meaningful to students at all levels and backgrounds.

The Graduate Certificate in Judaic Studies is a 15-credit program providing students with a broad introduction to graduate learning and research in the field of Judaic Studies. The certificate is structured to be completed within a single academic year. Upon completion of the program participants will receive a printed graduate certificate from the College of Arts and Sciences.

The Certificate serves a diverse student body

- It offers a transition year for college graduates seeking to apply to Masters and Ph.D. programs in fields directly related to Judaic Studies.
- For graduate students already in such a Masters or Ph.D. program, the Certificate includes training for teaching introductory courses in Judaic Studies to undergraduates.
- For local professionals and graduate students in other fields, the Certificate offers accredited professional development and expertise in a specific subject area through graduate level courses in Judaic Studies

Success

Successful candidates for the Graduate Certificate in Judaic Studies come from a wide variety of backgrounds and skills. They demonstrate the core abilities and skills required in many liberal arts disciplines: academic focus, intellectual curiosity, love of reading, the ability to develop high-level critical thinking skills. A B.A. in Judaic Studies, or other form of Jewish learning, is a major advantage, but is not obligatory. In particular, the Graduate Certificate in Judaic studies is suited to graduates who wish to study Judaism in its religious, historical, literary and cultural contexts, and to integrate Jewish learning and knowledge in their work. The program welcomes students of all backgrounds - field biology students do not need to be mice and Judaic Studies students do not need to be Jewish!

Career

Curriculum

The Graduate Certificate is a 15-credit program providing students with a broad introduction to graduate learning and research in the field of Judaic Studies.

There are two required courses:

- JUDC6097 Introduction to Graduate Research in Judaic Studies (credit: 3)
- JUDC7035 Foundations of Judaism (credit: 4)

Additionally student will take three elective courses form one of four content areas:

- History, Politics, and Culture
- Literature, Language and Film
- Bible and Rabbinics
- Philosophy, Thought and Theory.

Electives may be taken from both institutions.

UC Advantages And Special Opportunities

The Graduate Certificate in Judaic Studies is the product of a very unique partnership between **UC** and the **Hebrew Union College-Jewish Institute of Religion.** The University of Cincinnati is one of America's top 25 public research institutions and the region's largest employer, with a diverse student population of 41,000. The Hebrew Union College-Jewish Institute of Religion (founded in 1875) is the nation's oldest institution of higher Jewish education and the academic, spiritual, and professional leadership development center of Reform Judaism. The HUC campus houses both the American Jewish Archives, and the Klau Library is one of the most extensive Jewish libraries in the world. Courses may be taken from both institutions. The combination of these two neighboring institutions affords an ideal setting for integrating graduate level work with undergraduate pedagogy.

Admission Requirements

The required submission materials are:

(a) Letter of intent (personal statement letter)
(b) Recommendation letters (submitted online)
(c) Grades (GPA , transcripts, and test scores).

Students have the option of submitting a sample of written work, which will be read and taken into consideration by the application's reviewers. Finally, students will be invited to an **interview**.

NOTE: the Graduate Certificate in Judaic Studies admits news students both in the Fall and the Spring Semesters (though Fall Semester is the default).

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Professional Writing

Duration: **2 Years** Total Credits: **12** Award: **Graduate Certificate**

Overview

The certificate program in Professional Writing is geared primarily toward working professionals who seek to extend their writing and publishing skills and to gain a more solid academic foundation for their current practices.

The certificate can make working professionals more competitive in today's job market by extending their skills and introducing them to a wide variety of career opportunities.

Career

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
PWRT-GC Degree Plan

Admission Requirements

All applications are given careful and individual review. In some cases, students who do not meet the required GPAs and GRE scores may be admitted.

- Bachelor's degree from an accredited university or college. BA in English is not required, but good writing skills are.
- Minimum undergraduate GPA: 3.5
- GRE® General Test is not required for the certificate, but will be required to take courses toward the MA.

Application Requirements

Step 1: Online Application Submission

All Graduate programs at the University of Cincinnati require an online application.

- Click here to locate information on applying to the Graduate School.
- Click here to go directly to the Graduate School online application for the spring, summer, or fall term.

You will be required to submit the following materials as part of the Online Application:

1. Letter of Intent: state academic goals and professional objective
2. Curriculum Vitae
3. Writing samples (combine all samples into one document):
    - Two substantial pieces of expository writing, 10+ pages each (both can be academic, if possible) or several shorter pieces (such as articles, reports, or instructions)

Note: The English Department does not consider the "optional" video submission that is offered as part of the Graduate School's application process.

Step 2: Required Supplementary Materials

1. **Two letters of recommendation (no form required):** Recommenders will submit letters through the Online Application system.
2. **Unofficial Transcripts from all universities and/or colleges attended.** These are uploaded during your online application completion. Unofficial transcripts can take many forms, including a list of courses/grades from a previous academic institution's student portal, a copy of an official transcript, a picture of a transcript, or any other listing depicting your academic career. Please note that although unofficial transcripts are required for the application, official transcripts will be required if admission is offered and you accept. In addition, official transcripts must be in final form (listing any degrees conferred). Official transcripts can be submitted as early as the day you accept admission and as late as the beginning of your first term of enrollment.
3. Proof of English Proficiency is required of all applicants whose native language is not English.

Submit Official Transcripts To:

Teachers of Spanish and French

Duration: **1.5 Years** Total Credits: **18** Award: **Graduate Certificate**

Overview

The Graduate Certificate for Teachers of Spanish and French is intended for secondary school teachers of Spanish or French who are seeking the necessary credentials to be able to teach dual credit (college and high school) courses in their high schools. This certificate will provide teachers with the required 18 graduate credit hours of coursework in the discipline of Spanish or French.

The graduate certificate program requires completion of four courses in Applied Linguistics, literature or film, which are taught in the evening during the academic year, and one 2 credit hour internship in Spanish or French to be determined with the Director of Graduate Studies. Students should be able to complete the requirements for the certificate within 12 months.

Students successfully completing this program may apply to and continue in a master's degree programs in either French or Spanish.

Career

Curriculum

The Graduate Certificate is an 18-credit program of coherent coursework in Spanish or French.

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Curriculum Guide Versions:
15GC-TSPF-GC (v02)

Admission Requirements

Applicants will be expected to hold a bachelor's degree in an appropriate program. Applicants must submit the following:

- Unofficial transcript of all college-level work taken for credit at any college or university
- Three letters of recommendation by colleagues or former professors
- A statement of purpose in English, detailing the applicant's goals and motivations for entering the program
- Applicant's CV
- Writing sample written in the target language about the teaching of Spanish or French language or literature.

Applicants who are accepted to the program will need to submit official transcript of all college-level work taken for credit at any college or university.

Translation and Translation Studies

Duration: **2 Years** Total Credits: **14** Award: **Graduate Certificate**

Overview

Translation & Translation Studies is an interdisciplinary, cross-college certificate that draws from curricular offerings in various departments such as English, Romance & Arabic Languages & Literatures (RALL), German, Asian, and Judaic Studies. Some classes are also be dual-numbered in order to allow upper-level undergraduate students to enroll. Rather than being targeted at specific languages, the curriculum will allow students from various programs and linguistic backgrounds to share ideas and discuss translation issues. This certificate is a professionalizing complement to existing Master's and doctoral programs.

Career

There is a steadily growing demand for translators. Careers are available in public and private sectors, including the medical field. According to the Bureau of Labor Statistics, U.S. Department of Labor: “Employment of interpreters and translators is projected to grow 19 percent from 2018 to 2028, much faster than the average for all occupations. Globalization and large increases in the number of non-English-speaking people in the United States will drive employment growth. Job prospects should be best for those who have professional certification.”

Additionally, the Cincinnati metropolitan area is experiencing growth in Spanish- and French-speaking communities. More businesses, including hospitals, public schools, and manufacturers, are in a need of French or Spanish to English competent translators to ensure the services they offer are more inclusive.

Curriculum

The certificate requires one course for all students, HUM 7002/4002 History and Theory of Translation, which will analyze key issues in translation theory in combination with critical moments in the history of translation and include social, political, ethical and cultural aspects of translation. This required class will be offered in the Spring to accommodate MA students who might need to plan accordingly after starting in the Fall. The capstone will consist of two 2-credit-hour practicums in which students will work with faculty supervisors on translation projects of their own design. These practicums could be completed at any point in the student’s degree program, including during the summer, exam year, or dissertation year. The remainder of the curriculum is comprised of select electives.

Advising

Please contact Mauricio Espinoza, espinojm@uc.edu, (513) 556-1578.

UC Advantages And Special Opportunities

The University of Cincinnati has a long tradition of renowned programs in languages and creative writing. The multi-disciplinary nature of this certificate draws on those strengths. The departments frequently host speakers and writers to speak with and provide workshops for graduate students.

Admission Requirements

Any graduate student admitted to a UC program would be eligible for the certificate. Graduate students interested in completing the Certificate will need to contact the Certificate Director.

The Certificate is open to students on both West and East campuses, especially to those in Nursing, Medical Studies, and those preparing to work in the health care industry who might benefit from bi-lingual and pre-professional translation expertise. Faculty members in RALL teach Medical Spanish and have contacts with Nursing faculty and students in particular. The Certificate Director will work with students wishing to complete this Certificate within the timeframe of their graduate degree program to discuss options, exceptions, and possible substitutions as needed. All exceptions and substitutions will need to be approved by the Certificate Director.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

Women's,Gender and Sexuality Studies

Duration: **1 Year** Total Credits: **14 - 19** Award: **Graduate Certificate**

Overview

The Women's, Gender, and Sexuality Studies (WGSS) Graduate Certificate can be a particularly valuable credential for professionals seeking expertise in issues pertaining to gender, sexuality, and diversity in the labor force, and to current graduate students who wish to complement their studies with a focus on women, gender, and/or sexuality issues. It is particularly useful for those who wish to teach in the field of WGSS, and for those who wish to have some expertise of gender issues for their future careers. Many current UC graduate students add this certificate to their degree program, including students enrolled in master's, doctoral, and professional programs as diverse as Architecture, Criminal Justice, Counseling, Education, English, History, Law, Musicology, Planning, Political Science, Psychology, Romance Languages and Literature, Sociology, and Speech Communication. This certificate may also be of interest to professionals in the fields of teaching, social services, law, and corporations who seek training and/or professional development.

Career

Possible careers include:

- Higher Education (Teaching, Research, or Administration)
- Non-Profit Management
- Advocacy
- Activism
- Social Justice

Music

Duration: **4 Years** Total Credits: **120** Award: **BA**

Overview

The Bachelor of Arts (BA) in Music program at CCM culminates in a liberal arts degree that provides students with flexible pathways for the study of music as a cultural and artistic practice. After completing a core that focuses on listening, writing, and thinking about a wide array of music, students select classes in areas such as sound technologies, music and cultural history, ethnographic approaches, composition, analytical skills, and applied music-making.

Because of the liberal arts focus of the bachelor of arts degree, students primarily interested in performance should apply to a bachelor of music (BM) degree in their instrument.

The BA Music curriculum is flexible, and students design their coursework to emphasize particular skill areas or to complete a broader course of study that samples from all areas. Ample electives allow for the possibility to complete double-majors, minors, certificate programs (including pre-law or pre-med coursework) and to participate in study abroad opportunities. These experiences culminate in an individual capstone research project with a CCM faculty member.

CCM's BA in Music is a gateway to careers in music and allied fields, including music promotions, arts administration, music therapy, journalism, ethnomusicology, musicology, music theory, composition, songwriting, commercial music production, and library science.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: to educate and inspire the whole artist and scholar for positions on the world's stage.

Scholarships are available for qualified students.

Career

CCM's Bachelor of Arts in Music culminates in a liberal arts degree, which can be a gateway to careers in music and allied fields, including music promotions, arts administration, music therapy, journalism, ethnomusicology, musicology, music theory, composition, songwriting, commercial music production and library science.

Major Map Versions:
Music 2025-2026

UC Advantages And Special Opportunities

Described by the *New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

The Bachelor of Arts in Music presents a special opportunity to pursue liberal arts study across the University of Cincinnati's many outstanding programs, while also drawing upon the benefits of studying music in a world-class conservatory environment. The undergraduate music major has an opportunity to study music with some of the leading professionals in applied and academic musical fields.

UC's College-Conservatory of Music (CCM) is located in a city long known for its love of the performing arts. The legendary King Records made this city one of the birthplaces of country, bluegrass and R&B. The Cincinnati Symphony Orchestra performs in beautiful Music Hall as well as in its summer home, Riverbend Music Center. The city boasts a long history of jazz greats and a burgeoning jazz and popular music scene. The Cincinnati May Festival is the oldest continuous choral festival of its kind in the nation, and the Cincinnati Opera brings major artists to the city. The Cincinnati Art Museum, Taft Museum, Museum of Natural History, Contemporary Arts Center, Playhouse in the Park, and Cincinnati Ballet Company offer outstanding cultural opportunities. The city is also home to diverse and international communities featuring renowned artists of West African, Indian, Persian, and Chinese heritage.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music

BA

Music 2025-2026

Duration: 4 Years
Minimum Credits: 120 Credits

BA-Music Core Curriculum

All BA-Music students take Core Coursework, Applied Music Making, and Ensembles.

Core Coursework

Students are required to take the following courses

Course	Title/Desc	Credit
CCMS1005	CCM Great Beginnings (C- min)	1
MUHS1001	The Musician in Society (C- min)	1
MUSC2095	Music in Contemporary America (C- min)	3
MUSC5080	Senior Capstone (C- min)	3
MUSC5XXX	BA Music Seminar Students take BA Music Seminar (MUSC5075) twice, 1 credit each (2 credits total) (C- min)	1
AADM JZST	Arts Administration or Music Business 1 select either Arts Administration for Non Majors (AADM5160) or Music Business 1 (JZST5161) (C- min)	3

Applied Music Making

Students must take 6 credit hours of Applied Music Making. Additional credits can apply to Music Electives.

Course	Title/Desc	Credit
CMP1001	Commercial Keyboard Skills I (C- min)	1
CMP1002	Commercial Keyboard Skills II (C- min)	1
COMP5130	Composition Elective (C- min)	1 - 2
GTAR1075	Classical Guitar Class (C- min)	2
GTAR5030	Classical Guitar Elective (C- min)	1 - 2
JZST5101	Jazz Improvisation I (C- min)	2
JZST5102	Jazz Improvisation II (C- min)	2
MUHS5171	Early Music Lab (C- min)	1
MUHS5185	World Music Lab (C- min)	1
PIAN1001	Group Piano for Non-Music Majors I (C- min)	3
PIAN1002	Group Piano for Non-Music Majors II (C- min)	3

BA-Music Pathways

Students must take a Music Theory diagnostic exam prior to matriculation. Based on the results, students will be advised to follow one of two first-year Pathways. Note that certain upper-level Theory and Musicology courses may not b available for the Option A pathway.

First Year Theory Foundations courses

Pathway A students take the MUSC courses (6 credit hours). Pathway B students take the THRY courses (8 credit hours).

Course	Title/Desc	Credit
MUSC1055	Critical Listening (C- min)	3
MUSC1040	Aural Skills and Music Fundamentals (C- min)	3
THRY1011	Theory 1 (C- min)	2
THRY1012	Theory 2 (C- min)	2
THRY1015	Musicianship 1 (C- min)	2
THRY1016	Musicianship 2 (C- min)	2

Pathway A Mid-Career Courses

Students in Pathway A must complete minimum 13 credit hours from this list as advised. Additional credits can count as CCM Music Electives.

Course	Title/Desc	Credit
CMP1011	Desktop Music Production I (C- min)	3
CMP1012	Desktop Music Production 2 (C- min)	3
CMP2041	History of Creative American Music I (C- min)	2
CMP2042	History of Creative American Music II (C- min)	2
CMP2071	Songwriting I (C- min)	3
MPRO1002	Integrated Media Production (C- min)	3
MPRO2006	Digital Audio Production (C- min)	3

Pathway B Mid-Career Courses

Students in Pathway B must complete minimum 11 credit hours from this list as advised. Additional credits can count as CCM Music Electives.

Course	Title/Desc	Credit
CMP1011	Desktop Music Production I (C- min)	3
CMP1012	Desktop Music Production 2 (C- min)	3

Non-CCM Course Requirements

All courses for this requirement category must be from outside CCM.

General Education

Course	Title/Desc	Credit
ENGL1001	English Composition	3
ENGL2089	Intermediate Composition	3
MATH STAT BoK: QR	MATH or STAT Select 3 credit hours in MATH or STAT discipline.	3
BoK: HP	Historical Perspectives Select 3 credit hours in a Historical Perspectives (HP) course.	3
BoK: HU	Humanities Select 3 credit hours in a Humanities (HU) course.	3
BoK: NS	Natural Sciences Select 6 credit hours of Natural Sciences (NS) courses.	6
BoK: SS	Social Sciences Select 6 credit hours of Social Sciences (SS) courses	6
BoK: SCE,TI	Contemporary Topics Select 1 course (3 credits) from the following areas to satisfy the University General Education Requirements: Society, Culture, and Ethics (SCE); Technology and Innovation (TI)	3
BoK: SCE	Foreign Language Most introductory foreign languages are offered at 5 credit hours for two terms. If you opt to take the 3 credit hour sequence (4 terms) you will need a total of 12 credit hours to fulfill this requirement.	10
INTR	Interdisciplinary Select 3 credit hours Interdisciplinary course.	3

Course	Title/Desc	Credit
PIAN1003	Pop Piano For Non-Majors (C- min)	3
PIAN5030	Piano Elective for Undergraduates (C- min)	1 - 2
VOIC1075	Voice Class for Non-Majors (C- min)	1 - 2
VOIC5030	Voice Elective (C- min)	1 - 2
	Studio Lessons All private studio lessons at the elective/secondary or concentration level in performance areas and in composition are by audition and on a space-available basis. All lessons are repeatable for credit. CMP lessons may be taken for a maximum of 4 semesters. (C- min)	1 - 2

Ensembles, World Music Lab, or Early Music Lab

Students are required to take 2 semesters of Ensembles or Music Labs, minimum 1 credit hour each semester. ENSM and JZST courses require audition.

Course	Title/Desc	Credit
ENSM1050	UC Choruses (C- min)	1
ENSM1082	UC Cabaret Singers (C- min)	1
ENSM2071	Bearcat Marching Band (C- min)	1 - 2
ENSM2072	Bearcat Pep Band (C- min)	1
ENSM2073	Bearcat Concert Band (C- min)	1
ENSM2074	Bearcat Jazz Band (C- min)	1
ENSM2075	Bearcat Advanced Jazz Band (C- min)	1
ENSM2076	Bearcat Concert Band (C- min)	1
ENSM2077	Bearcat Advanced Concert Band (C- min)	1
ENSM2091	UC Symphony Orchestra (C- min)	1
ENSM5161	CCM Chamber Choir (C- min)	1
ENSM5162	CCM Chorale (C- min)	1
ENSM5163	CCM Chamber Singers (C- min)	1
ENSM5170	Percussion Ensemble (C- min)	1
ENSM5172	CCM Jazz Lab Band (C- min)	1
ENSM5173	CCM Jazz Orchestra (C- min)	1

Course	Title/Desc	Credit
CMP2011	Commercial Music Theory I (C- min)	2
CMP2012	Commercial Music Theory II (C- min)	2
CMP2041	History of Creative American Music I (C- min)	2
CMP2042	History of Creative American Music II (C- min)	2
CMP2071	Songwriting I (C- min)	3
MPRO1002	Integrated Media Production (C- min)	3
MPRO2006	Digital Audio Production (C- min)	3
MUHS2011	Musicology I (C- min)	3
MUHS2012	Musicology II (C- min)	3
THRY2011	Theory 3 (C- min)	2
THRY2012	Theory 4 (C- min)	2
THRY2015	Musicianship 3 (C- min)	2
THRY2016	Musicianship 4 (C- min)	2

Upper-Level Music Electives

Students must complete minimum 9 credit hours from the list as advised. Some courses have prerequisites that will be satisfied by completing either Pathway A or Pathway B first-year and mid-career courses. Additional credits can count as CCM Music Electives.

Course	Title/Desc	Credit
AADM5160	Introduction to Arts Administration for Non-Majors (C- min)	3
CMP5172	Songwriting II (C- min)	3
COMP3011	Orchestration (C- min)	3
COMP5102	Composers/Performers Workshop (C- min)	1 - 3
COMP5171	Introduction to Electronic Music (C- min)	3
COMP5172	Electronic Music Techniques (C- min)	3
JZST5151	Sound Reinforcement and Recording (C- min)	3
JZST5152	Digital Recording and Editing (C- min)	3
JZST5161	Music Business I (C- min)	3
JZST5162	Music Business II (C- min)	3
MPRO3007	Multitrack Music Production (C- min)	3
MUHS3013	Musicology III (C- min)	3
MUHS5XXX	Musicology Any MUHS51XX Topics course other than Early Music Labs and World Music Labs. (C- min)	3

Course	Title/Desc	Credit
	Non-CCM Electives Select 23 credit hours of additional courses that are not offered out of the CCM College to reach total of 120 credit hours as required for the Bachelor of Arts Degree.	23

Optional Minor in Entrepreneurship for Commercial Music Production

By successfully completing the following courses within the BA-Music degree, students will earn a minor in Music Entrepreneurship. Students wanting to complete the Music Entrepreneurship minor must inform their academic advisor prior to registering for ENTR courses.

Course	Title/Desc	Credit
JZST5161	Music Business I (C- min)	3
JZST5162	Music Business II (C- min)	3
ENTR2001	Introduction to Entrepreneurship	3
ENTR3005	Entrepreneurial Finance	3
ENTR3015	Digital Entrepreneurship	3
ENTR4070	New Venture Creation	3

Course	Title/Desc	Credit
ENSM5181	CCM Wind Ensemble (C- min)	1
ENSM5182	CCM Wind Symphony (C- min)	1 - 2
ENSM5183	CCM Musica Nova (C- min)	1 - 2
ENSM5184	CCM Chamber Winds (C- min)	1
ENSM5186	CCM Brass Choir (C- min)	1
ENSM5191	CCM Philharmonia Orchestra (C- min)	1 - 2
ENSM5192	CCM Concert Orchestra (C- min)	1 - 2
ENSM5193	Opera/Musical Theater Orchestra (C- min)	1
JZST5174	Jazz Combo (C- min)	1
JZST5176	Jazz Guitar Ensemble (C- min)	1
MUHS5171	Early Music Lab (C- min)	1
MUHS5185	World Music Lab (C- min)	1

Additional CCM Music Electives

Students select additional CCM Music electives as advised to bring the total Music credits to 54. Note that some courses may have prerequisites or may be restricted to students enrolled in a specific major.

Course	Title/Desc	Credit
	CCM Electives (C- min)	5

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.** The Ballet program is intended for the dancer seeking top-level training and a rigorous artistic, academic, and studio curriculum. Majors are encouraged to dance with professional companies while pursuing the degree, as well as to study abroad for international performances.

Scholarships are available to qualified students.

Career

Graduates of CCM's Dance program go on to perform and teach in professional dance companies and dance education organizations. This program offers opportunities for seasonal internships and experiences auditioning for professional dance companies. Professional experience, unique somatic studies, and emphasis on ballet sets students apart from those in other programs and leaves them equipped for life after graduation.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Media Production

Duration: **4 Years** Total Credits: **120** Award: **BFA**

Overview

The Bachelor of Fine Arts (BFA) degree in Media Production (MPRO) encompasses the integrated media arts of film and television production, broadcast news, audio, sports media and new media. Coursework takes place within the creative environs of one of the nation's most prestigious conservatories, the College-Conservatory of Music (CCM) at the University of Cincinnati.

Curricula in Film and Television Production, Multimedia, Sports Media, Audio and Broadcast Media Production are grounded in the theoretical and applied foundations necessary to prepare graduates for media content creation across multiple platforms and distribution channels. The Media Production program is student centered, professionally relevant and focused on creative development. Students will benefit from small class sizes, an innovative, flexible curriculum that reflects industry demands, experienced faculty who provide exposure to professional media tools and methodologies, and classes that develop creativity and storytelling skills. Students majoring in Media Production complete a minor or certificate program of their choice, tapping into the unlimited potential of programs from across the university's 15 colleges.

Internships are part of the Media Production core and take advantage of the professional resources in Cincinnati and other areas across the country. With its emphasis on experiential learning, students will acquire the hands-on skills and a digital portfolio necessary to transition successfully into the professional world. Graduates from our program are prepared for careers in:

- film and television writing, producing, directing, cinematography, editing
- web site design and creation
- broadcast news writing, production, on-air talent, director, camera operator or editor
- sound design for the film, television, video gaming industries
- sound recording and audio engineering
- social media
- promotions
- media management
- media programming
- software development
- advertising
- music
- video games
- media marketing and sales

Scholarships are available to qualified students.

Career

CCM Media Production students gain the theoretical and technical skills necessary to tell stories and produce impactful content in today's media and entertainment industry, including filmmaking and digital cinema, television production, broadcast news, sports, audio production, website design and interactive and new media. Student work has won numerous collegiate-level and professional awards, with films and sports media content delivered on national and international television and streaming networks, and work accepted in prestigious film festivals on five continents. Graduates join a network of successful, award-winning and supportive alumni who work throughout the media industry.

Media Production: Sports Media 2025-2026

UC Advantages And Special Opportunities

Described by the New York Times as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. Media Production majors are uniquely positioned within a creative culture at CCM that fosters collaborations with actors, musicians, dancers, set designers and other performing artists as they develop their digital storytelling skills for film, television, internet and mobile media distribution. Other highlights of the program include:

- An international summer student opportunity with the Munich Summer Curriculum in Germany to study at Ludwig Maximillian University and intern with a German media company
- Extensive production facilities that include a television studio, audio recording studio, virtual production (XR) studio, Bearcast radio station, podcasting studios, computer labs, and multiple audio/video/multimedia workstations It also includes state-of-the-art digital cinema, lighting, grip and field audio production equipment
- On-camera performance training by experienced professionals
- Annual awards and scholarships
- Extracurricular, student-driven media organizations that groom leaders and allow for production experiences
- Connections to a wide an active network of award-winning alumni working in media positions locally and in cities throughout the US: Los Angeles, Chicago, Nashville and New York

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.
The Media Production Division is accredited by the National Association of Schools of Art and Design (NASAD).

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Media Production

BFA

Media Production: Audio 2025-2026

Duration: 4 Years
Minimum Credits: 120 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
MPRO1001	The Media in Your Life (C- min)	3
MPRO1002	Integrated Media Production (C- min)	3
MPRO2015	Writing for Media (C- min)	3
	Supportive Elective Select a Supportive Elective from List B. (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3

Spring Semester Year 1

Course	Title/Desc	Credit
ENGL1001	English Composition	3
MPRO2006	Digital Audio Production (C- min)	3
MPRO	Audio Track Elective Select either MPRO2025 Student Media Practicum or MPRO2035 Electronic Music Production with Ableton Live (C- min)	3
MPRO	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3

Fall Semester Year 2

Course	Title/Desc	Credit
MPRO2001	Film and Television Production (C- min)	3
MPRO2045	Podcasting (C- min)	3
BoK: QR	Quantitative Reasoning Select 1 course (3 credit hours) from the General Education area Quantitative Reasoning (QR).	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3

Spring Semester Year 2

Course	Title/Desc	Credit
MPRO3007	Multitrack Music Production (C- min)	3
MPRO	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
PD2070	Professionalism and Purpose (C- min)	3
	Supportive Elective Select a Supportive Elective from List B. (C- min)	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3

Fall Semester Year 3

Course	Title/Desc	Credit
ENGL2089	Intermediate Composition	3
MPRO	MPRO3006 Sound for Picture or MPRO3060 Music Technology Production 1 (C- min)	3
MPRO3XXX	Issues, Ethics and Law select either Issues & Ethics (MPRO3030) or Media Law (MPRO3035) (C- min)	3

Spring Semester Year 3

Course	Title/Desc	Credit
MPRO3004	Film and Media Aesthetics (C- min)	3
MPRO	MPRO4007 Advanced Music Production or MPRO3061 Music Technology Production 2 (C- min)	3

Course	Title/Desc	Credit
	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3

Course	Title/Desc	Credit
BoK: FA,HP,HU,NS,SS	General Education Electives Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3
BoK: SCE,TI	Contemporary Topics Elective Select 1 course (3 credit hours) in either Society, Culture, and Ethics (SCE) or Technology and Innovation (TI) to satisfy University General Education requirements.	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3

Fall Semester Year 4

Course	Title/Desc	Credit
MPRO4000	Internship 1 (C- min)	3
MPRO4002	Capstone Preparation (C- min)	3
MPRO4012	Sound Synthesis for Media (C- min)	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3
Free Electives	3 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Choose any course (1000 level and above) not required by the curriculum. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16.	3

Spring Semester Year 4

Course	Title/Desc	Credit
MPRO4001	Internship 2 (C- min)	3
MPRO4008	Advanced Multitrack Audio Mixing (C- min)	3
MPRO3XXX+	Capstone Course Select one 3000-level or above course (3 credit hours) from the Media Production Elective List A to be used as the capstone for the degree. (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree.	3

Media Production Electives (List A)

Course	Title/Desc	Credit
MPRO1025	Basics of Social Media (C- min)	3
MPRO1050	The Evolution of TV Comedy (C- min)	3

Spring Semester Year 2

Course	Title/Desc	Credit
MPRO3003	News Reporting and Production (C- min)	3
MPRO	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
PD2070	Professionalism and Purpose (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree (usually 18 credits).	3

Fall Semester Year 3

Course	Title/Desc	Credit
ENGL2089	Intermediate Composition	3
MPRO3040	Talent Development: News & Media (C- min)	3
MPRO3XXX	Issues, Ethics and Law select either Issues & Ethics (MPRO3030) or Media Law (MPRO3035) (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3

Spring Semester Year 3

Course	Title/Desc	Credit
MPRO3004	Film and Media Aesthetics (C- min)	3
MPRO	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3

Course	Title/Desc	Credit
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree (usually 18 credits).	3

Course	Title/Desc	Credit
BoK: SCE,TI	Contemporary Topics Elective Select 1 course (3 credit hours) in either Society, Culture, and Ethics (SCE) or Technology and Innovation (TI) to satisfy University General Education requirements.	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree (usually 18 credits).	3

Fall Semester Year 4

Course	Title/Desc	Credit
MPRO4000	Internship 1 (C- min)	3
MPRO4002	Capstone Preparation (C- min)	3
	Media Production Elective Select a Media Production Elective from List A. (C- min)	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree (usually 18 credits).	3
Free Electives	3 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Choose any course (1000 level and above) not required by the curriculum. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16.	3

Spring Semester Year 4

Course	Title/Desc	Credit
MPRO4001	Internship 2 (C- min)	3
MPRO4004	Media Portfolio (C- min)	3
MPRO4005	Newscast Production (C- min)	3
BoK: FA,HP,HU,NS,SS	General Education Elective Students must complete two Fine Arts (FA), one Humanities (HU), and two of either Historical Perspective (HU), Natural Science (NS), or Social Science (SS) for a total of 5 courses (15 credits).	3
	Minor or Certificate A Minor or Certificate of the student's choice is required for the degree (usually 18 credits).	3

Media Production Electives

List A

one 1000 level, two 2000 level, and three 3000 level or above of the courses below are required for degree. (18 credits total)

Course	Title/Desc	Credit
MPRO1050	The Evolution of TV Comedy (C- min)	3
MPRO1075	20th-Century Cinema Classics (C- min)	3
MPRO2025	Student Media Practicum (C- min)	1 - 3
MPRO2031	Introduction to Sports Media Production (C- min)	3
MPRO2035	Electronic Music Production with Ableton Live and Push (C- min)	3
MPRO2045	Podcasting (C- min)	3
MPRO2050	CCM Multicamera Production (C- min)	3
MPRO3001	Single Camera Production (C- min)	3
MPRO3002	Post Production (C- min)	3
MPRO3005	Lighting for Film and Television Production (C- min)	3
MPRO3006	Sound for Picture (C- min)	3
MPRO3007	Multitrack Music Production (C- min)	3
MPRO3008	Cinematography (C- min)	3
MPRO3010	New Media 2 (C- min)	3
MPRO3025	Integrated Media Marketing and Sales (C- min)	3
MPRO3030	Issues and Ethics (C- min)	3

Supportive Electives

List B

Minimum one 2000 level course, and one 2000 or 3000 level course, and an additional two courses 3000 level are required for graduation. (12 credits total)

Course	Title/Desc	Credit
DAAP2011	Fundamentals of Photography Design for non-DAAP majors (C- min)	3
DAAP2013	A Non-Designer's Guide to Graphic Design (C- min)	3
DAAP2016	Design Thinking for Non DAAP Majors (C- min)	3
DMC1055	Television Genres (C- min)	3
DMC1190	Introduction to Visual Effects (C- min)	3
DMC2002	Creativity and Ideation (C- min)	3
DMC2016	Cinema: From Script to Screen (C- min)	3
DMC2055	Writing the Television Spec Script (C- min)	3
DMC2071	Award Winning Film & Television (C- min)	3
DMC2075	Filmmaking: Evolution & Impact (C- min)	3
DMC2111	Topics in Digital Media (C- min)	3

Course	Title/Desc	Credit
MPRO3035	Media Law (C- min)	3
MPRO3045	Advanced Techniques in Live Sports Production (C- min)	3
MPRO3050	Producing and Directing for Sports (C- min)	3
MPRO3060	Music Technology Production I (C- min)	3
MPRO3061	Music Technology Production 2 (C- min)	3
MPRO4007	Advanced Music Production (C- min)	3
MPRO4010	Advanced Interactive Media (C- min)	3
MPRO4011	Electronic Game Design (C- min)	3
MPRO4012	Sound Synthesis for Media (C- min)	3
MPRO4015	Big Screens (C- min)	3
MPRO4025	Media Programming and Management (C- min)	3
MPRO4030	Media Topics (C- min)	3
MPRO4035	Production Master Class (C- min)	3
MPRO4036	Producing the Documentary (C- min)	3
MPRO4037	Directing for the Screen (C- min)	3
MPRO4040	Studio CCM (C- min)	3
MPRO4050	Independent Study (C- min)	3
MPRO4055	Directed Research (C- min)	1 - 3

Course	Title/Desc	Credit
DMC2112	Philosophy of Filmmaking (C- min)	3
DMC2147	The Art of Production Design for Film (C- min)	3
DMC2150	Design Skills for Film & Media (C- min)	3
DMC2155	Introduction to Animation (C- min)	3
DMC2167	Introduction to Game Design (C- min)	3
DMC2168	Topics in Game Design (C- min)	3
DMC2169	Designing for Interactive Experiences (C- min)	3
DMC2196	Directing Actors for Animation & Games (C- min)	3
DMC3026	Topics in Screenwriting (C- min)	3
DMC3035	Feature Film Writing (C- min)	3
DMC3055	Writing the Original Television Series (C- min)	3
DMC3111	Intermediate Topics in Digital Media (C- min)	3
DMC3123	Sound for Animation & Games (C- min)	3
DMC3131	Creating the Web Series (C- min)	3
DMC3151	Rigging for Animation (C- min)	3
DMC3152	Animation Performance (C- min)	3
DMC3155	Topics in Animation (C- min)	3
DMC3156	Character Animation (C- min)	3
DMC3157	Lighting and Modeling for Animation (C- min)	3
DMC3158	Intermediate 2D Animation (C- min)	3
DMC3159	Intermediate 3D Animation (C- min)	3
DMC3168	Writing for Games (C- min)	3
DMC3169	Analog Games (C- min)	3
DRPF2054	Theatre History for Non-Majors (C- min)	3
DRPF2055	Theatre History II for Non-Majors (C- min)	3
FAM1001	Acting for Non-Majors (C- min)	3
FAM1050	Art of Recording (C- min)	3
FAM1100	Fundamentals of Music for Non-majors (C- min)	3
FAM2005	Music Appreciation Online (C- min)	3
FAM2006	American Music Online (C- min)	3
FAM2011	History of Rock and Roll (C- min)	3
FAM2012	History of Rock and Roll II (C- min)	3
FAM2014	Jammin' with Laptops (C- min)	3
FAM2023	Jammin' With Laptops Online (C- min)	3
FAM2050	Japanese Pop, Anime, and Video Game Music Online (C- min)	3
FAM2051	Jazz Appreciation (C- min)	3
FAM2061	The Music of The Beatles (C- min)	3
FAM2062	What's Hot in Popular Music (C- min)	3
FAM2070	The Music of Woodstock (C- min)	3

Course	Title/Desc	Credit
FAM2090	Disney's Animated Musicals (C- min)	3
FAM2091	Topics in Musical Theater (C- min)	3
FAM2092	Topics in Music of the World (C- min)	3
FAM2093	Topics in Popular Music (C- min)	3

Musical Theater

Duration: **4 Years** Total Credits: **120** Award: **BFA**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's theatre programs are accredited by the National Association of Schools of Theatre (NAST). CCM is a member of the University/Resident Theatre Association (U/RTA).

Musical Theater

BFA

Musical Theatre 2025-2026

Duration: 4 Years
Minimum Credits: 120 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
ENGL1001	English Composition	3
MUST1001	Musical Theatre Performance Group (C- min)	1
MUST1011	Acting I (C- min)	3
MUST1040	Musical Theatre Vocal Coaching I (C- min)	1
MUST1080	Pilates Mat Class (C- min)	1
PIAN1004	Keyboard for Musical Theater Majors (C- min)	3
VOIC1040	Musical Theater Freshman Voice (C- min)	1
	Musical Theatre Dance Students take 2 courses (Jazz, Ballet, or Tap) for 1 credit hour each as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	2

Spring Semester Year 1

Course	Title/Desc	Credit
MUST1003	Theory and Sight Singing (C- min)	3
MUST1012	Acting I (C- min)	3
MUST1040	Musical Theatre Vocal Coaching I (C- min)	1
MUST1075	Freshman Showcase (C- min)	3
THPR2011C	Technical Production 1: Introduction to technical theater, scenic production techniques and LAB (C- min)	3
VOIC1040	Musical Theater Freshman Voice (C- min)	1
	Musical Theatre Dance Students take 2 courses (Jazz, Ballet, or Tap) for 1 credit hour each as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	2

Fall Semester Year 2

Course	Title/Desc	Credit
ENGL2089	Intermediate Composition	3
MUST2011	Acting II (C- min)	3
MUST2040	Musical Theatre Vocal Coaching II (C- min)	1
MUST5160	Rehearsal and Performance (C- min)	1 - 3
THPR1005	Introduction to Costume and Makeup	3
VOIC2040	Musical Theater Sophomore Voice (C- min)	1
	Musical Theatre Dance Students take 2 courses (Jazz, Ballet, or Tap) for 1 credit hour each as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	2

Spring Semester Year 2

Course	Title/Desc	Credit
MUST2012	Acting II (C- min)	3
MUST2040	Musical Theatre Vocal Coaching II (C- min)	1
MUST5151	Vocal Health & Wellness for Vocal Athletes (C- min)	3
MUST5160	Rehearsal and Performance (C- min)	1 - 3
VOIC2040	Musical Theater Sophomore Voice (C- min)	1
	Musical Theatre Dance Students take 2 courses (Jazz, Ballet, or Tap) for 1 credit hour each as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	2
1XXX+	Non-Musical Theatre Area Elective Select 3 credit hours of coursework 1000 level or above from any discipline other than MUST, DNCE, DRPF and FAM.	3

Course	Title/Desc	Credit
BoK: SCE,TI	Contemporary Topics Select 1 course (3 credit hours) in either Society, Culture, and Ethics (SCE) or Technology and Innovation (TI) to satisfy University General Education requirements.	3

Fall Semester Year 3

Course	Title/Desc	Credit
MUST3011	Acting III (C- min)	3
MUST3030	Audition Techniques I (C- min)	3
MUST3040	Musical Theatre Vocal Coaching III (C- min)	1
	Musical Theatre Dance Students take 2 courses (Jazz, Ballet, or Tap) for 1 credit hour each as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	2
MUST5160	Rehearsal and Performance (C- min)	1 - 3
VOIC3040	Musical Theater Junior Voice (C- min)	1
BoK: HP,HU,NS,SS	General Education Elective Select one course (3 credit hours) from the following General Education areas: Natural Science (NS), Humanities/Literature (HU), Historical Perspectives (HP) or Social Sciences (SS). Students must have 1 course in 2 different areas to fulfill the University's General Education/Breath of Knowledge requirement.	3

Spring Semester Year 3

Course	Title/Desc	Credit
MUST3012	Acting III (C- min)	3
MUST3040	Musical Theatre Vocal Coaching III (C- min)	1
	Musical Theatre Dance Students take 1 course (Jazz, Ballet, or Tap) for 1 credit hour as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	1
MUST4060	Acting for the Camera (C- min)	3
MUST5111	Musical Theatre History and Literature II (C- min)	3
MUST5160	Rehearsal and Performance (C- min)	1 - 3
VOIC3040	Musical Theater Junior Voice (C- min)	1
BoK: SCE,TI	Contemporary Topics Select 1 course (3 credit hours) in either Society, Culture, and Ethics (SCE) or Technology and Innovation (TI) to satisfy University General Education requirements.	3

Fall Semester Year 4

Course	Title/Desc	Credit
MUST4000	Voice, Speech and Dialects (C- min)	3
MUST5075	New York Showcase Preparation (C- min)	2
MUST4011	Acting IV (C- min)	3
MUST4040	Musical Theatre Vocal Coaching IV (C- min)	1
MUST5160	Rehearsal and Performance (C- min)	1 - 3
VOIC4040	Musical Theater Senior Voice (C- min)	1
	Dance Elective Students take 1 course (Jazz, Ballet, or Tap) for 1 credit hour as assigned. 4 Jazz, 4 Ballet and 3 Tap courses + 1 additional dance course as advised for a total of 12 credits are required for graduation. (C- min)	1

Spring Semester Year 4

Course	Title/Desc	Credit
MUST3031	Audition Techniques II (C- min)	3
MUST4012	Acting IV (C- min)	3
MUST5076	New York Showcase and Seminar (C- min)	1
MUST4040	Musical Theatre Vocal Coaching IV (C- min)	1
MUST5160	Rehearsal and Performance (C- min)	1 - 3
VOIC4040	Musical Theater Senior Voice (C- min)	1
Free Electives	select any college level course.	3

Course	Title/Desc	Credit
BoK: HP,HU,NS,SS	General Education Elective Select one course (3 credit hours) the following General Education areas: Natural Science (NS), Humanities/Literature (HU), Historical Perspectives (HP) or Social Sciences (SS). Students must have 1 course in 2 different areas to fill the University's General Education/Breath of Knowledge requirement.	3

Jazz Dance courses

Musical Theatre Dance: Jazz

Students must accrue 8 hours of credit in Jazz, selected from the courses within this group.

Course	Title/Desc	Credit
MUST1041	Musical Theatre Dance: Jazz I	1
MUST2041	Musical Theatre Dance: Jazz II	1
MUST3041	Musical Theatre Dance: Jazz III	1
MUST4041	Musical Theatre Dance: Jazz IV	1

Tap Courses

Musical Theatre Dance: Tap

Students must accrue 4 hours of credit in Tap, selected from the courses within this group.

Course	Title/Desc	Credit
MUST2021	Musical Theatre Dance: Tap I	1
MUST2022	Musical Theatre Dance: Tap II	1
MUST3022	Musical Theatre Dance: Tap IV	1
MUST3021	Musical Theatre Dance: Tap III	1
MUST3023	Musical Theatre Dance: Tap V	1

Ballet Courses

Musical Theatre Dance: Ballet

Course	Title/Desc	Credit
DNCE1001	Musical Theater Dance: Ballet (C- min)	1
DNCE1002	Musical Theater Dance: Ballet (C- min)	1

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Theater Design and Production

Costume Design

Duration: **4 Years** Total Credits: **122** Award: **BFA**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

Sound Design

Duration: 4 Years Total Credits: 122 Award: BFA

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's theatre programs are accredited by the National Association of Schools of Theatre (NAST). CCM is a member of the University/Resident Theatre Association (U/RTA).

Theater Design and Production : Sound Design

BFA

Theater Design & Production: Sound Design 2025-2026

Duration: 4 Years
Minimum Credits: 121 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
FAM1001	Acting for Non-Majors (C- min)	3
THPR1021	Sound Workroom Practicum (C min)	3
THPR1061	Appreciation of Theatrical Design and Production (C- min)	3
THPR2011C	Technical Production 1: Introduction to technical theater, scenic production techniques and LAB (C- min)	3
BoK: SCE,TI	Contemporary Topics Select 1 course (3 credit hours) in either Society, Culture, and Ethics (SCE) or Technology and Innovation (TI) to satisfy University General Education requirements.	3

Spring Semester Year 1

Course	Title/Desc	Credit
DRPF1050	Script Analysis (C- min)	3
ENGL1001	English Composition	3
IT1080C	Computer Networking (C- min)	3
THPR1031	Sound Workroom Practicum (C min)	3
THPR2012C	Technical Production 2 with Lab (C- min)	3

Fall Semester Year 2

Course	Title/Desc	Credit
DRPF2052	History of Theatre (C- min)	3
ENGL2089	Intermediate Composition	3
THPR1032	Vectorworks for the Theatre (C- min)	3
THPR2007C	Stage Lighting I - Fundamentals and Terminology (C- min)	3
THPR2021C	Theatre Sound Technology and Design I (C min)	3
THPR	Production Practicum select appropriate THPR5000 section (C min)	1

Spring Semester Year 2

Course	Title/Desc	Credit
DRPF2053	History of Theatre (C- min)	3
THPR2022C	Theatre Sound Technology & Design II (C min)	3
THPR	Production Practicum Select the appropriate THPR5000 section. (C min)	1
THPR	Basic Score Interpretation (THPR2031) or Electronics for the Theater (THPR4032C) These courses are offered alternating years. Select the course offered in sophomore year. (C min)	3
THPR	TD&P Supportive Core Six total hours are required. Students must complete 1 course from 2 different areas: Costumes; Lighting; Stage Management; Stage Design, Scenic Art & Props; Technical Production; Wigs/Makeup. Course options are below. (C- min)	3
Free Electives	18 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16. These courses may be any college-level course (1000 level and above). These courses should be selected in consultation with an advisor.	3

Course	Title/Desc	Credit

Fall Semester Year 3

Course	Title/Desc	Credit
THPR3065	Sound Design: Musical (C min)	3
THPR	Production Practicum Select the appropriate THPR5000 section. (C min)	2
THPR	TD&P Supportive Core Six total hours are required. Students must complete 1 course from 2 different areas: Costumes; Lighting; Stage Management; Stage Design, Scenic Art & Props; Technical Production; Wigs/Makeup. Course options are below. (C- min)	3
	Sound Elective Select one Sound Elective from the list below in consultation with faculty advisor. (C- min)	3
BoK: HU	Dramatic Literature Select one course from the Dramatic Literature elective list.	3
Free Electives	18 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16. These courses may be any college-level course (1000 level and above). These courses should be selected in consultation with an advisor.	3

Spring Semester Year 3

Course	Title/Desc	Credit
THPR3064	Sound Design: Drama (C min)	3
THPR5199	The Business of the Business for Theater Production Personnel (C- min)	3
THPR	Production Practicum Select the appropriate THPR5000 section. (C min)	3
THPR	Basic Score Interpretation (THPR2031) or Electronics for the Theater (THPR4032C) These courses are offered in alternating years. Please select the course offered in Junior year. (C min)	3
	Sound Elective Select one Sound Elective from the list below in consultation with faculty advisor. (C- min)	3

Fall Semester Year 4

Course	Title/Desc	Credit
THPR3033	Digital Portfolios (C- min)	3
THPR	Production Practicum Select appropriate THPR5000 section. (C min)	3
	Music/Music History or Technical Production 3 Select either a music course or Technical Production 3 (THPR3030C) in consultation with faculty advisor. (C- min)	3
Free Electives	18 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16. These courses may be any college-level course (1000 level and above). These courses should be selected in consultation with an advisor.	6

Spring Semester Year 4

Course	Title/Desc	Credit
THPR	Sound Capstone Select appropriate Sound Capstone course either Design Studio (THPR4068) or Production Studio (THPR4067). (C min)	3
	Music/Music History or Technical Production 4 Select either Music elective or Technical Production 4 (THPR3031C) in consultation with your faculty advisor. (C- min)	3
Free Electives	18 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16. These courses may be any college-level course (1000 level and above). These courses should be selected in consultation with an advisor.	6

Course	Title/Desc	Credit

SOUND ELECTIVES

Six hours are required.

Course	Title/Desc	Credit
AADM5160	Introduction to Arts Administration for Non-Majors	4
COMP5171	Introduction to Electronic Music	3
COMP5172	Electronic Music Techniques	3
COMP5175	Computer Music Composition	3

Theater Design and Production : Stage Design

BFA

Theater Design & Production: Stage Design, Scenic Art, & Props 2025-2026

Duration: 4 Years

★Minimum Credits: 122 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
THPR1060	Stage Design Graphics I - Design Drawing for the Stage (B- min)	3
THPR1061	Appreciation of Theatrical Design and Production (C- min)	3
THPR2011C	Technical Production 1: Introduction to technical theater, scenic production techniques and LAB (C- min)	3
ENGL1001	English Composition	3
HIST	History Complete one of the History courses listed below.	3

Spring Semester Year 1

Course	Title/Desc	Credit
DRPF1050	Script Analysis (C- min)	3
THPR1062	Stage Design Graphics II - Hand Drafting Fundamentals (B- min)	3
THPR2012C	Technical Production 2 with Lab (C- min)	3
THPR2050	Introduction to Stage Design (C- min)	3
THPR5100	Production Practicum (B- min)	2
HIST	History Finish the History sequence from the previous semester.	3

Notes:

Course	Title/Desc	Credit
	Free Electives 6 credit hours of free electives are required to bring the total credit hours earned for the degree to 120. Students are advised to take free electives in any semester to bring the total semester credit hours to 15-16. These courses may be any college-level course (1000 level and above). These courses should be selected in consultation with an advisor.	0
	THRP5100 THPR5100 Production Practicum is required for 7 semesters, 2 credit hours each, for a total of 14 credit hours. A minimum grade of B- must be earned each semester.	0

Fall Semester Year 2

Course	Title/Desc	Credit
THPR2014	Stage Design Graphics III - Rendering Fundamentals for Stage Designers (B- min)	3
THPR2070C	Scenic Art I: Beginning Painting (B- min)	3
THPR3041	Stage Design I (B- min)	3
THPR4049C	Stage Props I (B- min)	3
THPR5100	Production Practicum (B- min)	2

Spring Semester Year 2

Course	Title/Desc	Credit
THPR2016	Stage Design Graphics IV - Computer Aided Rendering Technique (B- min)	3
THPR2071C	Scenic Art 2: Scenic Crafts (B- min)	3
THPR3042	Stage Design I (B- min)	3
THPR4050C	Stage Props II (B- min)	3
THPR5100	Production Practicum (B- min)	2

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's theatre programs are accredited by the National Association of Schools of Theatre (NAST). CCM is a member of the University/Resident Theatre Association (U/RTA).

Theater Design and Production : Stage Management

BFA

Theater Design & Production: Stage Management 2025-2026

Duration: 4 Years
Minimum Credits: 120 Credits

Fall Semester Year 1

Course	Title/Desc	Credit
DRPF1040	Artist in Society (C- min)	3
DRPF2052	History of Theatre (C- min)	3
THPR1061	Appreciation of Theatrical Design and Production (C- min)	3
THPR2011C	Technical Production 1: Introduction to technical theater, scenic production techniques and LAB (C- min)	3
THPR2040	Assistant Stage Management (B- min)	3

Spring Semester Year 1

Course	Title/Desc	Credit
DRPF1050	Script Analysis (C- min)	3
DRPF2053	History of Theatre (C- min)	3
ENGL1001	English Composition	3
FAM1001	Acting for Non-Majors (C- min)	3
THPR2012C	Technical Production 2 with Lab (C- min)	3
	Basic Score Interpretation or Contemporary Topics In odd years select THPR2031 Basic Score Interpretation (minimum grade C-). In even years select 3 credits of electives any area.	3

Fall Semester Year 2

Course	Title/Desc	Credit
ENGL2089	Intermediate Composition	3
THPR2007C	Stage Lighting I - Fundamentals and Terminology (C- min)	3
THPR2041	Stage Management Foundations 1 (B- min)	3
THPR4049C	Stage Props I (C- min)	3
THPR	TD&P Supportive Core 9 total hours are required. Select 1 course from the WIGS/MAKEUP supportive core area listed below. (C- min)	3
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	3

Spring Semester Year 2

Course	Title/Desc	Credit
THPR2008C	Stage Lighting II - Graphics and Design (C- min)	3
THPR2042	Stage Management Foundations 2 (B- min)	3
THPR	TD&P Supportive Core 9 total hours are required. Select 1 course from the COSTUMES supportive core area listed below. (C- min)	3
	Basic Score Interpretation or Elective In odd years select THPR2031 Basic Score Interpretation (minimum grade C-). In even years select 3 credits of electives any area.	3
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	3

Fall Semester Year 3

Course	Title/Desc	Credit
DRPF2050	History of Directing (C- min)	3
THPR3024	Stage Management Styles 1 (B- min)	3

Spring Semester Year 3

Course	Title/Desc	Credit
THPR2050	Introduction to Stage Design (B- min)	3

Course	Title/Desc	Credit
THPR3033	Digital Portfolios (C- min)	3
THPR	Supportive Core 9 total hours are required. Select 1 course from the SOUND supportive core area listed below. (C- min)	3
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	3

Course	Title/Desc	Credit
THPR3025	Stage Management Styles 2 (B- min)	3
THPR5199	The Business of the Business for Theater Production Personnel (C- min)	3
BoK: HU	Dramatic Literature Select one course from the Dramatic Literature electives list below.	3
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	3

Fall Semester Year 4

Course	Title/Desc	Credit
THPR4026	Stage Management and Labor Unions 1 (B- min)	3
THPR5028	Stage Management Capstone (B- min)	6
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	3

Spring Semester Year 4

Course	Title/Desc	Credit
THPR4027	Stage Management and Labor Unions 2 (B- min)	3
	Production Practicum or Free Elective Students take Production Practicum (THPR5100) or Free Electives. Production Practicum is assigned by faculty advisor and required for 9 credit hours prior to graduation (minimum grade C-). 15 credit hours of free electives are required prior to graduation.	9

DRAMATIC LITERATURE

Course	Title/Desc	Credit
AFST2045	Black Drama	3
AFST2064	African Literature II: Drama	3
ENGL2015	Introduction to Screenwriting	3
ENGL2016	Cinema: From Script to Screen	3
ENGL2024	Literary History of Drama	3
ENGL2027	Introduction to Creative Writing: Drama	3
ENGL2034	Contemporary World Literature: Drama	3
ENGL2040	Topics in Drama	3
ENGL2041	21st Century American Drama	3
ENGL2050	Shakespeare's Plays	3
ENGL2064	African Literature II: Drama	3
ENGL2075	Introduction to Literature	3
ENGL3006	Introduction to Shakespeare	3
ENGL3045	Modern American Drama	3

TD&P SUPPORTIVE CORE

Students must complete one course from each area for a total of 9 credit hours.

COSTUMES

Course	Title/Desc	Credit
THPR1001	Fundamentals of Costume Design	3
THPR2017	Introduction to Costume Construction	3
THPR2019	Costume Lab and Crew	2 - 3
THPR4061	Costume Design I	3

SOUND

Course	Title/Desc	Credit
THPR1020C	Introduction to Stage Lighting & Sound	3
THPR1021	Sound Workroom Practicum	3
THPR2021C	Theatre Sound Technology and Design I	3

Course	Title/Desc	Credit

WIGS/MAKEUP

Course	Title/Desc	Credit
THPR1010	Introduction to Makeup	3
THPR2005C	Makeup I	3
THPR3007	Wig Making and Styling I	3
THPR3008	Wig Making and Styling II	3
THPR5163C	Makeup Lab and Crew	1 - 2

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Theater Design and Production

Technical Production

Duration: 4 Years Total Credits: 122 Award: BFA

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Commercial Music Production

Duration: **4 Years** Total Credits: **120** Award: **BM**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

Graduates of CCM's Commercial Music Production program pursue careers as performers, songwriters, producers and so much more. Our alumni compose for film, television and commercial media; produce, mix and run live sound; and work in every other aspect of the music industry. CCM's Commercial Music Production program combines core training in music theory, composition, arranging and musicianship with recording studio techniques, commercial music and media technologies. Curriculum includes an additional emphasis on entrepreneurial business acumen by inclusion of a Minor in Entrepreneurship from UC's Lindner College of Business, providing CCM graduates with a competitive edge.

Capstone

Studio Music Production II is the culminating course in the CMP program. As the senior Capstone course the class will combine all aspects of the CMP curriculum into one final project. This project will consist of an EP CD of the student's original compositions and/or songs. The student will be responsible for all of the compositions and arrangements, studio production including organizing performers, microphone choices and techniques, engineering and producing. The next stage will focus on mixing and delivering a final master ready for commercial replication and digital download. The student will be responsible for providing artwork and

liner notes for the EP CD. Each student can receive assistance with these tasks, but they must insert their ideas into the layout. Also, they will need to take care of the legal filings for copyright, publishing and performance rights. The instructor will oversee all aspects of the production and decision-making. The mix and mastering sessions will consist of private lessons.

Composition

Duration: **4 Years** Total Credits: **120** Award: **BM**

Overview

Composing is the act of creating original music. It draws upon both intuitive and intellectual talents, challenging the student to write music of value to composers, performers and audiences.

The purpose of the undergraduate degree program in composition is to provide a structured course of study that will lay a foundation for possible graduate work in this field. Career opportunities as a professional composer often require studies beyond the bachelor's degree. The Bachelor of Music in composition takes four years to complete and courses include instruction in the following areas, among other electives and university requirements:

- Private instruction in Composition
- Theory and Musicianship
- Music History
- Ethnomusicology
- Orchestration
- Counterpoint
- Composition Labs and Symposia
- Electronic Music
- Music Business

From the outset, students at CCM study with major teachers of their choice and are encouraged to study with multiple teachers during the course of their degree. Extensive work is done in CCM's computer music studios. Interaction with student performers under professors' guidance is offered in workshop courses. Multidisciplinary courses are occasionally team-taught by composition faculty and faculty in other disciplines (dance, visual art, etc.).

Composers of national and international renown visit CCM to teach, lecture and meet informally with students to discuss their own work and that of other composers. These visits sometimes coincide with performances of the composer's work by CCM ensembles or other ensembles in the greater Cincinnati area such as the Cincinnati Symphony Orchestra. Visits by guest composers add a valuable element to CCM's commitment to the creation, performance and recognition of new music. Guests have included such distinguished composers as **John Adams, Timo Andres, Christopher Cerrone, Gabriela Lena Frank, Jennifer Higdon, Nathalie Joachim, Missy Mazzoli, Andrew Norman, Iris ter Schiphorst, Carl Vine, Ricardo Zohn-Muldoon**, and many others.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 50,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Success

The successful composer brings talent, creative imagination, competency, theoretical and historical knowledge, desire and determination to achieve goals. Ability to work both alone and collaboratively is important. The university setting offers a myriad of educational opportunities in acoustic and electronic realms, as well as opportunities to interact with similarly talented students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Harpsichord

Duration: **4 Years** Total Credits: **120** Award: **BM**

Overview

CCM's Bachelor of Music in Harpsichord offers students the opportunity to hone technical expertise, musicianship and knowledge in the center of Cincinnati, a next-generation city revered for the arts. Prestigious faculty, performance opportunities and location in one of the country's premier cities for the arts make this program the perfect choice for harpsichordists looking to maximize their talents and gain an incomparable musical and academic education.

The performance-based curriculum includes weekly private lessons with faculty mentors, chamber music coaching and many opportunities to gain hands-on experience. Students become familiar with a range of repertoire by rehearsing and performing with multiple ensembles and presenting at least one solo recital. Students applying to the program should have a basic familiarity with figured bass continuo.

In addition to unparalleled performance opportunities, BM Harpsichord students complete an intensive study of classical music literature and music theory and work closely with their faculty mentors, gaining the aptitude and experience to perform professionally. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and around the world.

Students graduating from our program will be prepared for careers in chamber music, private teaching and solo performance by learning both the traditional repertoire and modern music composed for the harpsichord. Graduates of the program often continue on to advanced study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Jazz Studies

Duration: **4 Years** Total Credits: **121 - 123** Award: **BM**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Education

Duration: **4 Years** Total Credits: **135** Award: **BM**

Overview

CCM's Bachelor of Music degree in Music Education prepares future music teachers to serve as leaders in elementary and secondary schools. Prestigious faculty, performance opportunities and location in one of the country's premier cities for the arts make this program the perfect choice for music education students looking to maximize their talents and gain an incomparable musical and academic education as they prepare to become pre-K–12 school music teachers.

Through an initial core program and three available specialty tracks (jazz, instrumental and choral/general), students develop functional, realistic music teaching skills. Students gain breadth and experience by working in Cincinnati's diverse offering of music teaching settings (i.e., urban and suburban, school-based and community-based, public and private) and benefit from high quality professional-pedagogical preparation, a strong program of liberal education and experiences available in a conservatory environment. Students apply for and receive a special provisional license from the state of Ohio, permitting them to teach music pre-K–12. Through reciprocity agreements, this license is valid in many other states.

Music Education graduates and faculty have a major impact on the musical life of the city, the region and the nation as school music teachers, community arts personnel, church musicians and faculty members at colleges and universities. This profession also is fundamental to many other musical careers, whether player, singer, coach, conductor or composer. The program boasts a 100% employment rate.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Career

Graduates of CCM's Music Education programs enjoy a 100% placement rate, most often as school music teachers, community arts personnel, church musicians, faculty members at colleges and universities, and students in advanced programs of study. Music Education graduates have a major impact on the musical life of their communities and the nation at large through teaching in schools, colleges and universities, conducting and performing as principal chairs in major symphony orchestras, singing in lead roles in opera houses throughout the world, and providing leadership through membership and elected positions with professional music and education organizations.

NOTES

Jazz Specialization
This degree program is 4.5 years, with the final semester devoted to student teaching. Students in this program take 14 credit hours of Jazz study in addition to the requirements for a BM in Music Education.

General Education Breadth of Knowledge
Select 2 courses from 2 of the 3 areas; the two courses must be from 2 different areas (for a total of 6 credit hours): Natural Science (NS), Social Science (SS), Humanities (HU).

General Education Contemporary Topics
Select 2 courses from the following areas to satisfy the University General Education Requirements: Society, Culture, and Ethics (SCE); Technology and Innovation (TI) (6 credits).

Music History or Literature
At the discretion of the program advisor, an additional Music History or Music Literature elective may be strongly recommended.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

CAPSTONE

Course	Title/Desc	Credit
	CAPSTONE All Bachelor of Music performance majors are required to perform one public recital, accompanied by written program notes.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Organ

Duration: **4 Years** Total Credits: **120** Award: **BM**

Overview

CCM's Bachelor of Music in Organ offers students rigorous academic and performance challenges along with access to seven pipe organs on campus and many of the finest instruments in the tri-state region. Prestigious faculty, performance opportunities and location in one of the country's premier cities for the arts make this program the perfect choice for organists looking to maximize their talents and gain an incomparable musical and academic education.

BM Organ students will develop technical expertise and musicianship skills and become familiar with a range of repertoire and performance practices. Students complete an intensive study of classical music literature and music theory and work closely with their faculty mentors, gaining the aptitude and experience to perform professionally. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and around the world.

With our focus on both traditional repertoire and modern experimental music, organ students prepare for careers in church music, private teaching and performance. Graduates of the program often continue on to advanced study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Piano

Duration: **4 Years** Total Credits: **121** Award: **BM**

Overview

Few schools can match the quality of CCM's Piano Department. An all-Steinway institution, CCM offers piano students access to more than 170 pianos (one of the world's largest collections of new Steinways) a prestigious faculty of artist-teachers and opportunities to learn from and perform with esteemed musicians in world-class facilities.

The performance-based curriculum includes weekly private lessons with faculty mentors, chamber music study and many opportunities to gain hands-on experience. Students become familiar with a range of repertoire by rehearsing and performing with multiple ensembles and presenting at least one solo recital.

In addition to unparalleled performance opportunities, BM Piano students complete an intensive study of classical music literature and music theory and work closely with their faculty mentors, gaining the aptitude and experience to perform professionally. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and around the world.

Students graduating from our program will be prepared for careers in solo performance, chamber music, private teaching and solo performance. Graduates often continue on to advanced study. Our graduates have won awards in prestigious competitions including the Naumburg, the National Chopin and the William Kapell.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Four full-length public recitals (2 credit hours each) are required over the two-year residency. Students must complete recitals in at least two categories (solo; chamber music; excerpts), as advised by their major teacher. Each recital must consist of repertoire not previously performed on an AD recital.

Course	Title/Desc	Credit
EUPH8080	Artist Diploma Recital	2
HORN8080	Artist Diploma Recital	2
TRB8080	Artist Diploma Recital	2
TRP8080	Artist Diploma Recital	2
TUBA8080	Artist Diploma Recital	2

Ensembles
ENSMXXXX is assigned by audition and required for 4 semesters. Ensembles are offered for 0-2 credit hours. Students are advised to register for the full 2 credit hours when possible.

Course	Title/Desc	Credit
ENSM6081	CCM Wind Ensemble	0 - 1
ENSM6082	CCM Wind Symphony	0 - 2
ENSM6091	CCM Philharmonia Orchestra	0 - 2
ENSM6092	CCM Concert Orchestra	0 - 2

Secondary Ensemble
(ENSMXXXX or CHMUXXXX) is any ensemble or chamber ensemble other than the assigned audition ensemble. Students must register for 4 semesters of any secondary ensemble to fill this requirement. Ensembles are offered for 0-2 credit hours. Students are advised to register for the full available credit hour(s) whenever possible.

Course	Title/Desc	Credit
CHMU6073	Chamber Music Ensemble: Strings, Winds, Brass, Percussion, Voice	1 - 2
CHMU6074	Second Chamber Music: Strings, Winds, Brass, Percussion, Voice	1 - 2
ENSM6083	CCM Musica Nova	0 - 2
ENSM6084	CCM Chamber Winds	0 - 1
ENSM6086	CCM Brass Choir	0 - 1

Course	Title/Desc	Credit
JZST6074	Jazz Combo	0 - 2
JZST6075	Second Jazz Combo	0 - 1

Electives

Course	Title/Desc	Credit
6XXX+	Music Electives are any graduate level music course. 6 credit hours are required for degree. These courses should be selected in consultation with a faculty advisor.	6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Keyboard Performance

Duration: 2 Years Total Credits: 40 - 56 Award: AD

Overview

CCM's Artist Diploma in Keyboard Performance (Piano, Organ or Harpsichord) is designed to integrate the great traditions of the past with the development of skills necessary for the demands of the music profession in the twenty-first century. Few schools can match the quality of CCM's Keyboard Division. An all-Steinway institution, CCM offers keyboard students access to more than 170 pianos (one of the world's largest collections of new Steinways), eight harpsichords, a fortepiano, a clavichord and seven pipe organs, and the opportunity to learn from and perform with prestigious musicians in world-class facilities.

The AD Keyboard Performance program relies strongly on the mentoring process, by which the students' private teachers guide them both technically and musically, and advise them in all aspects of their overall education and development. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and globally.

Degree programs are rigorous in their challenges, emphasizing both solo and chamber music performance while retaining flexibility in order to individually address each student's relative strengths and weaknesses. Students graduating from our program will be prepared for careers in chamber music, private teaching and solo performance by learning both the traditional repertoire and modern music composed for their instrument. Graduates of the program often continue on to additional advanced study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available for qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published standards of NASM.

6XXX+	Music Electives are any graduate level (6000 and above) music courses. 6 credit hours are required. These courses should be selected in consultation with a faculty advisor.	6

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Strings

Duration: 2 Years Total Credits: 40 - 56 Award: AD

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Arts Administration

Duration: **2 Years** Total Credits: **43** Award: **MA**

Overview

CCM, in partnership with UC's nationally ranked Lindner College of Business, boasts one of the few MA and combined MA/MBA arts administration programs in the United States. The program aims to train future CEOs and senior managers of nonprofit arts institutions. Emphasis is placed on preparing students to make sound decisions within the context of rapidly changing internal and external circumstances.

Coursework in business theory and practice is applied to the specific operating conditions of orchestras, theatres, opera companies, dance companies, and other not-for-profit arts institutions. The Arts Administration program is small and selective, accepting only eight to ten students per cohort. Founded in 1976, the program has graduated over 300 students, boasting a 100 percent annual job placement rate annually, with over 80 percent of total graduates currently holding positions with professional arts organizations.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

Graduates of CCM's Arts Administration program create and lead arts organizations around the country. The program has an annual 100% job placement rate, with over 80% of total graduates currently holding positions with professional arts organizations. The expertise from both the nationally ranked UC Lindner College of Business and the experienced professors at CCM gives students a well-rounded education preparing graduates to enter the world ready to become high level administrators.

Theater Design and Production : Lighting Design Technology

MFA

Theater Design and Production: Lighting Design and Technology 2025 - 2026

Duration: 3 Years

★Minimum Credits: 72 - 96 Credits

THEATER DESIGN AND PRODUCTION CORE (6 credits)

Required Courses

Course	Title/Desc	Credit
DRPF7010	Aesthetics	3
THPR7000	Approaches to Production	3

LIGHTING DESIGN AND TECHNOLOGY CORE (48 credits)

Required Courses

* Stage Lighting V & VI (THPR8021C & 8022C) are repeatable. Additional credits in these classes can be applied to Advisor Approved Electives.

Course	Title/Desc	Credit
THPR7023C	Moving Light Programming I for Graduate Students	3
THPR7024C	Moving Light Programming II for Graduate Students	3
THPR8014C	Stage Lighting III - Design Theory for Graduate Students	3
THPR8015C	Stage Lighting IV - Advanced Design Theory for Graduate Students	3
THPR8021C	Stage Lighting V - Studio I for Graduate Students	3
THPR8022C	Stage Lighting VI - Studio II for Graduate Students	3
THPR8038	Stage Lighting VII - Professional for Graduate Students	3

Practicum

18 credit hours are required.

Course	Title/Desc	Credit
THPR6000	Advanced Graduate Production	1 - 6

Theater Design and Production Co-op

Students are required to have a minimum of 3 credit hours.

Course	Title/Desc	Credit
THPR6001	Theatre Design and Production Co-Op	1 - 12

Thesis Project

Required for 2 semesters, 3 credit hours each. (6 credit hours)

Course	Title/Desc	Credit
THPR8030C	Design Research Thesis Lighting Design	3

LIGHTING DESIGN AND TECHNOLOGY SUPPORTIVE COURSES (18-21 credits)

Digital Portfolios, Vectorworks, AutoCad

Students are required to complete 6-9 credit hours from this list as advised.

Course	Title/Desc	Credit
THPR7032	Vectorworks For The Theatre for Graduate Students	3
THPR7033	Digital Portfolios for Graduate Students	3
THPR7090	Introduction to AutoCAD for Theatre for Graduate Students	3

Stage Design or Sound Design

Choose 2 courses from this list for a total of 6 credit hours.

Course	Title/Desc	Credit
THPR6030	Special Topics	3
THPR6031	Special Topics	3
THPR7011C	Theatre Sound Technology & Design I	3
THPR7012C	Theatre Sound Technology & Design II	3
THPR7064	Sound Design: Drama	3
THPR7065	Sound Design:Musical	3
THPR8041	Stage Design I	3
THPR8042	Stage Design I	3

Advisor Approved Electives

Select a minimum of 6 credit hours from this list in consultation with advisor.

Course	Title/Desc	Credit
DRPF6020	Dramaturgy	3
DRPF7050	Script Analysis	3
DRPF7052	History of Theatre	3
DRPF7053	History of Theatre II	3
MUST6010	Musical Theatre History and Literature I	3
MUST6011	Musical Theatre History and Literature II	3
THPR6019L	Stage Lighting Lab II	1 - 4
THPR6030	Special Topics	1 - 6
THPR6031	Special Topics	1 - 6
THPR6060	Independent Study	1 - 12
THPR6082	Period Styles for Theatre Design I	3
THPR6083	Period Styles for Theatre Design II	3
THPR6099	The Business of the Business for Theater Production Personnel	3

Course	Title/Desc	Credit
THPR7010	Introduction to Makeup	3
THPR7011C	Theatre Sound Technology & Design I	3
THPR7014	Graduate Stage Design Graphics III - Rendering Fundamentals for Stage Designers	3
THPR7016	Graduate Stage Design Graphics IV - Computer Aided Rendering Technique	3
THPR7021C	Lighting Technology I for Graduate Students	3
THPR7022C	Lighting Technology II for Graduate Students	3
THPR8021C	Stage Lighting V - Studio I for Graduate Students	3
THPR7062	Graduate Stage Design Graphics II - Hand Drafting Fundamentals	3
THPR7065	Sound Design:Musical	3
THPR7091	AutoCAD 3D Drawing & Modeling	3
THPR8022C	Stage Lighting VI - Studio II for Graduate Students	3
THPR8063	Costume Design II: Graduate- Pre-History to 1800	3
THPR8064	Costume Design II: Graduate - 1800 to Present	3
THPR8073	Graduate Scenic Art 1: Beginning Painting	3
THPR8074	Graduate Scenic Art 2: Scenic Crafts	3
THPR8075	Graduate Scenic Art 3: Painting Styles	3

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Theater Design and Production

Makeup & Wig Design

Duration: 3 Years Total Credits: 72 Award: MFA

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM alumni follow careers as performers, designers, directors, producers, technicians and creative artists in every facet of the entertainment industry. Theatre arts graduates leave CCM with a diverse resume that gives them a competitive edge over others just starting out in the industry. The college's roster of award-winning alumni work in film and television, on Broadway, on touring productions and at local and regional theatres. They also work at festivals, amusement parks, and in virtually every other performing arts and entertainment field.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's theatre programs are accredited by the National Association of Schools of Theatre (NAST). CCM is a member of the University/Resident Theatre Association (U/RTA).

The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's theatre programs are accredited by the National Association of Schools of Theatre (NAST). CCM is a member of the University/Resident Theatre Association (U/RTA).

THPR8088	Costume Crafts II: Graduate - Millinery, Masks & Historical Jewelry	3
THPR8089	Advanced Costume Crafts: Graduate	1 - 4

Advisor Approved Electives

9 credit hours of any graduate level (6000 and above) University courses in a related discipline (e.g. welding, furniture making, etc.). These courses should be selected in consultation with an advisor.

Course	Title/Desc	Credit
6XXX+	Advisor Approved Elective	9

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Composition

Duration: **2 Years** Total Credits: **43 - 47** Award: **MM**

Overview

CCM's Master of Music in Composition (MM) degree program is designed to provide a comprehensive course of study in the composition of music in both acoustic and electro acoustic mediums.

From the outset, students at CCM study with major teachers of their choice and are encouraged to study with multiple teachers during the course of their degree. Extensive work is done in CCM's computer music studios. Interaction with student performers under professors' guidance is offered in workshop courses. Multidisciplinary courses are team-taught by composition faculty and faculty in other disciplines (dance, visual art, etc.).

A candidate is expected to compile a portfolio of compositions in the course of their studies in the master's program, culminating in a solo composition recital given towards the end of their degree program. To accomplish these goals, a candidate will need to develop the requisite skills associated with the technique of musical composition as well as familiarize themselves with the literature and aesthetic issues pertaining to the field. In addition, students in the master's program will undergo a course of study in graduate level theory and history needed in the formation of a well-rounded musician. The MM in composition helps students acquire competence in the broad range of endeavors characteristic of composing through the following experiences:

- Private Lessons
- Required courses in electronic music, music theory, music history, graduate research, and music electives in composition and other areas
- MM Recital
- MM Orals Examination
- MM Thesis

Composition students at CCM enjoy a wide variety of performance opportunities ranging from small ensembles to readings and performances by large ensembles (orchestral, winds, chorus). CCM's composition students are also engaged in a number of activities outside the campus, such as performance in new music ensembles, participation in festivals, and membership in professional societies. Additional funding is available to students to support these activities. The CCM Center for Computer Music provides computer music studios and opportunities for composition, performance, and research involving technology.

Composers of national and international renown visit CCM to teach, lecture, and meet informally with students to discuss their own work and that of other composers. These visits sometimes coincide with performances of the composer's work by CCM ensembles or other ensembles in the greater Cincinnati area such as the Cincinnati Symphony Orchestra. **Visits by guest composers** add a valuable element to CCM's commitment to the creation, performance and recognition of new music. Guests have included such distinguished composers as **John Adams, Timo Andres, Christopher Cerrone, Gabriela Lena Frank, Jennifer Higdon, Nathalie Joachim, Missy Mazzoli, Andrew Norman, Iris ter Schiphorst, Carl Vine, Ricardo Zohn-Muldoon**, and many others.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 50,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships are available to qualified students.

Success

The successful composer brings talent, creative imagination, competency, theoretical and historical knowledge, desire, and determination to achieve goals. The ability to work both alone and collaboratively is important. The university setting offers a myriad of educational opportunities in acoustic and electronic realms, as well as opportunities to interact with similarly talented students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars, and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers, and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

Jazz Studies

Duration: **2 Years** Total Credits: **38 - 46** Award: **MM**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Jazz Studies 2025 - 2026

Duration: 2 Years

★Minimum Credits: 38 - 46 Credits

MASTER OF MUSIC CORE (19 Credit hours)

Jazz Major Applied Lessons

(JZ**7000) required for 4 semesters, 4 credit hours each.

Course	Title/Desc	Credit
JZDB7000	Jazz Double Bass Applied	4
JZGT7000	Jazz Guitar Applied	4
JZPA7000	Jazz Piano Applied	4
JZPR7000	Jazz Percussion Applied	4
JZTB7000	Jazz Trombone Applied	4
JZTP7000	Jazz Trumpet Applied	4

Jazz Seminar

Registration is required every semester. Students are advised to register for 1 credit hour when possible.

Course	Title/Desc	Credit
JZST7070	Jazz Seminar	0 - 1

Research

Course	Title/Desc	Credit
MUHS7031	Communication and Research for Today's Musician	3

Ensembles

Ensembles are assigned by audition and required for 4 semesters. Students are advised to register for the maximum available credit hours when possible.

Course	Title/Desc	Credit
ENSM6072	CCM Jazz Lab Band	0 - 1
ENSM6073	CCM Jazz Orchestra	0 - 1
JZST6074	Jazz Combo	0 - 1
JZST6075	Second Jazz Combo	0 - 1
JZST6076	Jazz Guitar Ensemble	0 - 1

JAZZ STUDIES CORE (19 credit hours)

Course	Title/Desc	Credit
JZST6003	Advanced Jazz Improvisation I	3
JZST6004	Advanced Jazz Improvisation II	3
JZST7001	Jazz Styles and Analysis I	3
JZST7002	Jazz Styles and Analysis II	3
JZST7004	Jazz Pedagogy	2
JZST7005	Jazz Pedagogy	2
6XXX+	Music Electives Select 3 credit hours of any graduate level music discipline in consultation with faculty advisor.	3

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	POSSIBLE PREPARATORY COURSEWORK Up to 2 semesters of Jazz History, based upon placement test. Up to 1 semester of Jazz Theory and/or 1 semester of Jazz Arranging, based upon placement test. Up to 2 semesters Jazz Keyboard skills, based upon placement test. Placement tests are administered during Welcome Week.	0 - 10
	ADDITIONAL PERFORMANCE REQUIREMENTS Students are assigned by the faculty to at least two or three performing groups (big bands and/or combos) each semester in residence depending on the musical abilities of the student, the musical needs of the performing groups, and the amount of the rehearsal and performance commitment involved in each group. This ensemble requirement during residency is an additional requirement beyond the minimum of 4 credits hours required for graduation.	0

Course	Title/Desc	Credit
	BOARDS, RECITAL, ORAL EXAMINATION Each student must perform a diagnostic board upon entering the program. The student must complete two additional board appearances before members of the jazz faculty and earn a grade of "Pass" for each. Each student must perform one complete public recital program with a passing grade awarded by members of the jazz faculty. The program repertoire must be approved by the faculty prior to the recital. Each student must successfully complete a 50-minute Oral examination before three members of the jazz faculty. Primary emphasis will be given to jazz history, literature, theory, arranging, composition, pedagogy, and the history and literature of the student's instrument.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Education

Duration: **2 Years** Total Credits: **40 - 48** Award: **MM**

Overview

CCM's Master of Music in Music Education offers pre-K–12 music teachers the opportunity to advance their knowledge and practice of their discipline. Prestigious faculty, performance opportunities and location in one of the country's premier cities for the arts make this program the perfect choice for music education students looking to maximize their talents and gain an incomparable musical and academic education. Students in the Master of Music in Music Education program benefit from the high quality of music training and experience offered in CCM's conservatory environment as well as strong pedagogical preparation.

Cincinnati offers students diverse music teaching settings (i.e., urban and suburban, school-based and community-based), and specialization options including arts administration, choral, orchestral and wind conducting, dance, music theater, early childhood education, educational administration, jazz studies, Orff-Schulwerk, performance, and instrumental music education. Graduates enjoy a 100 percent placement rate, most often as school music teachers, community arts personnel, church musicians, faculty members at colleges and universities, and students in advanced programs of study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. Music Education

Duration: 3 Years Total Credits: 30 Award: MME

Overview

The three-summer Master of Music Education (MME) is a new practice-oriented degree featuring core courses in music pedagogy, music theory, musicianship, and musicology. Students can target specific areas for personal growth with specialized and electives courses offered on a rotating basis that draw upon the unique scholarship expertise of the CCM Music Education faculty. The program includes an exciting opportunity for an optional study abroad experience as well as the chance to enroll in Orff-Schulwerk training workshops as degree electives.

Geared toward regional music teachers who want to remain active in the classroom while continuing their education, the program improves music mastery through high-quality yet specialized coursework, and the efficient and effective delivery of music teaching content matter. The practical degree program can be completed in three summers.

The MME degree is designed for practicing teachers who already have a Bachelor of Music or Bachelor of Music Education degree and a minimum of two years of teaching experience. More experienced teachers will also benefit from the program. Graduates can advance their careers and potentially find new teaching opportunities.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

	Diagnostic Examination Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements.	0 - 3
	Additional Requirements (no registration or credit earned) • A diagnostic board upon entering the program, a second board in the first year, and one recital • Successful completion of an oral examination in the major area of study before a departmental faculty committee.	0

★ This is the typical minimum number of credit hours students must complete.

The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Classical Guitar

Duration: 2 Years Total Credits: 50 Award: MM

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Performance

Collaborative Piano

Duration: 2 Years Total Credits: 50 Award: MM

Overview

Few schools can match the quality of CCM's Collaborative Piano program. An all-Steinway institution, CCM offers advanced piano students access to more than 170 pianos (one of the world's largest collections of new Steinways), a prestigious faculty of artist-teachers and the opportunity to learn from and perform with esteemed musicians in world-class facilities.

MM Collaborative Piano students extend their performance abilities through weekly private lessons with faculty mentors, chamber ensemble participation and recitals. Students have frequent opportunities for public performances as they present their own recitals and partner with singers and instrumentalists. Academics are emphasized through music theory and musicology coursework and multiple electives.

Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and around the world. Master classes attract visiting artists including Emanuel Ax, Barry Douglas, Gary Graffman and Claude Frank.

Graduates of the program can be found as leading pedagogues at major conservatories around the world, and as performers, composers, orchestrators and directors of competitions.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Music Performance

French Horn

Duration: 2 Years Total Credits: 50 Award: MM

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Performance

Harpsichord

Duration: 2 Years Total Credits: 50 Award: MM

Overview

CCM's Master of Music in Harpsichord offers advanced harpsichord students the opportunity to hone technical expertise, musicianship and knowledge in the center of Cincinnati, a next-generation city revered for the arts. In addition to unparalleled performance opportunities, CCM offers master's students in harpsichord opportunities to learn from and perform with esteemed musicians in world-class facilities.

MM Harpsichord students extend their performance abilities through weekly private lessons with faculty mentors, chamber ensemble participation and recitals. Academics are emphasized through music theory and musicology coursework and multiple electives. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and around the world.

Students graduating from our program will be prepared for careers in chamber music, private teaching and solo performance by learning both the traditional repertoire and modern music composed for the harpsichord. Graduates of the program often continue on to advanced study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Performance : Percussion

MM

Percussion 2025 - 2026

Duration: 2 Years

★Minimum Credits: 42 - 46 Credits

PERCUSSION CORE (22 credits)

Private Lessons

required for 4 semesters, 4 credit hours each. (16 credit hours)

Course	Title/Desc	Credit
PERC7000	Percussion Major	4

Studio Class

Students are required to have 2 credit hours in this course. Additional credits in this class can be applied to Advisor Approved Electives.

Course	Title/Desc	Credit
PERC7050	Percussion Studio Class	1

Ensemble

Assigned by audition and required for 4 semesters, minimum 4 credit hours. Ensembles are offered for 0-2 credit hours. Students are advised to register for the full 2 credit hours when possible. Credit hours earned in a second ensemble in any given semester can be applied as Advisor Approved Electives.

Course	Title/Desc	Credit
ENSM6081	CCM Wind Ensemble	0 - 1
ENSM6082	CCM Wind Symphony	0 - 2
ENSM6091	CCM Philharmonia Orchestra	0 - 2
ENSM6092	CCM Concert Orchestra	0 - 2
ENSM6070	Percussion Ensemble	0 - 1

MASTER OF MUSIC CORE (20 credits)

Research, Theory, and Electives

Course	Title/Desc	Credit
MUHS7031	Communication and Research for Today's Musician	3
THRY7011	Graduate Theory and Analysis (Tonal and Form)	3
THRY7012	Graduate Theory and Analysis: Post-Tonal Music	3
6XXX+	Advisor Approved Electives 5 credit hours graduate level (6000 and above) music courses. These courses should be selected in consultation with a faculty advisor.	5

Musicology/Ethnomusicology

Complete 6 credit hours.

Course	Title/Desc	Credit
MUHS6063	Topics in Musicology	3
MUHS6067	Topics in Ethnomusicology	3

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examination Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements.	0 - 3
	Additional Requirements (not registered or credit earning) • Percussion majors must perform an entrance board, a second board in the first year, and one recital within the 2 years of degree. • Successful completion of an oral examination in the major area of study before a departmental faculty committee.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Piano

Duration: 2 Years Total Credits: 50 Award: MM

Overview

Few schools can match the quality of CCM's piano department. An all-Steinway institution, CCM offers advanced piano students access to more than 170 pianos (one of the world's largest collections of new Steinways), a prestigious faculty of artist-teachers and opportunities to learn from and perform with esteemed musicians in world-class facilities.

MM Piano students hone their performance abilities through weekly private lessons with faculty mentors, chamber ensemble participation and recitals. Academics are emphasized through music theory and musicology coursework and multiple electives. Our faculty of eminent artist-teachers offer students one-on-one attention and performance opportunities abound with local organizations including the Cincinnati Symphony Orchestra, Cincinnati Opera and the Cincinnati Ballet.

Graduates of the program can become performers, teachers, composers, orchestrators and directors of competitions. Our graduates have won awards in prestigious competitions including the Naumburg, the National Chopin and the William Kapell. Some students elect to continue on to additional advanced study.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and graduate teaching assistantships available to qualified students.

Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

	Additional Requirements (not registered or credit earning) • A diagnostic Board before the voice faculty upon entering the program. • One additional Board, typically at the end of the first year of study. • Performance of one complete public recital, to be approved and graded by the faculty. • Successful completion of an oral examination before a committee of voice faculty members.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Musicology

Duration: **2 Years** Total Credits: **31** Award: **MM**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

Musicology 2025 - 2026

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Musicology

MM

Musicology 2025 - 2026

Duration: 2 Years
Minimum Credits: 31 Credits

MUSICOLOGY CORE (16 credits)

Seminar

Select one course from this list for 3 credits. Topics vary by semester.

Course	Title/Desc	Credit
MUHS9082	Seminar in Musicology	3
MUHS9083	Seminar in Musicology	3

Musicology Colloquium

required for 4 semesters, or as advised by the faculty advisor for the musicology Master's program, for 1 credit hour per semester. (4 credit hours)

Course	Title/Desc	Credit
MUHS8060	Musicology Colloquium	1

Ethnomusicology

Select one course from this list for 3 credits.

Course	Title/Desc	Credit
MUHS6067	Topics in Ethnomusicology	3
MUHS8049	Advanced Topics in Ethnomusicology	3

Capstone / Thesis

In the first semester of their second year, students will register for Directed Readings (MUHS8070) while working with a faculty advisor on the preparatory stages of their culminating project. In the second semester students will complete a Capstone Project (MUHS7095) or Master's Thesis (MUHS8090). (6 credit hours total)

Course	Title/Desc	Credit
MUHS7095	Master's Capstone	3
MUHS8070	Directed Readings	3
MUHS8090	Master's Thesis	3 - 11

MASTER OF MUSIC CORE (15 credits)

Research and Theory

Course	Title/Desc	Credit
MUHS7090	Graduate Research and Writing	3
THRY7011	Graduate Theory and Analysis (Tonal and Form)	3
THRY7012	Graduate Theory and Analysis: Post-Tonal Music	3

Musicology/Ethnomusicology Electives

6 credit hours of Musicology/Ethnomusicology elective coursework are required. Students may combine 1-2 credit hours of Early Music Lab or World Music Lab with 1-2 credit hours of Directed Readings or Independent study for a total of 3 credit hours toward fulfillment of this requirement.

Course	Title/Desc	Credit
MUHS6060	Independent Study	1 - 3
MUHS6063	Topics in Musicology	3
MUHS6066	Topics in Musicology - CMT Only	3
MUHS6067	Topics in Ethnomusicology	3
MUHS6071	Early Music Lab	0 - 1
MUHS6085	World Music Lab	0 - 1
MUHS8041	Medieval Advanced Topics	3
MUHS8042	Renaissance Advanced Topics	3
MUHS8043	Seventeenth-Century Advanced Topics	3
MUHS8044	Eighteenth-Century Advanced Topics	3
MUHS8045	Nineteenth-Century Advanced Topics	3
MUHS8046	Twentieth- and Twenty-First-Century Advanced Topics	3
MUHS8047	American Music Advanced Topics	3

MUHS8070	Directed Readings	1 - 2
MUHS9082	Seminar in Musicology	3
MUHS9083	Seminar in Musicology	3

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examinations • Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program.	0 - 3
	Language Proficiency Students must demonstrate reading proficiency in a language in addition to English. The choice of language will be based on a student's research interests in consultation with the musicology faculty. Proficiency is typically established in one of two ways: (1) two semesters of coursework with a grade of B or better; or (2) a written examination administered by the musicology faculty, generally consisting of passages totaling at least 300 words, taken from the literature on music. The requirement may be fulfilled by other means with the consultation of the musicology faculty.	0 - 6
	Additional Requirements (no registration or credit earned) Successful completion of an oral examination in the major area of study before a departmental faculty committee.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Theory

Duration: **2 Years** Total Credits: **40** Award: **MM**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examination • Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of preparatory work may be required in addition to degree program requirements. • All entering Theory Master's students are required to take a departmental Piano diagnostic exam during CCM Welcome Week. Based on skill level, students may be required to take up to two semesters (2 credit hours) of Secondary Piano.	0 - 5
	Language Proficiency Students must demonstrate reading proficiency in a language in addition to English, as required for the study of primary sources and/or scholarship in an area of research or in the discipline. The choice of language will be based on a student's research interests in consultation with the theory faculty. Proficiency is typically established in one of two ways: (1) two semesters of coursework with a grade of B or better; or (2) a written examination administered by the theory faculty, generally consisting of passages totaling at least 300 words, taken from the literature on music.	0 - 6

Course	Title/Desc	Credit
	Additional Requirements (no registration or credit earned) • Submission of an acceptable portfolio of at least three professional-level research papers written during MM residence. • Successful completion of an oral examination in the major area of study before a departmental faculty committee.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Education

Duration: 3 Years Total Credits: 30 Award: MME

Overview

The three-summer Master of Music Education (MME) is a new practice-oriented degree featuring core courses in music pedagogy, music theory, musicianship, and musicology. Students can target specific areas for personal growth with specialized and electives courses offered on a rotating basis that draw upon the unique scholarship expertise of the CCM Music Education faculty. The program includes an exciting opportunity for an optional study abroad experience as well as the chance to enroll in Orff-Schulwerk training workshops as degree electives.

Geared toward regional music teachers who want to remain active in the classroom while continuing their education, the program improves music mastery through high-quality yet specialized coursework, and the efficient and effective delivery of music teaching content matter. The practical degree program can be completed in three summers.

The MME degree is designed for practicing teachers who already have a Bachelor of Music or Bachelor of Music Education degree and a minimum of two years of teaching experience. More experienced teachers will also benefit from the program. Graduates can advance their careers and potentially find new teaching opportunities.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Career

Graduates of CCM's Music Education programs enjoy a 100% placement rate, most often as school music teachers, community arts personnel, church musicians, faculty members at colleges and universities, and students in advanced programs of study. Music Education graduates have a major impact on the musical life of their communities and the nation at large through teaching in schools, colleges and universities, conducting and performing as principal chairs in major symphony orchestras, singing in lead roles in opera houses throughout the world, and providing leadership through membership and elected positions with professional music and education organizations.

Minimum of 2 years full-time teaching experience; completion of a music education undergraduate degree (or professional equivalent); statement of philosophy of teaching; submission of “best piece” writing sample; summer MME-specific music content entrance exams; evidence of musicianship through live or recorded audition and/or video of teaching.

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Composition

Duration: 5 Years Award: DMA

Overview

CCM's Doctoral of Musical Arts in Composition (DMA) degree program is designed to provide a comprehensive course of study in the composition of music at the advanced level in both acoustic and electro acoustic mediums.

From the outset, students at CCM study with major teachers of their choice and are encouraged to study with multiple teachers during the course of their degree. Extensive work is done in CCM's computer music studios. Interaction with student performers under professors' guidance is offered in workshop courses. Multidisciplinary courses are team-taught by composition faculty and faculty in other disciplines (dance, visual art, etc.).

A candidate is expected to compile a portfolio of compositions in the course of their studies in the DMA program, culminating in a solo composition recital given towards the end of their degree program. To accomplish these goals, a candidate will need to develop the requisite skills associated with the technique of musical composition, as well as familiarize themselves with the literature and aesthetic issues pertaining to the field. The DMA in composition helps students acquire competence in the broad range of endeavors characteristic of composing through the following requirements:

- Private lessons
- Required courses in electronic music, music history, graduate research, and music electives in composition and other areas
- DMA Recital
- DMA Orals Presentation
- DMA Analytical Presentation
- DMA Dissertation

In addition, students in the DMA program will undergo a course of studies in a cognate area to be determined in consultation with faculty in both composition and the area of their chosen cognate.

Composition students at CCM enjoy a wide variety of performance opportunities ranging from small ensembles to readings and performances by large ensembles (orchestral, winds, chorus). CCM's composition students are also engaged in a number of activities outside the campus, such as performance in new music ensembles, participation in festivals and membership in professional societies. Support for these activities can be provided by the CCMpower fund. The CCM Center for Computer Music provides computer music studios and opportunities for composition, performance and research involving technology.

Composers of national and international renown visit CCM to teach, lecture and meet informally with students to discuss their own work and that of other composers. These visits sometimes coincide with performances of the composer's work by CCM ensembles or other ensembles in the greater Cincinnati area such as the Cincinnati Symphony Orchestra. Visits by guest composers add a valuable element to CCM's commitment to the creation, performance and recognition of new music. Guests have included such distinguished composers as John Adams, Timo Andres, Christopher Cerrone, Gabriela Lena Frank, Jennifer Higdon, Nathalie Joachim, Missy Mazzoli, Andrew Norman, Iris ter Schiphorst, Carl Vine, Ricardo Zohn-Muldoon, and many others.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 50,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: to educate and inspire the whole artist and scholar for positions on the world's stage.

Scholarships are available to qualified students.

Success

The successful composer brings talent, creative imagination, competency, theoretical and historical knowledge, desire and determination to achieve goals. The ability to work both alone and collaboratively is important. The university setting offers a myriad of educational opportunities in acoustic and electronic realms, as well as opportunities to interact with similarly talented students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

THRY6080	Introduction to the Neuroscience of Music	3
THRY7015	Music Theory Pedagogy	3
THRY7050	Readings in Music Theory	3
THRY8001	Advanced Topics in Analysis	3
THRY8041	Studies in Tonal Analysis	3
THRY8042	Studies in Post-Tonal Analysis	3

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examinations • Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements. • Piano proficiency is determined by diagnostic examination during orientation week up to 2 credits of Piano may be required. • Vocal pedagogy proficiency is determined during Orientation week. Students who have not taken VOIC6051 Graduate Vocal Pedagogy or an equivalent course at another university may be required to take VOIC6051 (2 credits). • Diction proficiency is determined during Orientation week. Students who have not taken VOIC6031 Graduate Diction 1 or an equivalent course at another university may be required to take VOIC6031 (2 credits). • Up to 9 credit hours of preparatory work may be required in addition to degree program requirements.	0 - 9

Course	Title/Desc	Credit
COND7031	Survey of Choral Literature I - Renaissance through Middle Baroque Periods	2
COND7032	Survey of Choral Literature II - Late Baroque through Classical Periods	2
COND7033	Survey of Choral Literature III - Romantic Period	2
COND7034	Survey of Choral Literature IV - Twentieth and Twenty-First Centuries	2

Ensembles

Choral Ensembles are required as assigned for 4 semesters. Ensembles are offered for 0-1 credit hour. It is recommended that students register for the maximum credits unless advised not to.

Course	Title/Desc	Credit
ENSM6061	CCM Chamber Choir	0 - 1
ENSM6062	CCM Chorale	0 - 1
ENSM6063	CCM Chamber Singers	0 - 1

COGNATE

Course	Title/Desc	Credit
	Cognate Minimum 9 credit hours of specified course requirements determined in consultation with cognate committee chair and approved by student's faculty advisor, Division Head and Director of Graduate Studies. Courses may be selected from any UC college.	9 - 18

Lecture Recital

Lecture Recital Proposal must be approved by the CCM Thesis and Research Committee prior to registration for the course.

Course	Title/Desc	Credit
COND9087	Doctoral Lecture-Recital	2

Course	Title/Desc	Credit
THRY9001	Introduction to Aesthetics	3
THRY9050	Rhythm and Meter	3
THRY9060	Studies in the History of Music Theory	3

Course	Title/Desc	Credit
	Additional Requirements (no registration or credit earned) • A written examination in the major area. • An oral examination in major and cognate areas, following successful completion of the written exam.	0

Capstone

May be filled by one of the following: 1) A scholarly document, supervised by the faculty. The topic requires approval of the CCM Thesis and Research Committee. 2) A specialized project relevant to the major or cognate area. The project requires approval by area faculty, the Division Head, and the CCM Director of Graduate Studies. A minimum of 2 credit hours is required.

Course	Title/Desc	Credit
COND9099	Doctoral Candidacy	1 - 12

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Conducting

Orchestral

Duration: **5 Years** Award: **DMA**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

Graduates of CCM's Conducting programs go on to conduct and administrate highly successful professional, collegiate, community and children's ensembles throughout the world. Conducting majors are led by some of academia's greatest conductors in their respective fields of choral, orchestral and wind conducting. Conducting students receive extensive hands-on experience with a wide variety of CCM's world-class student ensembles, as well as opportunities to lead other student musicians in staged productions and special musical events.

Orchestral Conducting 2025 - 2026

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Performance : Clarinet

DMA

Clarinet 2025 - 2026

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 - 99 Credits
Post Master's Minimum Credits: 60 - 69 Credits

CLARINET CORE (24 credits)

Private Lessons
required for 4 semesters, 4 credit hours each. (16 credit hours)

Course	Title/Desc	Credit
CLAR9000	Clarinet Major	4

Studio Class
Students are required to have 2 credit hours in this course. Additional credits in this class can be applied to Advisor Approved Electives.

Course	Title/Desc	Credit
CLAR9050	Clarinet Studio Class DMA	1

Doctoral Recitals
2 required for 2 credit hours each. (4 credit hours)

Course	Title/Desc	Credit
CLAR9080	Doctoral Recital	2

Lecture Recital
Lecture Recital Proposal must be approved by the CCM Thesis and Research Committee prior to registering for this course.

Course	Title/Desc	Credit
CLAR9085	Doctoral Lecture-Recital	2

DOCTOR OF MUSICAL ARTS CORE (36 credits)

Research
This course is required for all DMA students.

Course	Title/Desc	Credit
MUHS7090	Graduate Research and Writing	3

Musicology/Ethnomusicology & Music Theory
From this list select one 8000-level or 9000-level MUHS course and 2 additional courses for a total of 3 courses, 3 credit hours each.

Course	Title/Desc	Credit
MUHS6063	Topics in Musicology	3
MUHS6067	Topics in Ethnomusicology	3
MUHS8041	Medieval Advanced Topics	3
MUHS8042	Renaissance Advanced Topics	3
MUHS8043	Seventeenth-Century Advanced Topics	3
MUHS8044	Eighteenth-Century Advanced Topics	3
MUHS8045	Nineteenth-Century Advanced Topics	3
MUHS8046	Twentieth- and Twenty-First-Century Advanced Topics	3
MUHS8047	American Music Advanced Topics	3
MUHS8048	Music in Culture Advanced Topics	3
MUHS8049	Advanced Topics in Ethnomusicology	3
MUHS9082	Seminar in Musicology	3
MUHS9083	Seminar in Musicology	3
THRY6001	Sixteenth-Century Counterpoint	3
THRY6005	Eighteenth-Century Counterpoint	3
THRY6015	Advanced Musicianship	3
THRY6080	Introduction to the Neuroscience of Music	3
THRY7015	Music Theory Pedagogy	3
THRY7050	Readings in Music Theory	3
THRY8001	Advanced Topics in Analysis	3
THRY8041	Studies in Tonal Analysis	3
THRY8042	Studies in Post-Tonal Analysis	3

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examination Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements.	0 - 3
	Additional Requirements (no registration or credit earned) A written examination in the major area. An oral examination in major and cognate areas, following successful completion of the written exam.	0

Course	Title/Desc	Credit
THRY9001	Introduction to Aesthetics	3
THRY9050	Rhythm and Meter	3
THRY9060	Studies in the History of Music Theory	3

Cognate and Electives

The Combined total credit hours for cognate and advisor approved electives must be 22. A minimum of 9 credits must be in the cognate and a minimum of 4 must be advisor approved electives.

Course	Title/Desc	Credit
6XXX+	Advisor Approved Elective 4 - 13 credit hours graduate level (6000 and above) music courses. These courses should be selected in consultation with a faculty advisor.	4 - 13
6XXX+	Cognate Minimum 9 credit hours of specified course requirements determined in consultation with cognate committee chair and approved by student's faculty advisor, Division Head and Director of Graduate Studies. Courses may be selected from any UC college.	9 - 18

Capstone

May be filled by one of the following : 1) A scholarly document, supervised by the faculty. The topic requires approval of the CCM Thesis and Research Committee. 2) A specialized project relevant to the major or cognate area. The project requires approval by area faculty, the Division Head, and the CCM Director of Graduate Studies.

Course	Title/Desc	Credit
PERF9099	Doctoral Candidacy	2

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Horn 2025 - 2026

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

Music Performance

Harpsichord

Duration: **5 Years** Award: **DMA**

Overview

CCM's Doctor of Musical Arts in Harpsichord offers advanced harpsichord students the opportunity to hone technical expertise, musicianship and knowledge in the center of Cincinnati, a next-generation city revered for the arts. In addition to unparalleled performance opportunities, CCM's doctoral students learn from and perform with esteemed musicians in world-class facilities.

The performance-based curriculum includes weekly private lessons with faculty mentors, chamber music coaching and many opportunities to gain hands-on experience. DMA Harpsichord students perform solo and chamber music degree recitals, complete coursework in repertory, pedagogy, performance preparation, musicology, research and writing techniques and produce a final scholarly document or project. CCM's unique cognate program enables students to develop a secondary field of expertise. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and globally.

Graduates of CCM can be found as leading pedagogues at major conservatories around the world, and as performers, composers, orchestrators and directors of competitions.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Overview

CCM's Doctor of Musical Arts in Organ offers advanced organ students the opportunity to hone technical expertise, musicianship and knowledge in the center of Cincinnati, a next-generation city revered for the arts. With access to seven pipe organs on campus and many of the finest instruments in the region, CCM offers doctoral students opportunities to learn from and perform with esteemed musicians in world-class facilities.

The performance-based curriculum includes weekly private lessons with faculty mentors, chamber music coaching and many opportunities to gain hands-on experience. DMA Organ students perform solo and chamber music degree recitals, complete coursework in repertory, pedagogy, performance preparation, musicology, research and writing techniques and produce a final scholarly document or project. CCM's unique cognate program enables students to develop a secondary field of expertise. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and globally. Students are encouraged to pursue additional practical training through internship programs with local churches.

CCM's world-renowned faculty focus on both traditional repertoire and modern experimental music composed for the organ. Students can expect many performance opportunities with arts organizations tri-state area churches, and the Cincinnati Chapter of the American Guild of Organists. Graduates of CCM can be found as leading pedagogues at major conservatories around the world, and as performers, composers, orchestrators and directors of competitions.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships, including teaching assistantships, are available for qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by the *New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Performance

Piano

Duration: **5 Years** Award: **DMA**

Overview

Few schools can match the quality of CCM's Piano Department. An all-Steinway institution, CCM offers advanced piano students access to more than 170 pianos (one of the world's largest collections of new Steinways), a prestigious faculty of artist-teachers and the opportunity to learn from and perform with esteemed musicians in world-class facilities.

The performance-based curriculum includes weekly private lessons with faculty mentors, chamber music coaching and many opportunities to gain hands-on experience. DMA Piano students perform solo and chamber music degree recitals, complete coursework in repertory, pedagogy, performance preparation, musicology, research and writing techniques and produce a final scholarly document or project. CCM's unique cognate program enables students to develop a secondary field of expertise. Our faculty of eminent artist-teachers offer students one-on-one attention and opportunities to perform in the tri-state region and globally.

Graduates of the program can be found as leading pedagogues at major conservatories around the world, and as performers, composers, orchestrators and directors of competitions. Our Piano graduates have won awards in prestigious competitions including the Naumburg, the National Chopin and the William Kapell.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examination Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements.	0 - 3
	Additional Requirements (no registration or credit earned) A written examination in the major area. An oral examination in major and cognate areas, following successful completion of the written exam.	0

Course	Title/Desc	Credit
THRY9001	Introduction to Aesthetics	3
THRY9050	Rhythm and Meter	3
THRY9060	Studies in the History of Music Theory	3

Cognate and Electives

The Combined total credit hours for cognate and advisor approved electives must be 22. A minimum of 9 credits must be in the cognate and a minimum of 4 must be advisor approved electives.

Course	Title/Desc	Credit
6XXX+	Advisor Approved Elective 4 - 13 credit hours graduate level (6000 and above) music courses. These courses should be selected in consultation with a faculty advisor.	4 - 13
6XXX+	Cognate Minimum 9 credit hours of specified course requirements determined in consultation with cognate committee chair and approved by student's faculty advisor, Division Head and Director of Graduate Studies. Courses may be selected from any UC college.	9 - 18

Capstone

May be filled by one of the following : 1) A scholarly document, supervised by the faculty. The topic requires approval of the CCM Thesis and Research Committee. 2) A specialized project relevant to the major or cognate area. The project requires approval by area faculty, the Division Head, and the CCM Director of Graduate Studies.

Course	Title/Desc	Credit
PERF9099	Doctoral Candidacy	2

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Trombone

Duration: **5 Years** Award: **DMA**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

Majoring

All DMA programs consist of performance requirements (lessons, two recitals, one lecture recital), and coursework in the following areas: performance preparation, historical perspective, and a cognate field. Further requirements: comprehensive examinations in the major and cognate areas, and a final scholarly document or project

UC Advantages And Special Opportunities

In addition to outstanding artist-faculty and degree programs, CCM offers the greatest number of performances annually in the state of Ohio and the advantage of being located in a city known for its intense interest in the performing arts. Major musical events are held frequently. The Cincinnati Symphony Orchestra performs in beautiful and historic Music Hall as well as in its summer home, Riverbend Music Center. The Cincinnati May Festival is the oldest continuous choral festival of its kind in the nation, and the Cincinnati Opera brings major artists to the city. The Cincinnati Art Museum, Taft Museum, Museum of Natural History, Contemporary Arts Center, Playhouse in the Park and Cincinnati/New Orleans Ballet Company offer outstanding cultural opportunities.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

PREPARATORY WORK AND ADDITIONAL REQUIREMENTS

Course	Title/Desc	Credit
	Diagnostic Examination Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of Music Theory preparatory work may be required in addition to degree program requirements.	0 - 3
	Additional Requirements (no registration or credit earned) A written examination in the major area. An oral examination in major and cognate areas, following successful completion of the written exam.	0

Course	Title/Desc	Credit
THRY9001	Introduction to Aesthetics	3
THRY9050	Rhythm and Meter	3
THRY9060	Studies in the History of Music Theory	3

Cognate and Electives

The Combined total credit hours for cognate and advisor approved electives must be 22. A minimum of 9 credits must be in the cognate and a minimum of 4 must be advisor approved electives.

Course	Title/Desc	Credit
6XXX+	Advisor Approved Elective 4 - 13 credit hours graduate level (6000 and above) music courses. These courses should be selected in consultation with a faculty advisor.	4 - 13
6XXX+	Cognate Minimum 9 credit hours of specified course requirements determined in consultation with cognate committee chair and approved by student's faculty advisor, Division Head and Director of Graduate Studies. Courses may be selected from any UC college.	9 - 18

Capstone

May be filled by one of the following : 1) A scholarly document, supervised by the faculty. The topic requires approval of the CCM Thesis and Research Committee. 2) A specialized project relevant to the major or cognate area. The project requires approval by area faculty, the Division Head, and the CCM Director of Graduate Studies.

Course	Title/Desc	Credit
PERF9099	Doctoral Candidacy	2

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music Performance

Violin

Duration: **5 Years** Award: **DMA**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

CCM graduates follow careers in every facet of the performing arts and entertainment industries. CCM alumni perform as soloists, pursue careers in chamber music and hold positions in ensembles around the globe, including those in major symphony orchestras, opera companies, military bands, jazz combos and much more. Graduates are also equipped to pursue careers as private teachers or continue on to advanced study.

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

THRY9081	Seminar in Music Theory	3
THRY9082	Seminar in Analysis	3

Course	Title/Desc	Credit
	Additional Requirements (no registration or credit earned) A written examination in the major area. An oral examination in major and cognate areas, following successful completion of the written exam.	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music (Musicology)

PHD

Musicology 2025 - 2026

Duration: 5 Years
Post Baccalaureate Minimum Credits: 90 - 99 Credits
Post Master's Minimum Credits: 60 - 69 Credits

MUSICOLOGY CORE AND COGNATE (36 credits)

Graduate Research and Writing

Course	Title/Desc	Credit
MUHS7090	Graduate Research and Writing	3

Seminars

Students should take 4 seminars in differing areas of specialization, for 3 credit hours each. (12 credit hours) Seminars fall under the two course numbers below, with topics varying by semester.

Course	Title/Desc	Credit
MUHS9082	Seminar in Musicology	3
MUHS9083	Seminar in Musicology	3

Musicology Colloquium

Required for 4 semesters, or as advised by the faculty advisor for the musicology PhD program, for 1 credit hour per semester. (4 credit hours)

Course	Title/Desc	Credit
MUHS8060	Musicology Colloquium	1

Musicology Dissertation

Required for a minimum of 8 credit hours. The dissertation proposal must be approved by the CCM Research and Thesis Committee. The completed dissertation is presented in an open defense.

Course	Title/Desc	Credit
CMT9099	Doctoral Candidacy	1 - 12

Cognate

Minimum 9 credit hours. Specified course requirements are determined in consultation with the cognate advisor and approved by the student's faculty advisor, Division Head, and the CCM Director of Graduate Studies. Courses may be selected from any UC college.

Course	Title/Desc	Credit
6XXX+	Cognate	9 - 18

MUSICOLOGY/ETHNOMUSICOLOGY AND MUSIC THEORY ELECTIVES (24 credits)

Musicology/Ethnomusicology

Select 21 credit hours of MUHS electives. At least 6 credit hours (2 courses) must be at the 8000 level or above. Students may combine 1-2 credit hours of Early Music Lab or World Music Lab with 1-2 credit hours of Directed Readings or Independent study for a total of 3 credit hours toward fulfillment of this requirement.

Course	Title/Desc	Credit
MUHS6060	Independent Study	1 - 3

Theory

Duration: **5 Years** Award: **PHD**

Overview

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Scholarships and assistantships (including teaching assistantships) are available to qualified students.

Career

Graduates of CCM's Composition, Musicology and Music Theory programs pursue careers as writers, researchers, analysts, scholars and creative professionals. CCM places great emphasis on merging the theoretical with the practical via biennial graduate student conferences, an in-house and student-run journal, residencies by leading composers and a robust lecture series featuring distinguished speakers, all of which give CCM graduates a competitive edge.

Curriculum Guide Versions:
Music Theory 2025 - 2026

UC Advantages And Special Opportunities

Described by *The New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to the newly renovated Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the appropriate University application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Course	Title/Desc	Credit
MUHS7090	Graduate Research and Writing	3
	Diagnostic Examinations • Placement into graduate Music Theory courses is determined by diagnostic examination taken upon entry into degree program. Up to 3 credit hours of preparatory work may be required in addition to degree program requirements. • All entering PhD Theory students are required to take a Piano diagnostic exam. Based on skill level, students may be required to take up to two semesters (2 credit hours) of Secondary Piano.	0 - 5
	Language Proficiency Foreign language reading proficiency in two foreign languages (one of which is German). The second language will be determined with approval from the theory faculty, based on relevance to the student's research area. Language proficiency in German is met by completing the reading sequence (GRMN6021 & GRMN6022). Language proficiency in the second language may be established by two semesters of coursework (per language) with a grade of B or better.	0 - 12

Course	Title/Desc	Credit
	Additional Requirements (no registration or credit earned) • A written examination in the major area. • An oral examination in major and cognate areas, following successful completion of the written exam. • Dissertation (public defense required).	0

★ This is the typical minimum number of credit hours students must complete.
The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Media Production

Duration: **2.5 Years** Total Credits: **18** Award: **Minor**

Overview

CCM's minor in Media Production (MPRO) prepares students in the integrated media arts of film and digital cinema, television and broadcast media news, audio production, and new media design.

The Media Production minor is student centered, professionally relevant and focused on creativity and development. Students will benefit from small class sizes, an innovative, flexible curriculum that reflects industry demands, experienced faculty who provide exposure to professional media tools and methodologies, and classes that develop creativity and storytelling skills. Students complete a core curriculum of three foundational courses and select three additional courses from a field of options.

Admission to the minor is competitive and most students apply after they have completed one year of college. Students majoring in communications, journalism and business may be especially interested in this program.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Career

CCM Media Production students gain the theoretical and technical skills necessary to tell stories and produce impactful content in today's media and entertainment industry, including filmmaking and digital cinema, television production, broadcast news, sports, audio production, website design and interactive and new media. Student work has won numerous collegiate-level and professional awards, with films broadcast on national television networks and accepted in prestigious film festivals on five continents. Graduates join a network of successful, award-winning and supportive alumni who work throughout the media industry.

Media Production Minor 2025-2026

UC Advantages And Special Opportunities

Described by the *New York Times* as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. Media Production minors are uniquely positioned within a creative culture at CCM that fosters collaborations with actors, musicians, dancers, set designers and other performing artists as they develop their digital storytelling skills for film, television, internet and mobile media distribution.

- An international summer student opportunity with the Munich Summer Curriculum in Germany to study at Ludwig Maximillian University and intern with a German media company
- Extensive production facilities that include a television studio, audio recording studio, 4K Avid Editing labs, Bearcast radio station, multiple audio/video/multimedia workstation labs and state-of-the-art digital cinema, lighting, grip and field audio production equipment
- On-camera performance training by experienced professionals
- Annual awards and scholarships
- Extracurricular, student-driven media organizations that groom leaders and allow for production experiences
- Connections to a wide an active network of award-winning alumni working in media positions locally and in cities throughout the US: Los Angeles, Chicago, Nashville, and New York

Admission Requirements

The Media Production minor at CCM prepares students in the integrated media arts of filmmaking and digital cinema, episodic and commercial television production, broadcast news media and talent development, interactive and new media, social media, audio production and sports media.

All applicants must be current UC students. Ten to 15 minor applicants are accepted each year.

In applying for the Media Production minor you are affirming your understanding that:

- you will likely have to take a required class (IMP2) during the summer;
- your admission to advanced production classes is likely to be restricted to summer sessions;
- you are required to have a laptop for the Media Production classes."

Application Process:

Applicants should submit a complete copy of their most recent Degree Audit and a 500-word essay explaining their educational and career goals and why they wish to minor in Media Production via email to Media Production Program Coordinator, Pam Latham. Questions should be directed to Pam Latham. Media Production Minors are accepted biannually with **Fall Semester applications due by Nov. 1**, and **Spring Semester applications due by March 1.**

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.
CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The minimum number of credit hours can vary based on previously earned credits, and/or the level of placement into required coursework.

Music

Duration: **2 Years** Total Credits: **14** Award: **Minor**

Overview

The Music minor at the College-Conservatory of Music prepares students in the field of music as a complement to almost any other major. Non-music majors across the university choose the Music minor to develop valuable skills for the marketplace, build cultural awareness, and participate in the artistry of music-making. Students anticipating careers in many fields find involvement in music an essential aspect of their undergraduate experience. In the Music minor, students engage with musical materials, analysis and techniques, while also studying music as a cultural and historical process.

The curriculum is adaptable so that students may design their coursework to emphasize a particular skill area, or sample more broadly from multiple areas. Courses are offered in the histories of various musical styles and cultures, ethnomusicology, music theory, music composition, music technology, jazz studies, commercial music production, and performance studies.

Students already pursuing a degree in any college at UC can add the minor to their program.

CCM is a college within the University of Cincinnati, a major undergraduate university and graduate research institution of more than 40,000 students. The synergy created by housing CCM within a comprehensive public university gives the college its unique character and defines its objective: **to educate and inspire the whole artist and scholar for positions on the world's stage.**

Career

Students who complete a minor in music graduate with a special qualification. The music minor reflects both a breadth of knowledge and a specific ability in the art form. This experience in music informs and complements careers in business, education, media, healthcare, social sciences, international relations and many other fields.

Curriculum

Current Student Degree Audit | Transfer Student Course Equivalencies | Search UC Schedule of Classes

Major Map Versions:
Music Minor 2025-2026

Advising

Students considering the Music minor should contact the program director before sending an application. Each year, the program director will ask students in the program for updates on their music-related study.

UC Advantages And Special Opportunities

Described by the New York Times as “one of this country’s leading conservatories,” CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts. Nationally ranked and internationally renowned, CCM’s state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM’s roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and media production. Members of CCM’s faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized “family” atmosphere. With its emphasis on experienced-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to Music Hall, one of the nation’s most beautiful and revered performance centers.

Admission Requirements

All applicants must be current UC students. Ten to fifteen minor applicants are accepted each year.

In applying for the minor, students affirm their understanding that:

- admission to classes intended for music majors may be restricted
- certain classes may require students to supply a laptop and software applications
- certain ensembles may require the student to audition and to provide their own instrument
- private lessons may be taken by any UC student as an elective course when studio space permits, but lessons do not count toward a Music minor
- access to practice rooms for Music minors is limited due to high enrollment at CCM

Applications are accepted year-round.

To apply to join the Music minor program, students should:

1. send an email with the subject line "Music minor application" to holly.pratt@uc.edu.
2. attach a PDF copy of their most recent degree audit
3. attach a Word document essay of approximately 400-500 words discussing their educational and career goals and why they wish to minor in music.

Questions should be directed to Professor Pratt.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Music Pedagogy

Duration: **1.5 Years** Total Credits: **13** Award: **Graduate Certificate**

Overview

The Certificate in Music Pedagogy is intended for current graduate students and practicing professionals who have earned a bachelor's degree in a relevant music discipline such as composition, conducting, instrumental performance, vocal performance, musicology, music education, music theory, or have equivalent experience. Coursework for the certificate will focus on music teaching strategies, environments, and educational trends that will enhance and broaden students' career preparedness. Students will be able to choose classes in topics such as pedagogy in the area of study or specialization; classroom or studio pedagogy; and current trends in professional practices. Experiences would include opportunities for mentored instruction, engaging with others in the field, and developing best practices in pedagogy and andragogy (adult education).

Career

CCM's Certificate in Music Pedagogy provides an immersive professional development opportunity for musicians and music educators. Graduates pursue many different careers. A few examples include school music teachers, private instructors, community arts personnel, faculty members at colleges and universities, and students in advanced programs of study.

Music Pedagogy 2025 - 2026

UC Advantages And Special Opportunities

Described by the New York Times as "one of this country's leading conservatories," CCM offers students unparalleled opportunities to perform, learn and live in a thriving next-generation city known for its intense interest in the performing and media arts.

Nationally ranked and internationally renowned, CCM's state-of-the-art facilities provide a highly creative and multidisciplinary artistic environment. The college serves as the largest single source of performing and media arts events in Ohio, and few schools can match the quality of its performing ensembles and theatrical productions.

CCM's roster of eminent faculty offers professional training in all areas of the performing and media arts, including composition, musicology, theory, conducting, music education, opera, musical theatre, acting, technical arts for the stage, dance, arts administration and electronic media. Members of CCM's faculty regularly receive distinguished honors for creative and scholarly work, and many maintain strong professional ties to the region's leading arts entities.

Students will find an immensely competitive but mutually supportive and personalized "family" atmosphere. With its emphasis on experience-based learning, CCM provides students with access to internship and performance opportunities with major organizations like the Cincinnati Symphony Orchestra, Cincinnati Opera, Cincinnati Chamber Orchestra, and Cincinnati Ballet. Students also benefit from the fact that Cincinnati frequently hosts major media and performing arts events and is home to Music Hall, one of the nation's most beautiful and revered performance centers.

Admission Requirements

CCM's admission requirements vary by program. Please visit the CCM Admissions website for additional information. All programs require both the UC Graduate Admissions Application followed by a pre-screening submission via CCM's Acceptd website, which must be completed and uploaded by Dec. 1.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.
The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.

CCM's founding schools (the Cincinnati Conservatory of Music and the College of Music of Cincinnati) were both charter members of the National Association of Schools of Music (NASM). The requirements for entrance and graduation in all music programs are in accordance with the published regulations of NASM.

Art History

Duration: **4 Years** Total Credits: **120** Award: **BAARTHIS**

Overview

Art history students in UC's College of Design, Architecture, Art, and Planning (DAAP) have the opportunity to complete internships in local museums, to study a foreign language, and to take a variety of liberal arts electives. Art history majors develop research and writing skills as tools for speaking, writing, and thinking about art and design. Courses are offered in many areas with particular strength in modern and contemporary art, art of the United States, Chinese and Japanese art, African-American art, and museum studies. Courses in ancient art and architecture are taught by members of the UC Classics Department. Additional courses in the history of design and architecture are offered in other programs of the College of DAAP.

Success

People who are successful in the art history program typically have both visual and verbal learning styles. Students entering the program should be passionate about art and believe in the value of a broad humanistic education.

Career

The skills and abilities developed through a major in Art History prepare students for careers in a variety of fields. The program prepares students for employment as teachers, museum curators, commercial art gallery proprietors or staff, art conservators, art librarians, journalists, arts administration, and many other art-related occupations. Graduate study is necessary to advance in most of these fields. Many art history students enter graduate school immediately after graduation, while others enroll after some work experience has led to specialization in a particular area.

Additional career options are listed on the Center for Exploratory Studies website.

Minoring

An 18-credit hour minor in Art History is available for students interested in learning about the history and development of painting, sculpture, and other visual arts. A minor in Art history complements many fields of study, including but not limited to archaeology, anthropology, education, business, fashion design, and others.

Advising

Prospective students are encouraged to explore the information on our website and contact DAAP Student Affairs at 513-556-1376 or daap-admissions@uc.edu with questions. The Transition Advising Center and Transfer Center are available to assist prospective transfer and transition students. Current DAAP students are assigned an academic advisor based on their major/program. For more information on DAAP advising, please visit the DAAP Undergraduate Advising webpage.

UC Advantages And Special Opportunities

- The city of Cincinnati, once called the "Queen City of the West" by Henry Wadsworth Longfellow, provides an excellent array of cultural resources for students who intend to pursue a degree in the visual arts. It offers the energy and assets of a larger city, along with quiet neighborhoods steeped in rich traditions. Cincinnati offers live music venues that range from top-notch symphony and opera companies to a growing pop and rock community. Home to the Cincinnati Art Museum, the Taft Museum and the Contemporary Arts Center, the city also enjoys the presence of numerous art galleries and a strong support system among practicing artists.
- UC's College of Design, Architecture, Art, and Planning (DAAP) is one of the most comprehensive colleges of its type in the country. A collection of nationally respected design and art programs is housed in a unique and educationally stimulating architectural setting. Students have opportunities to enroll in courses in a range of related disciplines and to participate in interdisciplinary studios or special projects.

- Students learn creative and technical skills in the studio environment, taught by a passionate faculty who interact with their students on a daily basis. The goal is to guide students as they grow both intellectually and professionally.
- Other educational opportunities include study abroad and minor and certificate programs within the college and the university. Students are encouraged to share their interests in these opportunities with their academic advisor.
- The Robert A. Deshon and Karl J. Schlachter Library for Design, Architecture, Art, and Planning has an outstanding collection of books, periodicals and visual resources supporting architecture, planning, design, art history, and related subjects. Access to library holdings is provided by an automated online catalogue, UCLID, which provides access to the University of Cincinnati Library information database, and through OhioLINK, the holdings of other academic libraries throughout Ohio.
- DAAP's multiple labs, centers, and initiatives support our programs and the creative work and research of our faculty, staff, and students.

Special Programs

Computer Requirements: All undergraduate students in this program are required to purchase a personal laptop computer. Each discipline has its own specific recommendations for hardware and software. Please note that these recommendations may be slightly altered as equipment evolves. Therefore, students new to DAAP are encouraged to delay their computer purchase until the summer prior to entering to make the most informed computer purchase. Many of our programs have additional technology requirements for students in the later years of study.

Admission Requirements

The College of Design, Architecture, Art, and Planning at the University of Cincinnati seeks to attract, enroll, and graduate academically talented students from a wide range of backgrounds. Success in our programs is largely dependent upon sound academic preparation. In multidisciplinary programs like those in DAAP, students' insight and perspective are greatly enhanced by exposure to students from different backgrounds, geographies, and co-curricular interests. DAAP has an admissions review process to support these goals. Please note that it's impossible to predict – or guarantee – what credentials a student will need to gain admission into DAAP, because the size and quality of the applicant pool varies each year.

Please visit the Admissions Office's website for more information, including application materials, requirements, deadlines, and timelines.

Transferring To UC

Students seeking to transfer from another regionally accredited university or college must be in good standing to be considered for admission. Students wishing to transfer into a DAAP program should submit a Transfer Application. Transfer students are generally admitted to the first year of our studio-based, co-op programs due to the sequence of studios and co-op. For further information such as minimum grade point average and application deadlines, please refer to the DAAP Transfer and Transition webpage.

Changing Majors Within UC

Students seeking to transfer from other colleges and programs at UC must be in good standing to be considered for admission. Students wishing to transition into a DAAP program should submit an Application for Change in College and Program. Transition students are generally admitted to the first year of our studio-based, co-op programs due to the sequence of studios and co-op. For further information such as minimum grade point average and application deadlines, please refer to the DAAP Transfer and Transition webpage.

International Student Requirements

Please visit the university's Office of Admissions website for general admissions information and application requirements for international students.

Graduation Requirements

Students must complete a total of 120 credit hours for graduation. An academic concentration must be chosen from the following areas: history, philosophy, classics, language, anthropology, English literature, fine arts, or a suitable substitute agreed to by the student and the advisor.

Students must obtain a minimum overall grade point average of 2.0 and, in addition, must have at least a 2.0 grade point average for the senior year to be eligible for graduation. In order to be eligible for graduation with honors, a student must have completed at least 60 semester hours in the college and have earned at least a 3.6 grade point average.

Application Deadlines

High school applicants who submit a complete application by the November 1 Early Action deadline will be pooled and reviewed for selection. Early Action applicants can expect to learn their admission decision on Cincinnati Decision Day. This date varies by year and is shared on the university's Office of Admissions website. Students who apply by November 1 also receive maximum scholarship

consideration. Applications received after November 1 may be considered on a space-available basis.

Students seeking to transfer from other colleges and programs at UC or another regionally accredited university or college should submit a complete application for admission by the priority deadline of March 1 for the following academic year.

Accreditation

The University of Cincinnati and all regional campuses are accredited by the Higher Learning Commission.
All programs in the School of Art are accredited by the National Association of Schools of Art and Design (NASAD).

Fine Arts - Art

Duration: **5 Years** Total Credits: **135** Award: **BFA**

Overview

The Bachelor of Fine Arts Program provides students with strong technical and critical thinking skills.

Studios are taught by artist-teachers who are active professionals in one or more visual arts disciplines. Faculty provide a dynamic mixture of media, craft, and aesthetic viewpoints that expose students to various ideas and attitudes about art. In this context, art students are encouraged to develop their own innovative philosophies and approaches to art and a unique visual language. The BFA program requires a broad exposure to many media and techniques through introductory and advanced studios. Fine Arts students will complete a three-course track in one of these 6 areas: Art & Technology, Ceramics, Drawing & Painting, Photography, Printmaking, and Sculpture. Each track consists of 3 introductory-level classes taken prior to each student's first co-op in the spring of their third year. Transfer and transition students blend in as their transfer course histories are evaluated. In addition to the track courses, students will take ten studios in various disciplines. Studio practice is complemented by art historical and visual studies courses in survey and seminar formats and a series of theory-based courses covering avant-garde forms of expression from Modernism to the present.

Success

People who are successful in the fine arts tend to have visual and kinesthetic/tactile learning styles. Fine artists are creative, imaginative and visionary, and possess good hand-motor skills. They learn by doing and relish integrating various elements into a cohesive whole. Fine artists are open-minded and interrogative — questioning everything. They have a passion for creating their art and a heightened intellectual and visual perception. Fine artists provide original views and interpretations of the world and its inhabitants, giving us a greater appreciation of the character and values of society and culture. A sense of humor often enhances their work.

Career

Fine artists express themselves visually using one or several different art forms. For example, they may find employment as photographers, ceramists, model builders, or video animators. If students complete the teaching licensure option offered within the School of Art, they can teach elementary and/or secondary school art. With advanced study, they may become college teachers, art restorers, art administrators or curators for galleries, museums or exhibition centers.

Minoring

The School of Art offers a 24-credit-hour fine art minor for students interested in studying fine arts and developing their artistic expression and abilities. The curriculum includes studio coursework in drawing, space, and time. Students must also choose introductory and advanced studio work in various fine arts disciplines including art & technology, ceramics, drawing & painting, photography, printmaking, and sculpture.

Students must have a 2.5 GPA to pursue the minor. Admission to the minor is limited. Students can apply by filling out the application form and submitting it to the DAAP Student Affairs Office, 5470 Aronoff.
