Building Emergency Plan

For

101 E. Corry
Cincinnati, OH 45221

April 2024

University of Cincinnati
Public Safety Department

Table of Contents

A. Introduction

The University of Cincinnati and Uptown Rental Properties are committed to providing a safe and environment for students and guests. One means of achieving that goal is the development of Building Emergency Plans.

It is impossible to predict campus emergencies or the magnitude of such emergencies. The development, distribution, and familiarization of Building Emergency Plans are essential for resident and visitor safety.

Guidelines in this sample plan document are reflective of policies/procedures in place at the University of Cincinnati Department of Public Safety, Cincinnati Fire Department, and Ohio Fire Marshall. All permanent and transient building occupants should become familiar with the information contained in these Building Emergency Plans.

B. Components for Building 101 E. Corry
1. Building Components

101 E. Corry has 4 floors. The entire building is equipped with pull stations, smoke detectors, fire extinguishers, and a sprinkler system. The main fire alarm panel is located in storage unit in the garage. The building has a fire department Knox box located by the main entrance which contains master key prox. card.

2. Emergency System Components

Audible fire alarms are designed to notify building occupants whenever fire alarm pull stations, smoke detectors, or fire sprinkler systems go into activation. Building occupants may receive additional verbal warning information through the fire alarm speaker system, and visual alarm notification via strobe warning lights, both co-located in most buildings. Note: smoke and heat detector installation may be limited to specific areas of some buildings. Whenever anyone of these aforementioned systems is activated, notification is automatically transmitted to the City of Cincinnati 911 Communications Center responsible to dispatch appropriate resources to the respective emergency.

Specific building hazards are the key factor used to determine the types of fire extinguishers installed. 101 E. Corry contains ABC type extinguishers used for fires fueled by paper, flammable liquids, and electrical fires. Fire extinguishers are maintained by 101 E. Corry building maintenance.

3. **Area of Rescue Assistance (ARA)**
   An ARA is an area where persons unable to use stairways can remain temporarily to await instructions or assistance during an emergency evacuation. There is no ARA located in 101 E. Corry.
4. **Automatic External Defibrillator (AED)**
   AEDs are medical devices used to shock an unconscious person during times of cardiac arrest. Instructions for use are provided by the unit when turned on. 9-1-1

must be notified immediately for medical emergencies. No AEDs are currently located in 101 W Corry.

5. **Naloxone (Narcan)**
   Opioid overdose can quickly lead to death without intervention. The purpose of the program is to treat opioid overdose like any other medical emergency and reduce the number of deaths resulting from opioid overdoses.
   University of Cincinnati is deploying a comprehensive program of opioid overdose harm reduction in January 2024. It will include NaloxBox installation for emergency intervention, as well as community-wide distribution of prevention methods and education. The NaloxBoxes are strategically installed in areas that are accessible to the campus community. They are paired with an AED for easy visibility. The NaloxBoxes will be monitored and maintained by the Student Wellness Center, in collaboration with Public Safety and Emergency Management.

NALOXBOX LOCATIONS

Langsam Library	Main Entrance
DAAP Wolfson Center	500 level at the entrance
Stratford Heights Building #16	1st Floor elevator lobby
Tangeman University Center	Dining Hall Floor
Steger Student Life Center	4th Floor near elevator
Corbett Center of Performing Arts	3rd Floor near room 3310
Kettering Laboratory Complex	G99 Hallway
60 West Charlton	1st Floor elevator lobby near room 197
UC Blue Ash – Muntz Hall	Main lobby near room 109
UC Clermont – Edith Peter Jones	Main lobby near room 20
College of Medicine	E Level elevator lobby
Lindner College of Business	Elevator lobby near room 1498

C. Building Hours and Security
101 E. Corry is secured and access is limited resident members.

D. Calling 911 off campus Communications Center
The City of Cincinnati 911 Communications Center is interconnected with other communications centers operated by the University of Cincinnati, Hamilton County, and Clermont County. All four centers operate 24/365. A 911 call from a cell phone will typically (but not always) be routed to the nearest city or county dispatch center. It is imperative that whenever placing a 911 call using a cell phone from any location that the caller provides the call-taker with the specific location where emergency assistance is needed. For example: 911 call takers are trained to ask callers, "911, <u>where</u> is your emergency"? The caller should reply, "101 E. Corry, room number 417."

E. Accounting for Occupants After Evacuations
Resident Advisors will attempt to account for all occupants after a building evacuation. Building occupants are strongly urged to check in at predetermined building evacuation collection points for accountability purposes, and so that emergency responders do not have to unnecessarily enter buildings searching for "missing" building occupants. Building Safety POC'S will report any missing occupants and their last known location to emergency responders.

F. Building Safety Points of Contact - Responsibilities and Contact Information
RAs will serve as the Building Safety POCs. These individuals (or alternates) are responsible to make all reasonable efforts to ensure that evacuation/relocation takes place when an emergency alarm system is activated or a severe weather alert necessitates relocation within a building. Building Safety POCs will not jeopardize personal safety while attempting to ensure that building occupants have taken appropriate protective actions. Building Safety POCs are also responsible to account for residents and visitors who may have assembled at the designated evacuation/relocation points post building evacuation/relocation.

Building Safety POCs are responsible to ensure that all building occupants have received a copy of the Building Emergency Plan.

Building Safety POC List

Department	Building Safety POC	Telephone	Floor

G. Persons with Disabilities – Special Circumstances
   1. **Fire Emergencies**
Disabled or non-ambulatory individuals located above or below the ground floor have the option to remain in the building during an emergency when the use of an elevator is essential for evacuation.

    a. If located on the ground floor, exit the building the same as other building occupants.
    b. If located above or below the ground floor, seek a safe place—preferably a designated Area of Refuge (none are currently located in 101 E. Corry), or a room with an exterior window, a telephone, and a solid door.
        ➤ Call Emergency Dispatch (911) and advise that you are a person or with a person who is non-ambulatory or has a physical disability. Give your exact location – Address, Room number, and the phone number from which you are calling.
        ➤ Upon arrival, the fire department will determine the best protective action for disabled or non-ambulatory building occupants.

2. Severe Weather Emergencies

Assist persons with disabilities to severe weather shelter locations. Elevators may be used by individuals who are disabled or non-ambulatory.

H. Emergency Types / Evacuation and Relocation Points

   1. Fire: the following actions should be taken whenever a person encounters smoke, fire, burning odors, or fire alarm activation:
   - Activate the nearest fire alarm pull station while exiting the building
   - If possible, close all doors and windows
   - DO NOT USE THE ELEVATORS
   - Exit the building as quickly as possible and call 911 once outside
   - The 101 E. Corry Building Assembly Location is the park near the front entrance.
   - Building Safety POCs will account for all residents and visitors and advise the fire department of relevant information. Note: advise the fire department of only the information that is known. Do not guess.
   - Building Safety POCs must report missing residents /visitors and the last known locations to emergency personnel
   - Await further instructions from emergency personnel
   - Do not reenter a building unless approved by emergency responders

   Fire Drill or Fire Alarm
   - ➢ Fire Drills are <u>planned and scheduled</u>.
   - ➢ Fire Alarms are <u>not</u> planned and building emergency plans should be followed until the cause of the alarm has been determined or the emergency resolved.

Note: *Unless otherwise stipulated, the Ohio Fire Code mandates evacuation of building occupants whenever a fire alarm is activated. All fire alarms are emergencies until resolved by Emergency Responders.*

   2. Severe Weather: County warning systems will be activated for tornado warnings (i.e. a tornado has been sighted in the alert area).
   - Take shelter inside of a building relocation area designated for tornados. Elevator use is restricted except for persons who are non-ambulatory.
   - Severe weather safety locations for 101 E. Corry are designated as the lowest levels of the garage.
   - Await further instruction from Emergency Responders before leaving the relocation area.

   3. Bomb Threats / Suspicious Activities: In the event of a bomb threat, suspicious package or suspicious item:
   - Do not use cell phones or radios to make a report (e.g. cellular phones/radios could activate a bomb or suspicious device)
   - Call 911 using a landline phone

- Do not move or open items
  - Remove all individuals from the immediate area, lock the door, secure the building, and assemble with your department on the park near the front entrance.

4. Illness or Injury

For illness or injuries requiring medical assistance, calling 911 from a cell phone will typically contact the nearest 911 Communications Center. However, when using a cell phone, make sure to inform the dispatcher of your exact location including address, building, and room number.

- After notifying 911, the dispatcher will send emergency medical assistance as needed
- Someone should meet emergency services at the building entrance to escort emergency personnel directly to the ill/injured person

5. Active Shooter

- ➢ **RUN:**
  - If you can escape safely during an active shooter event then <u>run</u>
  - Run immediately – leave everything behind
  - Encourage others to escape with you, but do not wait for them to decide
  - Once you are safely away from the shooter, then call 911 and report the incident

- ➢ **HIDE:**
  - If escape appears impossible then <u>hide</u>
  - Lock and barricade doors, turn off lights, silence cell phones completely, and remain quiet
  - Take cover behind furniture or fixtures away from doorways
  - Stay away from windows
  - Prepare yourself and others to <u>fight</u> if necessary

- ➢ **FIGHT:**
  - If running or hiding are not possible or fail, and confronted by the aggressor then <u>fight</u>
  - Use anything around you as a weapon to fight…there are no rules
  - Fight to create an opportunity to escape

I. Emergency Responders

101 E. Corry is served by City of Cincinnati Police, UC Police as back up and Cincinnati Fire.

J. Major Fire Hazards for 101 E. Corry

There are no major fire hazards in 101 E. Corry. No large chemicals quantities are stored in this building**.**
